TURF & LAWN SEED VARIETIES

Legend Seeds carries a full portfolio of named turf varieties in every category below.

A complete, current price list is available from your Legend representative.

TURF-TYPE PERENNIAL RYEGRASS

#	VARIETY	BEST USE
1	Greenway Perennial Ryegrass	Athletic fields, overseeding, golf fairways
2	Portfolio Perennial Ryegrass	All-purpose turf, excellent color & density
3	Millennial Perennial Ryegrass	Home lawns, parks, commercial properties
4	Keystone 2 Perennial Ryegrass	High-traffic turf, superior wear tolerance
5	Gator 3 Perennial Ryegrass	Athletic & sports fields, rapid establishment
6	Regal 5 Perennial Ryegrass	Golf courses, premium turf applications
7	All Star 3 Perennial Ryegrass	Multi-purpose, excellent NTEP ratings
8	Named Perennial Ryegrass	Quality blend-grade variety
9	Named Perennial Ryegrass	Quality blend-grade variety
10	Named Perennial Ryegrass	Quality blend-grade variety
11	Perennial Ryegrass	General-purpose turf applications
12	Tophat Perennial Ryegrass	Compact growth, excellent color
13	Esquire Perennial Ryegrass	Dark green, fine texture, disease resistant
14	PR8821 Perennial Ryegrass	Named variety, premium performance
15	Linn Perennial Ryegrass	Persistent stand, good shade tolerance
16	Replicator Perennial Ryegrass	Self-repairing, ideal for high-traffic areas

CREEPING RED FESCUE

#	VARIETY	BEST USE
20	Chantilly Creeping Red Fescue	Premium shade & low-maintenance lawns, slopes
21	Boreal Creeping Red Fescue	Shade tolerance, drought resistance, blending
22	Creeping Red Fescue	All-purpose blend component
23	Reverent Creeping Red Fescue	Premium variety, excellent persistence
24	Boreal Creeping Red Fescue	Reliable performer for low-fertility soils
25	Zeal Creeping Red Fescue	Fine-leaved, exceptional shade performance

CHEWINGS FESCUE

#	VARIETY	BEST USE
30	Seducer Chewings Fescue	Low-maintenance lawns, golf roughs, parks
31	Longfellow II Chewings Fescue	Fine texture, shade tolerance, slow growth
32	Chewings Fescue	Reliable blend component for fine fescue mixes
33	K-2 Chewings Fescue	Drought tolerant, naturalized & low-mow areas

HARD FESCUE & SHEEP'S FESCUE

#	VARIETY	BEST USE
40	Eureka II Hard Fescue	Low-maintenance slopes, roadsides, naturalized areas
41	Hard Fescue	Poor soils, minimal inputs, erosion control
45	Quatro Sheep's Fescue	No-mow areas, droughty & infertile soils
46	Sheep's Fescue	Conservation, native-range adjacent plantings

KENTUCKY BLUEGRASS

#	VARIETY	BEST USE
49	Corsair Kentucky Bluegrass	Premium lawn, golf, self-repairing
50	Shamrock Kentucky Bluegrass	Dark green, dense, excellent drought tolerance
51	Blackjack Kentucky Bluegrass	Dark color, heat & drought tolerant
52	Rhapsody Kentucky Bluegrass	High performance, improved disease resistance
53	98/85 Kentucky Bluegrass	Blend-grade, reliable performer
54	85/80 Kentucky Bluegrass	Blend-grade, cost-effective option
55	Rythem Kentucky Bluegrass	Superior persistence and color retention
56	Two Putt Poa Reptans	Golf putting surfaces, specialty use
57	Sabre IV Poa Trivialis	Shade & moisture tolerant, overseeding greens
58	Fielder Kentucky Bluegrass	Athletic fields, sports turf
59	Midnight Kentucky Bluegrass	Dark blue-green color, heat tolerant
60	Fielder Kentucky Bluegrass	Sod production, athletic fields
61	Kentucky Bluegrass	General-purpose blend component

KENTUCKY BLUEGRASS CONTINUED

#	VARIETY	BEST USE
62	Baron Kentucky Bluegrass	Classic performer, wide adaptation
63	Armadillo Bluegrass	Contact us for availability & pricing
64	Troy Bluegrass	Good heat tolerance, home lawns
65	Balin Forage KBG	Turf and forage applications
66	Mercury Kentucky Bluegrass	Medium-dark green, good disease resistance
67	Thermo Blue Hybrid Bluegrass	Heat-tolerant hybrid, transition zone
68	Full Moon Kentucky Bluegrass	Call for availability
69	Cooper Bluegrass	Call for availability

TURF-TYPE TALL FESCUE

#	VARIETY	BEST USE
70	Bangshee Tall Fescue	Commercial & roadside, heat & drought tolerant
71	Sequester Tall Fescue	Endophyte-enhanced, wear & drought tolerant
72	Marauder Tall Fescue	Athletic fields, parks, commercial turf
73	Starlet Tall Fescue	Fine-textured, dark green, good disease pkg.
74	Hounddog 6 Tall Fescue	Heat-tolerant, excellent summer color
75	Annihilator Tall Fescue	Aggressive rooting, wear recovery
76	Rhizing Star Tall Fescue	Strong rhizomes, improved self-repair
77	Starfire Tall Fescue	Dark green, fine blade, home lawns
78	K-31 Tall Fescue	Proven standard for roadsides & utility areas
79	Tall Fescue	General-purpose blend component
80	Warhawk Tall Fescue	High-traffic, tough stand persistence
81	Hellion Tall Fescue	Improved disease resistance, fine texture
82	Named Tall Fescue	Quality blend-grade variety

BENTGRASSES

#	VARIETY	BEST USE
90	Pencross Creeping Bentgrass	Golf putting greens, tees — premium quality
91	Seaside 2 Bentgrass	Seashore paspalum-alternative, coastal courses
92	Puritan Colonial Bentgrass	Fairways & approaches, lower input needs
93	Cobra 2 Creeping Bentgrass	Golf greens, high disease resistance package
94	Highland Colonial Bentgrass	Fairway use, economical creeping option

MISCELLANEOUS TURF GRASSES

#	VARIETY	BEST USE
101	Axcella 2 Annual Ryegrass	Overseeding, quick cover, winter turf
102	Named Coated Hulled Bermudagrass	Warm-season, Southern zones — call for pricing
103	Buffalograss	Native, ultra-low maintenance, drought tolerant
104	Corral II Intermediate Ryegrass	Overseeding, economical quick cover

TURF BLENDS — Ingredients, Ratios & Best Use

800.8 Forever Green Turf Blend

All-purpose lawn blend — home & commercial use, year-round color & durability

40% Kentucky Bluegrass
self-repairing rhizome root system

40% Perennial Ryegrass
fast, reliable germination

20% Creeping Red Fescue
shade & drought tolerance

801.8 Tuff Fescue Blend

Rugged, low-maintenance — commercial, parks, roadsides, utility areas

90% Tall Fescue
heat, drought & heavy wear tolerance

5% Creeping Red Fescue
improved color, lateral fill

5% Kentucky Bluegrass
lateral spread & repair

802.8 Athletic Blend

High-traffic sports turf — athletic fields, sports complexes, school grounds

80% Tall Fescue
wear tolerance, deep-rooted drought resistance

10% Perennial Ryegrass
rapid recovery from traffic

10% Kentucky Bluegrass
lateral spread, persistence

803.8 Quick Grow Blend

Fast establishment / overseed — new construction, thin-area overseeding

40% Gulf Annual Ryegrass
germinates in 5–7 days

25% Perennial Ryegrass
permanent quick cover

10% Kentucky Bluegrass
long-term stand

25% Creeping Red Fescue
shade & drought tolerance

804.8 House Blend

Premium multi-cultivar residential — demanding home lawns

36% Kentucky Bluegrass (3-way)
genetic diversity, disease insurance

25% Creeping Red Fescue
shade adaptability

20% Perennial Ryegrass
quick establishment

19% Tall Fescue
summer heat & drought resilience

805.8 Shade Blend

Low-light lawn areas — under trees, near buildings, north slopes

60% Creeping Red & Chewings Fescue
thrive in limited sunlight

0% Kentucky Bluegrass
density where light improves

20% Perennial Ryegrass
rapid initial establishment

PASTURE, HAY & FORAGE VARIETIES

Ask your Legend representative for current pricing and availability on any item.

TETRAPLOID & DIPLOID PERENNIAL RYEGRASS (HORSE-SAFE)

#	VARIETY	BEST USE
260	Tivoli Perennial Ryegrass	High sugar, rotational grazing & hay
260.3	Tetragain SLP Perennial Ryegrass	Safe-to-feed horse variety, superior quality
261	Amazon Perennial Ryegrass	High yield, top blend component
262	Calibra Perennial Ryegrass	Dense, persistent, excellent digestibility
263	Mathildy Perennial Ryegrass	High DM yield, intensive grazing systems
264	Tetraploid Perennial Ryegrass	Broad-purpose tetraploid forage
264.3	Tetragain Perennial Ryegrass	Economical tetraploid option
265	Kentaur Perennial Ryegrass	Excellent persistence, dairy farms
266	Respect Diploid PRG	Diploid, persistent, all-purpose forage
267	Lucious Perennial Ryegrass	High quality, excellent palatability

ITALIAN RYEGRASSES (BI-ANNUAL)

#	VARIETY	BEST USE
270	Zorro Italian Ryegrass Tetraploid	High yield, 2-year stand, hay & silage
270.3	True Italian Ryegrass	Economical bi-annual option
271	Fox Italian Ryegrass Diploid	Persistent diploid, good winter hardiness

ANNUAL RYEGRASSES

#	VARIETY	BEST USE
280	Striker Tetraploid Annual Ryegrass	High biomass, rapid cover after harvest
281	Tetraploid Annual Ryegrass	Winter cover, soil protection
281.3	Tetragrande Annual Ryegrass	Economical bulk cover crop option
282	Gulf Annual Ryegrass	Southern zones, winter pasture, overseeding
283	Annual Ryegrass	Quick establishment, general cover use
283.1	Annual Ryegrass	Economical blend-grade option
284	Angus I Tetraploid Annual Ryegrass	High-sugar variety, beef & dairy grazing
285	Surry Annual Ryegrass	Good winter hardiness, early spring growth
286	Vivacious Annual Ryegrass	Excellent palatability, quick cover
480	Annual Ryegrass (Forage)	Dedicated forage-type annual ryegrass

ORCHARDGRASS (LATE MATURING)

#	VARIETY	BEST USE
292.3	Shawnee Orchardgrass (limited)	Late maturing, excellent regrowth
293	Eschelon Orchardgrass	High yield, ideal with alfalfa
294	Orchardgrass	Reliable standard variety
295	Sparta Orchardgrass	Persistent, productive stand life
296	Athos Orchardgrass	High quality hay, excellent persistence
297	Athos Orchardgrass	Alternate supply source
298	Latar Orchardgrass	Endures dry conditions well

ORCHARDGRASS (EARLY MATURING)

#	VARIETY	BEST USE
300	Potomac Orchardgrass	Classic early variety, wide adaptation
301	Amba Orchardgrass	Early spring production, beef & dairy
302	Shawnee Orchardgrass	Early-maturing, good summer persistence
303	Berber Dryland Orchardgrass	Call for availability — dryland specialist
304	Else Orchardgrass	High yield potential, good quality
304.3	Else Orchardgrass (limited)	Economical pricing option
305	Endurance Orchardgrass	Excellent regrowth, persistent stands
306	Paiute Orchardgrass	Dry conditions tolerance
307	Olathe Orchardgrass	Great adaptation, proven performer

FORAGE TALL FESCUE

#	VARIETY	BEST USE
310	Safe Tall Fescue	Endophyte-free, safe for horses & livestock
311	Kora Tall Fescue	High yield forage, persistent stands
312	Fawn Tall Fescue	Excellent palatability, livestock preferred
313	Evergraze Tall Fescue	Novel endophyte, extended grazing season
314	Kora Tall Fescue Soft Leafed	Soft leaf — highly palatable
315	Brutus Tall Fescue	High biomass, summer productivity
316.3	Cowgirl Tall Fescue (Endo-free)	Endophyte-free, horse-safe variety

FESTULOLIUM

#	VARIETY	BEST USE
320	Fojtan Festulolium	High yield, fescue persistence, ryegrass quality
321	Lofa Festulolium	Good winter hardiness, excellent regrowth
322	Mahulana Festulolium	Broad adaptation, high DM production
323	Perun Festulolium	Call for availability
324.3	Spring Green Festulolium	Rapid spring growth, early grazing

CLOVERS

#	VARIETY	BEST USE
200	Alsike Clover (Coated)	Wet soils, tolerates flooding, great blender
201	Crimson Clover Dixie	Annual, fast N-fixing cover crop
201.1	Crimson Clover	Annual cover crop, excellent reseeding
202	Medium Red Clover	Perennial, hay & pasture standby
203	New Zealand White Clover	Premium white clover for intensive grazing
204	White Dutch Clover	Persistent, pasture & lawn use
205	Ladino Clover	Large-leaf, high yield, rotational grazing
206	Ladino Clover (Coated)	Coated for faster establishment
207	Sub Clover	Self-reseeding annual, Southern zones
208	Medium Red Clover	Reliable perennial blend component
209	Medium Red Clover	Blend grade supply option
209.1	Medium Red Clover	Economical pricing option
210	Desire Red Clover	Improved persistence, 2-year stand
211	Yellow Sweet Clover	Contact for pricing — biennial
212	Ivory II White Clover	Premium medium-leaf white variety
213	Berseem Clover Frosty (Coated)	Annual, excellent summer cover crop
214	Emarwan Coated Red Clover	Coated, fast-establishment red clover

LEGEND SEEDS PROPRIETARY ALFALFA LINEUP

Elite disease resistance, proven yield & winter hardiness for Northern Plains production. DRI = Disease Resistance Index (higher = better).

PROPRIETARY ALFALFA VARIETY	DRI	DISEASE PACKAGE
Legend HvX 200 RR UC	30	Highly Resistant pkg.
PowerHouse RR 2.0	35	Highly Resistant pkg.
8888	28	Highly Resistant pkg.
Fortis	35	Highly Resistant pkg.
Legend HayMaker 34	25	R Anthracnose / HR Aphanomyces
Legend Revolution	35	Highly Resistant pkg.

PASTURE & FORAGE BLENDS

Ingredients, Ratios & Best Use

900.8 Multi-Use Blend

Balanced 4-species pasture — flexible mixed-live-stock operations

25% Orchardgrass

early spring growth, regrowth

25% Climax Timothy

palatability for dairy & horses

25% Amazon PRG

high sugar, digestibility

25% Intermediate Ryegrass

extends grazing season

901.8 Waterway Mix

Erosion control / critical area — waterways, terraces, filter strips

60% Smooth Brome

dense sod anchors soil

20% Amazon PRG

rapid establishment

20% Fawn Tall Fescue

deep-rooted drought tolerance

902.8 Master Beef Blend

High-production rotational grazing — beef cow-calf & stocker

30% Alsike Clover & Legend Revolution Alfalfa

N-fixation, crude protein

35% Amazon PRG

rapid regrowth

15% Evergraze Tall Fescue

summer persistence

15% Smooth Brome

palatability

5% Climax Timothy

seasonal balance

903.8 Horse Pasture

100% endophyte-free — equine operations & boarding farms

35% Fawn Tall Fescue

endophyte-free wear tolerance

25% Orchardgrass

horse-preferred palatability

20% Meadow Bromegrass

sod-forming, high traffic

10% Climax Timothy

nutritional value

10% Amazon PRG

fast establishment

904.8 Clover Based Forage Blend

Nitrogen-rich hay blend — hay production, renovating pastures

60% Medium Red Clover

20%+ crude protein, N-fixing

25% Climax Timothy

structure, easy baling

10% Alsike Clover

performs on wet/acidic soils

5% Ladino Clover

persistence, grazing compatible

905.8 Alfalfa Based Forage

Premium dairy-quality hay — hay & haylage production

50% Legend Revolution Alfalfa

DRI 35, top yield & feed value

20% Climax Timothy

baling & palatability

30% Alsike, Ladino & Red Clover

N-fixation, stand diversity

906.8 Tree Belt Blend

Windbreak understory — windbreaks, tree belt corridors, wildlife habitat

33% K-31 Tall Fescue

shade & root competition tolerance

34% Amazon PRG

fast initial cover

33% Climax Timothy

fills gaps, surface appearance

COVER CROP, SPECIALTY GRAIN & CONSERVATION SEED

Ask your Legend representative for current pricing and availability on any item.

LEGUMES (NITROGEN-FIXING)

#	VARIETY	BEST USE
220	Faba Beans / Bell Beans	High N-fixation, companion planting
221	Birdsfoot Trefoil	Non-bloat, wet soils, roadsides & pasture
222	Common Vetch	Annual N-fixer, companion planting
223	Hairy Vetch	Winter cover crop, premium N-fixation
224	Dundale Peas	Spring forage, companion with small grains
225	Austrian Winter Peas	Top cover crop legume, winter hardiness
225.1	Austrian Winter Peas	Economical pricing option
226	Nemagon White Mustard	Nematode suppression, cover crop use
227.1	40/10 Forage Peas	High-protein spring forage mix
228.1	Yellow Field Peas	Spring forage, cover crop, grain
228.1b	Cowpeas	Summer legume, warm-season cover, wildlife
370	Sanfoin	Non-bloat perennial, dryland & alkaline soils
395	Cicer Milk Vetch	Non-bloat legume, dryland pasture — call pricing
395.1	Hairy Vetch	Excellent winter annual N-fixer
391	Small Burnett	Drought tolerant, dryland pasture — call pricing

OTHER GRAINS CONTINUED

#	VARIETY	BEST USE
253	Triticale	High-biomass winter cover, spring forage
253.1	Spring Triticale	Spring-planted, quick forage production
253.1a	Fridge Winter Triticale	Exceptional cold hardiness
253.1b	Trical Flex 719 Triticale	Flexible planting window option
254	Wheat	Winter cover, companion planting
254.1	Certified Torgy Spring Wheat	Certified spring wheat
254.1a	Forage Winter Wheat	Dual-purpose forage & cover
254.1b	Certified Winter Wheat	Certified winter wheat variety
255	Oats	Spring cover crop, companion planting
255.1	Non-Cert Jerry Oats	Economical spring oats option
255.1a	Non-Cert Morten Oats	Reliable forage & cover oats
255.1b	Cer Hayden Oats	Certified, high yield potential
255.1c	Cosaque Black Oats	Winter oats, excellent biomass
256	Surge Beardless Triticale	Palatable, beardless — livestock-safe
257	HyOctane Triticale	High-energy forage triticale
450.1	Brown Flax	Cover crop, oil seed, wildlife habitat

FORAGE OATS

#	VARIETY	BEST USE
240	Maxi Greys Oats	High biomass, spring & summer forage oat
241	Walken Oats	Productive, fast-growing forage type
242.1	Cert Goliath Oats	Certified, high yield forage oats

OTHER GRAINS — BARLEY, TRITICALE, RYEGRASS, WHEAT, BUCKWHEAT

#	VARIETY	BEST USE
250	Barley	Early spring grazing, cover crop
250.1	Barley Traditional	Economical cover crop option
250.1a	Lavina Forage Barley	High-quality forage barley
250.1b	Winter Barley	Fall-planted, winter-hardy cover
251	Buckwheat	Fast summer cover, P-scavenging, pollinator
251.1	Buckwheat	Economical buckwheat option
252	Ryegrass	Winter cover crop standby, biomass
252.1	Winter Ryegrass	Cold-hardy, excellent winter cover

TIMOTHY, BROME, WHEATGRASS & CONSERVATION GRASSES

#	VARIETY	BEST USE
350	Climax Timothy	Premier hay companion, dairy & horse
351	Crested Wheatgrass	Dryland pasture, early spring growth
352	Smooth Brome	Waterways, hay, pasture, low-maintenance
353	Autro Timothy — Orange Tag	Certified timothy, excellent quality
354	Claire Timothy	Call for availability
355	Intermediate Wheatgrass	Dryland pasture, erosion control
356	Kentucky Bluegrass (Forage)	Dual-use forage & conservation
356.3	Filly Kentucky Bluegrass (Forage)	Economical forage bluegrass
357	Slender Wheatgrass	Native range, conservation plantings
358	Pubescent Wheatgrass	Call for availability
359	Mountain Bromegrass	High-elevation, cool-season forage
361	Intermediate Ryegrass	Medium-term stands, pasture & hay

TIMOTHY, BROME, WHEATGRASS & CONSERVATION GRASSES CONTD.

#	VARIETY	BEST USE
367	Prairie Junegrass	Native grass — call for pricing
368	Buffalo Grass	Native, ultra-low maintenance — call pricing
369	Switchgrass	Native warm-season, biomass & wildlife
371	Tufted Hairgrass	Wet sites, native restoration
372	Meadow Bromegrass	Hay meadows, wet to mesic conditions
373	Corral Intermediate Ryegrass	Durable, medium-term stand
374	Meadow Foxtail	Call for availability
375	Redtop Bentgrass	Wet sites, conservation — call pricing
377	MO-1 Diploid Annual	Call for availability
388	Persistor Bromegrass	Call for availability
389	Quick Guard Sterile Triticale	Sterile — no seed head competition
390	Canada Bluegrass	Native species — call for pricing
392	Western Wheatgrass	Native species — call for pricing
393	Bluebunch	Native species — call for pricing
394	Green Needle Grass	Native species — call for pricing
396	Tall Wheatgrass	Saline soils, waterways — call pricing
398	Poa Supina	Shade & wear tolerant, specialty turf
399	Teff	Summer annual hay, fine stemmed
399.1	Teff Grass	Economical teff option

BRASSICAS, TURNIPS & SPECIALTY

#	VARIETY	BEST USE
362	Purple Top Turnips	Fall grazing, deer & beef attraction
362.1	Purple Top Turnips	Economical pricing option
362.2	Green Globe Turnips	Bulbing turnip, high energy for livestock
362.3	York Globe Turnips	Large globe, excellent for deer plots
363	Chicory	Deep-rooted perennial, high mineral content
364	Collards	Winter forage, cold-hardy leafy green
365	Kale	High protein, late-season livestock forage
366	Trophy Rape Seed	Rapid cover crop, fall grazing — beef & deer
366.1	Dwarf Essex Rapeseed	Low-growing, heavy biomass rape variety

BRASSICAS, TURNIPS & SPECIALTY

#	VARIETY	BEST USE
400.3	Winfred Brassica	High-yield brassica, late season grazing
401.3	Rangi Brassica	Bulb-type, dual leaf & root production
402.3	Rangiora Brassica	Leafy type, high protein content

MILLETS

#	VARIETY	BEST USE
600.1	White Proso Millet	Wildlife, bird feed plots, summer annual
601.1	Red Proso Millet	Wildlife habitat, excellent bird attraction
602.1	Golden German Millet	Hay millet, fine-stemmed quality forage
603.1	Siberian Millet	Cool-season millet, earlier harvest window
604.1	White Wonder Millet	High yield millet, summer annual forage
605.1	Japanese Millet (Hay)	Wetland edges, waterfowl & wildlife habitat
606.1	Pearl Millet (BMR)	High-digestibility BMR, summer forage

SUNFLOWERS & SAFFLOWER

#	VARIETY	BEST USE
700.1	Peredovik Type Sunflowers	Oil-type sunflower, wildlife & bird plots
725.1	Safflower	Drought tolerant, high-oil oilseed crop

LEGEND SEEDS PROPRIETARY GRAIN & FORAGE SORGHUM LINEUP

Concep® III treated for herbicide safening.

Ratings 10–1 (10=Superior). Ask your rep for the full technical sheet.

GRAIN SORGHUM	MATURITY / COLOR	HEAD / STAND-DROUGHT
LGS 5002	85–90 Day, Red	SC, 42–48", 9/9
LGS 5426 DT2	91–96 Day, Bronze	S0, Short, 9/8
LGS 5508W	92–95 Day, White	S0, 40–45", 8/8
LGS 5623 DT	95–100 Day, Bronze	S0, Medium, 7/7

FORAGE SORGHUM	DETAILS
LFS 7022 BMR	90–95 days, BMR midrib — 6–7 ft, grain head, standability 9

COVER CROP BLENDS

Ingredients, Ratios & Best Use

Legend Grazing Blend Cover Crop Mix

This cover crop mix improves soil health while providing high-quality, productive forage. Selected for palatability and forage yield, it offers livestock producers an excellent fall grazing opportunity.

53% Forage Oats
14% Forage Pea
7% Common Vetch
7% Foxtail Millet
7% BMR Sorghum/Sudan
4% Frosty Clover
4% Forage Radish
2% Sunflower
2% Hybrid Brassica

Legend Salt-Tolerant Cover Crop Mix

Built for saline soils, this mix helps improve water movement, loosen compacted ground, and restore productivity to challenging acres.

86% Forage Barley
6% Dwarf Essex Rape Seed
4% Sugar Beet
2% Purple Top Turnip
2% Forage Radish

Legend Nitrogen Builder Cover Crop Mix

The ideal all-purpose cover crop mix for building soil health, improving fertility, reducing erosion, and supporting long-term productivity.

Forage Pea 35%
Lentil 14%
Foxtail Millet 14%
Forage Oats 14%
Cow Pea 7%
Frosty Berseem Clover 3.5%
Common Vetch 3.5%
Forage Radish 3.5%
Purple Top Turnip 3.5%
Sunflower 2%

Legend Radish & Turnip Cover Crop Mix

A proven Radish/Turnip blend that boosts soil health, improves water movement, and reduces compaction.

60% Forage Radish
40% Purple Top Turnip

Legend Fall Grazing Cover Crop Mix

Designed to maximize forage production, this mix delivers excellent fall grazing and valuable spring feed.

50% Willow Creek Forage Winter Wheat
20% Winter Pea
10% Italian Ryegrass
5% Common Vetch
5% Frosty Berseem Clover
3% Forage Radish
3% Purple Top Turnip
2% Hybrid Brassica
2% Dwarf Essex Rape Seed

Legend Fall Nitrogen Builder Cover Crop Mix

Maximize soil health with a mix that delivers year-round benefits, extending performance through fall and early spring.

Winter Pea 40%
Lentil 20%
Willow Creek Forage Winter Wheat 15%
Common Vetch 5%
Italian Ryegrass 5%
Frosty Berseem Clover 5%
Flax 4%
Forage Radish 3%
Purple Top Turnip 3%

CUSTOM MIXING

We believe these four stock mixtures will do a good job with several soil building concerns but cannot address the wide range of issues farmers are targeting. We can custom mix all of the cover crops found on our website. You can use the stock mixtures we offer as a base to work from, add other products and we will custom mix these to your specifications to make the soil health improvements you are targeting. We continue to stock all the traditional annual forage seeds many farmers use individually for hay, silage, haylage and rotational uses.

NURSE CROPS

OATS

Used in spring plantings to establish quick cover for slower germinating species. Oats generally have better straw strength than other cover crops making it a better choice.

BARLEY

Used in spring plantings to establish quick cover for slower germinating species. Since barley has more salt tolerance than other cover crops it is preferred for saline areas.

WINTER WHEAT

Used in fall plantings to establish quick cover for slower germinating species. Winter Wheat offers cover in the fall, is dormant over winter and regrows in the spring to keep cover the following season.

WINTER RYE

Used in the fall to establish quick cover for fall and to maintain cover the following spring after breaking dormancy. Winter Rye has superior straw strength and more winter hardness than most winter wheat so it can be used in harsher environments to allow for establishment of slower germinating species.
