SINCE 2021

ABOUT US

Born in 2021, our brand emerged as a project where sound, aesthetics, and experience merge into a single vision. Every step, every frequency, every silence has been crafted with precision. Nothing is accidental; everything serves a purpose to create a space where minimal is not just heard, but felt.

Over four years, each event has become a statement of intent. The sobriety of design, the purity of sound, and the connection with the audience have defined our path. Minimal becomes powerful; simplicity turns profound.

We are the result of a meticulous process of endless nights and a constant search for perfection within the essential. Because in repetition, in the pulse, in the line that loops without losing strength, we find the soul of who we are.

We don't follow trends. We create atmospheres.
We don't seek noise. We seek the truth of sound.

This is minimalism turned energy.
This is our language.

ON TOUR

Since our beginnings in 2021, the vision has been clear: to take our sound beyond borders, sharing the same frequency with the world.

Over the years, our brand has traveled across continents, bringing the purest form of minimal techno to countries such as Colombia, Taiwan, Romania, and many more.

In every destination, the audience's response has confirmed one truth distance fades when the sound is genuine. From intimate spaces to deeply underground events, the energy has always been the same: connection, precision, and a shared passion for the essential.

Born in Spain, we have built a global community united by a common language that of rhythm, sobriety, and intensity. Our events do not seek the massive, but the meaningful; not the trend, but the experience.

In every city, we leave a trace an atmosphere, a frequency, a moment that transcends. What we create is not just music; it is a way of being in the world.

COLLABORATION BRANDS

Throughout these years, our brand has grown not only through vision and consistency, but also thanks to collaborations with some of the most influential and respected brands in the global minimal techno scene.

Each alliance has been born from genuine affinity a shared way of understanding sound, aesthetics, and experience.

We have shared stages and concepts with labels, collectives, and platforms that define trends within the international scene, and every collaboration has elevated our purpose to a new level.

These partnerships have not only strengthened our global presence but have proven that when excellence meets authenticity, the result transcends the event itself it becomes a moment of reference.

Each joint project has been an opportunity to explore new dimensions of sonic minimalism, merging visions, styles, and energies under a common language. Mutual respect, innovation, and the pursuit of perfection within simplicity have been the pillars defining each of these experien

BRANDS; 3Sò, Abs-Track, Bassline, BorderLess, DSC4, DirtyHands, Essential, Evaporate, Interactions, Micronica, Polar, Radial, Rokoko, Sunrise, Sunwaves, ZebraRec.
