FOUNDER'S MESSAGE

AN IDEA WHOSE TIME IS NOW

One World One Family – The world has never been more connected, yet humanity continues to experience divisions — of nation, religion, language, wealth, and ideology. Perhaps the time has come to move beyond merely being a connected world and become one human family.

'One World One Family' is not simply a mission; it is a way of life rooted in the timeless truth that 'we are all one.' When we see every child as our own, their education becomes our responsibility. When we see another's suffering as our own suffering, providing healthcare to them becomes an expression of our love. When we recognise the earth as our shared home, caring for it becomes our duty.

This vision calls us to create a world where no child is denied education, no person is denied healthcare, and no family is denied dignity. Our differences need not divide us. They can enrich the beautiful diversity of one global family.

The world needs fewer walls and more bridges, less competition and more cooperation, asking less 'What can I gain?' and more 'What can I give?'

I believe humanity is ready for this transformation. Let us begin with ourselves, extend love to our families and communities, and gradually expand that circle until the whole world becomes our family.

One World, One Family, One Humanity – this is not merely a dream for tomorrow. It is an idea whose time is now.

THE COUNTRY SPOTLIGHT

INDIA: LIVING THE FEELING OF ONE WORLD ONE FAMILY

Legendary Cricketers, Mr G R Vishwanath and Dr Sunil Gavaskar Support the One World One Family Mission for Sports Initiatives:

ANNUAL SPORTS AND CULTURAL MEET 2026

The Annual Sports and Cultural Meet 2026 was celebrated from 05 July to 10 July 2026, with a lot of fervour and joy by the Sri Sai Loka Seva Gurukulam Group of Institutions at Sathya Sai Grama. More than 3,000 students from 26 campuses spread across several districts of Karnataka, Telangana, and Tamil Nadu came together to perform sports and cultural presentations, for the joy of doing it.

While the morning was filled with daredevilry where students stepped up to the mark with precision, confidence, and a sporty elan, the evening was colourful with costumes, joyous with music and dance, and rich with cultural uniqueness and aesthetics.

Morning's Gusto

- Lion Dance
- Celestial Rings
- Karate
- Celestial Rhythms
- Bike Stunts

Evening's Sparkles

- Cosmic Creation Dance
- Yakshagana (Karnataka)
- Warkari (Maharashtra)
- Garba (Gujarat)
- Karagam (Tamil Nadu)
- Bangra (Punjab)
- Gymnastics
- Skating
- Basketball
- Dandiya Raas (Gujarat)
- Puliattam (Tamil Nadu)
- Sambalpuri Dance (Odisha)
- Kavadi (Tamil Nadu)
- Chari Dance (Rajasthan)
- Rettaikaliyattam (Kerala)
- Ghoomar (Rajasthan)
- Kamsale (Karnataka)
- Oyilattam, Poikkal Kuthirai, Mayilattam, Marakkal Attam (Tamil Nadu)
- Talwar Raas (Gujarat)
- Thappattam (Tamil Nadu)

SPORTS FOR UNITY

The Annual Sports and Cultural Meet concluded with a call for unity, by bringing back into recall, the noble thoughts of the great ones through two songs:

Maitreem Bhajata

A song written by Jagadguru Sri Chandrasekharendra Saraswati Swami of the Kanchi Kamakoti Peetam and sung for the first time by the Legendary Carnatic Vocalist, Smt M S Subbulakshmi at the United Nations (New York City) in 1966 on the occasion of the UN Day.

The song lovingly beacons one and all to unite in friendship, to look upon others as thyself, to renounce war and competition, to be kind, compassionate and charitable.

Vande Mataram

The national song of India, written by Bankim Chandra Chatterjee, pays an ode to the mother land, by praising her prosperity, purity, and compassion.

COMPETITIONS: CHALLENGE BRAVELY, FACE FAIRLY, WIN WISELY

Sports Competitions were also conducted, and the students participated enthusiastically and sportively winning several trophies.

MR G R VISHWANATH,
the Legendary Indian Cricketer said:

"In sports, the 'moments' are more important than the trophies, records, and medals. In cricket, there are those moments of nervousness, pressure, silence and stillness, during which times, skill alone cannot help you, but the values of patience, calmness, discipline and a balanced temperament can really help you in a big way."

MR SUNIL GAVASKAR, FORMER INDIAN INTERNATIONAL CRICKETER SHARED HIS VIDEO MESSAGE WHERE HE EXPRESSED:

"Sports is all about helping each other – with tips, techniques, and most importantly encouragement. In a society also, we ought to help others – the ones who are doing well, should lend a helping hand to someone else who needs help."

"Learn something about yourselves during this Sports and Cultural Meet, and become a better version of yourselves."

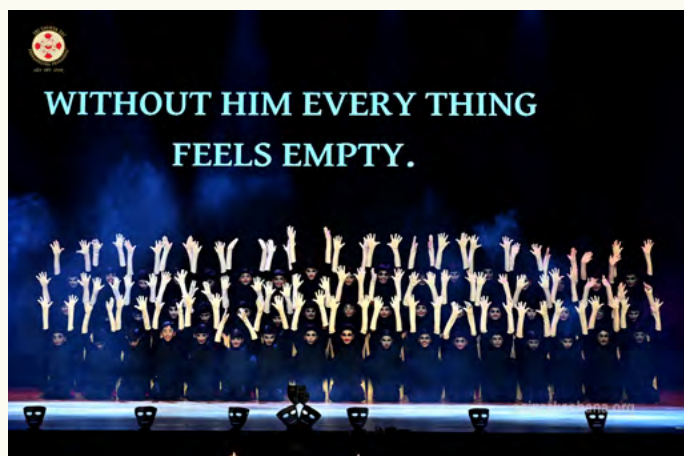

- Sri Madhusudan Sai

CULTURAL EVENINGS

8 July 2026

Sai Mahime – A Janapada Geete (Folk Presentation) on the theme, '50 Years of Sathya Sai Grama' was presented by the girls of Sri Sathya Sai University for Human Excellence.

Tat Tvam Asi – A Sanskrit Drama of this Mahavakya from the Chandogya Upanishad was presented by the girls of Sri Sathya Sai University for Human Excellence.

9 July 2026

Sadguru, The Hope – A Mime Show presented by the boys of Sri Sathya Sai Sharadaniketanam, Mandya.

10 July 2026

Nadopasana - Musical offering by the Students and Staff of Nada Gurukulam, Sri Sathya Sai University for Human Excellence.

THE FATHER OF ROBOTIC SURGERY IN INDIA PERFORMED A COMPLEX CARDIAC ROBOTIC SURGERY AT THE WORLD'S FIRST COMPLETELY FREE RURAL MEDICAL COLLEGE:

INTERNATIONAL ENDOSCOPIC AND ROBOTIC CARDIAC SURGERY CONFERENCE

The Sri Madhusudan Sai Institute of Medical Sciences and Research organised the **World's First Free International Endoscopic and Robotic Cardiac Surgery Conference** on **11 and 12 July 2026** at Sathya Sai Grama. The Conference provided a unique international platform that brought together pioneers and leaders in minimally invasive cardiac surgery from across the world using totally endoscopic 3D vision. More than 256 applications were received for only 80 available seats. Owing to the exceptional interest, the organisers expanded the intake to accommodate **114 cardiothoracic and vascular surgeons** from across India.

Methodologies Used:

- Live Surgical Demonstrations
 - » Live Aortic Valve Replacement performed at the European Interbalkan Medical Centre, Thessaloniki, Greece
 - » Live Sinus Venosus ASD Repair from KG Hospital, Coimbatore
- Interactive Case Discussions
- Expert Lectures
- Wet-lab Training
 - » Structured Training in Endoscopic Cardiac Surgery using Bovine Heart Models
 - » Robotic Cardiac Surgery using Robot-on-Wheels Mobile Training Platform using Porcine Heart Models

Shri Prabhu G, IAS

Chief Guest of the Conference
Deputy Commissioner and District Magistrate
Chikkaballapura District, Karnataka, India

"Every technological breakthrough enhances the capability of the human hand, but it is compassion that gives purpose to the hand. When science is guided by compassion, technology becomes a blessing; when knowledge is guided by service, it turns into hope; when excellence is guided by humanity, institutions become temples of healing."

A MEMORANDUM OF UNDERSTANDING TO ADVANCE CARDIAC CARE

Sri Madhusudan Sai Institute of Medical Sciences and Research, Manipal Group of Hospitals Kolkata, and SS Innovations International exchanged a Memorandum of Understanding to jointly conduct the 'International Endoscopic and Robotic Cardiac Surgery Conference' as a biennial international academic programme.

Dr C S Hiremath

Chief Cardiac Surgeon and Director of the Heart Valve Bank & Academics (CTVS), Sri Madhusudan Sai Institute of Medical Sciences and Research

Dr Sandeep Sardar

Senior Consultant, Endoscopic and Robotic Cardiac Surgeon, Manipal Group of Hospitals, Kolkata

Dr Sudhir Srivastava

Founder and Chairman of SS Innovations International (Joined Virtually)

A Live Record Setting Tele-Robotic Cardiac Surgery

Dr Sudhir Srivastava, the Father of Robotic Surgery in India, successfully performed a robotic Atrial Septal Defect (ASD) closure on a patient at Sri Madhusudan Sai Institute of Medical Sciences and Research, while operating remotely from New Delhi using the SSI Mantra Surgical Robotic System.

The complex procedure which lasted for about 10 hours due to poor visibility of the heart which was surrounded by dense adhesions, eventually turned out to be a successful one, as the patient remained stable throughout the procedure, and was subsequently shifted to the intensive care unit.

This demonstrated the immense potential of tele-robotic surgery to bridge geographical barriers and expand access to specialised cardiac care.

"'Survival of the Weakest' is the guiding principle of this mission. Hence, our medical college was conceived to train the doctors of the future, but with a difference – not just any doctor with a great amount of competence, but a doctor with a great deal of compassion in the heart. I am very glad that we are able to extend this opportunity to doctors and surgeons from around the world, to learn more and grow in their knowledge and skills in endoscopic, minimally invasive, and robotic surgery, so they can serve better."

- Sri Madhusudan Sai

11 July 2026: Tatwa Bodhamrutam – A student's journey to discover her true purpose of education – to learn to live to serve, was presented by the girls of Sri Sathya Sai Sriniketanam, Jayapura, Chikkamagalur district.

RENOWNED HOME-GROWN PERFORMING ARTISTS OF INDIA SHARED THEIR ARTISTIC KNOWLEDGE WITH THE STUDENTS OF THE ONE WORLD ONE FAMILY MISSION:

KALĀSROTAḤ – BHARATH SANGEETA SAMMELAN 2026

The Sri Sathya Sai University for Human Excellence is steeped in fostering arts and culture as a means to refine the human expression and evolution, and has taken deliberate steps to invite students into the field of arts, if they have an inclination for it, and pursue it without any fear of future prospects, or accessibility and affordability.

From the year of commencement of the course in Performing Arts in the year 2020, 20 girls and 22 boys have enrolled into various programmes like Carnatic Vocal, Hindustani Vocal, Tabla, and Bharatanatyam in the Nada Gurukulam of the Sri Sathya Sai University for Human Excellence.

The University organises Bharath Sangeeta Sammelan once a year, and this 2026 celebrated the fourth edition of the sammelan from **13 July to 15 July 2026** with the theme – *kalāsrotaḥ* – let art flow like an eternal stream, unhindered, unbothered, and undisturbed, from one generation to another.

Mrs Nandini Ramani

Bharatanatyam Exponent, Sanskrit
Drama Actress

"A stream keeps flowing; it gathers strength from its source, nourishes every life it touches, and remains ever fresh. Such is the nature of rasa – the living current of aesthetic experience that has flowed through Indian civilisation from the vedas to the present day. Art is eternal because it springs from what is eternal in the human being. Civilisations change, technologies evolve, yet the human quest for beauty, meaning, harmony, and transcendence remains unchanged. It is this quest that gives art its immortality."

Shri Aneish P Rajan

Deputy Secretary, Ministry of Culture

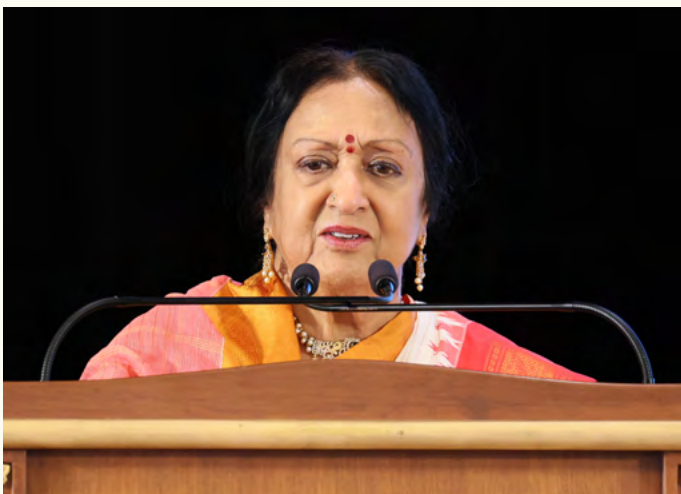

"This conference evokes a profound civilisational truth – Indian art isn't merely a collection of aesthetic practices; but a long stream of consciousness flowing through millennia, preserved despite the rise and fall of countless rulers, political systems, and upheavals."

Dr Padma Subrahmanyam

Indian Classical Bharatanatyam Dancer

"True artistry comes from emotion rooted in spirituality. The Sri Sathya Sai University for Human Excellence offers an integrated course of music, dance, vedas and other sciences, thereby uniting art, science, philosophy and spirituality into one harmonious learning experience."

Ms Sonal Mansingh

Indian Classical Bharatanatyam and Odissi Dance Guru

"My terms in life have been very simple – Dance for ānanda—for this, you don't need technology. The integrated system of education of self-realisation, of vedas, purāṇas, and upanisads provided in this Institution is a great blessing. I urge the young students and faculty to make the most of it, to actualise the motto 'Love All, Serve All' through art, understanding, and generosity."

Sri Sathya Sai Sangeeta Shiromani Award

Sri Sathya Sai Sangeeta Shiromani Award is an award that recognises refined individuals who have ripened in the purity of their art.

Dr Smt N Rajam

Indian Violinist

"Music has been the guiding force of my life. Music, to me, is not merely an art. It is sadhana – a path of inner transformation, devotion, and service. Throughout my journey, my humble endeavour has been to bring the expressive beauty of the human voice to the violin through the gayaki anga, while remaining rooted in the purity and discipline of our classical tradition. I feel especially happy to receive this honour from an institution that places importance on human values and holistic education."

Pandit Sri Ulhas Kashalkar

Indian Hindustani Classical Vocalist

"I have explored many parts of this Campus. Students here are practicing music, alongside acquiring quality education. This University has done wonderful work in carrying our tradition forward. I hope that top-tier artists emerge from here. Even today, I do not feel that I have mastered singing, because a stage where you have nothing left to learn never truly comes. So, my advice to the students is that they must immerse themselves as much as they can in this art and knowledge of music."

"To realise the vision of vasudhaiva kutumbakam, where the whole world is considered as one family, artists playing a vital role. Art is the only unifying force which is capable of crossing borders, touching hearts, and connecting the consciousness of all. Our art is fundamentally about enlightenment, not just engagement or entertainment."

- Sri Madhusudan Sai

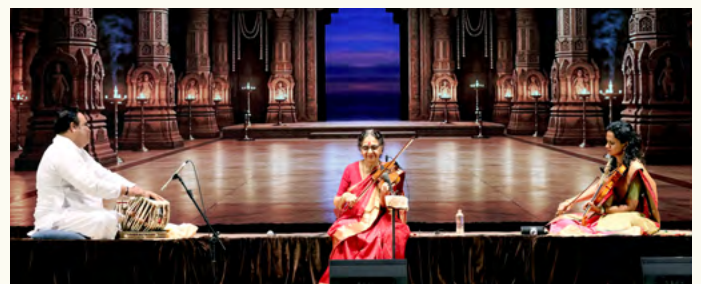

A Memorandum of Understanding was exchanged between Rajkumari Indira Singh Kala Sangit Vishwavidyalaya, Chhattisgarh and Sri Sathya Sai University for Human Excellence

13 July 2026: Carnatic Vocal Concert by Sri N Vijay Siva and Group

14 July 2026: Tala Vadya Kutcheri by Patri Satheesh Kumar and Troupe

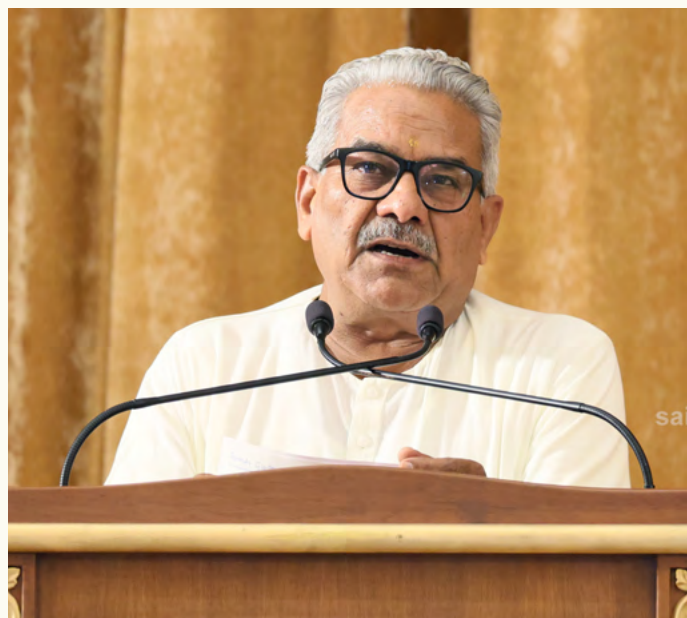

15 July 2026: Hindustani Violin concert by Dr Smt N Rajam and Smt Nandini Shankar

INDIA'S SENIOR SOCIAL LEADER SPENT A DAY AT SATHYA SAI GRAMA:

VASUDHAIVA KUṬUMBAKAM: A VISION THAT IS NOT MERELY VISUALISED, BUT MANIFESTED

Sri Krishna Gopal Ji, a senior leader and All-India Joint General Secretary of the Rashtriya Swayam Sevak Sangh spent a day at Sathya Sai Grama on **14 July 2026**, inspired by the vision 'vasudhaiva kuṭumbakam, One World One Family', with which Sri Madhusudan Sai, a young spiritual leader is driving mammoth service projects completely free of charge to all, simply by believing that 'we are a family, and hence there ought not be any fee for our services for anyone in the world.'

Shri Krishna Gopal Ji spoke passionately about the theme of 'vasudhaiva kuṭumbakam – A Vision for Humanity':

"We are the children of this sacred mother earth, and hence, once we accept the whole earth as our family, everyone becomes our brothers and sisters. This is the ideal we need to strive to live by. The aim is to do the greatest good for the greatest number of people, animals, plants, and all of nature, because everyone deserves to thrive, flourish, find peace, and joy. Minimum consumption is sustainable consumption. This concept alone can save this nature."

"The way to a sustainable future for all is through our upaniṣadic idea of 'tena tyaktena bhunjīthā – sacrifice and consume. Consume only as much as you really need, and leave the rest for others whose needs are greater. Remember to recycle, reduce, reuse, and refuse. In fact, the ability to refuse is a spiritual ability, and not a scientific ability."

- Sri Madhusudan Sai

ILLUSTRIOUS CORPORATE LEADERS BARED THEIR HEART AND BRAINSTORMED TO REFORM CSR FOR A VIKSIT BHARAT:

CSR CONCLAVE 2026

The second edition of the CSR Conclave was hosted at Sathya Sai Grama on **16 and 17 July 2026** with leaders who have the credibility, experience and will to move the needle on how India's social investment is structured, governed and measured.

India has built one of the world's most significant mandatory CSR frameworks. Over a decade since Section 135 of the Companies Act, corporations have collectively deployed tens of thousands of crores into health, education, skill development, and environmental sustainability.

The core premise of the 2026 Conclave is – **“And yet, a fundamental question remains unanswered: Is CSR living up to its full potential as a force for nation-building?”**

Mr S Ramadorai

Chairman, CSR Conclave
Former CEO and MD, TCS

“One thought that has stayed with me from the time I came in touch with the One World One Family Mission is Sadguru Sri Madhusudan Sai's simple yet profound belief that healthcare, education, and nutrition are not privileges to be enjoyed by a few, but rights that should be available to every single individual, regardless of profession, organisation, or background.

I believe this is an idea that resonates with anyone who believes in humanity, inclusion, and the dignity of every human being. What is equally inspiring is that this belief has not remained a philosophy – it has been translated into institutions, systems, processes, and everyday action. As you walked through this campus, you witnessed the spirit of One World One Family Mission woven into a larger vision of collective well-being, development, prosperity, and sustainability. That's what makes Sathya Sai Grama such an appropriate venue for a conclave on CSR and systemic impact.”

Mr M Damodaran

Former Chairman, SEBI
Founder, Excellence Enablers

"Thanks to the initiatives of enlightened leaders like Sadguru Sri Madhusudan Sai that we are seeing more buy-in, more acceptance, and more understanding that CSR is an investment in society, in the people who populate this country, in the quality of human life – allowing those less privileged to live a life of dignity and empowerment."

The three pillars of nutrition, education, and healthcare have been very wisely chosen, because if any of these pillars is absent, you will not be empowering younger, underprivileged persons to play the role society expects of them as they grow up and become proud members of this country. The concept of the world being one family, of people coming together for the most noble of causes of uplifting those who need good nutrition, health, and education—nothing can be more enabling than this."

Dr S Ravi

Former Chairman, Bombay Stock Exchange
Founder, Ravi Rajan and Co. LLP

"Coming to this institution, I am convinced that this institution can be a role model for everybody to follow. I'll give you two stats – 20% of the CSR approved every year typically goes unallocated and unspent—sometimes even 30 to 35% in a given year, which means corporates did not have the right implementing partners to deliver and ensure that the amount was spent in the right direction."

So, I see a gap here between allocation, spending, and implementation, and a lot of rollovers if you look at annual reports. Why does this happen? Because we don't have the appetite and skill set to implement, and that is why institutions like this, which serve as channels to ensure that the right resources reach the right end use, are so important. Here, we can see people getting the benefit—it's tangible, and that is what has impressed me about this institution."

Mr K R Lakshmi Narayana

Chief Endowment Officer, Azim Premji Foundation

"The problems in education, healthcare, and nutrition are those kinds of 'wicked problems without market solutions.' But the way the One World One Family organisation has gone about solving them shows that solutions can be conceptualised, implemented, and delivered at scale. That's the framework within which we need to talk about what CSR can do."

Mr Raghuvir Srinivasan

Editor, The Hindu Businessline

"When I first came to see the work of the 'One World One Family Mission', I was totally floored by what I saw here. I was impressed by the scale, the dedication, and the quality of people that One World One Family has managed to attract—highly distinguished, educated, high-flying people who are here to serve, and not to make money. Viksit Bharat is good to talk about, but it cannot happen unless the last man and last woman in the last row is uplifted, and you do that only with philanthropy."

Mr Vineet Nayar

Founder Chairman, Sampark Foundation
Former CEO, HCL Technologies

"One of the biggest revelations for me in the last 24 hours has been the commitment of the volunteers of One World One Family Mission. I was speaking with a former colleague of mine from HCL who now works on the mission's food programme—he never spoke so passionately when he was at HCL, but his passion about reaching a crore children was extraordinary, and what struck me was the sheer number of volunteers involved."

HCL's transformation from a \$1 billion to \$50 billion market cap was based on 'employees first, customers second' — energized, inspired employees drive transformation. Why do people go to a mandir, mosque, or church on a Sunday, spend their whole day, and feel blessed, yet on Monday they feel bad to go to work and get paid? The answer is purpose. What is that 'human technology' that the OWOF mission has built here, which is not just doing, but also creating something where millions of people join the mission purely for purpose?"

Mr Shashi Kiran Shetty

Founder and Chairman, Allcargo Group

"Every great nation is built on two forms of infrastructure – the one that we can see, and the one which is even more important comprising of educated citizens, skilled and productive youth, healthy communities, empowered women, resilient institutions, and environmentally sustainable ecosystems. Physical infrastructure enables economic growth; social infrastructure determines whether that growth becomes inclusive, sustainable, and enduring."

We have 5,000 years of civilisation, immense knowledge, brilliant minds, and, most importantly, great spiritual leaders like Sadguru Sri Madhusudan Sai. Hence, we can do a far better job."

Sri Mithilesh Kumar Tiwari

Minister of Education, Government of Bihar

"The scale of the One World One Family Mission, which is feeding so many children and educating so many students is the indication of a fast-paced growing nation free of all criminalities. Here is the only place where I need to search for a billing counter in the hospital and not find one."

"We never call our spending 'expenditure'; we call it 'social investment', because it pays both tangible and intangible dividends, producing good citizens who add to India's growth. Corporates must think of charities and foundations as partners. Imagine building a \$50 billion charity in India – why not? Every single Indian has the capacity to contribute in his own small way. If we bring some structure to it, our potential is tremendous."

THE VISION TO ENROLL EVERY CHILD IN A SCHOOL WITHOUT FAIL:

BHARATH RASHTRA NIRMAN VIDYARTHI NIDHI CONVENTION

Bharath Rashtra Nirman Vidyarthi Nidhi is a national scholarship scheme that was administered by the **Prashanthi Balamandira Trust** in the year 2021, in partnership with **Rashtriya Sewa Bharati (RSB)** to ensure that every child, especially at the primary school level continues education, and does not drop out for the reason of unaffordability.

Rashtriya Sewa Bharati is a federation of social service organisations that has its volunteers in all parts of the country. The selection of needy students for the scholarship is done by them based on the need, and not based on economic status, merit, caste or religion.

The best part about this partnership is also that the Prashanthi Balamandira Trust operates schools and a University that offers completely free of charge education from Grade 6 to Doctorate Studies, and so any needy child identified by Rashtriya Sewa Bharati can be enrolled into any of this chain of residential schools, where the child can walk in only with a pair of clothes that he/she is wearing, and receive values-based education in a spiritual atmosphere for the rest of their life.

The Reach of BRNVN Scholarship

Over
9,000
children have registered

More than
7,700
children receive scholarship

Spread across
31 districts and **240**
taluks of Karnataka

In this context, the Bharath Rashtra Nirman Vidyarthi Nidhi Convention which was held at Sathya Sai Grama on **21 July 2026** in association with Rashtriya Sewa Bharati provided a platform for further deliberations on reaching every child, fostering them, and empowering them.

Sri Rajendra Kumar

RSS Hassan Vibhaga Seva Pramukh for the
BRNVN Scholarship Programme

"About 200 to 250 years ago, necessities like health, food, and education weren't commercial commodities in this country. But now, they have become big profitable businesses. This scholarship programme has been developed in this context of providing education free of charge to all the children. The opportunity to be able to participate in this gives us a chance to look back and live the old glory of this country. Under this system, guided by Sadguru Sri Madhusudan Sai's vision, there's hope to rebuild the kind of society we truly need."

Sri Vimalanand Revankar

RSS Karwar Jilla Seva Pramukh and Sirsi
Vibhaga Pramukh for the BRNVN Scholarship
Programme

"There are many forest dwellers in the Sirsi area, where many kids drop out of school. The BRNVN scheme has provided these kids with a good school—an opportunity that they never had before. The forest dwellers thanked us profusely for this help. They said that the scholarship money is a big help in buying textbooks, stationery, and bags for their children. The volunteers of RSS have been able to make a difference in the lives of the most needy children."

Shri Sudhir Ji

Akhila Bharatiya Sah Bouddhik Pramukh, RSS

"The main purpose of this scholarship programme is to awaken the dormant energy within each individual so that they become a valuable asset to themselves, the nation, and society. They should be builders of the nation of India, by contributing positively to its growth. For this, the right kind of education should be provided to children, in the way it is being done in the Sri Sathya Sai Loka Seva Gurukulam."

Shri Ramen Sharma Ji

Vice-President, Rashtriya Sewa Bharati and
RSS Assam Kshetriya Sampark Pramukh

"Rashtriya Sewa Bharati was established with the aim to conduct proper study of the society, identify the gaps, and then deliver the type of service required by gathering the right resources, especially in the fields of education, health, and self-reliance. Currently, we have 765 Trusts, Societies, and NGOs registered and affiliated with Rashtriya Sewa Bharati. The scholarship scheme that has been initiated by the Prashanthi Balamandira Trust is part of the educational activities of the Rashtriya Sewa Bharati. Our nation is slowly going back to the sanātan way of life, and this is the true spirit of Rashtriya Seva Sangh."

"India will truly shine when every child receives the right kind of education—not education that ruins them, but education that empowers them. Education is divine, because it is about shaping human souls. We must serve every child as if they are our own child. Every child must be included; every child must be uplifted. That is our true fulfillment."

- Sri Madhusudan Sai

21 July 2026: An Indo-Dutch Family Musical offering: Ishaan Leonard Rao (Pianist), Pandit Shubhendra Rao (Sitarist) and Saskia Rao-De Haas (Cellist)

GROUND-BREAKING STEPS TO BRING BACK HAPPINESS AND HEALTH TO HUMAN HEARTS:

INTERNATIONAL ADULT PAEDIATRIC CARDIAC ELECTROPHYSIOLOGY SYMPOSIUM

Dr Venkatakrishna Tholakanahalli,
Chief of Cardiac Electrophysiology,
Minneapolis VA Health Care System, USA

Dr Maully J Shah,
Paediatric Cardiac Electrophysiologist at
the Children's Hospital of Philadelphia,
USA

Dr Dipika Menon,
Cardiac Electrophysiologist, SSM Health
Cardinal Glennon Children's Hospital, USA

Sri Madhusudan Sai Institute of Medical Sciences and Research collaborated with **Kansas City Heart Rhythm Institute of HCA Midwest Health (United States)** for a flagship initiative – **'Global Heart Health Mission.'** Under this initiative, the 'First International Adult Paediatric Cardiac Electrophysiology Symposium' was held at Sathya Sai Grama on **22 July 2026**, with the joint endorsement of **Paediatric Cardiac Society of India (PCSI)** and **Indian Heart Rhythm Society (IHRS)**.

The symposium aimed to bridge the cutting-edge field of 'Cardiac Electrophysiology' with equitable healthcare policy through education, innovation, and compassionate service.

The main objective was to build long-term clinical capability through structured training, advanced electrophysiology services, catheter ablation, cardiac implantable electronic devices (CIEDs), and collaborative research.

A distinguishing feature of the symposium was its focus on **Paediatric Cardiac Electrophysiology**, which offered specialised sessions on congenital arrhythmias and inherited channelopathies.

Hearts Restored Completely Free of Charge Since 2024 at Sri Madhusudan Institute of Medical Sciences and Research: Departments of Cardiology and Cardiothoracic and Vascular Surgery

2000+ Cardiac Catheter
Procedures

800+ Cardiac Surgeries

Future Plans:

Sri Madhusudan Sai Institute of Medical Sciences and Research aims to establish internationally recognised Centres of Excellence in:

- Cardiovascular Sciences
- Population Health Sciences
- Genomics and Personalised Medicine

Dr Kanwaljeet Sunny Anand

Professor of Paediatrics, Anaesthesiology, Perioperative and Pain Medicine, Stanford University School of Medicine, USA

"Sri Madhusudan Sai Institute for Medical Sciences and Research has channelised and inspired the hearts of many across the world, to bring forth a huge contribution of compassion, competence, and commitment, thereby taking healthcare beyond the boundaries through cutting-edge research and innovation, completely free-of-charge."

Dr Dhanunjaya Lakkireddy

President-Elect of the Heart Rhythm Society, Executive Medical Director of the Kansas City Heart Rhythm Institute, USA, and Professor of Medicine at University of Missouri School of Medicine and University of Nevada, Las Vegas, USA

"How do we really change the paradigm of delivery of healthcare in India? How do we build and nurture these next generation of leaders in medicine? And why does it really matter? I think these are the people at the Sri Madhusudan Sai Institute of Medical Sciences and Research that are going to hold up the torch and provide improved access to care in so many different ways. Quality education is an important piece of the puzzle and getting the young people to understand that learning and acquiring the skills is a major part of the process."

CELEBRATING THE REAL HEROES OF KARNATAKA:

KARNATAKA PARIVARTHAKA PRASHASTI

The Karnataka Parivarthaka Prashasti is an award that honours changemakers of Karnataka for their outstanding contributions in the fields of education, healthcare, agriculture, cooperatives, industrial development, employment generation, and social service.

This award was instituted under the guidance of Sadguru Sri Madhusudan Sai, and celebrated at Sathya Sai Grama on **22 July 2026**.

The Awardees

Sri H S Manjappa

Sri H S Manjappa is a distinguished community leader and cooperative movement champion in Karnataka, who has tirelessly worked for the welfare of farming communities, and strengthened the rural sector. He was awarded the prestigious 'Sahakara Ratna' title by the State Government for excellence in the cooperative sector.

He served as the President of Central Arecanut and Cocoa Marketing and Processing Co-operative Limited (CAMPCO) for 11 years and Director of Malnad Areca Marketing Co-operative Society Limited (MAMCOS) for 25 years. While serving as the District Governor of Lions District 317C, he earned the title of 'Bhishma' in the organisation. He has led national delegations to protect the interests of arecanut cultivators, and to prevent harmful bans on arecanut.

"I am reminded of the below verses today, as I receive this Award.

अकृत्वा परसंतापम् अगत्वा खलनम्रताम्।

अनुत्सृज्य सतां वर्त्म यत् स्वल्पमपि तद् बहु॥

akṛtvā parasamtāpam agatvā khalanamratām

anutsrjya satāṃ vartma yat svalpamapi tad bahu

This means that the achievement that we attain, even if it is very little, it is considered very big when attained without causing pain to others, without bowing to the wicked or negative forces, and without abandoning the path of righteousness. I have only tried to put this message into practice in my life, and hence even though my achievements are so little, it is the big-heartedness of this organisation that it has decided to bestow this award upon me."

Sri S Rudre Gowda

Sri S Rudre Gowda is an eminent industrialist and philanthropist, and the Founder of the Shanthala Group of Industries. His expertise earned him recognition as an international technology expert in Malaysia. He played a key role in developing the Machenahalli Industrial Zone, creating employment opportunities for thousands of young people. His distinguished public service also includes serving as a Member of the Karnataka Public Service Commission and the Karnataka Legislative Council, while his Amruthamayee Charitable Trust continues to support education, healthcare, and housing for the underprivileged.

"My motto has been that, 'we will not take technology from anyone else. We will utilise and build upon our own knowledge.' Today, nearly 3,000 young men and women are working with us, and we export goods manufactured by our local youth to 30 countries. As we grew, our social initiatives also grew, and we provided toilets, drinking water facilities to surrounding schools, and numerous amenities for the differently-abled.

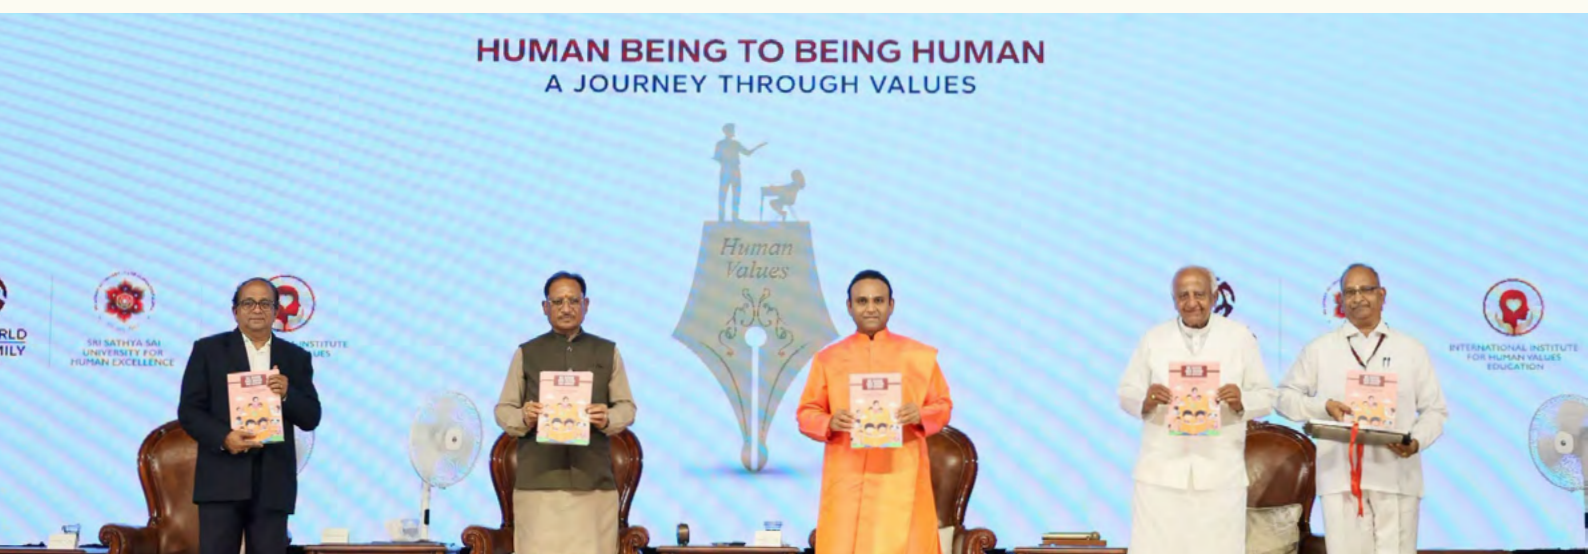

However, after coming to Sathya Sai Grama and witnessing the service, love, sacrifice, and humanity, I see that these values have truly been fully realised here. Seeing the immense growth achieved by the One World One Family Mission in just 12 years through the leadership of Sadguru Sri Madhusudan Sai, all of us are truly overjoyed. This country needs revered figures like him now more than ever."

A REMARKABLE GLOBAL CONSENSUS TO INFUSE EDUCATION WITH HUMAN VALUES TO NURTURE THE QUALITY OF 'BEING HUMAN' AS 'HUMAN BEINGS':

INTERNATIONAL CONFERENCE ON VALUES EDUCATION

The Sri Sathya Sai University for Human Excellence and the International Institute for Human Values Education (IIHVE) organised the 'International Conference on Values Education' on **23 and 24 July 2026** to translate the educational vision of the One World One Family Mission into practical programmes for schools, universities, community organisations, and also for the general public through digital platforms, thereby making values education accessible, culturally relevant, and scalable.

95 delegates from 32 countries joined the conference with a great deal of enthusiasm and appreciation.

The Values Education Books titled 'Be Good, Do Good, See Good' under the 'Value Educate the World' project was launched for Higher Education – Undergraduate Level, and a Bridge Course for Grade 6.

Humane Excellence Quotient Book – a detailed conceptual framework to assess human values in students, was formally launched by the Sri Sathya Sai University for Human Excellence

Mr C N Ashwath Narayan

Member of Karnataka Legislative Assembly

"The National Education Policy 2020, which has come after 36 years, strongly advocates holistic, multidisciplinary, values-based education. We need to start measuring our education system on this most important aspect – 'is the educational institution providing values education and is it really transforming the students?'" The efforts of Sri Sathya Sai University for Human Excellence beautifully complement this national vision by demonstrating that values can be integrated into teaching, learning, and institutional culture.

By bringing together educators from around the world, you are building a global movement that has the potential to transform education for generations to come. If education creates successful professionals, society progresses; if education creates good human beings, humanity prospers."

Sri Vishnu Deo Sai

Chief Minister of Chhattisgarh

"The dream of a developed India cannot be realised without values-based education. We must prepare young people who are not only skilled in technology but are also sensitive and responsible. We are proud that Sri Madhusudan Sai was born and brought up in the State of Chhattisgarh, and is today inspiring all humanity. Chhattisgarh is fortunate because Sri Madhusudan Sai's organisation is also running a large hospital there. It is a major centre for heart treatment, and the most amazing aspect is that there are no billing counters.

All medical treatment is completely free. When we share this with people, they can hardly believe that in today's materialistic world, free medical treatment is possible. But the Sri Madhusudan Sai is making it a reality."

"To learn to love is the most important value. Love in thought is non-violence. Love with understanding brings peace. Loving your country is patriotism. Loving the environment means being eco-conscious. Loving the divine is about feeling connected with all as one. Loving everyone is about serving everyone. Loving yourself is about being self-aware. To love is the soul of being human."

- Sri Madhusudan Sai

SERVING THE HEART OF INDIA: GRAMA SEVA

Grama Seva – ‘Serving the Villages’ has been an annual activity of the students and staff of the Sri Sathya Sai Loka Seva Gurukulam Group of Institutions every year.

On **25 July 2026**, the students and staff participated in the Grama Seva wholeheartedly.

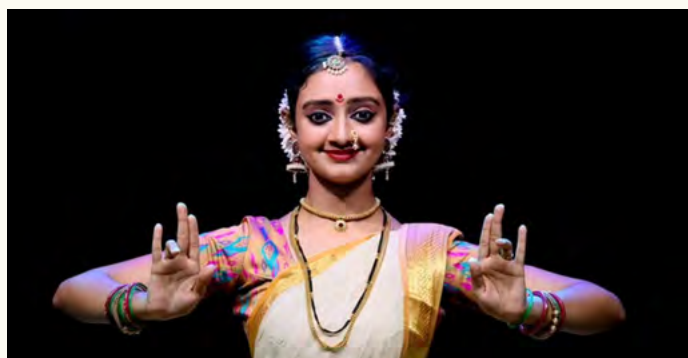

- 50 villages were visited
- 8,640 families in the villages were personally served
- 1,670 students, both boys and girls, participated
- 250 staff members accompanied the students
- 100 volunteers volunteered for the service

25 July 2026: A Musical Ode to Vittala – Ashadhi Ekadashi Celebrations

WHEN THE WHOLE WORLD REJOICED FOR HIS BIRTHDAY, BECAUSE THE WHOLE WORLD IS HIS FAMILY:

THE 47TH BIRTHDAY CELEBRATIONS OF SADGURU SRI MADHUSUDAN SAI

Sadguru Sri Madhusudan Sai, the Founder of the One World One Family Mission with presence in 100 countries, where millions of lives are uplifted, restored, empowered, and enlivened every day through free-of-charge services in the fields of Nutrition, Education, Healthcare, and Sociocare, was heartily wished for his 47th birthday on **26 July 2026**.

Love begets more love—Sri Madhusudan Sai's genuine love and concern for humanity were celebrated on that day by thousands of people in India and across the world, and He was hailed as the saviour and hope for humanity.

NEW LAUNCHES FOR THE BIRTHDAY:

- **Sri Madhusudan Sai: As I Know Him** – a book that has carefully collected and curated heartfelt personal reflections from 26 distinguished individuals, offering an intimate glimpse into the love, compassion, guidance, and selflessness of Sri Madhusudan Sai.
- **A Commemorative Coin** to mark the Golden Jubilee of Sathya Sai Grama, honouring fifty years of unwavering dedication to love, service, and human excellence.
- The Official **One World One Family Mission Logo** – a symbol of unity, fraternity, and collective responsibility for the collective welfare of all.
- The **One World One Family Mission's New Website** – a single platform that showcases the global news of the global mission.

Music from the Soul – Mr Sumeet Tappoo and his troupe rendered Sadguru's favourite devotional songs.

26 July 2026: Evening: Samarpan – A Musical Offering by the Students and Staff of Nada Gurukulam, Sri Sathya Sai University for Human Excellence

RURALISING INDIA:

BHARAT RATNA SIR SRI M VISVESVARAYA RURAL AI SKILLING AND EXPERIENCE CENTRE (RAISE CENTRE)

In driving the mission of 'Ruralising India', Rural Shores is a 'Country Side, Nation Wide' initiative which delivers world-class business process services from rural locations. It was started in the year 2008 to offer industry-aligned services with rural talent.

The 15th Rural Shores Centre was opened in Muddenahalli, the birthplace of Sir M Visvesvaraya on **27 July 2026** as a Generative AI studio lab with the intention of training rural youth in generative AI skills and delivering AI-enabled services.

Rural Shores' Presence

15 Centres

3,000 Employees

27,000 Rural Youth Empowered

A Memorandum of Understanding was exchanged between the Sri Sathya Sai University for Human Excellence and Rural Shores Business Services Private Limited to strengthen research and innovation in the fields of artificial intelligence, generative AI, and emerging technologies to find solutions to the missing links in education, healthcare, and rural development.

MoU Exchange:

Professor Srikanth Murthy, Vice-Chancellor, Sri Sathya Sai University for Human Excellence

Mr G Srinivasan, Co-founder and Director, Rural Shores Business Services Private Limited

Mr Murali Vullaganti

Founder and Executive Chairman, People Shores and Rural Shores

"Rural Shores is not just about training alone; it's about giving jobs too."

Dr Shalini Rajneesh, IAS

Chief Secretary, Government of Karnataka

"Due to the shortage of rainfall, villagers are unable to carry out agriculture. Because of this, they seek alternative occupations, and migrate to cities for work. This has really put rural systems and rural life into a very difficult situation. In times like these, Rural Shores is an innovative step to provide people with opportunities for various alternate occupations in villages themselves. Therefore, I am very happy to inaugurate the skill center today."

Mr Chakra Mantena

Managing Director, Morgan Stanley

"We can do fantastic things from rural areas these days; we don't have to be in big cities. We can build world-class solutions that contribute to the global economy right from here, just by using the tools available. With AI, in addition to having experts, we can learn any field we want without going through a five-year college degree or a long master's — all we need is curiosity, the ability to learn, ambition, and an innovative mindset. This initiative is very exciting for me, especially because I believe India is about rural areas."

Mr Venugopal Subbarao

AVP, Head of AI Architecture, Data Sciences and Solutions, Infosys Limited

"Rural Shores has made the shift from a services-based mindset to a product-based mindset. This is a significant transformation in the way India looks at technology. We are trying to be the provider of the product, rather than the provider of services. This is a fantastic opportunity for everyone in technology."

"The greatest help we can do to another is to give them the skills with which they can stand on their own two feet and earn their own livelihood. My vision is that this country should not need charity from anyone. Everybody should be independent with skills, knowledge, good health, livelihood and education. Charities should become redundant over a period of time."

SHINING IN THE LIGHT OF KNOWLEDGE UNDER THE FEET OF THE KNOWER:

GURU PURNIMA (29 JULY 2026)

This is the most awaited day every year for all the members of the One World One Family Mission in all 100 countries – from a toddler who is like a little tornado, a child who is like a blank canvas, a student who is like a little scientist, a teenager who is like a puzzle with missing edges, an adult who is climbing the career ladder, and an old man whose face shows deep lines where active streams of life once flowed.

The day is special for all because of the bond each one of them share with their Master, who is a true well-wisher, a father, a mother, a teacher, a friend, and a god—all rolled into one. To have a guru is the most precious blessing that can happen to a human being.

Awareness, the University's multidisciplinary open-access research journal, featuring ten research articles across six disciplines, was released.

Human Excellence Quotient (HEQ) book (first edition), which was developed based on the vision of promoting holistic development of students of the Sri Sathya Sai University for Human Excellence, was released.

40 hardcopy books and audiobooks comprising the spiritual discourses of Bhagawan Sri Sathya Sai Baba and Sadguru Sri Madhusudan Sai, spanning 19 languages from 18 countries, was released.

Institute of Human Values (IOHV), an online platform of the International Institute of Human Values Education, offered 'Course Completion Certificates' to those who have successfully completed the values-based courses available for free for all.

Courses: Mindful Teaching (for educators), Dynamic Parenting (for parents and caregivers), Compassionate Healthcare (for healthcare professionals), Dharmic Management (for management professionals and leaders), Love Without Duty (for non-profit professionals), and Scoop of Self-help (for teenagers).

A Musical Creation: The students and staff of Nada Gurukulam presented a heartfelt musical tribute titled 'Tasmai Sri Gurave Namah' consisting of soulful bhajans inspired by advaitic philosophy to their spiritual master, Sadguru Sri Madhusudan Sai.

THE MYSORE DYNASTIC HEAD DELIVERED THE CHIEF GUEST ADDRESS FOR THE CONVOCATION OF INDIA'S ONLY COMPLETELY FREE RESIDENTIAL HIGHER EDUCATION INSTITUTION:

THE FIFTH CONVOCATION OF SRI SATHYA SAI UNIVERSITY FOR HUMAN EXCELLENCE

The fifth Convocation of the Sri Sathya Sai University for Human Excellence was celebrated ceremoniously on the Guru Purnima Day – **29 July 2026**, to mark a new beginning arising just after the completion of higher education by **119 students**—this new beginning heralds a journey filled with the inner light of enlightenment that will light up their path, step by step, while they are engaged in the selfless service of society.

The theme of this year's Convocation reflects the University's vision of contributing towards a **Viksit Bharat**, founded on the timeless ideal of 'sarve bhavantu sukhinah' – *May All Be Happy*. It affirms that true national development is not measured by economic prosperity or scientific advancement alone, but by the well-being and evolution of every individual who is bestowed the gift of holistic education rooted in spirituality, and shaped by the values of competence and compassion.

THE CHIEF GUEST

His Highness Maharaja, Yaduveer Krishnadatta Chamaraja Wadiyar, Member of Parliament, Mysuru-Kodagu and Head of the Mysuru Royal Family.

"I am absolutely at a loss for words after seeing this wonderful campus, its infrastructure, and environment. I can only commend Sadguru Sri Madhusudan Sai and all the volunteers for this cause and for the wonderful job they have done in serving the people of Karnataka and beyond, towards creating Viksit Bharat. Sri Sathya Sai University for Human Excellence has chosen a path that is increasingly rare in today's world – a path where education is completely free, where excellence is inseparable from character, and where service is considered the highest expression of knowledge."

HONORARY DOCTORATES

Padma Vibhushan Awardee

Dr R A Mashelkar

Honorary Doctorate for 'Science and Technology'

one of India's most distinguished scientists and innovation leaders, who has served as the Former Director General of the Council of Scientific and Industrial Research (CSIR), and the only non-British President of the Institution of Chemical Engineers.

"I must say this is the most special evening of my life, because I am receiving not just an honorary doctorate, but a blessing from none other than Bhagawan Sri Sathya Sai Baba Himself. This is my 55th honorary doctorate, but the most precious one. I was born in a very poor family. My father died when I was six years old. My widowed mother, who was uneducated, came to Mumbai and did manual work to bring me up, and two meals a day was a challenge for us. I studied under street lights, walked barefoot until I was 12, and it was a Tata scholarship of 60 rupees per month, which came to my rescue. I am extremely glad to see how this University is taking education to hundreds of thousands of students and building their future."

Padmashri Awardee

Mr Gundappa Vishwanath

Honorary Doctorate for 'Sports and Fitness'

one of India's finest batsmen of the 1970s, with an international cricketing career that yielded more than 6,000 test runs in over 90 matches for India.

"I can think of no better teacher than Sadguru Sri Madhusudan Sai, whose life has been a lesson in humility for all of us. When Sadguru asked me to start a cricket academy for less-privileged children, I did not hesitate a moment. This was an opportunity to give children who may never have had the chance to play cricket—the same chance the game once gave a boy like me from Bangalore. I observe the discipline and enthusiasm in these children, and it reminds me that sports and education are not separate things. In fact, sports can teach values better than classrooms can."

Padmashri Awardee

Pandit Suresh Talwalkar

Honorary Doctorate for 'Music and Arts'

Taalyogi, as he is popularly known, Pandit Suresh Talwalkar developed a unique style of playing tabla that draws its beats from multiple Hindustani gharanas, and also from the Carnatic rhythm theory.

"I have come to believe that music as a talent alone is not enough; it requires a strong spiritual foundation. My faith in this has grown firm, and hence I am so glad to observe and know that there is a strong spiritual foundation that is being nurtured in this University."

Dr G N Singh

Honorary Doctorate for 'Public Service'

A Pharmacist who has contributed immensely for pharmaceutical regulation and standards setting, he has served in several key roles such as Founder Director of the Indian Pharmacopoeia Commission and Former Drugs Controller General of India.

"I am highly privileged to be in this campus. It is radiating a lot of energy for everyone. I never imagined such a beautiful campus would exist in India. I have never seen this kind of a spiritual and disciplined environment for students. India is looking forward to the service of these kinds of students who are morally strong and spiritually grounded."

HONORARY DOCTORATES CONFERRED IN ABSENTIA:

Dr C N R Rao

Honorary Doctorate for 'Science and Technology'

Recognised internationally for his contributions to solid-state and materials chemistry, Dr Rao served as the Founder President of the Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR) and Former Director of the Indian Institute of Science (IISc), during which time he helped build institutions that have supported generations of researchers and expanded opportunities for scientific discovery.

Dr Indumati Rao

Honorary Doctorate for 'Education'

For devoting more than five decades to developing resources that have enriched teaching and learning across schools and higher education.

Dr Sowmya Swaminathan

Honorary Doctorate for 'Healthcare'

She is an internationally respected paediatrician and researcher, who is widely recognised for her contributions to tuberculosis and HIV research and for her efforts to ensure that scientific evidence informs health policy and practice.

Sadguru Sri Madhusudan Sai, The Founder Chancellor of Sri Sathya Sai University for Human Excellence

"His Highness Maharaja, Yaduveer Krishnadatta Chamaraja Wadiyar gave three watchwords to the graduating batch – curiosity, courage, and compassion. These should be the North Star for the students. When you step into the world to serve, as you have committed to, be curious to find answers to many unsolved, unanswered questions that still trouble humanity—be solution-givers

and innovators. Keep the courage to stay true to your purpose of serving the society. And finally, allow your curiosity and courage to be driven by compassion, where you serve for the greater good of all humanity."

FARMERS RECEIVE CERTIFICATES FOR FARMING KNOWLEDGE:

INCLUSION OF FARMERS IN THE KNOWLEDGE ECONOMY

The Vision 2035 of the Sri Sathya Sai University for Human Excellence has the foresight to prepare and act before it is too late, for the sake of the most important lifeblood of the society, which is – agriculture, farmers, and nutrition. Being a University that has a Diploma course on 'Integrated Agricultural Sciences', the University has now taken up the flagship initiative of taking care of the farmers so that farming is taken care of.

The Farmers Certification Committee consisting of certification experts of traditional occupations developed a pioneering framework that adheres to ISO parameters, to evaluate and accredit traditional agricultural expertise. The committee gathered inputs from farmers, government agencies, and certification bodies to formulate a robust, inclusive scheme.

180 farmers were assessed with practical tools and theoretical standards, and 138 farmers were chosen for certification after stringent examinations.

The University's fifth convocation certified these 138 farmers, which included 12 women agriculturists.

The field knowledge of our farmers is far more reliable than mere bookish knowledge of a dozen intellectuals. Our farmers deserve respect, not just for their physical labour, but also for the immense knowledge that they carry generation after generation.

WE ARE BECAUSE YOU ARE:

HONOURING THE PAST, INSPIRING THE FUTURE

A moment that brought together **28 tyāgajīvis** who were drawn like bees to the idealism of Sri Madiyala Narayana Bhat, and those who dedicated their lives in love and service to Bhagawan Sri Sathya Sai Baba, was celebrated at Sathya Sai Grama on **31 July 2026**, in the presence of Sadguru Sri Madhusudan Sai. These chosen ones who have walked the path for several decades, standing the test of time, drawing their inspiration and motivation from the source of love they experienced from their mentor and master, and who continue to submit themselves in silent service as per the supreme will.

THE SERVICES

AUSTRALIA

From the Land Down Under

NUTRITION

- **3,000 meals** in the form of freshly cooked food, food hampers, ration packs, and grocery provisions were distributed in the regions of Murwillumbah, Brisbane, Melbourne and Perth to the homeless, elderly, refugees, mothers, and mentally challenged people.
- **100 Oloe Shakes** were distributed in Arnhem Land in the north territory of Australia to indigenous community members, pregnant mothers and growing children at the Ramingining Health Centre, and also to students at the Gutjanan Homeland School.

More than **224,000 meals** have been served to the needy since the commencement of the service in year 2017.

"The Kookaburra birds, the Kangaroos and the Koalas of Australia are famous. The Australians love to live amidst nature. The innocence and depth of wisdom in the indigenous people of Australia are something that I am so impressed with. They offer thanks to nature for the abundance it offers, and sing songs extolling the various elements of nature."

- Sri Madhusudan Sai

FIJI

From the Soft Coral
Capital of the World

Sai Prema Foundation Fiji

NUTRITION

With an intention to ensure that no Fijian goes to sleep hungry, the Sai Prema Foundation provides free monthly grocery packages to underprivileged families, as well as to eldercare homes, special-care institutions, and orphanages.

4.6 million free meals have been served ever since 2015. Every meal has taken care to fill a stomach, put a smile back, fill the heart with gratitude, and give a sound sleep.

EDUCATION

- **Sri Madhusudan Sai Institute of Human Values Fiji** has been established to nurture humaneness in people of Fiji by conducting workshops for children, training for teachers, and meditation sessions for all, thereby tuning the hearts and minds of people into their innate qualities of love, harmony, and joy.
- The Fijian chapter of the **Value Educate the World programme** has already begun in one of the schools in Fiji, where the **'Be Good, See Good, Do Good'** books have been given away as teaching resources, to guide the students into the world of values, and help them discover their innate values.
- In June 2026, a **'Children's Human Values Workshop'** was held at Sigatoka, which was attended by **45 children** and their parents. The workshop featured stories, role plays, songs, games, mindfulness exercises, and artwork classes.

A six-year-old child, Mira, was asked what she learnt from the workshop, and she said it so spontaneously – *"Love your family, be kind, be nice to everyone on the Earth."*

The parents were engaged separately to discuss their role in instilling and nurturing values in children.

HEALTHCARE

- **Sri Sathya Sai Sanjeevani Medical Centre**, which was established in 2018 as a free, high-quality, healthcare centre, provides general and specialist medical consultations to vulnerable people, differently-abled people, and to individuals suffering conditions of visual impairment, hearing impairment, and intellectual disability.

The Centre also houses a **Children's Diabetes Centre** and a **Children's Dental Care Centre**, which were established in partnership with Radhika Trust and Colgate Fiji respectively.

The Centre has organised many international medical missions, including diabetes and podiatry consultations, mental health outreach, and large-scale free eye-screening camps. **25,000 people** were screened in the free eye-screening camp which was conducted in partnership with Anekant Community Centre USA, and prescription glasses were given to many of them.

More than **82,000 consultations** have been provided completely free of charge at the Sri Sathya Sai Sanjeevani Medical Centre.

- **Sri Sathya Sai Sanjeevani Children's Heart Screening Centre** was established in April 2019 to offer completely free heart screenings for congenital heart disease (CHD) and rheumatic heart disease (RHD) in children. This is the first-of-its-kind facility which has been equipped with state-of-the-art echocardiography technology, including advanced 4D imaging systems that enable precise and early detection of heart conditions in children.

More than **54,000 heart screenings** have been done completely free of charge for children at the Sri Sathya Sai Sanjeevani Children's Heart Screening Centre.

- **Sri Sathya Sai Sanjeevani Children's Hospital** was established in April 2022 to bring world-class pediatric cardiac care to the entire South Pacific for no charge to the patients.

More than **470 little hearts** have been healed at the Sri Sathya Sai Sanjeevani Children's Hospital, completely free of charge.

In 2023, the Sri Sathya Sai Sanjeevani Children's Hospital Fiji was awarded the GBAC STAR™ accreditation by the Global Biorisk Advisory Council™ – a first for any hospital in Fiji.

JAPAN

From the Land of the Rising Sun

NUTRITION

- Cooked food and vegetables are delivered to local meal services and food distribution centres by the volunteers.
 - » **160 meals and 40 kgs of vegetables** were provided to a local meal services centre by three volunteers, during the month of June 2026.
- About 10 volunteers were engaged in distributing freshly prepared bento meals to homeless individuals who stay around stations, underpasses, parks and streets.
- **100 meals** were distributed during the month of June 2026, satisfying the hunger of **70 individuals** in Yokohama and **30 individuals** in Tokyo.

The Japanese Foundation also works in collaboration with other NGOs, corporations and municipalities to expand their nutrition services to the needy.

- In association with Choiceful Association, an NGO in Japan, the volunteers of OWOOF deliver food baskets packed with vegetables, rice, noodles, and dairy products to needy households with single-mothers and the ones that are economically-disadvantaged.
 - » The volunteers of OWOOF in Japan connect vulnerable families to other NGOs and government services, where their welfare will be taken care of, and will be closely monitored by the dedicated professional social workers of Choiceful Association.
- In association with Wakuwaku Delivery, **30 households** consisting of over **150 people** are served food twice a month.
- In association with Food Pantry and Free Meals, **five households** with more than **25 people** are provided meals every day.
- Tens of thousands of tons of cooked food which is available in surplus is delivered to needy households and the elderly all five days a week across six locations in Tokyo, by collaborating with the Ministry of Environment, the Consumer Affairs Agency, the Tokyo Metropolitan Government, and the Parliamentary League for Food Loss Reduction.
 - » This initiative has successfully mitigated the wastage of **841 kilograms of fresh food** and delivered **270 meals** to the needy every month.

SOCIOCARE

In the city of Kita-ku in Tokyo, eldercare is provided through weekly recreational activities and exercises conducted with the co-operation of the staff of the local social welfare centre.

- In the month of July 2026, the elders joyfully made cute origami crafts for the children who get treated at the hospitals of the One World One Family Mission in India.

At the Niigata and Kumamoto prefectures, tailored weekly visits are conducted by the volunteers to offer individualised support to the elderly.

A volunteer shares her story of sharing a watermelon:

"I harvested some watermelons in my garden and took it over to Mr and Mrs N's house. They were delighted to receive the first harvest of the season. The couple was overjoyed to hold a melon as big as a watermelon, straight from the farms."

Five distinguished young professional musicians from Japan participated in the One World One Family Wien festival which happened in Vienna, Austria in June 2026, and showcased the Japanese traditional performing arts called 'Gagaku.'

"The Japanese people are very courteous, kind, and hospitable. They greet everybody with genuine respect by bowing down, as they believe that divinity exists in all. In the Shinto shrines, there will be a mirror, and anyone who goes and stands there, sees himself or herself. This is because, they firmly believe that God is in each one of us right here, and not far away from us. The 'Wabi-sabi' philosophy of Japan, which is rooted in Zen Buddhism teaches us to accept things as they are."

- Sri Madhusudan Sai

MALAYSIA

From the Land that is Truly Asia

Sai Ananda Foundation

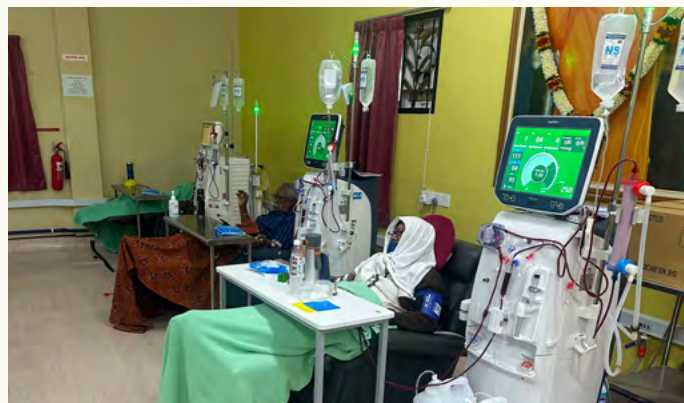

EDUCATION

- The **Early Education Centre** nurtures **20 young learners** with values-based holistic education, and also provides nutritious meals to them every day.
- A **Refugee Education Centre** provides values-based holistic education to **100 students**, who are also served nutritious meals every day.
- Moral classes are given the highest importance in the education centres by engaging children in activities such as role play, quizzes, storytelling, question and answer sessions, colouring and collage-making, while also setting some time apart from activities by helping children practice silent-sitting, positive affirmations, self-reflection, and values introspection.
 - » The value education books titled, '**Be Good, See Good, and Do Good**', which form a part of the **Value Educate the World** programme of the One World One Family Mission, and other materials from 'Education in Human Values' courses, come of great help to make the moral classes interesting for children.
- Games time is observed without fail, when students play in the pool, and run to pick up their sports equipment for outdoor and indoor games.
- Computer education is imparted to the students by introducing them to basic computer knowledge which includes Microsoft Word, Microsoft PowerPoint, Microsoft Excel...etc.
- Arts and Crafts classes attract the students a lot, as they find joy in drawing and painting creatively.
- Awareness sessions on dental hygiene and oral health are held for students, and weekly dental screening is conducted in batches of **10 students**.

HEALTHCARE

- A haemodialysis centre provides free-of-charge dialysis services to **26 patients**.
- A dental clinic serves **20 patients** every weekend.

NUTRITION

- Nutritious meals are served to **150 needy individuals** every day.
- Essential groceries and household necessities are provided to **100 needy families** every month.

More than **50,000 meals** have satisfied the hunger of the needy ever since 2022, sending out blessings and love to all.

SOCIOCARE

- Living allowance is provided to **30 needy individuals** who use them well to meet their daily living needs.
- A home survey was conducted for a needy family and immediate cash assistance was provided. Work is in progress for assisting them to procure a better dwelling place, and access other basic needs.
- A subsidised store is in operation to provide daily essentials, especially adult diapers, rice, and milk powder at a very affordable price to people.

NEW ZEALAND

From the Land of the Long White Cloud

NUTRITION

- **128 meals** were provided to the homeless by collaborating with local food banks and community organisations.

More than **6,300 meals** have been served to the homeless from May 2024 to July 2026.

SOCIOCARE

- Five rest homes of the elderly were visited during the week ends to spend quality time with the inmates, by engaging them in doing exercises and meditation, and also playing some music as a salve for their souls.

"New Zealand is a developed nation, yet they are so rooted in their ancient culture. The people of New Zealand are so connected to the Earth, the environment, and to each other. 'Hongi' is a traditional Māori greeting that they use, which means 'universal breath. When two Māoris meet each other, they press their noses and foreheads against each other to feel the breath of each other. This way of greeting is a reminder that we all share the same breath. This is how they see the interconnectedness of all existence."

- Sri Madhusudan Sai

SINGAPORE

From the Lion City

Marymount's Children's Home that houses girls aged 4 years to 18 years, and provides them a safe and happy environment away from abusive family conditions, further cares for these children through the 'values classes' that are conducted by the volunteers of Singapore twice a week.

40 girls attend the classes every week and feel greatly inspired.

1YOUTH Society and **Uplift Singapore** are communities formed by Sadguru Sri Madhusudan Sai in Singapore to cultivate a culture of values, love, selfless service, and holistic well-being.

"The first Prime Minister of Singapore, Mr Lee Kuan Yew built the country from ruins to a great nation by sheer hard work and talent. Singaporeans are people who are always willing to work hard. It is a small country, yet a highly developed nation in the world today. Singapore is one of the cleanest cities on Earth, and hence it is known as 'a city in a garden.'"

- Sri Madhusudan Sai

ALGERIA

From the Land of a Million Martyrs

NUTRITION

- **10 food baskets** were distributed to **10 underprivileged families** in the Batna province of Algeria in July 2026.

EDUCATION

- **Seven students** participated in a human values session that was conducted in Ksar Guerrara, Municipality of Guerrara, Ghardaïa Province. Sitting in a circle around a table, the students interacted freely and openly about the value lesson which presented real-life problems or situations to tackle. Critical thinking, self-reflection, and solution-oriented approaches to the problem were encouraged during the discussion. There was a value to be imbibed from every situation, and this was highlighted to the students.

SOCIOCARE

- Financial assistance of **14,000 Algerian Dinars** was provided to each of the three incarcerated individuals, who have been completely abandoned by their families.
- A single mother and her children were given financial assistance of **50,000 Algerian Dinars** towards completing the construction of their house.

"Algeria is a beautiful country, with sea on one side, and desert on the other side. There are so many rock formations there, which is their unique feature."

- Sri Madhusudan Sai

THE REPUBLIC OF KENYA

From the Home of the Safari

NUTRITION

450 students at Bunde School in Ahero receive warm and freshly cooked lunch twice in a week, bringing out the culinary taste and nutrients from rice, green grams, cabbage, tomatoes, and onions.

From January 2025 to July 2026, over **40,000 meals** have been served.

Children look forward to coming to school, and their enrollment has grown by 10%.

EDUCARE

27 children in the region of Ahero and Nakuru were provided with all the essentials for a good start to the new academic year, like school bag, school uniform, shoes, and most importantly school fees.

Collaborations: Upendo Foundation and Will2Liv charity organisations in Australia.

"When I went to Maasai Mara National Reserve in Kenya, I was not only fascinated by the animals there and the beauty of the place, but also touched by the humility and hospitality of the Kenyans. There are nice wooden cottages in the reserve, and in the morning when we open the window, we can see a giraffe or an elephant standing right next there. Kenya is a beautiful place full of simple and humble people."

- Sri Madhusudan Sai

LEBANON

From the Land of the Cedars

NUTRITION

- **20 ready-made Lebanese Manakish** were provided for a nursing home.
- **10 food baskets** containing rice, oil, cereals, fruits, vegetables, and some cleaning materials and preservatives were provided to another nursing home.
- A cake was presented for an orphan girl on her birthday.

More than **350 meals** have been served to needy individuals from the commencement of the nutrition service in the year 2024.

EDUCATION

\$100 has been provided as educational assistance to a student pursuing higher education.

HEALTHCARE

- Medicine is sponsored for **five patients**, and financial assistance is extended to needy patients who want to get medical tests done.
- Donations are made to Khayr Al Qoloub foundation, a major international Muslim aid and humanitarian organisation that also provides healthcare aid to people.

SOCIOCARE

- Feeding animals
- Cleaning the country's playground
- Distributing clothes to a poor woman and a person with special needs.

"The great poet, Khalil Gibran belongs to Lebanon. His profound thoughts on various subjects have always left a deep impression in my heart."

- Sri Madhusudan Sai

MALAWI

From the Warm Heart of Africa

NUTRITION

- School Feeding Programme was implemented in three primary schools in Malawi, where Likuni Phala (a kind of porridge) was prepared every day including weekends, and distributed to **1,877 children** in the month of July 2026.
 - » 655 children in Mwandama Primary School at Zomba district
 - » 845 children in Bwanyundo Primary School at Dowa district
 - » 377 children in Chisasila Primary School at Nkhata Bay district

Every day, the Malawi OWOF Foundation provides 40 kgs each of Likuni Phala flour to Mwandama Primary School and Bwanyundo Primary School, and 12 kgs of Likuni Phala flour to Chisasila Primary School.

More than **122,000 servings** have been provided to over **1,877 children** from April 2026 to July 2026. As the children burped, they smiled, bringing smiles to the teachers and parents as well.

SOCIOCARE

- **Shining the Light of the Sun into the Dusk and After:** Solar lighting is being installed in households where they do not have electricity, because there are school-going children who are unable to perform their studies after sunset.

The plan is to install 350 solar home lighting systems in Group Village Headman (GVH) Mtogolo, Traditional Authority, Malemia, Zomba district. In its first phase, **108 households** will be prioritised, to help school children get their lights first.

Candles and paraffins do not have to burn themselves anymore in the Zomba district of Malawi.

- **Going Beyond Youth** is a project that has been undertaken by the volunteers of OWOF in Malawi under the non-profit organisation called HeR Liberty, in order to empower rural youth with the skills for entrepreneurship and leadership.
 - » Digital skills, financial literacy, business planning, leadership mentoring, and entrepreneurship development training are imparted to **25 rural youths**, getting them ready to become empowered and confident to lead self-reliant and contributing lives.

- The Eighth **Community Clean-up Initiative** was conducted in July 2026 when the volunteers of Malawi went out to the streets of Namwela Turn-Off Market in Zomba District to collect plastic waste and clean up the space. Awareness sessions were conducted to bring civic consciousness into the minds of people about hygiene and environmental conservation.

The community members and youth also came forward to clean along with the volunteers. Community leaders and the Market Chairperson expressed their appreciation to OWOF Malawi for this initiative.

Cleaning a space restores the real space back to us!

NIGERIA

From the Giant of Africa

Spiritan Self Awareness Initiative

NUTRITION

- Biarienu, which in the Igbo language of Nigeria means 'come and eat', is a food programme that provides nutrition to young school-going children.

Through the **Biarienu Food Programme**, freshly prepared nutritious vegetarian meals were served to **850 children** which includes the children of TELA, the Community Primary School at Akama Oghe, Enugu State, and St Patrick's Primary School, Amankwo Ndiagu, Enugu State.

The children and their families no longer have any qualms about their nutritional requirement on all the 22 school days of the month.

156 staff members working in Joy village in the various healthcare and education projects are also served food every day.

Biarienu Food Programme has served **752,000 nutritious vegetarian meals** to children since its commencement in the year 2013. This is equivalent to 752,000 times when the families of these children didn't need to worry about how their children were going to eat for the day.

- **Old is Gold** is a programme meant to revere the hands that have turned old over time, by way of serving them nutritious food. **157 needy elders** are being cared for in this way every month.

Old is Gold programme has taken care that, through the **28,000 monthly food packs** that were distributed since 2020, the elders have been restored with hope and joy, just in the feeling that there is someone for them, when they are unable to fend for themselves.

EDUCATION

- **1,137 deserving children** from **27 surrounding villages** of Enugu State joyfully learn at **The Embodiment of Love Academy (TELA)** in Joy Village.
- The **Value Education Books, 'Be Good, See Good, Do Good'** from the Value Educate the World programme of the One World One Family Mission are integrated into the classroom instruction across all levels in TELA – from daycare to secondary school.
- Interesting values-based activities like 'Quote of the Week', 'Human Values Story' are held every week, in which all the 1,137 children of TELA participate.
- Teachers' Prayer is held three times in a week. **74 teaching staff** participated in the teachers' prayer.
- A **'Resonance Programme'** is held for secondary school teachers every month. **28 teachers** participated in this programme and were mentored by senior facilitators.
 - » To 'resonate' is to align with the larger goal of the education mission of TELA, which is to bring love as the central human value into the system. The focus is on helping the new teachers adapt to the culture of the institution and become good values educators, and going all out to give them the needed personal time to clarify their doubts, listen to their challenges, and allow them the space and time to feel a part of Joy Village and its vision.

- A **'Femmecare Programme'** for girls, which is organised twice every term, focusses on the well-being of pubescent girls, which includes aspects of not only their menstrual hygiene and physical well-being, but also their emotional and social well-being. **171 girls** benefitted from this programme.
- A **'Steward of Virtue'** Programme, which is held twice every term for the boys, came in useful for **155 boys** who participated. This is dedicated to young boys who need a forum to discuss their struggles and pressures, and find a way to stay grounded and confident.
- A **'Career Choices Workshop'**, which is held every academic term, was organised during this ongoing third term, in which **237 Junior Secondary School students**, including 60 students preparing to transition into Senior Secondary School, participated and benefitted immensely.

- The Annual Cultural Day Celebration, which was held on 16 June 2026, brought together **808 students** across the primary and secondary schools to join hands, sing tunes, and dance in glee to celebrate and relive the Nigerian cultural heritage.
- The TELA Skills Acquisition Centre provides vocational training in Fashion Design, Computer Packages, and Computer Hardware Repair. **76 members** are learning these skills at the TELA Skills Acquisition Centre.

HEALTHCARE

The **Aruike Specialty Hospital** in Joy Village provides completely free, quality healthcare services through outpatient consultations, laboratory investigations, maternal healthcare, pharmacy services, specialist medical care, and surgical interventions.

More than **212,000 patients** have been restored to good health ever since 2016 at 'Arụ ike', which in the Igbo language of Nigeria means 'good health.'

Over **2,900 surgeries** have been performed completely free-of-charge.

The **Sunshine Vision Outreach Programme** was held in June 2026, for the second time in this year. **304 cataract surgeries** were performed without charging a penny from the beneficiaries, and all 304 walked out to see the world in its light as it is.

616 free cataract surgeries have been performed in 2026 — their eyes expressed their joy lucidly more than ever before.

SOCIOCARE

- **33 orphaned children** are sheltered at the **Heart of Love Children's Home**—truly a home, that nurtures them with nutrition, education, healthcare, accommodation, emotional care, clothing, and above all giving them a large family itself at Joy Village.
- **Liquid Love Water Project** provides access to clean drinking water for several people in the neighbouring communities.

"Nigeria is always so dear to me, because of Joy Village and its Founder, Late Father Charles Ogada. The choir of Joy Village gives me a lot of joy. Some of the children from Joy Village studied in our institutions in India, and a few of them are currently pursuing medical education in our Institution."

- Sri Madhusudan Sai

SENEGAL

From the Gateway to Africa

HEALTHCARE

At the Kouthiaba region of Senegal, **25 to 30 beneficiaries** receive medical consultations, medicines, and referrals on a weekly basis – an initiative done in collaboration with the Italian association, Gocce di Sorriso.

SRI LANKA

From the Pearl of the Indian Ocean

EDUCATION

Sri Sathya Sai Vidyanilayam International School, Talawakelle

- SaiSure multinutrient supplement is provided to the school children every morning
- A new assessment board was formed to streamline evaluation processes in March 2026
- Free shoes, textbooks and exercise books were distributed to students in February 2026
- School Prefects – Junior Prefect, Senior Prefect and Head Prefect were chosen based on their leadership qualities, discipline, and sense of responsibility in March 2026
 - » In the month of June 2026, **12 Prefects and 10 Mentors** were inducted.
- Students were carefully selected for the British Lanka Festival for Performing Arts competition in March 2026
- Practical evaluation instead of traditional written test was conducted in March 2026 for the First Term students, as per the announcement received from the Government
- A special Science Evaluation test was conducted to assess students' understanding and knowledge in March 2026
- A 'Scribbling Day' was dedicated for the newly joining kindergarten children in March 2026
- The management and staff held discussions with Science Union, Human Excellence Education Union, and Invention Convention during February and March 2026
- Food and clothes were distributed at an elder care home by the students in February 2026
- The kindergarten students were taken on an exciting educational trip to an aquarium where they explored a variety of marine life in June 2026
- A Karate Grading Programme was conducted for 22 primary and secondary students in June 2026. All of them successfully attained the Yellow Belt
- Poya days, as per the Buddhist tradition, were celebrated by distributing free meals to the needy, by the students, staff and parents

HEALTHCARE

Sri Sathya Sai Karuna Nilayam Foundation

The **Sri Sathya Sai Sanjeevani Hospital** in Batticaloa provides outpatient services comprising medical consultations and medications, and cardiac interventions in its Cath Lab—all completely free of charge to all the patients.

In the month of July 2026, there were **1,208 walk-in patients** for consultations, and **91 patients** who were saved through timely cardiac interventions.

From the commencement of the Cath Lab services in June 2023, **4,420 patients** have been treated.

More than **74,350 patients** have been provided outpatient services from August 2017 till July 2026.

NUTRITION

Over **1,700 freshly cooked lunch parcels** were distributed three times a week to the elderly, needy, and vulnerable families, three times in a week, during the month of July 2026.

More than **123,000 lunch packs** have been distributed to the needy ever since the year 2020.

"Sri Lanka is the best place to take a break, because it is fresh, clean, green with rolling tea plantations, and the water and air are so crisp and pure. It is truly an emerald island."

- **Sri Madhusudan Sai**

THE KINGDOM OF SAUDI ARABIA

From the Land of the Two Holy Mosques

NUTRITION

- **20 cartons of provisions** were distributed to **20 families**. Each carton contained 5 kgs of basmati rice, 5 kgs of sugar, 1.5 litres of cooking oil, 10 packets of tomato paste, 25 grams of tea, 25 grams of baking yeast, and 25 grams of phyllo dough cubes.
- **Ten packets of meals** containing pies, juices, and biscuits were distributed to the workers.

SOCIOCARE

- In Riyadh, an orphan who also was surviving a disability was helped by finding him a fully furnished apartment to stay comfortably.
- For four consecutive months, the house rent has been paid by the Foundation for a family in the Najran region, who are struggling with severe financial shortage.

THE REPUBLIC OF YEMEN

From the Land of Coffee and Trade

NUTRITION

In Yemen, **35 cartons of provisions** were provided to **35 families**. Each carton contained 5 kgs of basmati rice, 5 kgs of sugar, 1.5 litres of cooking oil, 10 packets of tomato paste, 25 grams of tea, 25 grams of baking yeast, and 25 grams of phyllo dough cubes.

SOCIOCARE

In Yemen, a public well has been dug for the benefit of all.

"The Arabic nations are very good at their artwork and handicrafts. The Islam religion is all about compassion and surrender to the Divine."

- Sri Madhusudan Sai

TUNISIA

From the Land of the Jasmine

SOCIOCARE

Beating the heat of Tunisia was taken as a service opportunity by the OWOOF volunteers in Tunisia. They provided four electric fans and medical air mattresses to an eldercare home.

Cold water bottles were distributed to the passersby and the homeless.

Every adversity is an opportunity for the volunteers of OWOOF.

UGANDA

From the Land of the Mountain Gorillas

NUTRITION

- The children in the nursery school and primary school of Morkiswa community, and other children who are home-bound are served locally fortified porridge and a nutritious lunch consisting of maize and beans, **five days a week, twice a day**.

238 primary school children, 72 nursery kids, 18 home-bound children, 9 toddlers, and 3 disabled kids savour the fortified porridge and lick it to their heart's content.

HEALTHCARE

- Over 100 children who suffer skin rashes and related skin diseases have been treated appropriately with the assistance extended by the OWOF volunteers
- Skin rash prevention and cure creams were distributed to over **100 children** who suffered skin rashes and related skin diseases
- Parasitic Deworming is administered to the children through appropriate medication regularly. This prevents infections and stops the growth of worms in the stomach

"African songs have a lilting rhythm, which every child in Africa is ingrained with. They are all so energetic and rhythmic. Their native rhythms are so beautiful because they are all nature lovers. They lived with nature, observed the animals and birds and developed rhythms of their own. The joy that the Africans bring always excites me."

- Sri Madhusudan Sai

BELGIUM

From the Land of Chocolates

NUTRITION

Belgium has been distributing food/ meals in various locations where there is a dire need, and has also been sponsoring food distribution across the East African country of Malawi.

The country started its service initiatives in November 2024.

- Meals distributed in Belgium as of July 2026: **393 meals**
- Meals distributed as of July 2026 in a school at Chabwera village in Malawi funded by Chabwino, a non-profit organisation in Belgium: **2,068 meals**

REGION 3

In the month of March 2026, there was a surprise spike in the meals distributed in Malawi, rising to 1,000 meals. Thanks to the generous contribution made by our kind sponsors.

Bonding to Love and Serve: The Belgian team organises a variety of spiritual and community-oriented activities like yoga workshops, forest walks, chanting of spiritual hymns and many other such team bonding activities to bring more cohesion and joy, to align to a greater purpose, and to live the values of love and selfless giving.

"Humanity cannot progress in isolation. Societies grow stronger only when they collectively care for the weak and vulnerable."

CROATIA

From the Land of a
Thousand Islands

Zaklada Ananda (Ananda Trust Croatia)

NUTRITION

- **180 meals were served** to the homeless and indigent people by the volunteer group 'Sreća' (meaning 'Happiness') in collaboration with Savao Association. Homemade cakes, fruits, yogurt, milk, and juice are packed along with the meals, and hygiene supplies are also provided every month.

9,780 meals have been served from November 2019 to June 2026 by the Group 'Sreća' (Happiness).

They serve just like how they would serve their family—not just providing what is needed, but also giving what people would love to eat.

- 'Zajedno u ljubavi' (Together in Love) initiative brought together volunteers who cooked **30 warm vegetarian meals** and packed them for the needy.

From January 2026 to June 2026, **166 warm cooked vegetarian meals** have been served and **196 food packages** have been distributed. The food packages are packed each with a vegetarian sandwich, fruits, sweets, chocolate milk and juice.

EDUCATION

- The **European Institute of Human Values** in Croatia implemented values education through the '**Be Good, See Good, Do Good**' values education book in eight Croatian schools for one whole year, and it was successfully completed this July 2026.

More than **2,000 educators** have participated in the Value Educate the World Programme. More than **30 teachers and 300 children** have been immensely benefitted by the 'Be Good, See Good, Do Good' values education books.

- The volunteers in Croatia who are dedicated to the task of translating the spiritual messages of Sadguru Sri Madhusudan Sai have completed 30 books from English to Croatian, which have been purchased by 70 people in Croatia.

SOCIOCARE

- 'Ljubav bez dužnosti' (Love Without Obligation) project supported **30 needy individuals** with food and hygiene packages.
 - » The project also provides additional help for procuring household appliances and furniture, and gives medical support.
 - » **10 families in Krnjak** are provided with food and other basic necessities on a monthly basis by 'Ljubav bez dužnosti' project together with 'Ljubav i Mi' (Love and We) Association.
- 'Lasa' initiative is undertaken by 15 volunteers who support **five families in Koprivnica-Križevci County** with food, clothing, shoes and school supplies on a quarterly basis, especially to provide for the kindergarten and school children.
- 'Ljubav i Mi' (Love and We) Association does the following activities:
 - » Conducts monthly meditations with 60 participants

- » Collects funds to support Joy Village Nigeria – 2,200 USD has been donated to Joy Village.
- » Planting flowering plants and mowing the gardens
- » Conducted a Youth Retreat in the Casa del Divino Centre for Human Development in Assisi (Italy) and participated in cleaning the premises

More than **1,000 aid packages** consisting of food, clothing, furniture, and appliances have been distributed.

"Croatia is so much like India. Their language has a lot of similarity with Sanskrit. They originally belonged to the Sindu-Saraswati civilization, which they call Hrvati now. This is why the Croatians are naturally good at chanting mantras and vedas. The Croatians are very much Indians in their core, and they adapt to the Indian culture very easily."

- **Sri Madhusudan Sai**

GERMANY

From the Land of Poets and Thinkers

NUTRITION

- **200 packets** of rice, lentils, grains, pasta, flour, sugar, and other basic ingredients are donated to the local food bank (Tafel) in Bad Krozingen
- **10 kgs of homemade cookies and baked foods** have been distributed for the elderly
- **3,600 cooked meals** have been served for the homeless in Munich in collaboration with Aktion Brücke: Homeless Aid Munich
- Vegetarian lunch is provided three times a week for needy people near Leipzig
- Food bags are distributed to the homeless three to four times in a year

SOCIOCARE

- Providing needy people with warm shelters and other support aids during the cold season using the 'Warming Buses' in Bremen
- Conducting singing sessions for the nursing home residents near Leipzig
- Handmade scarves are distributed to needy people during the cold season, in association with Tafel organisation
- Clothes are distributed to homeless people in Munich in collaboration with Aktion Brücke: Homeless Aid Munich

- Christmas gift boxes are distributed to needy people during the Christmas season

"Germany and India might be geographically apart, but they are spiritually very close. The Germans have a good understanding about upaniṣads and vedas. In many German schools, learning Sanskrit is compulsory. The Germans also strive for perfection and excellence in everything they do."

- Sri Madhusudan Sai

GREECE

From the Cradle of Western Civilisation

Μοιράζομαι

Sharing with Others Foundation

"Greece is so beautiful with its olive trees, beaches, perfect azure blue sky skies and blue waters. One can easily lose oneself in its beauty. This must be the reason why there were so many philosophers in Greece. In fact, Socrates was the first person to pronounce 'I am a world citizen', as he believed that he belonged to the whole world, not just a community or country."

- Sri Madhusudan Sai

NUTRITION

10,000 cooked vegetarian meals and sandwiches are being distributed every month to children's homes and a centre for the homeless, by 10 to 20 volunteers who prepare the meals twice every week in their own social kitchen.

"True spirituality lies in inner transformation rather than external practices, and this only means to cultivate unconditional love through selflessness and service."

KAZAKHSTAN

From the Land of the Great Steppe

Общественный фонд «САИ»

Public Foundation "SAI"

NUTRITION

- **250 meals** are distributed on a monthly basis to needy people near the Cathedral and Mosque at Almaty. The meals include sandwiches, biscuits, candies, and hot tea.
- **300 individuals** at the Rehabilitation Centre for Homeless are served fresh vegetarian meals including bread and cake during every visit, done in association with 'Sources of Goodness' Foundation.

SOCIOCARE

Six families with single mothers and three to four children were supported over a period of years with food, hygiene products, and care packages. This assistance has helped the families stabilise themselves, by improving their living conditions and educating their children from schooling through higher education.

"The people of Kazakhstan are very artistic, musical, expressive and subtle. Since it is located in Central Asia, and partly in Eastern Europe, it has a blend of European and Asian culture. They were on the 'silk route', because of which they have imbibed a lot of cultures from different people, and are today a multi-faith country that lives together peacefully and progresses rapidly."

- Sri Madhusudan Sai

NORTH MACEDONIA

From the Land of Alexander, the Great (ruler of the ancient kingdom of Macedon)

Financial support of €1,058 to €1,309 is offered on a monthly basis to a daycare centre at Shuto Orizari, Skopje, North Macedonia since October 2025. The centre houses **35 street children**, and the financial aid provided by OWOF supports their education, meals, medicines, and other operational expenses of the centre.

800 food packages were distributed to the families of these children during July 2026.

More than **1.8 million meals** have been served to the homeless and needy since February 2018.

One tonne (1,000 litres) of water has been donated for **25 homeless families**.

"Mother Teresa came from Macedonia to India to serve the poorest and downtrodden. She was doing God's work on Earth by serving those who were rotting in the streets, to such an extent that no one would even go near them. I am so grateful for what Macedonia has done for India in this manner."

- Sri Madhusudan Sai

SPAIN

From the Land of the Setting Sun

Fundación Sai Amor
(Sai Love Foundation)

NUTRITION

- At Santa Cruz de Tenerife in Canary Islands, **75 to 80 food bags** consisting of both hot and cold food are packed every quarter, and distributed to the needy in collaboration with Las Hermanitas de la Caridad (Little Sisters of Charity).

2,500 food bags have been distributed from the year 2021 until July 2026

- At Las Palmas de Gran Canaria in Canary Islands:
 - » **12 food bags** are prepared every week, one each for 12 families
 - » **72 sandwiches** are prepared and offered to a soup kitchen that belongs to OSDAD (a non-profit organisation) every month
 - » Afternoon snacks are prepared and served for 15 residents in OSDAD nursery home once every two months
- At Orense, surplus food is collected from bakeries and supermarkets twice a week, and delivered to a parish church in collaboration with Caritas Diocesana (an official Catholic church organisation) to distribute it to 12 families, consisting of about 50 members.

SOCIOCARE

- At Las Palmas de Gran Canaria, the volunteers of OWOOF accompany 15 residents for a walk, from a nursing home that belongs to a non-profit organisation, Cruz Blanca.
- At Barcelona, cleaning and hygiene products are delivered to the residence of the Little Sisters of Charity, once in every two weeks
- At Orense, weekly group meditation sessions are organised, and clothes are donated to the clothing bank, in collaboration with Diocesan Caritas relief agency
- At Barcelona, warm clothing is distributed to the needy during the winter season, and a prayer group is formed for the elderly
- At Las Palmas de Gran Canaria in Canary Islands, Om chanting services are offered in collaboration with the group of the spiritual master, Paramahansa Vishwananda

EDUCATION

The volunteers of OWOF in Argentina contributed to the values education for Spain by translating the 'Be Good, See Good, Do Good' value education books into Spanish, by adapting it to the Spanish culture. These will come of great help to implement values education for Spanish children.

"The people of Spain are very simple-hearted. Spain is culturally rich. Their music is so charming that it cannot but urge people to get up and dance. Almost everyone in Spain is either a singer or a dancer. Theirs is a very happy culture, and they really know how to express their joy through dance, music, and art."

- Sri Madhusudan Sai

THE REPUBLIC OF SERBIA

From the Land of Plums

Udruzenje Sanathana Dharma

Association "Center Zora and We" which in Serbian language means 'daybreak or dawn' conducts numerous service initiatives in Serbia and also in other countries, ever since 2012.

- **6,628 participants** have benefitted from the seminars and workshops conducted for personal development and well-being

EDUCARE

- Hygiene products, books, and educational materials are distributed to elementary schools in Resnik, Sopot, Mala Ivanča, Vrtoš, and Davidovac

The humanitarian support network of Association "Center Zora and We" includes the following:

- Children without parental care at "Drinka Pavlović" and "Moša Pijade" children's homes in Belgrade
- Residential homes in Veternik and Umka, the "Sremčica" institution in Belgrade, and the home at St. Petka Monastery
- Socially disadvantaged families from Čačak, Zemun, Novi Sad, Žitorađe, Zemun Polje, and Belgrade
- Daycare centers for children and persons with developmental disabilities in Mirijevo and Obrenovac
- Zvezdara Clinical Centre for diaper distribution for people with disabilities

NUTRITION

- **6,888 meals** have been distributed to the socially disadvantaged people
 - » **2,908 meals in Serbia**
 - » **3,820 meals in Nigeria**
 - » **160 in Croatia**
- Through localized food distribution initiatives, an additional **3,960 solidarity meals** were distributed
- **150 meals** are being distributed every month for the socially disadvantaged in cooperation with the Solidarity Kitchen from Novi Sada

SOCIOCARE

- **4,116 socially disadvantaged individuals**, which includes people with special needs and entire families have received essential supplies like undergarments, clothing, footwear, and basic hygiene products
- **Elderly care** was provided by assisting them with their daily needs over 600 times

Know more about Association "Center Zora and We":

- **Instagram:** centarzoraimi

SLOVENIA

From the Green Heart of Europe

NUTRITION

- Food provisions are delivered every 14 days to the charitable organisation, Zveza prijateljev mladine Anita Ogulin (The Anita Ogulin Association of Friends of Youth), which supports **60 families**. Shelving units were also donated to the charitable organisation to safely store the food provisions. More than **5,800 meals** have been prepared using the food provisions from March 2025 till date.
- An extremely poor man who was found rummaging the garbage bin for food was immediately provided with fresh food, and this is now being done on a daily basis.

SOCIOCARE

- An elderly terminally ill patient was taken care of, until she had a peaceful end
- Electricity bill is paid for a needy family in Bosnia and Herzegovina
- Financial aid was sent to Bosnia and Herzegovina during floods
- Monthly donations are made to UNICEF
- Contributions have been made for the purchase of two beds in the free 600 bed multi-speciality hospital at Sathya Sai Grama, India
- A 10-year-old boy and his father from the village of Gantiganahalli, near Muddenahalli (India) were identified by a Slovenian volunteer, and were provided with food, clothing, and medication for more than a month, after which the Foundation in India took complete care of the boy.

"In Slovenia, people maintain home gardens where they grow their own fruits and vegetables. For them, it is not only about self-sufficiency, but also about respect for nature. It is only because of God-given natural elements that food grows. Therefore, respecting nature, farmers and food is an integral part of their culture."

- Sri Madhusudan Sai

SWITZERLAND

From the Land of the Alps

At the city of Zurich, **80 freshly prepared vegetarian meals** are cooked and served for dinner every month to the needy.

The meals are prepared by the volunteers themselves while engaging in the chanting of holy hymns, thereby creating positive thoughts and good will for all.

More than **600 meals** have been served from March 2025 to July 2026, bringing hope and faith in humanity and in goodness in the hearts of all.

"Switzerland is heaven on Earth. The country is beautiful and its people are well taken care of by their government. The people work hard, and the government ensures all its citizens are educated, healthy and socially well-placed. They have the largest banking and financial system in the world."

- Sri Madhusudan Sai

TURKEY

From the Crossroads of the World

Karşılıksız Hizmet Vakfı
(**Selfless Seva Trust**)

NUTRITION

- Meals prepared from three community kitchens are distributed on a weekly basis to **1,000 individuals** across Istanbul
- Milk, yogurt, and bread are distributed once in a week to the needy

SOCIOCARE

- Food aid and temporary kitchen arrangements are made for earthquake victims
- Rental assistance, electricity bill payments, water bill payments, medication support, and dry food packages are provided to needy families every three months
- **10 tons of firewood and charcoal** are distributed in a month at three regions of Istanbul, thrice during the winter season

EDUCARE

- Value Educate the World' project members have completed the translation of the Value Education Books for its effective use across schools in Turkey.
- Five students pursuing higher education, which includes three who are doing Medicine, are given scholarships

HEALTHCARE

Plans for construction of a free Children's Heart Hospital within the premises of a new Centre for Human Development are underway

"Large scale transformation is possible when compassion is combined with efficient delivery models and strong partnerships."

"The Whirling Dervishes of Turkey are a beautiful form of worship and art performed by the followers of the great philosopher, Rumi. Turkey was also on the silk route, and hence they have markets that sell both European and Asian products."

- Sri Madhusudan Sai

BRAZIL

From the Land of Football

NUTRITION

The Comida do Bem Programme (Good Food Programme)

At Brasília City Centre, **800 to 1,000 meals** are served every month to almost 900 homeless individuals, on a weekly basis.

More than **72,000 meals** have been served from July 2019 to July 2026 to individuals for whom this was the only meal of the day.

EDUCATION

An annual Human Values Workshop was held during the Maria Flor Festival at Ibitipoca, Minas Gerais. **40 members**, both children and adults participated in the workshop.

GUATEMALA

From the Land of Eternal Spring

NUTRITION

- At Aldea El Orégano, a rural community in Guatemala, **34 families** comprising 142 members are served nutritious meals every month.

More than **550 food baskets** have been distributed since February 2025 to 165 people.

- Meals distribution also happens at Amparo de San José Charity Home, La Sagrada Familia Boarding School and Congregation of Sisters Clarisas (the Order of Santa Clara).

SOCIOCARE

- A needy family, where the mother and her children are blind, and the father is paraplegic receives support for food and other requirements.
- Mrs Milita and Mr Evaristo, an elderly couple who live on their own in a rented room are given the needed support. Several other elderly people are also supported with food, finances, and medicine.
- The Nolasco family, who are very poor, are supported.

More than **74 basic food baskets** have been distributed to needy families and to the institutions of Amparo de San José Charity Home, La Sagrada Familia Boarding School and Congregation of Sisters Clarisas since March 2025.

HEALTHCARE

- An annual medical health fair was organised with dentists, paediatricians, general physicians and a chiropractor, in which 24 healthcare professionals participated and provided medical assistance to **91 individuals**.

"The old Mayan civilization prevailed in Guatemala, which the people of Guatemala hold on to and live. Despite so many invasions and cultural contamination over a period of time, they still have held on to their original ancestral values."

- Sri Madhusudan Sai

VENEZUELA

From the Land of Grace

EDUCATION

Four primary school children and two university students receive educational scholarships to cover transportation costs and purchase of essential study materials.

SOCIOCARE

- Six bunk beds and one single bed along with two sets of bed sheets, blankets, and pillows for each bed were donated to Dr José Gregorio Contreras Children's Home, benefiting **13 children** who had lost their families during the earthquake.
- Food, clothing, medical supplies, and other essential personal hygiene items were collected for the victims of the earthquake, and were transported directly to Pérez Carreño Hospital in Caracas. Numerous emergency kits were also distributed to the ones affected by earthquake.
- A family of five from La Guaira lost their home in the earthquake and later relocated to Barquisimeto. The volunteers donated a bedroom furniture set, a refrigerator, a stove, and various other household essentials to help them establish their new home and rebuild their lives after the tragedy.

The father who was working as a transport driver was provided with three new tyres for his vehicle, along with financial assistance for its repairs, so that he can resume work.

"The Angel Falls in Venezuela is a big attraction. It is so tall that it looks as though it connects the sky and the earth. Venezuela is so rich because of its oil and gas reserves. Despite facing very difficult times, the Venezuelans have the heart to rebuild themselves while helping others also."

- Sri Madhusudan Sai

IMPACT STORIES

"WHEN IS THE VEGETARIAN MEAL TEAM COMING AGAIN?"

The beneficiaries in Zurich who receive the warmly cooked vegetarian meals from the OWOF volunteers every month eagerly await that day.

Many times, the beneficiaries express to Speak Out Zurich to say how good they feel when the OWOF volunteers come, not just for the homely food they bring, but also for their loving hearts and the warm conversations.

The consistency of the meal service is the most important factor that ensures stability and brings trust in the genuine care that the OWOF volunteers have for their people in Zurich.

The volunteers of OWOF engage in group chanting of holy hymns in a synchronised way, to infuse the food with subtle sound waves that carry positivity and goodwill.

A visitor who walked into the kitchen space for the first time said,

"The ambience created by the volunteers here by cooking vegetarian food, maintaining cleanliness, and doing mantra chanting made me feel so calm and serene. I never expected this kind of warmth in a public setting. I felt so much lighter emotionally after partaking of the meal. I would definitely like to return to this space for a plate of food along with a taste of peace. I thank the volunteers for bringing light into the city."

STREET CHILDREN ARE NOW SECURE IN NORTH MACEDONIA

In North Macedonia, a Daycare Centre takes care of street children with the help of the financial support extended by the OWOF volunteers every month. The funds provided by OWOF are almost like a lifeline for the centre, as they were suddenly cut off from all financial support from the Ministry of Social Policy for more than a year, during which time they could not even pay salaries to their employees. Despite these hardships, the staff of the Daycare Centre were so dedicated that they continued their services for the children, even as they were struggling to surmount the challenges of the spiking operational expenses.

In a desperate moment, the authorities decided to close the centre and find other alternatives for the children. And suddenly

A volunteer says, "Their eagerness to receive us, and the smiles on their faces when they see us is immensely gratifying. They open up to us freely during the meal, and at the end of the day, I feel so grateful for the opportunity when I realise how every minute spent cooking and cleaning was worth it."

LET'S LEARN THE ART OF COOKING FROM THE SWISS

In Zurich, it is not just about packing food and serving. It is about the volunteers doing it all by themselves – cutting vegetables, cooking, and cleaning, just like one would do for one's own family. Over and above these, cooking food is not just a task, but an act of worship.

there was that fortunate stroke of serendipity, when OWOFF learnt about the centre, its genuine cause, and its good people and their work, and decided posthaste to participate in saving the street children by supporting the Daycare centre financially.

Saving 35 children means a lot to OWOFF, to the Daycare Centre, to every child and their families, and to that source of compassion itself which is the same in all. The children now feel secure and safe; the Daycare officials and employees are now more enthusiastic to continue doing good work.

FOOD NOT ONLY FILLS STOMACHS, BUT ALSO EDUCATES CHILDREN IN GUATEMALA

There are some children in Guatemala who could not attend school because they had no food to eat at home. Their parents have an early day at work every day, and they leave the younger children in the care of the older ones, and head out to earn their wage for the day. It is to these children that OWOFF members in Guatemala serve food.

Six children are now back to school with their bags and books, walking joyfully with a spring in their steps.

CHILDREN DO NOT NEED BIG THINGS TO BE HAPPY—A BUNK BED IS ALL IT TAKES!

In Venezuela, earthquakes have swallowed families altogether, and sometimes spared the children but taken away their parents and siblings from them. The country has lovingly sheltered these kinds of children in several children's homes.

To one such home, the OWOFF volunteers in Venezuela donated bunk beds. The children who were sleeping on floor mattresses now have their own beds arranged like stairs, one on top of the other. The excitement of climbing onto the upper bunk feels like a scene out of a fairytale for these children.

The joy of childhood in simple things is so precious, and this needs to be restored to every child on earth.

ZABLON OKOTH FOUND HIS SAFE HAVEN

He is a 16-year-old boy from the village of Ahero in Kenya, who is specially abled because of cerebral palsy, which has diminished his motor and intellectual functions. The Bunde school in Ahero does not have the infrastructure to support free wheelchair navigation for Zablon. However, the One World One Family volunteers of Kenya temporarily arranged Zablon's schooling at Bunde, while they were simultaneously working to find a suitable school for him. In this year 2026, Zablon has finally found his place – a safe haven that is his own – it is a special disability school in the city of Kisumu. This new school gives Zablon all the special care needed by registered, qualified caretakers, and offers boarding as well. The school teaches practical skills suitable for the needs of special children.

Zablon may not have all the words to express how he feels, but the shine and the smile in his eyes say it all!

DON NEVER MISSES SCHOOL

As an eight-month-old infant, Don Geoffrey lost his parents. Shielded by the blissful innocence of the infant years, Don did not

know what it meant to be in society without parents, until he grew up and came to know that all he had was his grandmother. Not having two pennies to rub together, but having a heart full of love for little Don, his grandmother did everything in her capacity to enroll Don into the Bunde school in Ahero village (Kenya) for Grade 1. The basic needs of food and resources for education were a big challenge for many children in the school.

The student sponsorship programme and the lunch programme that were commenced in the school by the volunteers of One World One Family Foundation Kenya, made a world of difference for Don.

Don could afford to miss anything in his day, but not school!

ALEX IS SO HAPPY

Alex belongs to the Morkiswa community of Uganda, and he used to go to his school hungry every morning. Since the time the feeding programme started in his school, Alex is overjoyed to taste the porridge in the morning and the meals for lunch, before the classes begin. His teachers find Alex chirpy and cheerful these days.

A satisfied burp from a small belly is the sign of a healthy nation.
