ANKLE BRACE

ZAMST A2-DX

"Zamst's A2-DX has helped my game since the day I stepped on court." -Trae Young

Strong Support

Zamst A2-DX			
The ankle brace is made with i-Fit and a-Fit technology for an anatomically (right & left) correct fit. The Exo-Grid (Xternal) is a dual exterior molded support structure with Grip Tech (anti-migration), that prevents the ankle from rolling inwar(Inversion) and outward (Eversion). The Exo-Grid (Xternal), along with the anchor strap, assists in preventing high ankle sprains by reducing the separation of the two lower leg bones where the ankle meets. The X- Strap Stabilizers with Grip Tech located underneath prevents the foot from shifting forward. Stephen Curry, Pro Basketball, All Star Point Guard, wears the A2-DX in practice and games.

A close-up action shot of two female rugby players from the Australian national team, wearing yellow and green jerseys. They are both wearing white mouthguards and are intensely competing for a white rugby ball. The player on the right is shouting with her mouth open, showing the mouthguard. The player on the left is also focused on the ball. The background is a blurred stadium.

WHY OPRO?

With over 20 years of experience, OPRO has grown to become the most innovative and progressive mouthguard company in the world. We have won the Queen's Award for Enterprise: Innovation in 2007 for our Custom-Fit mouthguards and in 2019 for our Snap-Fit mouthguards.

Choosing OPRO will see you join thousands of professional athletes as well as over 85 of our official partners, including England Rugby, GB Hockey and New Zealand Rugby. In addition, we supply over 1,000 schools and clubs nationwide.

So why not join the OPRO Family?

ANTIMICROBIAL PROTECTION

Based on silver ion technology and completely safe for use in the mouth, Biomaster's antimicrobial additive is proven to inhibit the growth of bacteria by up to 99.99%.

The antimicrobial upgrade embeds Biomaster in the gum shield, as well as in the antimicrobial case.

You can add on the antimicrobial upgrade during the ordering process for £7.50.

Click [here](#) to find out more about antimicrobial protection.

Silver

OPRO Silver Adult

Opro Silver series is a professional level mouthguard in the OPRO Self-Fit range. It harnesses an inter-jaw absorption layer thanks to its two layer construction. This provides additional shock absorption between the upper and lower jaw. The OPRO Silver comes with an anti-microbial case, which means you can store your mouthguard safe in the knowledge that it's protected against up to 99.99% of bacteria growth.

Opro Bronze series is a standard level mouthguard in the OPRO Self-Fit range. It harnesses an inter-jaw absorption thanks to its single layer construction. Your Bronze Mouthguard has 11 anatomical fins made from gel that have been placed in positions to mould to your teeth snugly. When the mouth guard is dropped into hot water the fins soften so that when you compress them against your teeth and gums it creates a mouth guard unique to you.

APPAREL

A close-up photograph of a hand holding a Gilbert Netball. The hand is positioned at the bottom right, with the thumb and index finger visible. The netball is white with vibrant, curved stripes in purple, yellow, and blue. The word 'GILBERT' is printed in large, bold, black capital letters on the side of the ball. Below it, in smaller text, is 'Synthetic A'. The background is dark and out of focus, showing a hint of a red object on the left.

HEADGEAR

SIZE GUIDE						
SIZE	JUNIOR	YOUTH	SMALL	MEDIUM	LARGE	XLARGE
HEAD CIRCUMFERENCE	52cm	54cm	55cm	57cm	58cm	60cm

To be used as a guide only. We recommend trying the headgear on to ensure a good fit.

FITTING INSTRUCTION

Lace up headgear and then put on head. Adjust strap to ensure a snug fit to your head.
Have a s second person draw the laces firmly together and then tie to secure. Trim off any excess lace if necessary.
Your headgear performs best when the gap between the laces is at a minimum.
Tie off laces tightly without impacting on player comfort.

A close-up, high-action photograph of a swimmer in a pool. The swimmer's head is above water, wearing a yellow swim cap and goggles. Their mouth is open, and water is splashing around their face. A large, muscular arm is visible, reaching forward. The background is a blurred blue pool. The word "SWIMMING" is overlaid in large, white, bold, sans-serif capital letters.

SWIMMING

The FINIS logo, featuring a stylized white wave icon to the left of the word "FINIS" in a bold, italicized, sans-serif font, followed by a registered trademark symbol (®).

FINIS®

Swimmers Snorkel			
FINIS created and patented the first ever center-mount snorkel designed specifically for swimmers. The Original Swimmer's Snorkel allows swimmers to focus on stroke technique without the interruption of turning your head to breathe. By eliminating the need to breathe, swimmers can relax in the water, maintain body alignment and improve stroke efficiency. The one-way purge valve allows water to flow out of the snorkel without entering the mouthpiece.

Swimmer's Snorkel Cardio Cap

Designed specifically for the Adult and Jr Swimmer's Snorkel, the Snorkel Cardio Cap can be used for hypoxic training, which increases the ability of muscles to work better when oxygen levels are low. The Snorkel Cardio Cap replicates higher altitude workouts. The Snorkel Cardio Cap improves breathing by teaching a deeper technique for high anxiety and race day environment. Using the Snorkel Cardio Cap is also a great way to strengthen intercostal muscles through forced inhalation and exhalation.

BRAND	FINIS	COLOUR	Yellow, Black
SKU	1.05.022		

Purge Valve Replacement

The Replacement Purge Valve is compatible with the Swimmer's Snorkels (Adult, Jr. and Youth). The silicone purge seat allows water to flow out of the snorkel without entering the mouthpiece. The Replacement Purge Valve is easily removed and the durable plastic is built to withstand chlorine damage.

Silicone Cap

The Silicone Cap is made of a soft 100% silicone material that is more durable and comfortable than latex. The Silicone Cap reduces drag in the water while also protecting hair against chlorine and sun exposure. With a secure fit, the Silicone Cap will cleanly keep hair away from the eyes and face while swimming. The Silicone Cap comes in one size that fits most swimmers. Perfect for racing, training and fitness.

Agility Paddle Floating

The Agility Paddles are designed to provide swimmers with instant stroke feedback – even after just 1 lap! And the new FLOAT. The strapless design fits the natural contour of the hand and teaches you to apply positive pressure throughout your stroke. If you do not maintain a proper stroke, the paddle will let you know by shifting or falling off. This simple paddle will keep you conscious of your technique, build strength and heighten your feel for the water.

Manta Hand Paddles

Designed to build muscle and improve distance-per-stroke. No more fussing over uncomfortable or broken straps. The Manta Paddles provide a comfortable fit to the natural contour of the hand. Vent holes allow water to pass through the paddle, allowing the swimmer to maintain their feel for the water. While every paddle has the same diameter, size is based on the circumference of your middle

ISO Hand Paddles

Iso paddles are strapless paddles designed to isolate specific muscle groups, develop proper hand position and heighten stroke awareness. Iso paddles are uniquely designed to create an imbalance in the catch phase of a stroke, which forces swimmers to apply more pressure on either side of the paddle in order to maintain a proper stroke. The variance encourages swimmers to pay increased attention to hand position in the water, keeping it level and consistent throughout the catch and pull of each stroke.

Freestyler Hand Paddles

Specifically designed for freestyle training, the Freestyler Hand Paddles plane the hand forward through the water, improving reach and distance-per-stroke. With a long fin shape and unique skeg design, the Freestyler Hand Paddles promote a strong pull through, better hip-rotation and increased efficiency. An adjustable finger strap offers a perfect fit and the narrow surface area helps prevent shoulder strain.

Forearm Fulcrum

The Forearm Fulcrums develop an early vertical forearm (EVF) position and increase stroke efficiency. An EVF position utilizes the entire forearm during the pull, from fingertips to elbow. The Forearm Fulcrums promote stroke refinement through muscle memory of proper hand, wrist and forearm position. The Forearm Fulcrums improve efficiency and maintain a strong, uninterrupted pull from the beginning of the stroke to the end. The Forearm Fulcrums are a versatile tool for all four swim strokes.

Alignment Kickboard			
The Alignment Kickboard uses a hydrodynamic design to improve body position. The stabilizing hand strap allows complete control of the board without gripping, creating a perfect alignment from the fingertips to the toes. When used properly, the Alignment Kickboard sits just below the waterline so swimmers can lengthen their body without kicking at an incline. Shorter in design, the Alignment Kickboard puts less pressure on shoulders as compared to standard kickboards. A great training tool, the board can be used to do one arm and side kicking drills in addition to normal kicking. When paired with a snorkel, the Alignment Kickboard encourages proper head alignment and improves overall technique.

Posture Trainer

The Posture Trainer promotes correct head and spine alignment, which is key to an efficient swim stroke. When secured to the back center of the head, the device should be undetectable until the swimmer exceeds the recommended posture range. Keeping the head in the proper position throughout the entire swimming motion corrects spinal alignment, which elevates the hips, leading to a decrease in drag and an increase in kick propulsion. The Posture Trainer's versatility allows for use in all four swim strokes and fits comfortably with or without goggles.

CUSTOM SWIMMING CAPS

Minimum quantity for latex cap printing is 50pcs per cap colour / per weight / per logo colour / per design.

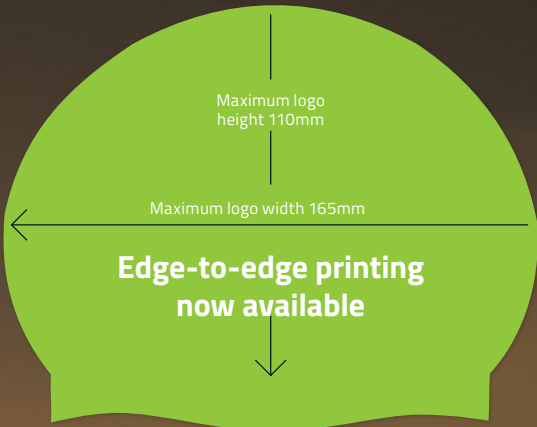

Colours in quantities of 50pcs per colour per weight can be mixed to reach quantity break pricing.

Note: No screen charges for orders of 200pcs & over on 1 colour logo or 1st screen on multi colour prints.

Some cap/logo colour combinations will require an additional underbase of white to achieve best colour result. If a white is not part of the original logo an additional screen charge will apply.

If caps are to be used for competition events under FINA rules then this must be advised on order as restrictions are placed upon the size of the manufacturer's mark.

All logo printed caps will come with an Eyeline logo printed on cap as a manufacturer's mark.

Any logo which must face the same direction on both sides of cap when worn will require separate screens for each side of cap.

Electric Pace Clock

EPC105
Clock face 900 x 900mm
220-240 volt motor
Sweeps 1 rpm

Aluminium L-frame supported
powder coated alloy clock face

NOTE: Clocks to be installed outdoors should consider having a face cover to 100% prevent possible water damage to the motor.

Under NO circumstances should the clock face be cleaned using a high water pressure cleaner as water may enter the motor down the spindle.

A small amount of WD40 or similar should be sprayed on the spindle where it enters the Brass Bushing to prevent any contamination build-up on the spindle. This should be done at least every 90 days.
