Perfect systems for directional guidance in offices, hospitals, retails, schools to help visitors navigate through the building with ease.

SignPro Systems® (SPS) provides affordable, modular wayfinding signage to the trade. From wall frames to self-standing pylon directories and everything in between, SignPro offers the directional indoor signage your clients need. SPS is proud to boast ever-increasing custom capabilities; we can build frames and signs suited to your exact specifications.

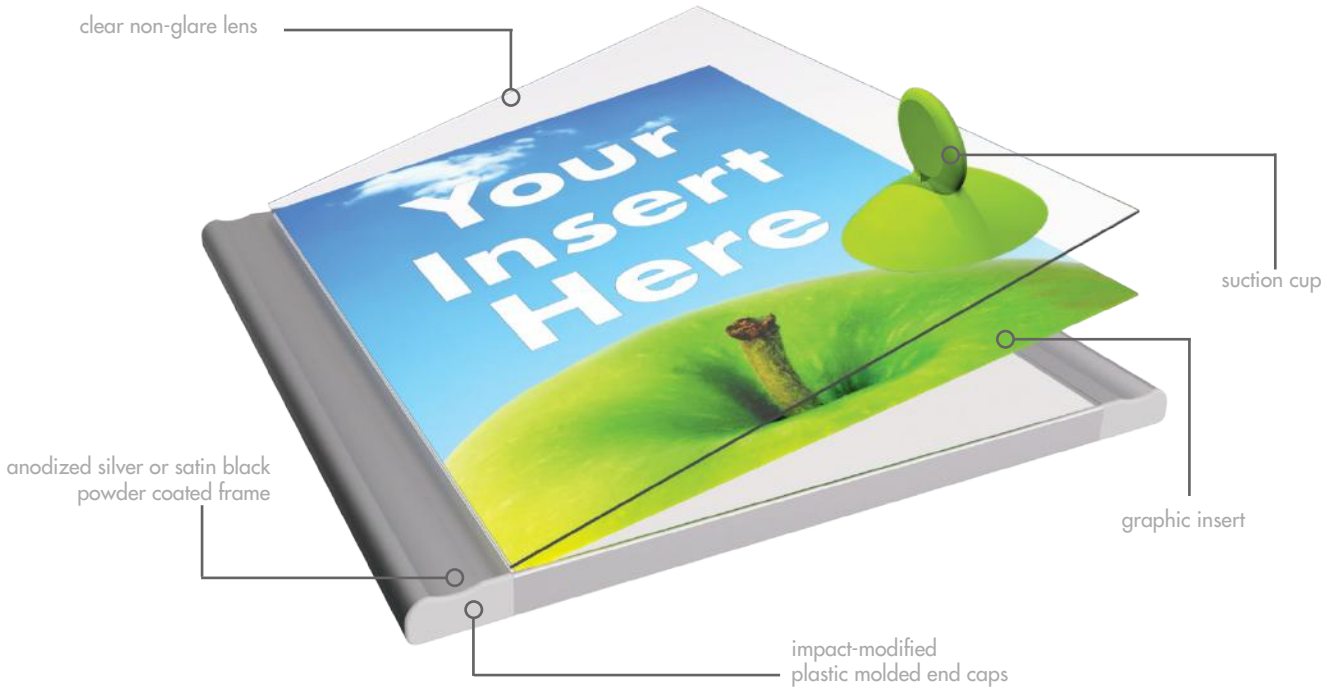

SignPro frames accommodate a multitude of sign substrates, from printed paper inserts mounted with your protective lens, to laminated prints, cut vinyl, photopolymer, ADA faces, engraved plastics, metal and more. We ensure to work with you based on the material best suited for the project.

Tri-State Memorial Hospital

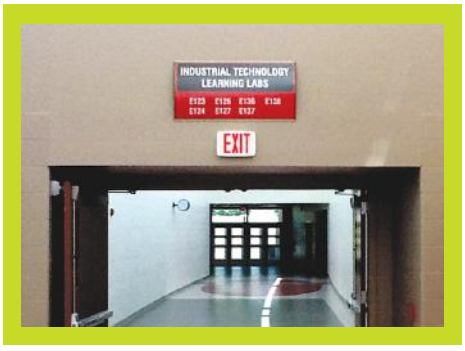

"This project was a great success. There is a sign type for every room and wayfinding location, and it was easy to customize and incorporate the signage into the entire design concept of the facility."

Signage Challenge

Tri-State Memorial Hospital was in need of a variable and consistent wayfinding and room identification system throughout the facility. The sign solution needed to offer a variety of functions, while remaining easy-to-read to assist doctors, patients and visitors in navigating the facility to different wings and specialty clinics.

Signage Challenge

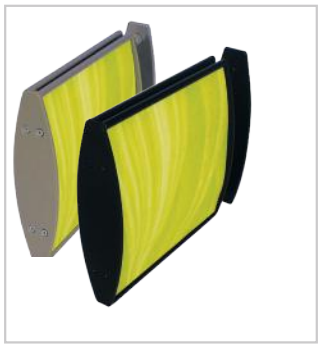

North Gibson School Corporation was in need of interior wayfinding signage for their high school to guide students, staff, and visitors to the right rooms and destinations.

"The outcome is effective and aesthetically pleasing to everyone who visits. The signage blends well. It directly guides visitors, students and staff to their intended destinations."
