NORDIC SWAN ECOLABEL

Play with Care

dantoy is a proud Danish family-owned company
with a passion for developing toys that children and parents can trust.

Our products are designed with a focus on play, learning
and durability.

Allmost all our toys are produced in
Denmark,
and quality and responsible production are important to us.

That's why most of our range is certified with the
Nordic Swan Ecolabel
meeting strict environmental and health requirements.

We have chosen the Nordic Swan Ecolabel because
it is one of the world's strictest and most ambitious ecolabels.

It helps us meet high standards for environmental and health considerations
– because we believe that what's good for children
should also be a responsible choice for the future.

At dantoy, we believe that great play goes hand in hand
with caring for children and making responsible choices.

Hard to earn *but* easy to choose

"The Nordic Swan Ecolabel is one of the world's toughest and most ambitious ecolabels."

It helps consumers and businesses choose among the most eco-friendly products and services.

The label sets strict requirements for environmental, health, and quality aspects across every stage of a product's life cycle, from raw materials to disposal, ensuring sustainability at every step.

Key points:

- The official ecolabel in the Nordic region
- Strict criteria for environment, health, and quality
- Covers the entire product life cycle
- Helps consumers make sustainable choices

www.svanemaerket.dk

"With the help of the Nordic Swan Ecolabel, we ensure that we constantly choose the right suppliers and focus on ethics, the environment and health requirements. We experience that the Nordic Swan Ecolabel is more relevant than ever."

Marck Andre Højbjerg Matthiasen
CEO at dantoy

Our commitment

At dantoy, we believe that thoughtful choices make a difference.
That is why we consider environmental aspects throughout the way we design and produce our toys.

We design our products with durability in mind, creating toys made to be enjoyed again and again.

We continuously look for ways to use resources more efficiently and explore materials with documented environmental benefits.

Our FSC-certified packaging and wooden products come from responsibly managed forests.

Our production, warehousing and administration are powered by certified renewable electricity
another step towards more responsible production.

Our goal is to combine functional and aesthetic design with thoughtful choices.
We continuously work to use resources efficiently and reduce the environmental impact of our products and operations.

Awards and certifications

Dantoy is one of the largest toy manufacturers in Scandinavia, and we are aware of the responsibilty we hold.

Therefore we are proud and thankful for the recognition we have received.

Empowering responsible supply chains

Dantoy supports UN's 17 goals

We are committed to developing Dantoy in alignment with the UN's 17 Sustainable Development Goals.

Dantoy supports the UN's 17 goals through various initiatives. These include setting environmental requirements for suppliers to meet Swan certification standards, making donations, purchasing green power, and more.
Dantoy selects a few of the UN's 17 goals to focus on for a period of time before shifting attention to new goals. We are currently mainly focusing on goals 12, 13, and 17.

12. Responsible Consumption and Production

At Dantoy, we manufacture our plastic toys in-house at our factory in Denmark.

We set requirements for our suppliers regarding production and environmental standards.

We work to reduce packaging and sort and reuse materials where possible.

13. Climate action

We use 100% certified renewable electricity.

We are increasing the amount of recycling in packaging — both cardboard and plastics.

We are increasing the utilization of our production waste.

We will reduce our consumation of fossil fuels by switching to hybrid vehicles for our sales cars.

17. Partnerships for the goals

Most of our products are certified with the Nordic Swan Ecolabel.

Dantoy is a partner in Operation Clean Sweep®, an initiative that helps prevent plastic pellet, flake and powder loss to the environment.

Symbols used in the catalogue

Blue Marine Toys are made from recycled fishing gear and plastic from the maritime industry and innovative solution.

Bioplastic toy, made of at least 60% sugarcane, a sustainable raw material. Our bioplastic is recyclable. dantoy BIO products are of the same high quality as our conventional plastic toys.

FSC stands for Forest Stewardship Council, an international organization that promotes responsible management of the world's forests.

Plastic toys that carry the Nordic Swan Ecolabel comply with one of the world's most stringent environmental certifications. Ecolabelled products may not contain phthalates, synthetic fragrances or endocrine-disrupting chemicals (EDCs). To qualify for eco-labelling, the entire life cycle of the product, from raw material to production, use, disposal and recycling, is assessed.

90% of dantoy's plastic toys are both designed and manufactured in-house at our office and factory in Hobro, Denmark.

dantoy is certified to environmental standard ISO 14001, which means that via environmental focus, the company aims to minimise harmful environmental impacts by using sustainable processes, minimising consumption of energy, water and raw materials, recycling spillage and waste, and maintaining a healthy working environment.

dantoy is certified to quality standard ISO 9001, which obliges us to observe high standards, including uniform quality, product safety, quality control and assurance (taking random samples and testing), as well as written procedures that ensure that our production processes are standardised.

dantoy is "Der Grüne Punkt"-accredited. This is a German eco-label implemented by Duales Systems Deutschland GmbH that verifies that dantoy collects and recycles used packaging.

Dantoy follows the principles of Operation Clean Sweep, an initiative aimed at preventing the loss of plastic granules during manufacturing and reducing their release into the environment and the sea.

Dantoy products with this label are tested for food contact **+4 to +70˚C max. 2 hours.**
Wash in boiling water for at least 30 seconds before food contact. Must be carried out by an adult.

Dantoy products with this label are microwave safe **max. +70˚C.**

Dantoy products with this label are dishwasher safe, **except for items containing metal parts**

Sneak Peek

Something BIG is under construction! 🛠️

Get ready for pure building joy for little fingers!
We are working on a brand-new building set designed specifically for small hands with big ideas. With sturdy elements and child-friendly nuts and bolts, little ones can screw, assemble, and let their imagination take flight—whether building a cool helicopter, a clever airplane, or something completely unique!

Easy to grip, easy to assemble.
Large parts perfect for fine motor skills.
Build, screw & learn – for children aged 2+.

New arrival coming soon—get excited!

This new building set will be available to purchase from Q2 2027.

classic RECYCLED

Same classic look – but different

Same quality, same durability, and same colours as our beloved Classic series – but with a fresh, modern look and made from a minimum of 60% recycled plastic.
The satin finish gives a soft, elegant appearance without compromising on fun and play.

Produced in Denmark and Nordic Swan Ecolabel certified.

Classic Recycled – because great play deserves a new beginning.

green garden®

Bring the outdoors into your home

Green Garden is a charming toy series that invites children to creative play in the garden, the kitchen, or as a little shopkeeper. The series combines role play and nature-inspired themes in soft, muted colours that create a calm and inviting look.

Produced in Denmark and Nordic Swan Ecolabel certified.

Nature-inspired play for growing imaginations.

Blue marine Toys®

made from fishing gear

This unique product is crafted from recycled fishing gear and plastic from the maritime industry - an innovative solution that both reduces waste and honors the ocean.
Each piece is made from collected recycled plastic, making it a conscious and responsible choice.

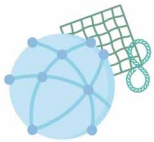

Produced in Denmark.

A thoughtful choice, combining creative play.

1. Global sourcing fibre plastics

2. Collects used nets, trawls, ropes from ports, net makers and global plastic collectors etc.

3. Next the material is shredded, washed, and dried. Washing helps separating different plastic types.

Sort and fractionate used materials into different types of plastic and colours.

4. Extruding plastic into Green Plastic pellets (granulate)

5.

6.
