Digital Smart Home & Entertainment Features ...

The “Best of both Worlds”: The Log Home Retreat offers a natural and healthy living environment surrounded by nature AS WELL AS provide entertainment, comfort & security with the help of the latest technology and smart home features!

Welcome to the 21st century!

A smart home is a property that includes connected devices allowing the user to securely manage their home from wherever they are ...

It can monitor and control home attributes such as lighting, climate, entertainment systems, as well as include home security such as video surveillance and alarm systems.

This is done with the help of a Network of Gigabit Ethernet and High-Speed WiFi throughout the House and controlled by mobile Devices like iPad or Google Nest Hub via touch display or voice commands.

- ▶ Structured-Wiring Panels from LEVITON (4x) with extensive Gigabit Ethernet Cable / RG6 Cable / Telephone / Security & Surveillance wiring through the House (all Home-Run). ALL Devices with Surge Protector & Battery Backup
- ▶ Secure Home Network with Gigabit Ethernet & fast Router/Switches
- ▶ Whole Home WiFi System with 4x High-Speed Internet Zones & Guest Access
- ▶ SHAW Hi-Speed Internet up to 1 Gbps download speed
- ▶ SHAW 4x BlueCurve TV 4K/HD Player with PVR
- ▶ Digital Home Entertainment System via SYNOLOGY Media-Server (2x 4TB) to distribute digital Video, Movies, Photos or Music in every room or to any device
- ▶ Home Theatre with Full-HD 3D-Projector, 106-inch Screen, 5.1 Surround Sound
- ▶ NVIDIA Shield TV PRO Media Players, 4K HDR, Dolby Atmos
