FLORIDA FEDERATION OF GARDEN CLUBS, INC.

In this age of advanced technology, when we want information, all we need to do is *ask Siri* or do a quick Google search. If you want the answers to garden club questions or find the contact information of a club member, you go to FFGC's own search engine, our Book of Information. When you are out and about and need to quickly find the phone number or email address for HQ or a specific Chairperson, need to see if something is in the FFGC Bylaws, just use your mobile phone to search FFGC.org, and find the BOI button. Aren't we lucky to have such a comprehensive document available to us anywhere and anytime?

We owe a huge thank you to our BOI editors, past and present, for assembling all this useful information in one place. In this new administration, you will see a forward-looking perspective for the Book of Information. First, it's been consolidated and reorganized information to create a shorter document. Second, since we are an environmentally aware organization working toward saving trees, there is no printed edition—it's available online which you can download to your home computer. As with any published information, some of it is incorrect the minute it is put in print. The website will always be kept up to date and have the latest, most correct information, so we hope you will learn to use that source exclusively!

Take a moment now to page or scroll through this document and become familiar with all the myriad information included for your use. Garden Club related question? Think Book of Information!!

All corrections should be sent to *ffgc@ffgcmail.com* with "BOI Correction" in the "Subject" line. Be specific with your corrections.

Christy Linke, President
FFGC, Inc. 2025-2027
