Free Consultation – Organise a Packaging Audit

Our professional, experienced and dedicated sales teams are ready to evaluate your packaging requirements. Once we understand how you use packaging, we can propose new solutions and cost saving initiatives, which could help you work more efficiently too.

Our Packaging Review can help you identify savings and process improvements in any or all of the following areas

- Damaged goods and returns
- Storage costs
- Packaging costs
- Design and efficiency
- Labour costs and automation
- Transportation
- Packaging management

Simply call or email us to arrange your free, no obligation Packaging Review – even a quick consultation could make a big difference.

It won't take long, and won't cost you a penny – we are confident that we will be able to suggest positive solutions and cost reduction initiatives.

UK Packaging was incorporated on 11th October 1984. From humble beginnings we have grown organically into one of the largest independent packaging companies in the country. That independence still shapes how we work: decisions are made quickly, relationships are held long-term, and the people who take your call are the people who own the outcome.

MISSION STATEMENT

1. Deliver packaging solutions that work – commercially, operationally and on time – and stand behind them with responsive, straightforward service.
2. Maintain strong, long-term supplier relationships so we can offer customers genuine choice, including lower-impact and more efficient options where they make sense.
3. Keep improving the products and the way we work, guided by open communication and clear accountability with customers, suppliers and colleagues.

Prices

Please call our sales team for current prices.

Credit Accounts

Credit accounts are subject to a credit check and may be refused at the discretion of UK Packaging Supplies Ltd.

ENVIRONMENTAL POLICY

It is the policy of UK Packaging Supplies Limited to ensure that its activities are managed so as to minimise any impact on the environment, so far as is reasonably practicable.

In order to achieve this:

- The Company will manage its product range to ensure that products in the range do not cause unacceptable environmental damage through its receipt, storage, and use or disposal phases.
- The Company will develop the energy efficiency of its vehicle fleets, so far as is reasonably practicable. Future purchases and leases of vehicles will take account of the environmental impact of the models selected.
- The Company will aim to improve the energy efficiency of its premises. Existing buildings will be adapted where practicable to improve their energy efficiency. When considering future purchases or leases, account will be taken of the energy efficiency of the building, and of the energy costs involved in running those buildings.
- Wherever possible the Company will seek to minimise waste:
 - Through reduction in unnecessary consumption
 - Through purchasing recycled products and packaging for its own use
 - By sending used products and packaging to be recycled
 - Through reuse of packaging received.
- Employees at all sites will be encouraged to travel to work using environment friendly methods such as car sharing or use of public transport where practical.
- The Safety & Environmental Manager is responsible for assisting management to implement the Company's Environmental Policy.
- The Company will comply with all UK environmental legislation.
- The Company will aim for continual improvement in order to lessen its impact on the environment

For and on behalf of the Directors

CARTONS AND BOXES

HOW TO MEASURE A CARTON

All metric measurements shown in this section are in mm

Dimensions are usually expressed as internal dimensions in mm as follows.

Length (L) x Width (W) x Height (H)

Length = The longer dimension at the opening

Width = The shorter dimension at the opening

Height = The dimension from the top of the opening to the base.

This is illustrated in the picture opposite

MADE-TO-MEASURE

We can produce cartons in many styles. Our made-to-measure service is available on request. Shown here are our most popular made-to-measure carton styles.

FEFCO STYLE 0201
Regular lap end case.

FEFCO STYLE 0711
Crash lock bottom

FEFCO STYLE 0409
Five panel wrap.

FEFCO STYLE 0426
Folding box with tuck in lid

FEFCO STYLE 0203
Regular lap end case with fully overlapping flaps.

FEFCO STYLE 0713
Crash lock bottom

FEFCO STYLE 0421
Folding box with locking sides.

FEFCO STYLE 0427
Folding box with tuck in lid

For more information on all Fefco styles please visit: www.fefco.org/technical-information/fefco-code

CARTONS AND BOXES

SINGLE WALL STOCK CARTON

 Made from 75% recycled materials, recyclable after final use

Standard stock cartons are manufactured from premium quality fluted corrugated board

Please note that some imperial dimensions may be approximate

NEED SOMETHING SPECIFIC?

If there is not a style, size or grade to suit your application.

We also have a wide range of sheet boards, available from stock or by special order.

Why choose single-wall cardboard boxes?

- Ideal for light to medium packaging use, posting and storage
- Created from a single corrugated layer of cardboard, with a Kraft outer
- Durable and strong, our single wall boxes retain their shape even fully loaded
- Supplied flat packed for convenience, and easily assembled in seconds
- Made from biodegradable cardboard for an environmentally friendly, recyclable storage solution

CARTONS AND BOXES

DOUBLE WALL STOCK CARTON

Made from 75% recycled materials, recyclable after final use

A more resilient alternative to our single wall cardboard boxes, our double wall cartons provide excellent protection for heavier or more fragile items.

Please note that some imperial dimensions may be approximate

IN THE DETAILS

For many of our customers we stock their requirements on a call off basis, served using our next day delivery service.

This is a must for the large user when packing storage space is at a premium. Cartons can be printed to your design specifications, a great way to promote your company.

Benefits of double-wall cardboard boxes

- Suitable for heavy and/or fragile items, thanks to twin-fluted corrugated card
- Ideal for business use, shipping, storage and removals
- Supplied flat-packed for convenience, quick and easy to assemble
- Every one of our double-wall cardboard boxes is numbered for easy identification
- Strong and durable enough to be re-used on multiple occasions
- Made from 75% recycled materials, and recyclable after final use

HEAVY DUTY RANGE - PAGE 12

CARTONS AND BOXES

HEAVY DUTY RANGE

 Made from 75% recycled materials, recyclable after final use

These strong, heavy duty double wall cartons are made specifically with the removals trade in mind.

CARTONS AND BOXES

BESPOKE CARTON MANUFACTURE

With our own carton manufacturing facility in Newmarket we can produce bespoke printed or plain cartons to your exact requirements.

We are able to manufacture a broad range of carton styles, which can be plain or printed, glued or stitched.

Retail and Shelf-Ready Packaging

Shelf-Ready or Retail-Ready Packs (commonly referred to as SRP or RRP) combine the traditional qualities of corrugated with brand promotion to provide a quick way for retailers to get product to shelf with minimum fuss and maximum speed, increasing 'shelf velocity.' This is an ideal solution for customers who produce product on site or provide stock directly to retail.

Our offering can include...

- High-quality printed corrugated cartons, to optimise shelf display and brand promotion
- Expertise in the best corrugated materials for producing high-quality printed packaging
- Easy-to-open cartons for the retail sector, providing an enhanced customer experience
- 3-dimensional drawings and pallet plans help to visualise the finished product

Die Cut Cartons

Die Cut cartons are designed and cut using the latest CAD (Computer Aided Design facilities and can be tailored to any specific box requirements.

Our offering can include...

- The complete range of FEFCO (The European Federation of Corrugated Board Manufacturers) styles, which can be re-designed to meet specific requirements
- An experienced design team will offer tailor-made die cut packs to suit your business needs whether it's to speed up production or packing, provide a better customer experience or solve a long/short term packaging problem
- Designs can have a number of specifications including self-locking bases that 'pop' into place, tamper evident closures and more 3-dimensional drawings and pallet plans to help visualise the finished product

Heavy Duty Cartons

Heavy Duty corrugated cartons are ideal for transporting heavy goods, particularly in sectors where the majority of products are of this nature such as the engineering industry.

Our offering can include...

- Regular style heavy duty cartons and cartons that can combine with pallets and lids
- Cartons that can with-stand extreme weather conditions, reducing the need for traditional timber packing cases
- Environmentally-friendly solutions that provide adequate strength for heavy goods, with a 30% saving in CO2 emissions
- Experienced advisors who frequently deal with customers who regularly handle component weights in excess of 500kgs

TAPES

REINFORCED WATER ACTIVATED TAPE

100% Recyclable

The adhesives in water activated tape penetrate into the fibres of the carton, creating a total bond, adding considerable strength compared with standard tape adhesive. Tamper evident for security, temperature tolerant for long term storage solutions and has 100% recyclability

PART	Size	Colour	BOX QTY	ADHESIVE
20WAT02	70mm x 152m	Brown	6	Gummed side in
20WAT04	70mm x 200mm	Brown	9	Gummed side in

Electronic water activated tape dispensers available including:

OM700 ELECTRIC WATER ACTIVATED TAPE DISPENSER

- Ideal for high volume, fast-paced shipping environment
- Sealing more than 100 cartons per day
- Large tape roll capacity up to 255mm diameter and up to 80mm width
- Large water bottle capacity up to 2L eliminating the need for frequent refilling
- Tape compatibility: plain and reinforced, gummed side in and gummed side out
- Tape output of 60 metres per minute
- Safety interlock switch: disables the cutting blade when the front cover is open
- Offers one-touch dispensing of tape lengths from 15cm to 145cm, with double 2x and manual adjustment of ± 1 cm
- Built-in 9 pin connector for serial input from any devices, including PCs
- Optional foot pedal provides hands-free versatility
- Optional measuring device automatically calculates carton dimensions to dispense the perfect tape length.

Dimensions	325 x 539 x 309mm (W x D x H)
Machine weight	12Kg
Tape roll capacity	Up to 80mm wide Up to 255mm diameter
Dispensing speed	60 metres/minute
Water bottle capacity	2 litres
Cable length	3m
Electrical requirements	200 - 240VAC, 50/60Hz, 2A
Warranty	2 years parts, 1 year labour

TAPES

CROSSWEAVE TAPE

For heavy duty cartons requiring resilient strapping, cross-weave tape is an excellent packaging option. The self-adhesive plastic tape is reinforced with glass fibre strands to provide optimum tear resistance.

TAPES

UK PACKAGING PRODUCE IN-HOUSE BESPOKE PRINTED TAPE

Creating customised tape through UK Packaging Supplies Ltd is quick and easy. We supply branded packing tape printed with your company logo, or custom tapes printed with your unique message. All custom tape is printed on high quality white polypropylene or PVC tape, and can include up to 3 different colours (excluding the white of the tape) to suit your requirements.

- Tape printed with your message or company logo.
- No origination or artwork cost (for orders above 288 rolls).
- Printed on high quality white polypropylene or PVC tape.
- 3 different tape widths available: 25mm, 48mm or 75mm x 66m long.
- Submit your artwork & make the necessary payment.
- Artwork proof will be emailed to you within 2 working days.
- Review & approve the artwork proof.
- Delivery will be a maximum of 15 working days from approval of artwork.

ECO BROWN PAPER TAPE

We now can print on Eco Brown Paper Tape in up to 3 colours and in 3 widths, 25mm, 48mm and 75mm. The length of all rolls is 50m. No need for water for activation as this self-adhesive paper tape has long-lasting natural adhesive, which quickly and securely sticks to all carton surfaces.

The tape can be applied with a standard hand gun or tape dispenser for fast, accurate placement. The tape can also easily be torn by hand. Self-adhesive paper tape has a strong resistance to moisture and humidity.

BARRIER TAPE

Used for marking out walkways, no-go zones and hazardous areas, barrier tape is an essential item for many businesses or event organisers

Our barrier tape is durable and weather resistant, making it ideal for indoor or outdoor use.

Customised barrier tape from UK Packaging

- It's a great way of adding value to an every day business item that can be used for marking out cordons, walkways or event areas.
- Your bespoke design, words or logo printed onto high-quality, non-adhesive polythene tape
- Strong, resilient and waterproof, ideal for indoor and outdoor use
- Creates a high-visibility cordon, increasing safety while promoting your brand
- Roll length of 300m provides multiple use

TAPES

Why use a tape gun?

- Reduces waste due to more efficient tape use
- Increases packing productivity
- Provides a neat, professional seal every time
- Comfortable grip means tape dispenser can be used for prolonged periods

TAPE GUNS & DISPENSERS

For a faster, more efficient packaging process in your warehouse or factory, we offer a range of hand-held tape dispensers.

TAPE SEALING MACHINES

Capable of sealing up to 30 boxes per minute, our high-quality tape sealing machines bring unbeatable efficiency to busy packing environments.

At UK Packaging, we can supply the cartons, the tape and the machine for a full, ready-to-go packaging solution.

Advantages of a tape sealing machine from UK Packaging

- Efficiently seals the top and bottom of cardboard cartons in seconds
- Compatible with industry standard machine tape
- Establishes a strong and consistent seal every time
- Adjustable top guides and tape tension allow the machine to seal a wide range of box sizes

CUSHIONING & PAPER PRODUCTS

AIR BAG MACHINES AND FILM

Contains a minimum of 50% recycled content

If you have an ongoing requirement for air bags (air cushions), why not invest in an air bag machine to help produce your own void-fill solutions on site?

Producing your own air bags on demand helps to reduce waste, and the machine quickly pays for itself with the savings made on packing materials.

Air cushion machines from UK Packaging

- Compatible with a choice of air cushion film types, which can be supplied with the machine
- Simple to operate and easy to maintain
- Air cushions / air bags make an ideal alternative to bubble wrap and other void fill
- Saves space as no need to store pre-made air cushions

Please see Page 68 for our range of air bag machines and film

PAPER SYSTEMS

Uses recycled material

Paper cushioning is one of the most prominent packing solutions in the fulfilment industry, used by a number of leading online retailers.

Popular due to the excellent protection it supplies as void-fill, it also represents a lower cost solution than most alternatives – and it can be created on site using one of these paper systems from UK Packaging.

Why invest in a paper system?

- Continuous production of paper cushions for high-volume packing environments
- Creates high-strength paper cushions to a pre-defined specification
- An environmentally friendly solution which uses recycled material
- Easy to use and simple to maintain

Please see Page 69 for our range of paper systems and compatible papers.

PAPERPLUS® DRAGONFLY

High-Volume Paper Void-Fill System for large parcels.

- Production of paper pads at 3 different speed settings
- Pads are suitable for filling voids and wrapping shipping goods
- The volume of the paper pads can be adjusted variably
- boasts compact assembly dimensions
- bladeless system

PAPERPLUS® TRACK

Ultra-high speed for the ideal protective packaging.

- Suitable for shipping medium - large packages with a weight of 5-30kg
- Can be used as block and brace, cushioning and void-fill
- Can be easily tailored to specific product shapes
- The paper is perforated allowing cushions to be separated without the need for a cutting mechanism
- Machine can be connected to Wi-Fi allowing monitoring and control externally via tablet
- Low maintenance, works quietly and enables fast and easy paper replacement

CUSHIONING & PAPER PRODUCTS

HSM SHREDDERS

Transform waste economically and sustainably in high quality packaging material.

The packaging machines HSM Profi Pack C400 and P425 turn used cardboard into universal packaging material that meets the highest demands – in the blink of an eye. You can do without plastic and are independent. You can save yourself expensive filling material - no storage, no handling, no costs!

Advantages

-  Ecological and sustainable
- Immediately economical and profitable
- Filling material universally applicable
- User-friendly and safe
- High throughput capacity

NETLON RANGE

UK Packaging provide a range of protective netting: recycled, standard, heavy duty, high stretch.

Our range of Protective Sleeveing is used by many industries as a low-cost and time-saving solution for packaging or for in-process protection.

The Plastic Protective Netting is available to suit diameters of between 6mm and 400mm, with a large scope for one-fits-all applications. Within our standard range, we offer High Stretch Protective Netting for when a greater range is required and Heavy-Duty Protective Netting for when greater protection is required.

We offer a range of Protective Net Sleeveing with 30% Post Consumer Recycled content meaning that Plastic Packaging Tax (PPT) is not applicable.

CUSHIONING & PAPER PRODUCTS

LANCING BESPOKE MANUFACTURING

UK Packaging are an authorised Jiffy foam converter and are able to manufacture press stamped and cut fitments to protect the more fragile and delicate products as required from our Lancing depot.

Our reputation has been built on service and flexibility. We offer a friendly, personal service to deliver your packaging requirements at the most competitive price.

Design, Testing & Manufacture

We design and construct packaging to suit your products, providing the maximum protection possible.

Once order is confirmed it will be processed and manufactured to an agreed specification.

Polyethylene Foam

Using computer programmes and drop curve technology, we can easily advise of the amount of foam needed to successfully protect a product. Thus ensuring maximum protection using minimum packaging.

Samples

Once a design is formulated we will make a sample either by hand, or production machinery or on a CAD table.

Heavy Duty Cases & Crates

Heavy duty grades of corrugated board can be produced for use in "export" cases to provide the extra strength required.

Timber pallets and timber/plywood crates are also produced for the "heavy duty" packaging market.

Timber used in the production is from managed, sustainable forests. It is kiln dried and is called "heat treated timber". This treatment comes with a forestry commission sanitary certificate. This number/code is stencilled or marked on the pallets or crates and is accepted worldwide to show the product conforms to import/export regulations.

- Heavy Duty (export grade) cases
- Timber / plywood, custom made crates
- Pallet bases

Expanded Polyethylene Foam

This foam is extruded into planks and has a structure of small regular cells. This structure means it has a high heat and sound insulation capacity and excellent shock absorbing properties.

The shock absorbing capacity makes it a perfect packaging medium for delicate and fragile items. It offers a "multi drop" function ensuring that goods are very well protected during transit.

- Multi drop expanded Polyethylene foam
- Polyurethane 'soft foams'
- Press cut or fabricated to suit every shape
- Polyethylene end caps, trays or corner blocks
- Inserts for carry cases
- Jiffy Polyethylene stockist

CORNER & EDGE PROTECTION

UK Packaging stocks and supplies a top-class range of corner and edge protectors for pallets, cartons and appliances.

- 39 SOLID BOARD EDGE PROTECTION
- 39 EXPANDABLE CORNER PROTECTORS
- 39 STRAPPING EDGE PROTECTORS
- 40 PROFILE FOAM

CORNER & EDGE PROTECTION

SOLID BOARD EDGE PROTECTION

Solid board edge protectors are an economical and effective way to safeguard the edges and corners of cartons in transit or storage.

PART	SIZE METRIC	WALL THICKNESS	PACK QTY	PLT QTY
50EP001A	35mm x 35mm x 1m	3mm	50	6000

50EP55	60mm x 60mm x 1.5m	3mm	50	3000

Bespoke sizes and printed edgeguards available on request

EXPANDABLE CORNER PROTECTORS

Expandable Corner Protectors are a more versatile alternative to solid board edge protectors, these plastic expanding corner protectors can be adjusted to fit a wide range of items.

PART	DESCRIPTION	SIZE METRIC	QTY PER BOX
50CP002	Medium Expandable Corner Protector - Black Plastic	16-40mm	1000
50CP003	Large Expandable Corner Protector - Black Plastic	35-70mm	250

STRAPPING EDGE PROTECTORS

When you're using plastic strapping to secure your shipments, these edge protectors will prevent the straps from digging in and causing damage to the carton.

PART	DESCRIPTION	SIZE METRIC	PACK QTY
50EPL01	Large Plastic Edge Protector	37mm x 32mm (For Strapping up to 30mm Wide)	1000
50EPL02	Small Plastic Edge Protector	28mm x 25mm (For Strapping up to 19mm Wide)	2000
50EPL05	Super Large Plastic Edge Protectors	48mm x 42mm	1000

CORNER & EDGE PROTECTION

PROFILE FOAM - JIFFY OCEAN GREEN RANGE

UK Packaging supplies profile foam corner protectors from leading manufacturer Jiffy. Ocean Green Foam has all the benefits of the traditional blue profiles but with the added benefit of being 100% recyclable

CORNER FOAM

 Contains a minimum of 30% recycled content

For extra protection of fragile or high value items, pre-formed corners save valuable time and offer optimum protection.

POLYTHENE

Shrink film from UK Packaging

- Choose from champagne or purple tints
- We can also provide Polyolefin Shrink Film, which releases fewer odours than PVC shrink wrap and can therefore be more suitable for wrapping food products.
- Both types of shrink wraps create a strong seal, shrinking evenly in all directions.
- We can also supply shrink-wrap machines [See Page 47](#)

SHRINK FILM

Shrink film is a centre-folded film used for a wide range of packing applications, often to add aesthetic appeal to a finished product.

POLYTHENE

GAS SHRINK SYSTEMS

At UK Packaging, we supply high-quality gas shrink systems for heat-shrinking polythene film.

Easy to use, these gas shrink systems provide a simple way of protecting products and pallets, and securing loads for safe transit.

Alongside our gas shrink systems, we can also provide a wide range of compatible polythene films.

IMPULSE HEAT SEALERS

Ideal for use in a wide range of industries, impulse heat sealers are used to create polythene and plastic bags in custom sizes.

The machines come in a variety of formats including handheld and desktop varieties, and are typically compatible with a wide range of films – though they work best with lay flat tubing.

HEAT SHRINK MACHINES

Available in a range of sizes and formats, heat shrink machines can be used to wrap everything from individual items (DVDs, games) to full pallets.

At UK Packaging, we offer a choice of high-quality machines, with a model to suit almost every requirement.

We also offer a variety of compatible shrink wrap films, in a wide range of thicknesses.

PALLET WRAP & STRETCH FILMS

Keep your palletised goods safe and secure during shipment with UK Packaging's superb range of pallet wrap and stretch films.

- 49 HAND PALLET WRAP

Top covers from UK Packaging

- Supplied perforated on the roll for ease of storage
- Gusseted for a neat fit
- Weather resistant for protecting pallets stored outdoors

PALLET WRAP & STRETCH FILMS

PALLET WRAP DISPENSERS

At UK Packaging, we offer a choice of pallet wrap dispensers – from a 100mm mini-roll dispenser to a universal metal stretch wrap dispenser for larger pallets.

Why use a pallet wrap dispenser?

- A simple, cost-effective solution for faster pallet wrapping
- Reduces stress and strain on the hands
- Compatible with a range of stretch wrap film sizes
- Mini-roll dispenser ideal for bundling smaller items

You might also be interested in our **pallet wrapping machines**.

50PWD009	100mm	Mini Roll Dispenser

PALLET WRAPPING MACHINES

As well as our hand-held pallet wrap dispensers, we also offer a range of automated pallet wrapping machines for higher-volume packing environments.

These pallet-wrapping machines are capable of securing pallets in a matter of seconds, helping to achieve an efficient and effective packing operation.

Pallet wrapping machines from UK Packaging

- A range of machines to suit different environments
- Compatible with our wide range of machine pallet wrap
- Ideal for high-volume continuous wrapping
- Makes light work of larger or odd-shaped loads

STRAPPING & TIES

UK Packaging is a leading supplier of pallet strapping solutions, stocking an excellent range of hand and machine strapping in a variety of materials, colours and roll sizes.

36SEAL31	12MM SEMI OPEN	2000
36SEAL32	12MM HEAVY DUTY	2000

PET (POLYESTER) STRAPPING, TOOLS AND DISPENSERS

A stronger alternative to polypropylene strapping, PET hand strapping is suitable for more heavy duty use.

It's available from UK Packaging in a range of roll sizes, alongside a range of compatible tools, buckles, seals and dispensers.

Why choose polyester strapping?

- Offers excellent tension, stays tight on pallets and loads
- Stronger and more resilient than other types of plastic hand strapping
- Can be applied quickly and easily using a strapping machine or hand dispenser
- Supplied on a cardboard core for easy use and storage

We have a large selection of strapping tools and ancilliary products available including: Sealers; Combination Tools; Dispensers; Tensioners; Seals & Buckles

Please call our experts who will be able to advise you of the best solutions for all your strapping requirements.

STRAPPING & TIES

STEEL STRAPPING, SEALS AND DISPENSERS

Commonly used in the construction sector as well as the packaging industry, steel strapping can secure even the heaviest of loads, pallets or shipments.

It's a stronger alternative to all types of plastic strapping, ideal for loads with sharp, awkward edges.

ON THAT NOTE...

Whether you're in need of polypropylene hand strapping, polyester strapping or steel strapping, we can also supply all the seals, buckles and tools you need for easy and effective application.

Steel hand strapping from UK Packaging

- Range of widths available to suit your requirements
- Steel strapping tools, seals and dispensers also available for a full strapping solution
- Supplied wound onto a coil for simple storage
- Our strongest hand strapping material

MACHINE STRAPPING AND MACHINERY

When you're strapping high volumes of cartons, pallets and packages, strapping machines are an ideal way to speed up your operation.

PART	WIDTH	LENGTH	COLOUR	BREAK STRAIN	CORE SIZE
36MS04	9mm	4000m	White	100kg	200/190
36MS07	12mm	3000m	White	125kg	200/190
36MS08	12mm	3000m	Blue	135kg	200/190

STRAPPING & TIES

FRICTION WELD TOOLS

UK Packaging stocks and supplies a range of battery-powered and pneumatic friction weld strapping tools, for use with polypropylene and polyester strapping.

Why use friction weld strapping tools?

- Ideal for packing environments where high-speed strapping is essential
- Provides a strong and secure seal, and gives you greater control over strap tension
- A safe strapping solution with no trailing cord or wire
- Simple strap feed and easy push button operation

We also offer a wider range of **strapping tools**, **tensioners** and **strapping machines**.

STRAPPING EDGE PROTECTORS

When you're using plastic strapping to secure your shipments, these edge protectors will prevent the straps from digging in and causing damage to the carton.

The straps sit neatly on the edge protector, preserving the box while holding the package firm.

- Available in a choice of sizes – large or small
- Cost-effective way of preventing damage to your pallets
- Made from strong, resilient plastic
- Pre-cast channel holds strapping firmly in place

Don't forget to stock up on **plastic strapping**.

THERE'S MORE...

See more edge protection on pages **32, and 38 to 40.**

BLOCK BOTTOM PAPER BAGS

Plastic Free, 100% recyclable

The environmentally friendly paper mailer

Our environmentally friendly block bottom bags are made of 100% paper and are perfect for shipping bulkier goods due to the side gussets and the block bottom and thus provide a lightweight alternative to cardboard. The wide self-adhesive ensures safe transportation

PRODUCT CHARACTERISTICS

- High-quality, hard-wearing kraft paper
- Block bottom and side gussets
- Unprinted
- Glued Flap with wide self-adhesive closure with paper masking tape
- Serrated cut at the opening
- Low net weight

PRODUCT OPTIONS

- Special sizes
- Block bottom and side gusset from 50 to 200mm
- Flap from 50 to 120mm
- Double fix closure for returns
- Fine serrated cut
- Double layer paper
- Other paper grades
- FSC - Certified paper, white
- PEFC™ - Certified paper, brown
- Individual, fixed or serial barcode numbering
- 100% climate-neutral product
- Continuous black print flap

POSTAL SIZE GUIDE

If your business relies on Royal Mail for distribution, then familiarity with the postal size guide is key to maximising your P&P profits.

Royal Mail size & weight guide (UK)

Letter

Max weight – 100g

Max length – 24cm

Max width – 16.5cm

Max depth – 5mm

Large Letter

Max weight – 750g

Max length – 35.3cm

Max width – 25cm

Max depth – 2.5cm

Small Parcel

Max weight – 2kg

Max length – 45cm

Max width – 35cm

Max depth – 16cm

Medium Parcel

Max weight – 20kg

Max length – 61cm

Max width – 46cm

Max depth – 46cm

Large Parcel

Max weight – 30kg

Max length – 1.5m (max 3m length and depth combined)

Postal Tubes

Max size – Length of the item plus 2 x diameter must be less than 104cm. Longest dimension max 90cm.

Royal Mail size and weight guide (International)

If you ship outside of the UK, the size and weight restrictions of letters and large letters remain the same.

Internationally though, all parcels must measure no more than 90cm (length, width and depth combined) with no single side longer than 60cm.

PACKAGING SYSTEMS & MACHINERY

For high-volume packing environments, packaging systems can represent a very smart investment – allowing you to save time, money and storage space by creating your own packing materials on site.

- 68 AIR BAG MACHINES AND FILM
- 69 PAPER SYSTEMS
- 70 PALLET WRAPPING MACHINES
- 70 TAPE SEALING MACHINES
- 71 HSM SHREDDERS
- 72 FOAM IN PLACE SYSTEMS
- 73 FRICTION WELD TOOLS
- 73 GAS SHRINK SYSTEMS
- 73 IMPULSE HEAT SEALERS
- 74 HEAT SHRINK MACHINES
- 74 MACHINE STRAPPING AND MACHINERY

AIR BAG MACHINES AND FILM

Minimum 50% recycled content

If you have an ongoing requirement for air bags (air cushions), why not invest in an air bag machine to help produce your own void-fill solutions on site?

Producing your own air bags on demand helps to reduce waste, and the machine quickly pays for itself with the savings made on packing materials.

Air cushion machines from UK Packaging

- Compatible with a choice of air cushion film types, which can be supplied with the machine
- Simple to operate and easy to maintain
- Air cushions / air bags make an ideal alternative to bubble wrap and other void fill
- Saves space as no need to store pre-made air cushions

We supply a wide range of airbag systems to suit your packing requirements. Airbags are available in a variety of sizes, styles, thicknesses and colours. A selection of stock sizes shown below.

PART	DESCRIPTION	SIZE	PLT QTY
35AIRPLUS01/REC	Recycled Airplus film	400mm x 565m x 250mm	60
35AIRPLUS02	Airplus Film	400mm x 565m x 175mm	60
35AIRPLUS03/REC	Recycled Airplus film	200mm 1125m x 120mm	65
35AIRPLUS04/REC	Recycled Airplus film	200mm x 1125m x 175mm	65
35AIRPLUS06/REC	Airplus bubble film	400mm x 565m x 160mm	60

Airplus® film types can be recycled and some films are made from 100% recycled material.

Airplus® bio film is compostable in accordance with din en 13432.

PACKAGING SYSTEMS & MACHINERY

NO
PPT

PAPER SYSTEMS Uses recycled material

Paper cushioning is one of the most prominent packing solutions in the fulfilment industry, used by a number of leading online retailers.

Popular due to the excellent protection it supplies as void-fill, it also represents a lower cost solution than most alternatives – and it can be created on site using one of these paper systems from UK Packaging.

Why invest in a paper system?

- Continuous production of paper cushions for high-volume packing environments
- Creates high-strength paper cushions to a pre-defined specification
- An environmentally friendly solution which uses recycled material
- Easy to use and simple to maintain

We supply a wide range of paper systems to suit your packing requirements. Papers are available in a variety of colours and thicknesses.

PALLET WRAPPING MACHINES

As well as our hand-held pallet wrap dispensers, we also offer a range of automated pallet wrapping machines for higher-volume packing environments.

These pallet-wrapping machines are capable of securing pallets in a matter of seconds, helping to achieve an efficient and effective packing operation.

Pallet wrapping machines from UK Packaging

- A range of machines to suit different environments
- Compatible with our wide range of machine pallet wrap
- Ideal for high-volume continuous wrapping
- Makes light work of larger or odd-shaped loads

TAPE SEALING MACHINES

Capable of sealing up to 30 boxes per minute, our high-quality tape sealing machines bring unbeatable efficiency to busy packing environments.

At UK Packaging, we can supply the cartons, the tape and the machine for a full, ready-to-go packaging solution.

Advantages of a tape sealing machine from UK Packaging

- Efficiently seals the top and bottom of cardboard cartons in seconds
- Compatible with industry standard machine tape
- Establishes a strong and consistent seal every time
- Adjustable top guides and tape tension allow the machine to seal a wide range of box sizes

PACKAGING SYSTEMS & MACHINERY

HSM SHREDDERS

Transform waste economically and sustainably in high quality packaging material.

The packaging machines HSM Profi Pack C400 and P425 turn used cardboard into universal packaging material that meets the highest demands – in the blink of an eye. You can do without plastic and are independent. You can save yourself expensive filling material - no storage, no handling, no costs!

Advantages

- Immediately economical and profitable
- Filling material universally applicable
- Ecological and sustainable
- User-friendly and safe
- High throughput capacity
- Short delivery time

FOAM-IN-PLACE SYSTEMS

Foam-in-place systems allow you to produce highly protective polyurethane foam packages on site, which can be moulded around items to cushion them in transit.

The process involves two chemicals combining to form a unique foam mould which then expands – effectively protecting your product in its own bespoke shell within the box.

Why choose a foam-in-place system?

- Foam provides exceptional protection for fragile items, or for electronic items sensitive to movement and shock
- System can be used to create bespoke cushioning for items and cartons of any shape or size
- Easy to use, foam-in-place systems help to speed up your packing process

FRICTION WELD TOOLS

UK Packaging stocks and supplies a range of battery-powered and pneumatic friction weld strapping tools, for use with polypropylene and polyester strapping.

Why use friction weld strapping tools?

- Ideal for packing environments where high-speed strapping is essential
- Provides a strong and secure seal, and gives you greater control over strap tension
- A safe strapping solution with no trailing cord or wire
- Simple strap feed and easy push button operation

We also offer a wider range of **strapping tools**, **tensioners** and **strapping machines**.

GAS SHRINK SYSTEMS

At UK Packaging, we supply high-quality gas shrink systems for heat-shrinking polythene film.

Easy to use, these gas shrink systems provide a simple way of protecting products and pallets, and securing loads for safe transit.

Alongside our gas shrink systems, we can also provide a wide range of compatible polythene films.

IMPULSE HEAT SEALERS

Ideal for use in a wide range of industries, impulse heat sealers are used to create polythene and plastic bags in custom sizes.

The machines come in a variety of formats including handheld and desktop varieties, and are typically compatible with a wide range of films – though they work best with lay flat tubing.

HEAT SHRINK MACHINES

Available in a range of sizes and formats, heat shrink machines can be used to wrap everything from individual items (DVDs, games) to full pallets.

At UK Packaging, we offer a choice of high-quality machines, with a model to suit almost every requirement.

We also offer a variety of compatible shrink wrap films, in a wide range of thicknesses.

MACHINE STRAPPING & MACHINERY

When you're strapping high volumes of cartons, pallets and packages, strapping machines are an ideal way to speed up your operation.

Here at UK Packaging, we supply a range of high-spec strapping machines, plus all the compatible machine strapping you need.

About our plastic machine strapping

- Available in a range of roll lengths, widths and colours
- Choice of stock core sizes (200mm x 190 or 280mm x 190mm), with other sizes on request
- Can be used with semi-auto or fully automatic strapping machines
- Semi automatic machines must be manually fed with the strapping, while automatic machines auto-feed

For lower-volume use, **hand strapping dispensers** may offer a viable alternative.

SUNDRIES

A one-stop shop for all your packaging and protective materials, UK Packaging also offers a range of sundry items to help you stock up on other essentials at a great price.

THERMAL ROLLS

High quality, economically priced roll labels which are compatible with all major label printers including Zebra, Citizen, Dymo & Seiko.

- Direct thermal labels are used with printers that DO NOT use an ink ribbon. These thermal labels are made from a paper which is optimised for direct thermal printing. Our range are all top coated and perforated every label.
- Thermal Transfer labels are used with printers that DO use an ink ribbon which is usually made from wax, resin or a combination of the two. The labels are made from a high quality semi gloss paper and are also suitable for hand writing.
- Dymo and Seiko compatible labels are made of a white top coated direct thermal material with a permanent adhesive. They are often used as address labels and postal stickers.
- High quality topcoated direct thermal Fasson™ material for clear printing and scanning of barcodes
- Strong adhesive to ensure successful application
- Zebra compatible labels are perforated between each label for easy tear off
- Discounts available for bulk ordering
- Many other sizes and bespoke labels are available on request

TERMS & CONDITIONS OF SALE

SELLERS CONDITIONS OF SALE APPLY

1. These terms and conditions of sale shall apply to and govern. Any contract between the Seller and the Buyer to the exclusion of any conditions contained on or in any order form letter, receipt acknowledgement, or the Terms and Conditions shall be effective unless expressly agreed by the Seller in writing.

2. PRICES All price quotations are calculated from the costs applicable at the date of such quotation. If there is any increase in such costs between the date of quotation and despatch the Seller may increase the quoted price accordingly. On printed orders the price confirmed excludes artwork etc which may be charged separately.

3. QUOTATIONS Quotations indicate the price at which the Seller would be willing to supply goods if a written order is placed within 30 days. Otherwise they are not offers to supply goods and any order placed on the basis of a quotation must be accepted by the Seller for a contract to arise. Clerical errors are subject to correction.

4. DELIVERY Unless otherwise agreed in writing the Buyer shall be bound to accept goods ordered by him on being notified by the seller that they are ready for delivery. b) If the buyer fails to take delivery at the time required by the Contract the Seller shall be entitled without prejudice to any rights it may have to treat the Contract as at an end and to resell the goods, or to invoice the goods whereupon payment in full shall become due and in either case charge at rates giving an economic return for the handling and storage of goods from the invoice date to the eventual date of delivery to the Buyer or disposal elsewhere as the case may be and the Buyer shall be liable to pay any premium in respect of the insurance of such goods from the date on which he is notified that the goods are ready for delivery.

c) If goods are contracted to be delivered by instalments, late delivery of one instalment shall not entitle the Buyer to reject any other instalment under the contract.

d) (i) Any date of delivery given by the Seller to the Buyer shall be an estimate only and while the seller will endeavour to comply with any such date it shall not be responsible for late delivery.

(ii) Without prejudice to the generality of the foregoing the Seller shall not be liable for late delivery of failure to deliver through any cause which is beyond the control of the Seller.

5. RISK All Goods are at the Buyers risk from the time of delivery or collection by the Buyer or his agent, or delivery to the place stipulated in the contract.

6. RETENTION OF TITLE.

a) Goods delivered to the Buyer shall remain the property of the Seller until all sums due to the Seller from the Buyer in respect of goods or otherwise are paid to the Seller. In the event of any default by the Buyer in payment of any such sum the Seller shall be entitled to retain possession of the goods. b) Where payment is affect by cheque the Seller shall not have received payment until that cheque has been honoured and the amount credited to the Seller's bank account.

c) Until sums due from the Buyer to the Seller have been paid or until resale in accordance with sub-paragraph d) of this clause the customer will keep and mark the goods in such a way as to show they are property of the Seller and shall hold the same as bailee of the Buyer.

d) The Buyer shall be entitled as agent of the Seller before the property and the goods have passed (but subject to any lien or right of retention on the part of the Seller).

(i) To resell the goods or any part thereof but shall pay to the Seller the proceeds of the sale or such part

thereof as maybe necessary to pay all sums due to the Seller from the Seller and until such payment should hold proceeds from the sale on trust for the Seller

(ii) To use the goods in the ordinary course of his business.

7. LAW Any agreement incorporating these Conditions shall be governed by English Law.

8. PAYMENT All sums due to the seller shall be paid by the last day of the month after the month of delivery. In fault the seller may:

a) Suspend delivery under all or any contracts with the buyer.

b) Charge interest at the rate of 5% over Lloyds Bank Minimum lending rate from the day following that on which payment was due.

9. TERMINATION The Seller shall have the right immediately to terminate the contract at any time upon occurrence of any of the following events.

a) If the Buyer commits any act of bankruptcy or compounds or makes arrangements with his creditors or executes a bill of sale on his goods or any of them or if any execution or distress is levied upon the goods of the Buyer

b) If the Buyer being a company is wound up either compulsory or voluntarily or a receiver of its assets is appointed.

c) If the Buyer commits any breach of contract.

Both parties have the right to terminate the contract for any or no reason on thirty (30) days notice to Seller. Upon any such termination the Seller shall have the right to be paid the price of goods manufactured or sold prior to the date of termination and the Buyer shall take over and pay for at the current price such materials as have been allocated by the seller to the contract.

10. CONSEQUENTIAL LOSS Without prejudice to the generality of the foregoing provisions the Seller shall not in any event be liable to the Buyer for any indirect or consequential loss or damage.

11. FORCE MAJEURE The Seller shall not be liable for failing to perform the contract whether wholly or partly by any circumstance or circumstances outside the Sellers control.

12. FITNESS FOR PURPOSE Where the goods are required for a purpose other than the normal or usual purpose for which such goods are commonly supplied then no condition or warranty of fitness for the purpose of the goods shall be implied unless the Buyer has made known to the Seller in writing the exact purpose for which the goods are intended to be used, on or before the making of the contract.

13. SIZE OF MATERIALS Unless specifically warranted (in writing) as accurate sizes all sizes referred to on price lists, estimates or brochures are approximate only.

14. AVAILABILITY OF GOODS. Any quotation given by the Seller shall not constitute an offer for sale or a representation that those goods are available for sale.

15. QUANTITY The Seller cannot guarantee exact quantities in respect of any goods supplied and shall be deemed to have fulfilled its obligations under the contract by delivery or manufacture of a quantity plus or minus 10% of the quantity specified in the contract and the buyer shall pay the contract rate for the actual quantity delivered.

16. PRINT ORIGATION WORK. All material produced in origination work remains the property of the Seller unless paid for by the Buyer.

17. PROOF READING No responsibility shall be accepted by the Seller for any errors in proof submitted to and approved by the Buyer.

18. DIMENSIONS AND GAUGE Except where agreed in writing the Seller shall be deemed to have fulfilled its obligations under the contract by producing goods within the tolerances laid down by the Packaging

and Industrial Films Association (P.I.F.A.). In general sizes will be controlled to within plus or minus 3% and film gauge to within plus or minus 10%. Corrugated cartons are subject to a manufacturers tolerance of plus or minus 3-5mm on the creases.

19. INK COLOURS Whilst the Seller will take all reasonable steps to try to match colour this cannot be guaranteed and the contract shall be deemed to have been performed by delivery of goods of the general shade and density of colour stipulated.

20. EPR PRODUCER RESPONSIBILITY — ALLOCATION OF OBLIGATIONS Definitions In this clause, "EPR Regulations" means the Producer Responsibility Obligations (Packaging and Packaging Waste) Regulations 2024 (SI 2024/1332) and any successor regulations. "Empty Packaging" means unfilled or unbranded packaging supplied by the Seller prior to filling, packing, or incorporation into a finished product.

Buyer's Declaration The Buyer warrants that it has accurately declared to the Seller its producer status under the EPR Regulations (Large Producer, Small Producer, or Not Obligated) and the intended end-use of the Empty Packaging supplied (household or non-household). The Buyer shall notify the Seller in writing within 14 days of any material change to its producer status or packaging end-use.

Allocation of Responsibility Where the Buyer has declared itself a registered Large Producer and provided its EPR Producer Registration Number, the Seller will treat the volumes supplied as falling outside the Seller's distributor reporting obligation. The Buyer accepts that producer responsibility for those volumes rests with the Buyer as the party placing the packaging on the UK market. Where the Buyer has not declared Large Producer status, or has failed to provide satisfactory evidence of registration, the Seller may treat the volumes supplied as subject to the Seller's own distributor reporting obligation and may apply an EPR Disposal Fee Contribution accordingly.

Evidence The Buyer shall, within 30 days of written request, provide reasonable evidence of its producer status and the end-use of packaging supplied, including its EPR Producer Registration Number, compliance scheme name, and any customer declarations held. Failure to provide such evidence within this period entitles the Seller to apply a conservative household classification for reporting and fee purposes.

Indemnity The Buyer shall indemnify the Seller against any fines, penalties, additional fees, or reasonable administrative costs arising directly from any inaccurate or misleading declaration by the Buyer regarding its producer status or the intended end-use of the packaging supplied.

Survival This clause shall survive termination of the contract for a period of seven years, reflecting the statutory evidence retention obligation under the EPR Regulations.
