A MESSAGE OF THANKS

On behalf of the University of Northwestern Ohio Career Services Department, thank you to everyone who helped make the 2026 UNOH Fall Career Fair possible.

To our **employers**, thank you for choosing to spend your time with our students and alumni. Your willingness to share your experiences, discuss career opportunities, answer questions, and build relationships has an impact that extends far beyond this event. Whether you traveled from across Ohio or across the country, your presence demonstrates a genuine commitment to developing the next generation of professionals.

To our **Platinum, Gold, and Silver Sponsors**, we are incredibly grateful for your additional investment in this event and in our Racers. Your generosity and continued partnership allow us to create greater opportunities for our students while continuing to grow and improve the Career Fair each year.

To our **students and alumni**, this event was created for you. Thank you for preparing, stepping outside of your comfort zones, starting conversations, asking questions, and taking an active role in building your future. Every introduction made today has the potential to become an internship, a first job, a new career, or a professional relationship that lasts for years.

To our **faculty and staff**, thank you for encouraging students to attend, helping them prepare, sharing your expertise, and supporting Career Services throughout this process. The success of an event of this size is only possible because of the collaboration that takes place across our entire university.

And to everyone who volunteered their time behind the scenes, helping with setup, registration, employer assistance, student preparation, logistics, and countless other details... Thank you. Your work may not always be visible, but it is essential.

A career fair is ultimately about much more than tables, resumes, and job openings. It is about **people connecting with people**. It is about opening doors, discovering possibilities, and helping students see where their education, skills, and passion can take them.

We are proud to bring together such an incredible group of employers, students, alumni, faculty, staff, and community partners for the 2026 UNOH Fall Career Fair.

Thank you for believing in our students, supporting our university, and helping our Racers take the next step toward their future.

With sincere appreciation,

Kyler Washam

Director of Career Services

University of Northwestern Ohio

ITINERARY FOR THE 2026 UNOH FALL CAREER FAIR:

TEAM

APPLY ONLINE AT WWW.TEAMPENSKE.COM/CAREERS

MECHANIC - INDYCAR

The individual will work as a mechanic in the shop and at the race track. The mechanic will assemble and disassemble the race cars and work to prepare them for the race weekend. The mechanic must be versatile to work on all aspects of a race car with focus on front, rear and/or mid sections. At the race track the mechanic will prepare the car for the track by making necessary changes when instructed. As a mechanic the individual will ensure that all components of the car are secured.

RESPONSIBILITIES

- Cleaning and inspection of suspension components.
- Cleaning and inspection of engine ancillary components.
- Disassembly of race cars (suspension, engine and interior components) as required.
- Installation of suspension components; front and rear.
- Trim and installation of various components.
- Perform other related duties as assigned or requested.

QUALIFICATIONS

- Certificate/Diploma from an Automotive Trade School or equivalent work experience is preferred.
- Previous experience as a mechanic from an automotive dealership or similar experience is preferred.
- Ability to use hand tools is required.
- Ability to lift more than 20lbs.
- Ability to bend, kneel, sit or stand for extended periods of time.

TRANSPORT DRIVER - INDYCAR

Team Penske transport drivers are full-time, year-round opportunities supporting our IndyCar program. Our transport drivers are expected to represent the team in a professional manner at all times while on the road and in the shop. As an IndyCar Transport Driver, you will be responsible for safely transporting race cars, pit equipment, tools, and materials to and from race and test venues across the IndyCar schedule.

RESPONSIBILITIES

- Safely load, secure, and unload IndyCar race cars, pit equipment, and associated materials.
- Manage transporter inventory and ensure all equipment is accounted for before and after events.
- Maintain cleanliness and professional presentation of the transporter for team personnel, partners, and guests.
- Ensure compliance with all DOT, DMV, state, and federal highway safety regulations.

QUALIFICATIONS

- Valid Class A Commercial Driver License (CDL) required.
- Current Medical Examiner's Safety Certificate required (or ability to obtain).
- Clean driving record and satisfactory background check.
- Professional demeanor and strong work ethic.
- Prior motorsports transport experience preferred; experience hauling high-value equipment (e.g., car haulers) considered.
- Ability to lift up to 75 lbs independently.

JUNIOR MECHANIC - NASCAR

Team Penske is seeking a Junior Mechanic to join the Underbody Group, responsible for installing, setting, and scanning race car underbody panels to exact aerodynamic and performance specifications. This role works closely with the aero and competition groups to ensure precision and repeatability while contributing to continuous improvement in quality control processes. The ideal candidate has hands-on fabrication experience, has the interest in learning how to use metrology tools and scanning equipment, and strong attention to detail in a fast-paced racing environment.

RESPONSIBILITIES

- Assist with setup, measurement, and installation of race car underbody panels under guidance from senior technicians.
- Learn how to use precision tools such as laser scanners and CMMs for measurement and documentation (training provided).
- Compare measurements to CAD models and report results to engineering and competition groups.

QUALIFICATIONS

- Familiarity with common fabrication tools and techniques.
- Comfortable using computers and digital tools for measurement, documentation, and communication.
- Strong mechanical aptitude and understanding of motorsport vehicle structures and materials.
- Ability to work independently and as part of a multidisciplinary team in a high-performance environment.

FABRICATOR - NASCAR

Team Penske is seeking a skilled Body Fabricator to support NASCAR Body Fabrication operations. This position is responsible for a variety of welding, fabrication, body installation, and repair processes to support race vehicle preparation and performance. The ideal candidate can work independently or as part of a team, producing high-quality work while meeting tight deadlines and exacting specifications. Work includes racecar body installation, vehicle and composite repairs, pit support equipment fabrication, and shop equipment fabrication.

RESPONSIBILITIES

- Fabricate materials and components to meet Team Penske requirements as directed by management and engineering.
- Prepare, fit, and install body panels using metrology equipment and measurement tools.
- Cut, shape, bend, and prepare metal and tubing for fabrication projects.
- Perform other duties as assigned.

QUALIFICATIONS

- High school diploma or equivalent required.
- Minimum computer proficiency, including familiarity with Microsoft Office applications.
- Ability to manage multiple projects and meet deadlines in a fast-paced environment.
- Welding experience preferred; 3+ years of MIG and TIG welding experience is a plus.

DEAN

TRANSPORTATION

FLEET SERVICES

Michigan's trusted student
transportation provider
since 1969

ABOUT DEAN TRANSPORTATION

With roots in student transportation dating back to the 1950s, **Dean Transportation** has been dedicated to serving students, families, and school districts for more than five decades. What began with a commitment to serving students with special needs and disabilities has grown into one of the nation's most experienced family-owned and operated student transportation companies, remaining guided by the same values of dedication, integrity, and respect since its founding.

Dean Trailways was founded in 1994 and has become Michigan's premier charter and tour company, offering a wide range of services to accommodate group travel needs.

Dean Fleet
Technicians

54

Dean
Operations

1,700+

Dean-Operated
Vehicles

- 1,597 School Buses
- 143 Alternative Student Transportation Vehicles
- 22 Motorcoaches
- 7 Black Cars & Personal Transportation Vehicles

FLEET TECHNICIAN ROLE & RESPONSIBILITIES

A Dean Fleet Technician performs vehicle maintenance, including diagnosis and repairs on all company owned equipment and vehicles. Specific responsibilities include:

- Performs repairs as needed in accordance with OEM manufacturer's recommendations and State and Federal regulations.
- Inspects equipment for defects, determines root causes and completes repairs for appropriate correction to defects found.
- Uses full understanding of preventative maintenance inspection and repair processes to include but not limited to, diesel and gas engines, air and hydraulic braking systems, suspension systems, drivetrain assemblies, automatic transmissions, differentials, hydraulic lift systems, electrical systems and body assemblies.
- Answers service calls and responds to breakdowns; conducts on-site repairs when possible.
- Communicates with bus drivers, operations staff and other Fleet technicians regarding maintenance difficulties and/or advises or assists as necessary.
- Performs safety inspections; assists with annual Michigan State Police inspections.
- Performs additional duties as assigned.

TRAINING AND DEVELOPMENT

Dean supports the ongoing development of the Fleet Services team through:

- Paid weekly online training
- Factory training opportunities
- Specialized Cummins training

WHAT YOU'LL DO

- ✓ Custom build and upfit truck chassis with dump bodies, snowplows, salt spreaders, liftgates, lighting, hydraulics, and related equipment
- ✓ Diagnose and troubleshoot mechanical, electrical, hydraulic, and pneumatic issues
- ✓ Perform welding and fabrication as needed
- ✓ Work with parts, inventory, and shop tools to complete builds efficiently
- ✓ Maintain a clean, safe, and organized work area
- ✓ Support teammates and contribute to a positive, productive shop environment

YOU'RE THE BEST FIT IF YOU HAVE

- ✓ Mechanical background (high performance/ automotive/diesel/agriculture)
- ✓ Troubleshooting abilities (electrical/mechanical/pneumatic)
- ✓ Welding, Plasma Cutting and/or fabrication skills
- ✓ Understanding of pneumatics, hydraulics, and electrical systems
- ✓ A good attitude and willingness to work well with others
- ✓ Must have your own set of tools or be willing to build your set over time

WHY THIS ROLE MATTERS

Our technicians are the backbone of what we do. When you bring your talent, craftsmanship, and reliability, you help deliver the quality our customers trust — and you help strengthen a company that's been built on pride and hard work since 1975.

INDUSTRIAL CONTRACTORS

Build Your Automotive Career at the OEM Level

DIAGNOSE → SOLVE → VALIDATE → STANDARDIZE → EXECUTE

NEW VEHICLES.

NEW PLATFORMS.

PROTOTYPES.

EMERGING TECHNOLOGY.

At **MQRG**, we don't just follow repair procedures, we work alongside OEM teams to diagnose problems, develop solutions, validate repairs, and build repeatable processes that can be deployed across larger vehicle populations and dealer networks.

WORK CAN INCLUDE

ADVANCED ELECTRICAL + CAN BUS DIAGNOSIS

CAN/LIN communication faults, network topology, module communication, wiring, circuits, DTCs, live data, root-cause troubleshooting

PROGRAMMING + SOFTWARE

Module flashing, configuration, software updates, re-flashing, OEM diagnostic applications

NEW PLATFORMS + PROTOTYPES

New vehicle architectures, pre-production vehicles, emerging systems, technology before it reaches the traditional repair environment

MAJOR MECHANICAL + HARDWARE

Engine replacements, major component repairs, hardware changes, engineering updates, vehicle modifications

VALIDATION + PROCEDURE DEVELOPMENT

Help prove the repair, validate the result, build repeatable processes that can be executed at scale

QUALITY ISN'T THE FINAL STEP. IT'S PART OF EVERY STEP.

We want detail-oriented, process-driven professionals who understand why consistent procedures and execution matter. We are looking for technicians who are hungry to learn, adaptable, accountable, team-first, and serious about building a career.

MQRG is a rapid-response business; an OEM need can become a major program quickly, and priorities change fast. Our goal is to deliver every vehicle in the best possible condition before it reaches the dealer, and ultimately the customer.

BUILD A CAREER WITH US.

2026 UNOH FALL CAREER FAIR

SILVER SPONSORS

Proud Supporters of the 2026 Fall Career Fair

The University of Northwestern Ohio Career Services Department proudly recognizes our Silver Sponsors for their support of the 2026 Fall Career Fair. Their contributions help strengthen connections between UNOH students, alumni, and employers while supporting valuable career exploration and professional opportunities.

We greatly appreciate their commitment to our Racers and their role in helping make this event a meaningful experience for our students and graduates.

Looking for your next opportunity?

Join a team where your experience matters.

Kalmbach Feeds is hiring across production, maintenance, yard jockeys, and warehouse roles.

Kalmbach Feeds is a family-owned company built on hard work, respect, and doing the right thing.

We are aware that many skilled individuals from the Toledo Molding & Die team are facing uncertainty at this time. If you are looking for steady work and a place to move forward, we would like to connect.

Your Experience Transfers Here

Your background in manufacturing, troubleshooting, and working as part of a team applies directly to what we do every day

We value people who understand how to show up, solve problems, and keep operations running.

What We Look For

- Reliable attendance
- Strong work ethic
- Willingness to learn
- Ability to work as part of a team
- Focus on safety and doing the job right

Pay and Benefits

- Competitive pay
- Day 1 - Health, dental, & vision insurance
- 401(k) with company match
- Paid time off
- Boot & winter wear reimbursement
- Wellness programs and incentives

"I enjoy the culture. I came from a big corporate environment, and moving to a family-owned company where it's warm and personable has been a good change."
— Larry

ABOUT THE EMPLOYERS

Belle Tire — Table 1

Belle Tire provides tires, wheels, and full-service automotive repair, including brakes, alignments, batteries, oil changes, and other vehicle services. The company offers hands-on opportunities for students interested in automotive service, customer service, and operations.

Roush Industries — Table 2

Roush is an engineering and product-development company that turns ideas into real-world solutions through design, engineering, prototyping, testing, and manufacturing. Its work spans mobility, automotive, aerospace, agriculture, and other advanced industries.

Lincoln Electric Automation — Table 3

Lincoln Electric Automation designs and integrates advanced automation systems involving robotic welding, cutting, assembly, tooling, and material handling. Students interested in robotics, engineering, fabrication, controls, and manufacturing can explore a variety of technical career paths.

Crown Equipment Corporation — Table 4

Crown is a global manufacturer of forklifts and material-handling equipment, technologies, and solutions. Career opportunities span manufacturing, engineering, service, maintenance, electronics, sales, and business operations.

Feld Entertainment — Table 5

Feld Entertainment produces and presents live touring family entertainment around the world, including properties such as Monster Jam, Disney On Ice, and Ringling Bros. Careers support everything from technical production and motorsports to marketing and business operations.

LaFontaine Automotive Group — Table 6

LaFontaine Automotive Group operates automotive dealerships and collision centers across Michigan. Its teams work in vehicle sales, service, parts, collision repair, customer experience, and business operations.

Team Penske — Table 7

Team Penske is one of professional motorsports' most accomplished organizations and currently competes in major racing series including INDYCAR and NASCAR. Opportunities behind the scenes involve technicians, engineering, fabrication, operations, marketing, and race-team support.

Bergey's Truck Centers — Table 8

Bergey's Truck Centers provides commercial truck sales, leasing and rental, parts, service, tires, and collision repair. Students interested in diesel technology and the commercial transportation industry can explore a wide range of technical careers.

Rush Enterprises — Table 9

Rush Enterprises provides commercial vehicle sales, leasing, rental, parts, service, collision repair, financing, and fleet solutions through a large network of dealerships. Opportunities include diesel technicians, parts, service, sales, and business operations.

Whiteford Kenworth — Table 10

Whiteford Kenworth supports the commercial trucking industry through new and used truck sales, leasing, rental, parts, maintenance, service, and body repair. Its dealerships offer strong opportunities for diesel and transportation-focused students.

JX Enterprises — Table 11

JX Enterprises serves the commercial trucking industry through truck sales, parts, service, leasing, and transportation solutions. Students can explore careers connected to diesel service, fleet support, customer service, parts, and dealership operations.

Transportation Research Center — Table 12

Transportation Research Center is an independent mobility testing and engineering organization where vehicles and components are evaluated for performance, safety, durability, efficiency, emissions, and emerging technologies.

Wimer Performance — Table 13

Wimer Performance works in the diesel and performance industry, providing students interested in engines, performance systems, fabrication, and hands-on mechanical work an opportunity to learn more about specialized performance careers.

Tesla — Table 14

Tesla designs and manufactures electric vehicles along with battery and energy-generation and storage products. Career paths can involve vehicle service, manufacturing, engineering, electronics, diagnostics, automation, and energy technology.

Don Ott Racing Engines — Table 15

Don Ott Racing Engines specializes in high-performance sprint-car engines and engine programs used in professional racing. Students interested in machining, engine building, performance tuning, and motorsports can connect directly with a highly specialized racing operation.

S&S Volvo — Table 16

S&S Volvo is a commercial truck dealership offering Volvo and Isuzu trucks along with parts, service, leasing, and rental. Opportunities align particularly well with diesel technology, fleet maintenance, and commercial transportation.

Reineke Family Dealerships — Table 17

Reineke Family Dealerships is a regional automotive group providing new and pre-owned vehicle sales, service, parts, collision repair, and related automotive services across Ohio and Michigan.

Dean Transportation / Dean Trailways — Table 18

Dean Transportation provides school and passenger transportation services with an emphasis on safe, dependable transportation. Careers include drivers, fleet and diesel technicians, operations, dispatch, management, and support roles.

Tri-County International Trucks — Table 19

Tri-County Truck Centers serves the commercial vehicle industry with new and used trucks, parts, service, leasing, and rental. The company offers career possibilities for diesel technicians and other transportation professionals.

Vander Haag's Inc. — Table 20

Vander Haag's serves the heavy-truck industry through truck and equipment parts, sales, repair, service, and related solutions. Students interested in diesel, heavy equipment, parts, fabrication, and transportation can explore multiple career paths.

Blue Beacon of Beaverdam — Table 21

Blue Beacon operates professional truck-wash locations serving drivers and commercial fleets across the country. Its operations offer opportunities in facility operations, equipment maintenance, customer service, and leadership.

Quality Repair Solutions / Quality Carriers — Table 22

Quality Carriers specializes in safely transporting chemicals throughout North America, while its supporting operations help keep commercial equipment maintained and operating. Opportunities may include drivers, technicians, maintenance, operations, and logistics.

Crete Carrier Corporation — Table 23

Crete Carrier Corporation is a nationwide transportation company operating dry-van, refrigerated, and specialized freight divisions. In addition to driving careers, the organization offers opportunities in shops, maintenance, offices, and transportation operations.

Penske Truck Leasing — Table 24

Penske Truck Leasing provides commercial truck leasing and rental, fleet maintenance, used trucks, and transportation technology solutions throughout North America. It offers strong career pathways for diesel technicians, fleet professionals, and business students.

Cheeseman Transport — Table 25

Cheeseman Transport provides less-than-truckload, truckload, expedited, dedicated, warehousing, and other transportation solutions. Career areas include professional driving, diesel maintenance, logistics, operations, and business support.

K&M Tire — Table 26

K&M Tire is an independent tire distributor supplying passenger, light truck, commercial truck, agricultural, industrial, and specialty tires to dealers across a large multi-state network.

Dumarey USA — Table 27

Dumarey USA supports the automotive and mobility industries through engineering, technology, testing, and manufacturing activities. Students interested in automotive systems, engineering, advanced manufacturing, and technical development may find strong connections.

Dana Incorporated — Table 28

Dana designs and manufactures drivetrain, propulsion, thermal, sealing, and electrification technologies used in passenger vehicles, commercial vehicles, and off-highway equipment.

ThorSport Racing — Table 29

ThorSport Racing is an Ohio-based professional motorsports organization competing in the NASCAR Craftsman Truck Series. Students can explore the technical, mechanical, fabrication, engineering, operational, and business work required to run a professional race team.

Kalida Truck Equipment — Table 30

Kalida Truck Equipment outfits commercial and vocational vehicles with products such as dump bodies, service bodies, liftgates, snow and ice equipment, specialty bodies, and truck accessories.

GNCO Inc. — Table 31

GNCO is a family-owned group of material-handling companies providing forklifts and equipment, warehouse solutions, parts, service, rentals, fleet management, batteries, and operator training.

Superior Credit Union — Table 32

Superior Credit Union is a member-owned financial institution with roots in the Lima community. It provides banking and financial services while offering career opportunities in customer service, lending, finance, operations, IT, and business.

Ohio Logistics — Table 33

Ohio Logistics provides warehousing, distribution, transportation, and other supply-chain solutions from locations throughout the Midwest. Its operations create opportunities in logistics, warehousing, transportation, operations, sales, and management.

Kirk NationalLease — Table 34

Kirk NationalLease provides commercial truck leasing, rental, maintenance, and customized private-fleet solutions. Students interested in diesel technology, fleet management, transportation, and business operations can explore opportunities throughout the organization.

Dayton Freight — Table 35

Dayton Freight is a regional less-than-truckload freight carrier headquartered in Ohio. Careers include professional driving, dock operations, diesel and fleet maintenance, logistics, customer service, and corporate support.

Flag City Truck & Equipment — Table 36

Flag City Truck & Equipment is a commercial truck dealership providing truck sales, parts, service, body and fabrication work, and rentals. The company offers hands-on opportunities for students interested in diesel and heavy trucks.

Worldwide Equipment — Table 37

Worldwide Equipment operates commercial truck dealerships offering new and used trucks, leasing, parts, service, and fabrication support. Its career paths include technicians, parts professionals, sales, and dealership operations.

FedEx Freight — Table 38

FedEx Freight provides less-than-truckload freight transportation services to businesses across North America. Opportunities can include professional driving, diesel and fleet maintenance, freight handling, operations, logistics, and leadership.

Allen County Regional Transit Authority — Table 39

Allen County RTA provides public transportation services to the Lima and Allen County community. Career paths can include vehicle maintenance, professional driving, dispatch, operations, customer service, and administration.

GROB Systems Inc. — Table 40

GROB Systems designs and manufactures advanced machining centers, production systems, and automated assembly equipment serving industries including automotive, electromobility, aerospace, medical, and manufacturing.

Midmark Corporation — Table 41

Midmark develops equipment and solutions for medical, dental, and veterinary care environments. Students can explore careers in manufacturing, engineering, technology, service, supply chain, and business operations.

Cummins Inc. — Table 42

Cummins designs, manufactures, distributes, and services power solutions including engines, components, generators, electrified systems, and other advanced technologies. Careers span diesel technology, engineering, manufacturing, service, business, and emerging energy systems.

Alliance Automation — Table 43

Alliance Automation designs and builds custom robotic automation systems, from individual machines and fixtures to complete automated production lines. Opportunities include robotics, controls, electrical and mechanical engineering, machining, fabrication, and machine building.

Penske Automotive Group — Table 44

Penske Automotive Group is an international transportation-services company operating automotive and commercial truck dealerships. Its dealerships provide career opportunities in automotive service, sales, parts, management, finance, and customer operations.

YSK Corporation — Table 45

YSK Corporation is an automotive manufacturing company in Chillicothe producing metal-stamped and vehicle-related components. Students interested in manufacturing, maintenance, machining, quality, and production environments may find strong career connections.

PERRY proTECH — Table 46

PERRY proTECH helps organizations manage IT, cybersecurity, printing, document workflows, and other business technologies. Opportunities span information technology, cybersecurity, technical service, sales, customer support, and business operations.

Cleveland Brothers Equipment — Table 47

Cleveland Brothers is a Caterpillar equipment dealer providing heavy equipment, engines, generators, rentals, parts, and service for industries such as construction, agriculture, mining, and forestry.

Columbus Equipment Company — Table 48

Columbus Equipment Company is an Ohio heavy-equipment dealer offering equipment sales, rentals, parts, and service. Career opportunities include diesel and heavy-equipment technicians, product support, sales, and management.

Southeastern Equipment Company — Table 49

Southeastern Equipment sells, rents, and services construction and heavy equipment. Students can explore technician, parts, sales, rental, and support careers throughout its regional dealership network.

Washington Penn Plastic — Table 50

Washington Penn develops and manufactures engineered plastic compounds used in automotive and other manufacturing applications. Students may find connections in manufacturing, engineering, quality, maintenance, and production.

West Side Tractor Sales — Table 51

West Side Tractor Sales is a family-owned equipment dealership supporting construction and heavy-equipment customers through equipment sales, parts, service, and product support.

Bane-Welker Equipment — Table 52

Bane-Welker Equipment is an employee-owned agricultural and construction equipment dealership serving customers throughout Ohio and Indiana with equipment, parts, service, and precision-agriculture solutions.

Koenig Equipment — Table 53

Koenig Equipment is a long-established John Deere dealership serving agricultural, turf, and equipment customers across Ohio and Indiana. Careers include technicians, parts, sales, precision technology, and business operations.

Freshway Foods – Table 88

Freshway Foods processes and distributes fresh-cut produce while also supporting transportation and logistics operations for foodservice and retail customers. Career areas include production, logistics, maintenance, quality, transportation, and business.

Lima Memorial Health System – Table 89

Lima Memorial Health System is a nonprofit healthcare organization serving northwest Ohio through hospital, physician, specialty, outpatient, and community health services. Career opportunities range from clinical care to administration and technical support.

HCF Management – Table 90

HCF Management supports skilled nursing and long-term-care communities. Students interested in healthcare, administration, human resources, dietary services, maintenance, operations, and resident support can explore careers within the organization.

Walmart & Sam's Club – Table 91

Walmart and Sam's Club operate large-scale retail, e-commerce, distribution, fleet, and supply-chain networks. Career opportunities span management, logistics, maintenance, technology, merchandising, finance, human resources, and customer operations.

Ohio Army National Guard – Table 92

The Ohio Army National Guard allows Soldiers to serve both state and federal missions while developing skills in a wide variety of military career fields, including maintenance, transportation, engineering, technology, logistics, and leadership.

State Farm Insurance Companies – Table 93

State Farm provides insurance and financial services designed to help customers manage risk and recover from unexpected events. Careers can include insurance, claims, sales, customer service, technology, finance, and business operations.

OhioHealth – Table 94

OhioHealth is a nonprofit health system serving communities throughout Ohio through hospitals, outpatient locations, physician services, and other healthcare programs. It offers both clinical and nonclinical career paths.

OhioMeansJobs Allen County / Allen County Job & Family Services – Table 95

OhioMeansJobs Allen County connects job seekers and employers through career development, recruiting, training, internships, job-search assistance, and workforce resources. Students from every UNOH program can benefit from connecting with their team.

Ohio State Highway Patrol – Table 96

The Ohio State Highway Patrol is a statewide law-enforcement agency focused on traffic safety, public safety, and service to Ohio communities. Opportunities include sworn law enforcement and professional support careers.

Cedar Point – Table 97

Cedar Point is a major amusement and hospitality destination offering seasonal and year-round careers across ride maintenance, mechanical trades, resorts, food and beverage, security, human resources, guest services, management, and operations.

Schneider – Table 98

Schneider provides transportation, trucking, logistics, and supply-chain solutions. Opportunities include professional driving, diesel and fleet maintenance, warehousing, logistics, operations, technology, and corporate careers.

Actalent – Table 99

Actalent connects engineering and science professionals with organizations needing specialized talent and technical services. Students in engineering, robotics, automation, technology, manufacturing, and related fields can explore career opportunities through its network.

Farmers Insurance – Table 100

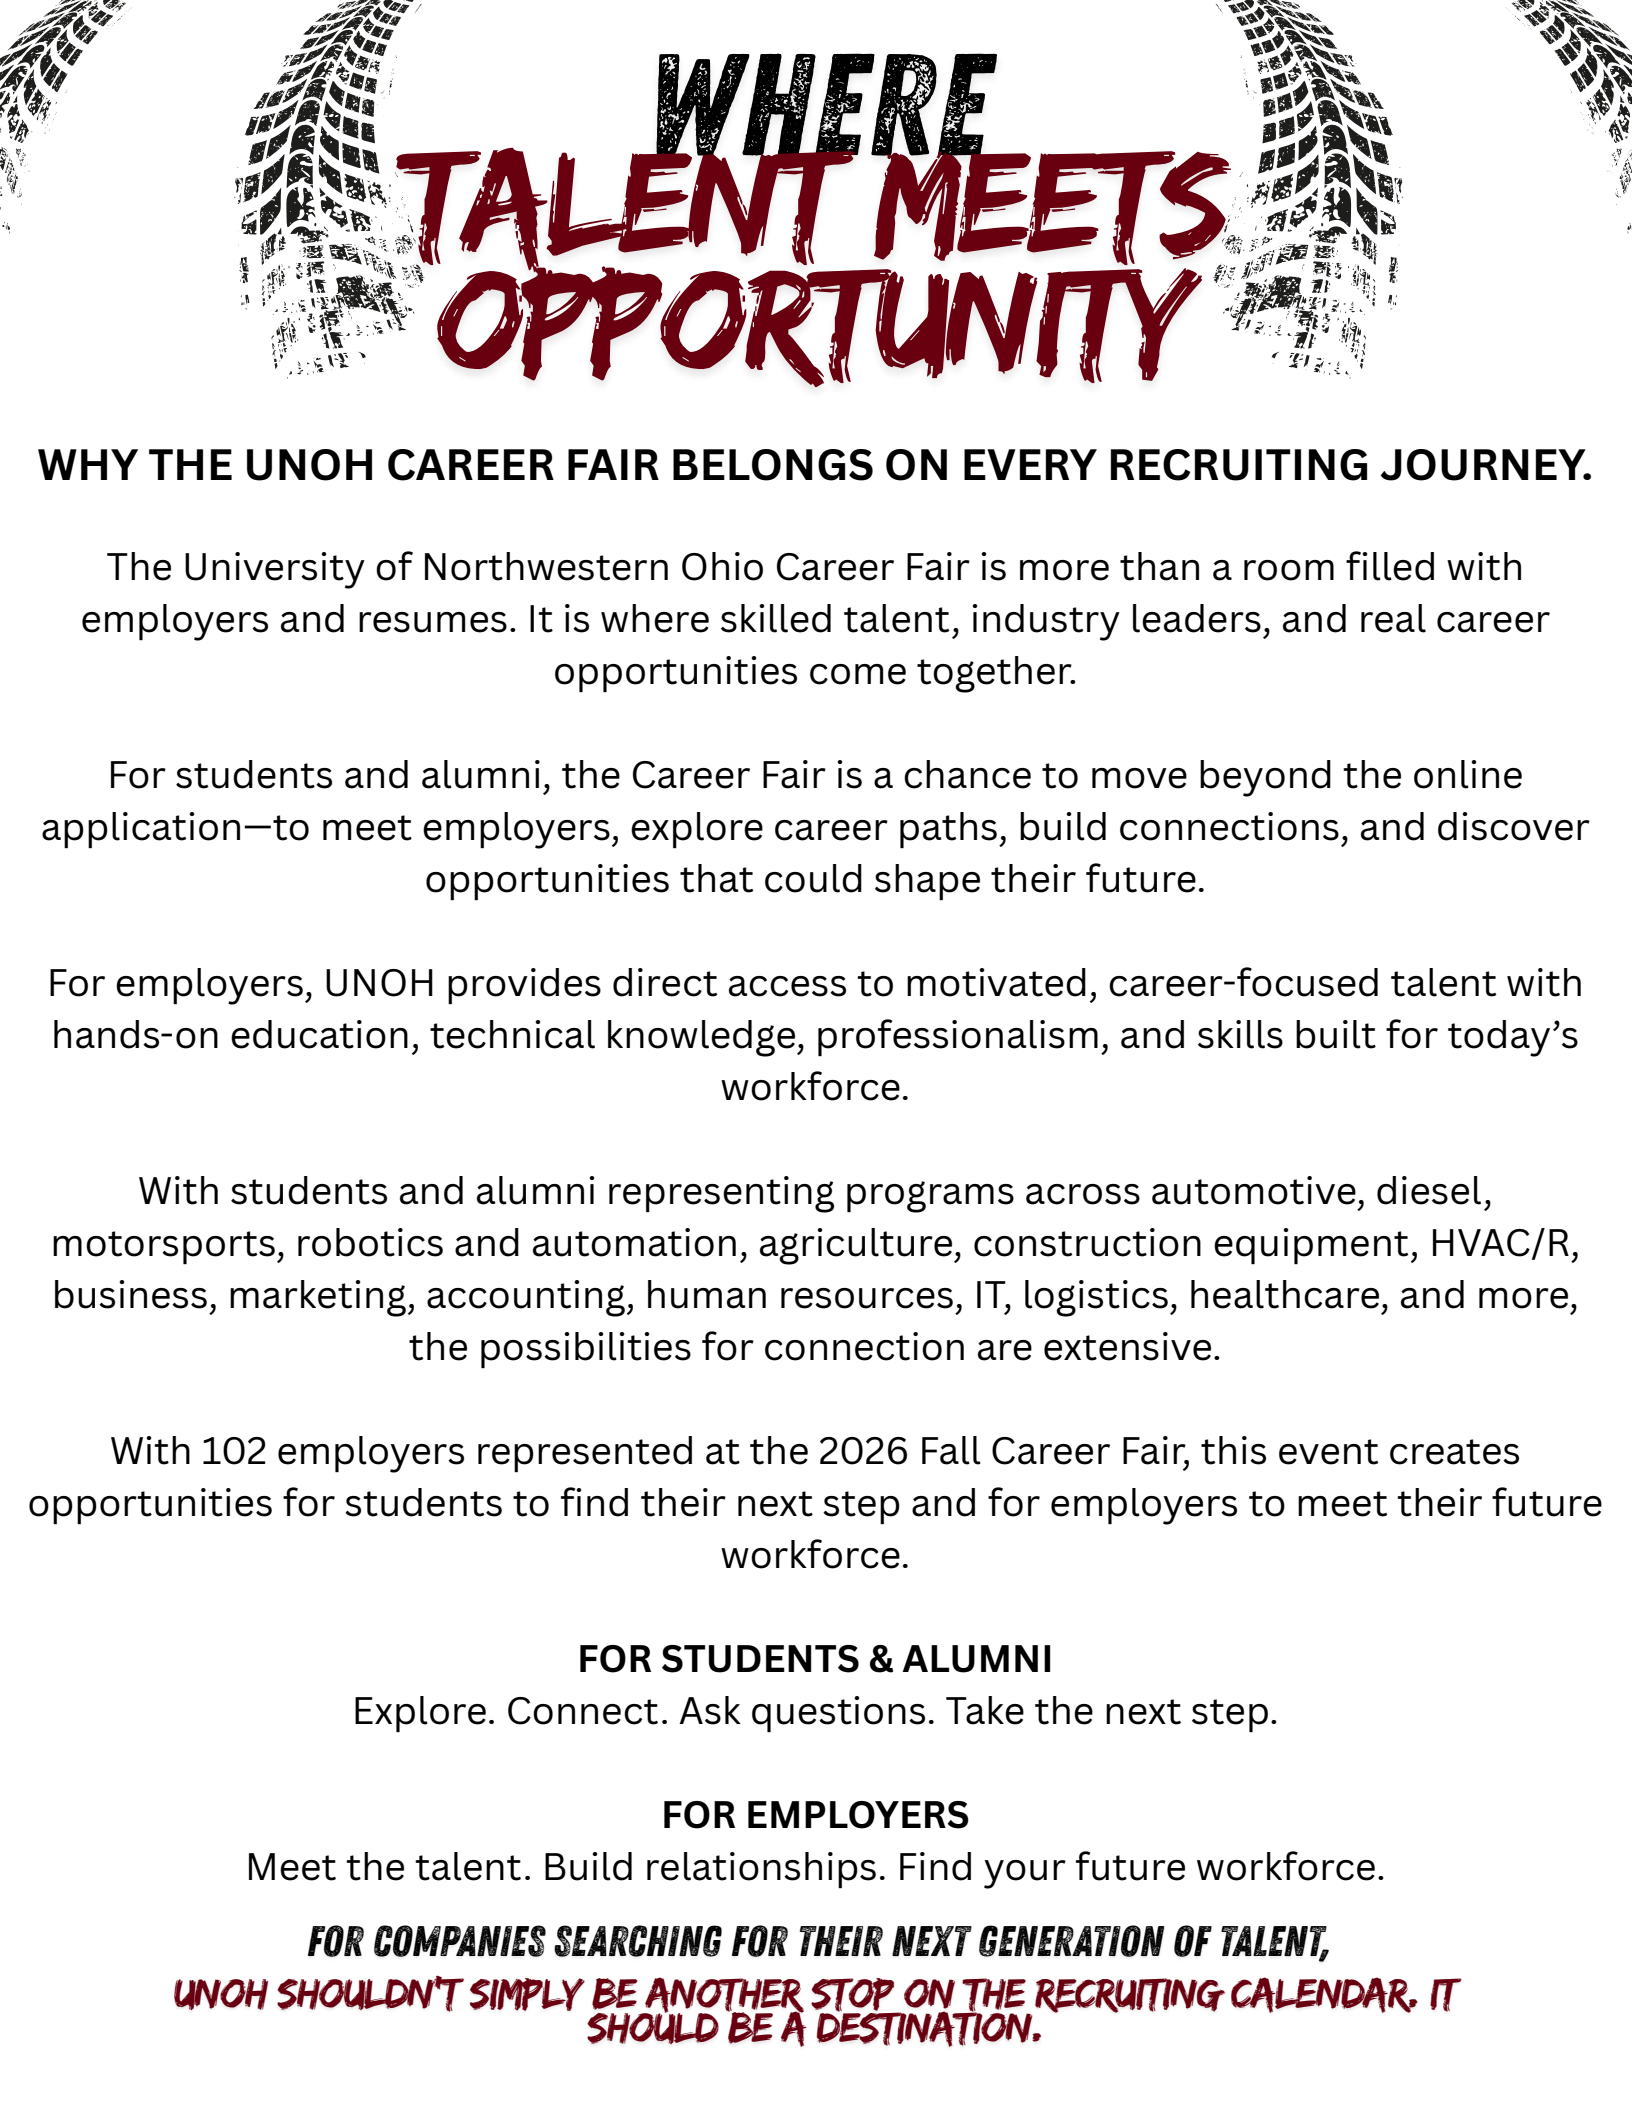

Farmers Insurance provides auto, home, business, and other insurance and financial products. Career areas can include insurance sales, claims, customer service, finance, business operations, technology, and agency ownership.

Habitat for Humanity ReStore – Table 101

Habitat ReStores sell donated furniture, appliances, building materials, and household goods to help support Habitat for Humanity's affordable-housing mission. Opportunities combine retail operations, community service, logistics, and nonprofit work.

West Ohio Food Bank – Table 102

West Ohio Food Bank is a nonprofit organization working to reduce hunger and food insecurity across western Ohio by distributing food, partnering with community organizations, and providing education and resources.

WHERE TALENT MEETS OPPORTUNITY

WHY THE UNOH CAREER FAIR BELONGS ON EVERY RECRUITING JOURNEY.

The University of Northwestern Ohio Career Fair is more than a room filled with employers and resumes. It is where skilled talent, industry leaders, and real career opportunities come together.

For students and alumni, the Career Fair is a chance to move beyond the online application—to meet employers, explore career paths, build connections, and discover opportunities that could shape their future.

For employers, UNOH provides direct access to motivated, career-focused talent with hands-on education, technical knowledge, professionalism, and skills built for today's workforce.

With students and alumni representing programs across automotive, diesel, motorsports, robotics and automation, agriculture, construction equipment, HVAC/R, business, marketing, accounting, human resources, IT, logistics, healthcare, and more, the possibilities for connection are extensive.

With 102 employers represented at the 2026 Fall Career Fair, this event creates opportunities for students to find their next step and for employers to meet their future workforce.

FOR STUDENTS & ALUMNI

Explore. Connect. Ask questions. Take the next step.

FOR EMPLOYERS

Meet the talent. Build relationships. Find your future workforce.

***FOR COMPANIES SEARCHING FOR THEIR NEXT GENERATION OF TALENT,
UNOH SHOULDN'T SIMPLY BE ANOTHER STOP ON THE RECRUITING CALENDAR. IT
SHOULD BE A DESTINATION.***
