

Data Center

Operator

Dr. Duong Van Thinh
September - 2026

Data Center Operator

Data center operators ensure reliable uptime, secure infrastructure, and efficient energy use while supporting growing digital workloads.

Data4

Data4 is a European data-center investor and operator delivering secure, scalable, and energy-efficient digital infrastructure for cloud, AI, and enterprise workloads. The company develops sustainable campuses across Europe. For collaboration, contact: thinh.duong@aidcvietnam.org

Digital Realty

Digital Realty operates one of the world's largest global data-center platforms, with 300+ facilities across 55+ metros, delivering secure, scalable infrastructure for cloud, AI and mission-critical workloads. Contact:

thinh.duong@aidcvietnam.org

DIGITAL REALTY

Equinix

Equinix operates world-class data centers with unmatched reliability, interconnection, and global reach, enabling secure, high-performance digital infrastructure for enterprises and cloud providers. Its facilities support scalability, low latency, and continuous uptime. Contact

thinh.duong@aidcvietnam.org

FPT Formix HCM-02

FPT Formix HCM-02 is Vietnam's largest Tier III-certified data-center facility, offering 10,000 m² of space and 3,600 racks with high-redundancy architecture and $\geq 99.982\%$ uptime for mission-critical workloads. Contact:

thinh.duong@aidcvietnam.org

IPTP Networks

IPTP Networks operates advanced data centers delivering secure infrastructure, global connectivity, and high-availability services for modern digital workloads. Its facilities support efficient, resilient operations across diverse industries. Contact:

thinh.duong@aidcvietnam.org

Nabiax

Nabiax is a major colocation data-center operator in Spain, running six high-security, carrier-neutral facilities powered entirely by renewable energy, delivering scalable infrastructure for enterprise workloads.
Contact: thinh.duong@aidcvietnam.org

NeutraDC

NeutraDC delivers secure, scalable, AI-ready data center operations across Southeast Asia, providing colocation, cloud connectivity, and digital ecosystem services. As a trusted Data Center Operator, it ensures reliability and high availability. Contact: thinh.duong@aidcvietnam.org

NextDC

NEXTDC is a leading data-center operator delivering high-performance, secure and energy-efficient digital infrastructure across Australia, supporting cloud, AI and mission-critical workloads with world-class reliability and connectivity.

Contact:

thinh.duong@aidcvietnam.org

NTT Data

NTT Data operates modern data centers delivering secure infrastructure, high availability, and scalable capacity for global enterprises. Its facilities support reliable, efficient digital operations across diverse industries.

Contact: thinh.duong@aidcvietnam.org

Polar Data Center

PolarDC provides sustainable, high-efficiency data center operations with advanced cooling, resilient infrastructure, and ESG-focused practices, ensuring reliable performance for hyperscale and enterprise workloads across Asia.

Contact:

thinh.duong@aidcvietnam.org

STACK Infrastructure

Stack Infrastructure delivers **scalable, high-performance data center capacity** across key global markets, offering reliable power, robust connectivity, and flexible expansion for enterprise, cloud, and AI workloads.

Contact

thinh.duong@aidcvietnam.org

SST GDC

SST GDC delivers advanced data center operations with high-efficiency infrastructure, strong reliability, and optimized performance for cloud and AI workloads, supporting scalable, secure digital growth. Contact:

thinh.duong@aidcvietnam.org

STTelemedia
Global Data Centres

Viettel Hòa Lạc Data Center

Viettel Hòa Lạc Data Center delivers Tier III operations with strong security, high-density rack capacity, and reliable connectivity, ensuring stable performance for enterprise and government workloads. Contact: **thinh.duong@aidcvietnam.org**

VNPT IDC An Don

VNPT IDC An Don operates a carrier-neutral data center in Đà Nẵng, providing secure colocation, stable connectivity, and modern infrastructure to support enterprise workloads, digital transformation, and high-availability IT operations across Vietnam. Contact: thinh.duong@aidcvietnam.org

VNPT IDC AN ĐỒN

Vị trí: Khu công nghiệp An Đồn,
Quận Sơn Trà, TP Đà Nẵng

Diện tích: 8500m²

Năng lực cung cấp tủ Rack: 200

Tổng công suất điện: 800KW

VNPT IDC Cầu Giấy

VNPT IDC Cầu Giấy delivers secure, high-availability data center operations with robust colocation and cloud services in Hanoi. As a trusted Data Center Operator, it ensures reliability, compliance, and professional support. Contact: thinh.duong@aidcvietnam.org

Xin Cảm ơn

Thank
You
