ABOUT ROMABIO

Founded in 2009 and headquartered in Atlanta, GA, Romabio is on a mission to change the way the world makes paint. Romabio designs elegantly luminous mineral-based paints, different than traditional acrylic paints because of their high performance, durability, beauty, and natural, clean ingredients. Mineral paints are the ideal paints for mineral surfaces like brick, stone, stucco and Romabio products provide unique finishes on all types of surfaces with beauty like no other.

ITALIAN ROOTS & INSPIRATION

The ancient Romans were master inventors in paint manufacturing. They created Venetian plasters using lime from the Italian Dolomite Mountains, and their respect and love for the environment reflected in their use of pure, natural materials, inspire us today

PRODUCT OFFERING

Romabio offers an array of products that share similar characteristics and benefits because they are all mineral-based made with potassium silicate, slaked lime, or other mineral-based formulations. Natural ingredients, give our paints unique properties and exceptional performance. Take a look at our products and see why Romabio paints are different.

Classico Limewash * Masonry Paints * Lime Slurry
Velatura Mineralwash * Venetian Glaze
Authentic Italian Plasters * Unico Plaster System

CLASSICO LIMEWASH®

is an authentic slaked-lime paint handcrafted in Italy with Dolomite lime. It combines 2,000 year-old techniques with a modern formulation for ease of use. Create unique wash-off effects for a charming Old World look or a clean, modern finish.

“*I have nothing against natural brick. I think it's beautiful. But I am a sucker for that European lime washed brick.*

— Lauren Shaver, Bless'er House Blog

MASONRY PAINTS

are mineral-based paints made with potassium silicate for extreme durability and a breathable, beautiful flat finish that is non-film forming and bonds chemically with the surface. When properly applied, they are backed by a 20-year warranty. Two finishes are available: Masonry Flat and Masonry Textured.

“ I love historic homes and the chalky look of masonry paint so I did some research and ended up falling in love with Romabio Masonry Flat paint. Tyler (Killowen Construction) had never worked with a paint like it before on an Exterior, but we both loved the way it both lets the brick breathe and hides imperfections.

— Shea McGee, Studio McGee

Masonry Flat in Custom Color

LIME SLURRY

is an authentic Italian lime paint used for textured finishes. Dense, highly concentrated it is applied almost like a plaster to create a dramatic, slurry effect.

VELATURA MINERALWASH

is an authentic mineral-based paint used to create Interior limewash movement effects for soft tonal variations. Easily applied in two coats and requires no primer, it is perfect for a decorative unique finish.

“*I fell in love with Velatura Mineralwash. It gives you a sophisticated, beautiful finish – almost like a plaster movement, but it is so easy to use with just two coats! And you can play with the dilution on the 2nd coat to get the exact look you want. I can't wait to use it more!*

— Jennifer Fancher, Noting Grace Blog

VENETIAN GLAZE

is a versatile, authentic Italian lime glaze paint that creates multiple effects. Apply it undiluted with a trowel for a plaster-like finish on interior walls that can be left flat or easily burnished. Heavily diluted, it creates veiling effects that subtly shift the color of stone or brick, or mottled effects on stucco.

“ *For beautiful ambiance and walls that softly “dance” in a day. Romabio answered our prayers with Venetian Glaze.*

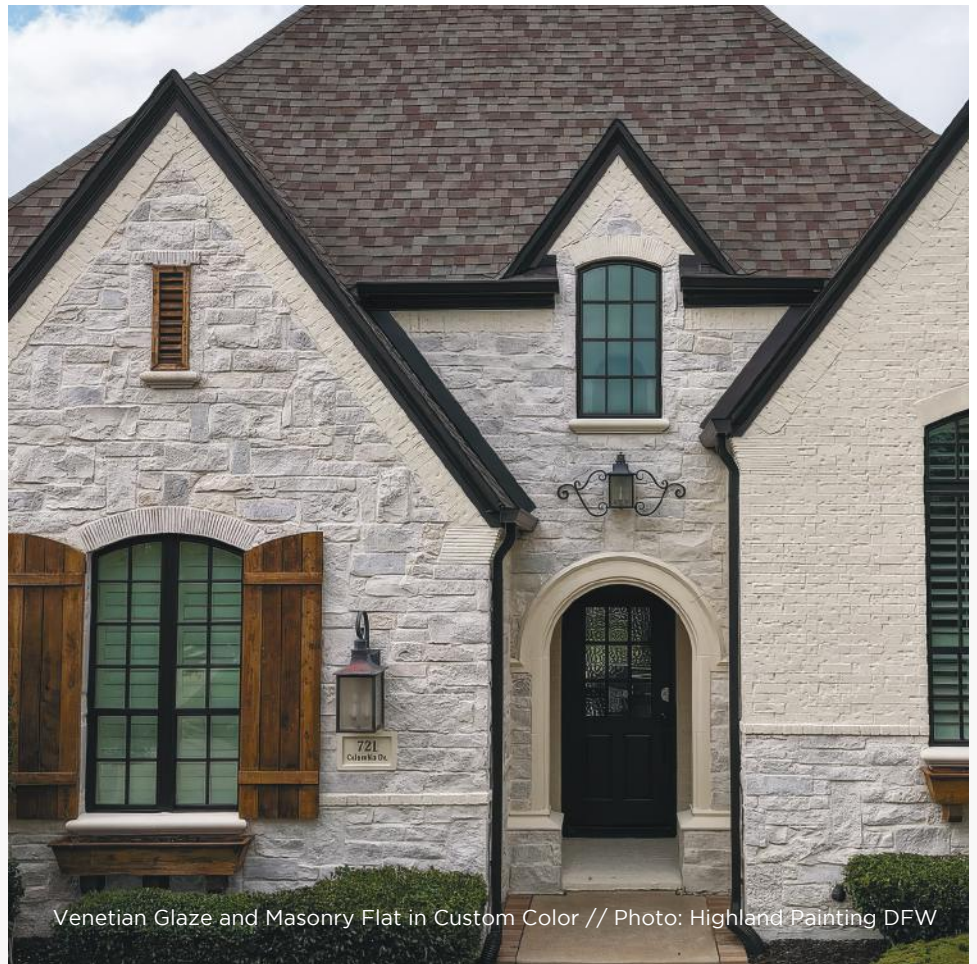

— Angela Gorini Perrone, Divine Rooms

AUTHENTIC ITALIAN PLASTERS

are exterior slaked-lime plasters made with traditional methods for unique beauty and elegance. Italian Dolomite lime is cooked, slaked, and aged for 9 to 12 months, then combined with a modern proprietary formulation that offers exceptional ease of use designed for Professional applicators.

UNICO PLASTER SYSTEM

is an all-in-one waterproof combination of products, perfect for kitchens, baths, and stairwells. Its extremely durable finishes enable Professional applicators to create progressive, artistic, marble like or micro cement effects on floors, walls, showers, and furniture. The finish is achieved by sanding alone with no burnishing needed.

WHY ROMABIO MINERAL PAINTS

PERFORMANCE & DURABILITY

Romabio mineral paints are breathable, highly permeable, long lasting with excellent UV resistance thanks to their oxide pigments. They are extremely durable because they bond with absorbent masonry surfaces, and when applied properly, they do not peel, chip, or flake.

BEAUTY LIKE NO OTHER

Romabio mineral paints are naturally beautiful with luminous colors and dynamic light refraction. Their flatter, softer sheens provide a look that's modern, yet organic.

VIBRANT COLORS

Romabio mineral paints can be tinted to a wide range of colors from light to dark, depending on the base type of the product.

Classico Limewash and Lime Slurry, are available in light to medium colors, and all other products can be tinted from light to darker colors.

ODORLESS & ENVIRONMENTALLY FRIENDLY

Romabio mineral paints do not have added toxins producing little to no odor and are Zero VOC. You can trust that our paints are safe for your family, your pets, and the environment.

EASY APPLICATION

Romabio mineral paints are easy to apply, and nearly all are perfect for both DIYers and Professional applicators. Many require only 1-2 coat processes and do not need a primer for certain surfaces.

WHERE TO BUY
