START YOUR COLLECTION

Thank you for your interest in my fine art collection. I take great pride in creating dynamic, personally meaningful art that reflects my life mantra: *If you're not amazed, you're not paying attention.*

My work often presents a non-literal or abstract interpretation, inviting you into unexpected perspectives and sparking your curiosity. The art happens in-camera, with only as much processing as needed to express my intention. *No AI is used to manipulate, add, or remove anything in the original scene*.

All finished art pieces utilize the highest quality archival inks printed onto premium substrates. Options include fine art paper, acrylic, metal, and canvas. I'm happy to consult on your selection and recommend the optimal materials to create an art piece you will love for years to come.

Any art selection can be virtually mocked up with a mat and frame, and either displayed in your living space (using collector-supplied image) or a stock living space.

Quotes according to size and substrate choice are available upon request. You'll find my contact information and an inquiry form on the final page of this catalogue.

Thank you for valuing creativity, supporting independent artists, and allowing a piece of my perspective to enrich your life.

Creatively yours,

Beth L Buelow

ARTIST STATEMENT & BIO

If you're not amazed, you're not paying attention.

My purpose is simple: to experience both the ordinary and sublime with equal amazement and pass along that experience to others through creative imagery.

What I find amazing changes daily, and therefore, my body of work doesn't neatly reflect one particular genre or subject. I embrace the words of Walt Whitman:

Do I contradict myself?
Very well then I contradict myself,
(I am large, I contain multitudes.)

No matter the subject, my work often conveys a sense of gentle tension, order, mystery, experimentation, contrarianism, and/or balance. Those ideas might seem at odds with one another, but they represent different aspects of my personality and creativity. The evidence of being fully human manifests through artistic expression. By striving for that wholeness myself, I hope to facilitate that wholeness in others.
