Share A Blessing

ADOPT A LOCAL ORGANIZATION

CHRISTMAS PROJECT

A small gift can make a big difference in someone's Christmas!

Join us as we spread love, hope, and joy to those in our community by providing Christmas gifts through our Adopt A Local Organization project.

PICK UP A TAG

NOVEMBER 15 – 30

Visit the designated table at church to select a tag with a gift request from our adopted local organization.

SHOP & BLESS

Purchase the gift listed on your tag and help make Christmas brighter for someone in our community.

RETURN GIFTS

BY DECEMBER 13

Bring your gift **wrapped with the tag attached or placed in a gift bag with the original tag attached** to the designated collection area at church.

"Let us not grow weary in doing good, for in due season we will reap, if we do not give up." *Galatians 6:9 (NIV)*

YOUR HEALTH

Your physical and spiritual health are intertwined.

"Whether, then, you eat or drink or whatever you do, do all to the glory of God."

1 Corinthians 10:31

NOVEMBER'S HEALTH OBSERVANCES

American Diabetes Awareness Month

Diabetes causes more deaths than breast cancer and AIDS combined. You can make a change.

https://diabetes.org

Bladder Health Month

This month serves as a reminder to get the facts about common bladder health problems and to take an active role in our health. During November, the Urology Care Foundation will highlight a different bladder health theme and related resources.

https://www.urologyhealth.org

National Pancreatic Cancer Awareness Month

More than 60,000 Americans are expected to be diagnosed with pancreatic cancer in 2021. That is 166 people diagnosed every day. Pancreatic cancer is the 11th most commonly diagnosed cancer in the U.S.

http://pancan.org

National Healthy Skin Month

Wear sun screen year round - While the sun's rays are more powerful in summer, they can still be damaging in the cloudy, cool conditions of winter. A heavy sunscreen may not be necessary, so apply a moisturizer with SPF.

- Eat a healthy diet - Eating a diet that's rich in Omega 3s, whole grains and B Vitamins is essential to maintaining skin's youthful glow.
- Keep your cool - stress causes acne.
- Moisturize and hydrate to stay healthy.
- Don't forget your lips - Carry lip balm with SPF with you and apply it generously, particularly in the dry winter months when lips can become very chapped and sore.

http://www.healthyskinportal.com/

National Epilepsy Awareness Month

Epilepsy is a central nervous system (neurological) disorder in which brain activity becomes abnormal, causing seizures or periods of unusual behavior, sensations and sometimes loss of awareness. Anyone can develop epilepsy. Epilepsy affects both males and females of all races, ethnic backgrounds and ages.

epilepsy.com

National Alzheimer's Disease and National Family Caregivers Month

Every 70 seconds, another American family is affected by Alzheimer's. Alzheimer's is a complex neurological disease that is the most common form of dementia. More than 5 million people in the United States have Alzheimer's and more than 10 million are caring for a loved one with the disease.

https://www.alzinfo.org

COPD Awareness Month

Chronic obstructive pulmonary disease, commonly known as COPD, is an umbrella term for both emphysema and chronic bronchitis.

- COPD affects more than 24 million Americans, yet many don't even know they have it.
- Emphysema is a chronic condition caused by damage to the lungs' air sacs (alveoli).
- Chronic bronchitis is long-term inflammation of the bronchi, the passage which brings air into the lungs.
- Smoking is the primary cause of COPD, and quitting is essential to prevention and treatment.

www.copdfoundation.org

LUNG CANCER AWARENESS MONTH

Lung cancer happens when cells in the lung change (or mutate). Most often, this is because of exposure to dangerous chemicals that we breathe. But lung cancer can also happen in people with no known exposure to toxic substances.

- Lung cancer is the leading cancer killer in both men and women in the U.S.
- Smoking poses the greatest risk, but there are others such as exposure to radon and air pollution.
- Screening high risk individuals has the potential to dramatically improve lung cancer survival rates.
- There are multiple types of lung cancer. Knowing this information can help inform treatment options.
