BELGIUM

The lamina sintered stone slabs in the Belgium collection draw their inspiration from the enigmatic charm of Scandinavia, those places where stone is a dominant part of the landscape; here, nature itself, with its strength, erodes the rock to create beguiling protrusions and dips which stand proudly and solemnly on the North Sea.

Owing to its extreme versatility, Belgium can be applied both indoors and out, and it is designed to interpret both more contemporary and minimalist tastes as well as the more refined and stylish ones.

TERRAZZO TRENTO

Terrazzo Trento draws inspiration from the flavour of Northern stone. With an aesthetic characterised by a subtle but evident texture, this harmonious surface adapts to both minimalist and luxurious environments thanks to a formal precision that makes it very versatile.

UNIFORM APPEARANCE

Minimal differences range of color & motif among tiles.

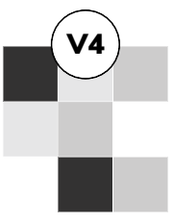

SLIGHT VARIATION

Slight differences in texture and/or pattern within similar colors.

MODERATE VARIATION

Clearly distinguishable differences in texture or pattern or colors from tile to tile.

SUBSTANTIAL VARIATION

Random color and/or pattern differences from tile to tile. Unique final installation looks.

R-RATING SLIP RESISTANCE

The R rating for slip resistance is a standardized measure used to evaluate the slip resistance of flooring materials, including granite tiles. It indicates how slip-resistant a surface is, especially when wet or under certain conditions. This rating is crucial for applications where safety is a concern, such as in commercial spaces, bathrooms, or outdoor areas. Here's a breakdown of the R rating scale :

Understanding the R Ratings

The R rating ranges from R9 to R13, with each level representing a different degree of slip resistance. It is determined through a standardized test called the ramp test. This test involves a person walking on an inclined ramp covered with the flooring material, which is gradually tilted until the person slips. The angle at which slipping occurs is used to determine the R rating :

CLASSING	INCLINE ANGLE	SLIP RESISTANCE	AREA OF USE
R9	**6° - 10°**	**Low**	■ Suitable for dry indoor areas, such as living rooms and bedrooms. ■ Not recommended for areas that are frequently wet or exposed to water.
R10	**10° - 19°**	**Medium**	■ Suitable for most indoor applications, including residential kitchens, hallways, and low-traffic commercial spaces. ■ Can be used in areas that may occasionally get wet but not continuously exposed to water.
R11	**19° - 27°**	**High**	■ Suitable for areas that may become wet, such as bathrooms, kitchens, and laundry rooms. ■ Often used in commercial kitchens or areas where water spillage is likely.
R12	**27° - 35°**	**Very High**	■ Suitable for commercial spaces, industrial areas, and outdoor surfaces exposed to water, like swimming pool surrounds and outdoor terraces. ■ Provides excellent slip resistance even when the surface is wet or greasy.
R13	**Over 35°**	**Maximum**	■ Suitable for areas with a high risk of slipping, such as heavy-duty industrial floors, ramps, and wet processing areas. ■ Often used in commercial or industrial settings where continuous water exposure is expected.

CERTIFICATION

SNI ISO 13006:2018

Certified for Indonesian National Standard.

SIRIM
Certified to : MS ISO 13006:2020
Certification No. : PC014022

Certified for Malaysian Standard.

Certified for Indonesian Green Label.

This is one key certificate that show the products are allowed to be used for government projects.

Management system has been assessed & certified as meeting the requirement of ISO 9001:2015.

Certified by TUV Singapore
No degradation in color & surface

- Accelerated Weathering Test
- Tested to ASTM G154:2012a
- Tested byTUV SUD PSB
- Certified to Grey Scale 5

Passed :

- Uji Kualitas Udara Sekitar
  CO2 level only 1.285µg/Nm3 (from 22.600)
  NO2 level only 14.4 µg/m3 (from 200)
  NH3 level 0,017 ppm (from 2)
  Pb level < 0,00005 mg/Nm3 (from 0,06)
- Noise Level Acceptance Test
  82.5 dBA
- Emission Test
  NO2 level only 2,72 mg/Nm3

- Color and other aesthetic features shown in this cataloque as close as the limitation of the printing process will allow.
- Some variations in color shade, finish and tolerance in bookmatched / endmatched design are inherent in granite products.
- Always view several samples before making final selection.
- Different may occur between samples and final product.
