THE VENGEFUL QUEEN

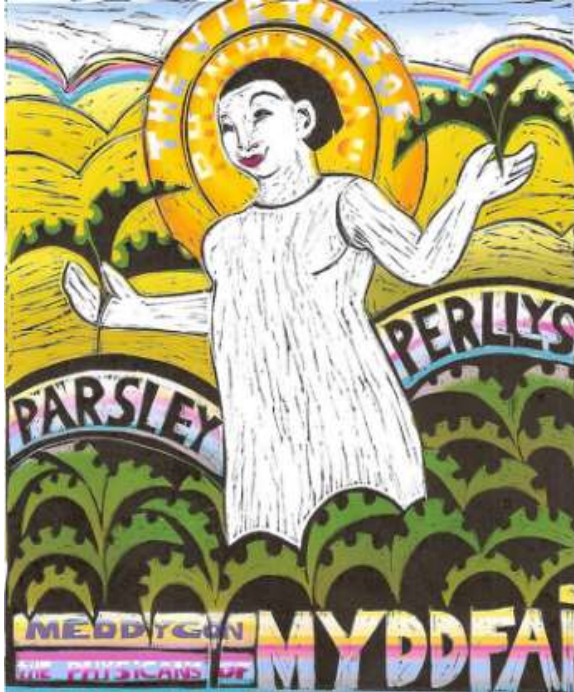

DERYK CUNDY

The origins of this book are based on the many attempts to determine the location of the last battle fought by Boudica Queen of the Brythons against the Romans – a mystery that has fascinated historians over the centuries. As a result of recent archaeological discoveries, the application of new sciences, mapping techniques and the access to information afforded by the Internet, new ideas have surfaced.

Through the author's research it has become obvious that the history of the Britain of 2,000 years ago directly reflects ongoing conflicts, and that the events leading to the battle are as relevant today as they were then.

Imperialism, tribalism, gaps in technology, clashing cultures, trade, greed, globalisation, politics, religion, broken promises, rebellion, battles, treason, slavery – here is life and death on a grand scale.

THE PHYSICIANS OF MYDDFAI

TERRY BREVERTON

This is the first new and unexpurgated translation of Meddygon Myddfai, The Physicians of Myddfai, for over 150 years.

The evocative Legend of the Lady of the Lake (Llyn y Fan Fach) is included. This tale is the starting point for the line of practising Myddfai physicians from being court mediciners to Prince Rhys Gryg (d.1234) until the present day. Not only has the herbal and healing tradition carried on for around 800 years, but the places named in the legend can still be seen, and many of the plant cures have uses in modern medicine.

THE WELSH WARRIOR THROUGH THE AGES

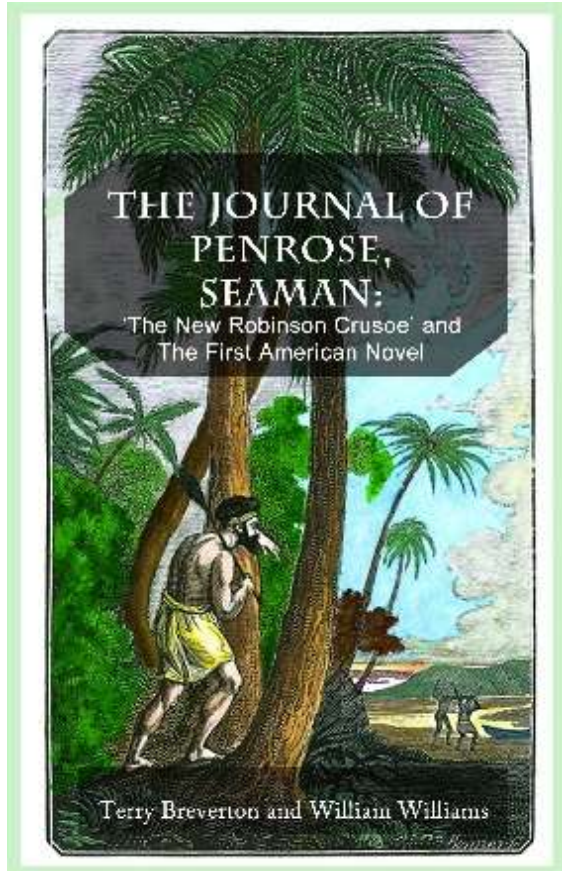

JONATHAN MORGAN

It is probably a fact of history that, when a small country stands as an adjunct of a big, powerful country, the collective unconscious or psyche of that small country probably has the characteristics of an inferiority complex. In terms of the Welsh, the defeat and demise of both Prince Llewelyn and Owain Glyndwr have probably given them the role of victim or glory in defeat.

Regarding military prowess, it has been perceived that the Celts have sometimes been used as cannon fodder, coming from small impoverished countries while the British Army is run primarily by the English establishment who have wound up the Celts to prove themselves in battle. Hence the huge proliferation of gallantry awards acquired by the Celts.

The Welsh Warrior Through The Ages is both an inspirational title and a long-overdue book. Lord Ashcroft KCMG PC

HISTORY

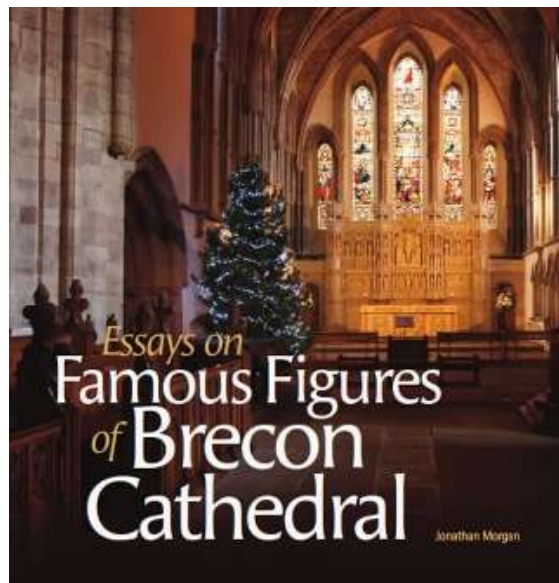

THE JOURNAL OF PENROSE, SEAMAN

TERRY BREVERTON

This is the account of the privateer William Williams's adventures after being marooned upon the Miskito Coast. It is the first story of a message in a bottle, of buried treasure, the first novel written in America, and incredibly anti-slavery, at a time when America's first three presidents owned slaves.

FAMOUS FIGURES OF BRECON CATHEDRAL

JONATHAN MORGAN

Essays on Famous Figures of Brecon Cathedral' by Jonathan Morgan is a rich collection of interesting stories and historical facts about people and events that have connections and have shaped the town and Cathedral of Brecon.

Illustrations by Robert Macdonald RWSW
(President), MA (RCA), Diop.LCSAD.

HISTORY

GRAVE TALES FROM WALES

GEOFF BROOKES

Inside you will find thirty stories, originally published in *Welsh Country Magazine* over a number of years. Each section tells the story beneath a Welsh gravestone.

The gravestones have been carefully selected, with no more than one for each location, which ensures a spread across the whole of the Principality. The stories are arranged alphabetically by location. So the book begins with a terrible double murder in Bassaleg and ends in Wrexham, with the story of Elihu Yale, after whom the American university is named. In between there are stories of shocking murders, tragic accidents and amazing achievements.

GRAVE TALES FROM WALES 2

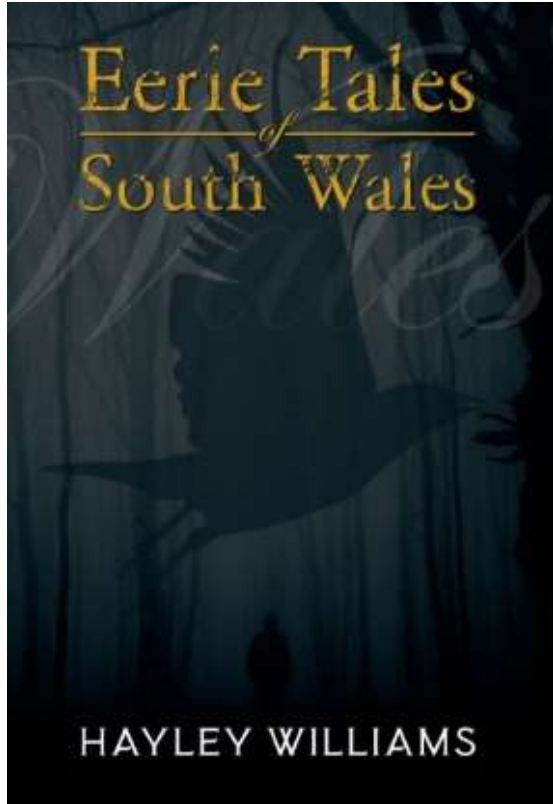

GEOFF BROOKES

You will meet heroes and poets, you will confront tragedies and murders, injustice and sadness. But there are also great achievements, astonishing courage and humanity.

Find out about the conspiracy that killed Llewellyn, Prince of Wales; about the women who fought at the battle of Waterloo; about the Gresford Mining Disaster; about William Jones, just seventeen and shot at dawn; about the man from Tenby who invented the equals sign; about Robert Owen, the greatest Welshman of them all. There is a bonus story too – the extraordinary Cadoxton Murder Stone, displayed and explained.

The stories come from across the whole of Wales and from across a wide expanse of Welsh history. There are directions too, so that you can find these graves and make a physical connection with these remarkable stories and bring them alive once more. This is history that you can feel.

HISTORY

EERIE TALES OF SOUTH WALES

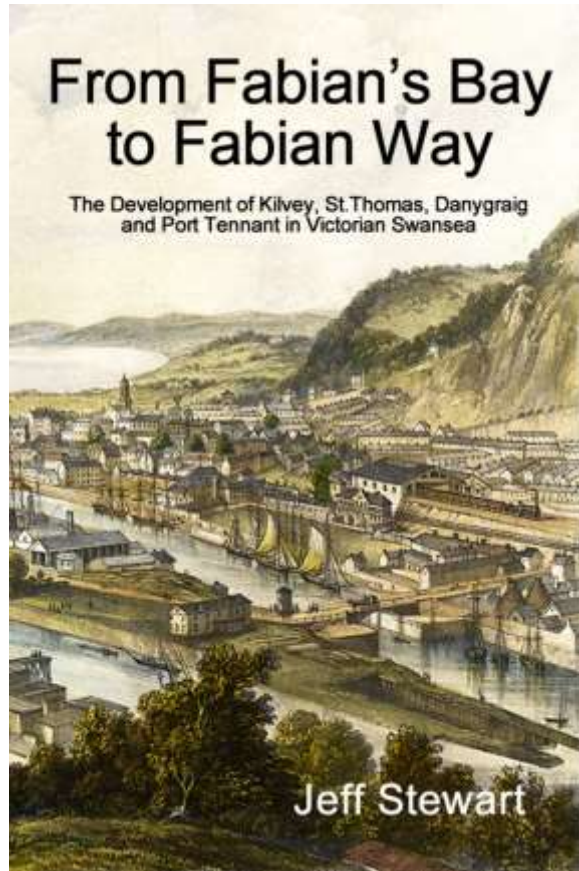

HAYLEY WILLIAMS

Have you ever felt scared, uneasy or seen something in the corner of your eye that you can't explain? Well, in theory many of us have, but have either chosen to ignore it and put it to the back of their minds, or taken up the challenge to explore it further.

Could it be a ghost or is there a reasonable explanation for this mysterious feeling when one attempts to enter the spirit-world through investigation or through contacting a spiritualist medium to get answers?

FROM FABIAN'S WAY TO FABIAN WAY

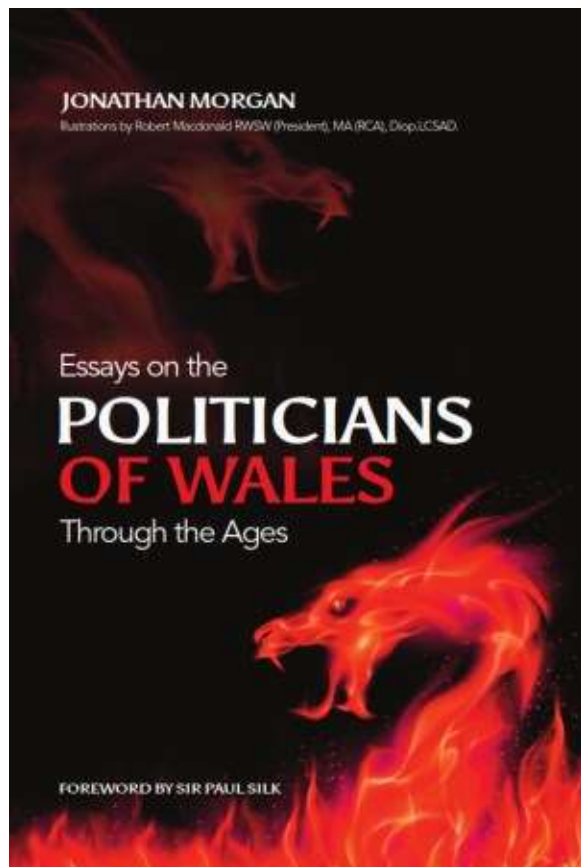

JEFF STEWART

The past of the town of Swansea has been quite well documented, but sixty years ago, Norman Lewis Thomas correctly identified the crucial importance of its “districts and villages”. These have been less well served. Interesting publications exist, but this is the first fully-fledged history of any one of the communities which ringed the town and were crucial to its growth. It is not surprising that it is the story of the Eastside.

This is an account of a very significant area, the people of which have shown a great interest in their past. It takes you back to the 12th Century and explores a great mass of themes across the centuries.

Foreword by Gerald Gabb.

HISTORY

POLITICIANS OF WALES

JONATHAN MORGAN

Essays and illustrations about politicians from Wales or with Welsh ancestry who have had a very wide range of **impacts on history** and who date from the sixteenth century to today.

With illustrations by Robert Macdonald
RWSW (President), MA (RCA),
Diop.LCSAD.

HISTORY

FAMOUS FIGURES OF CHRIST COLLEGE BRECON

JONATHAN MORGAN

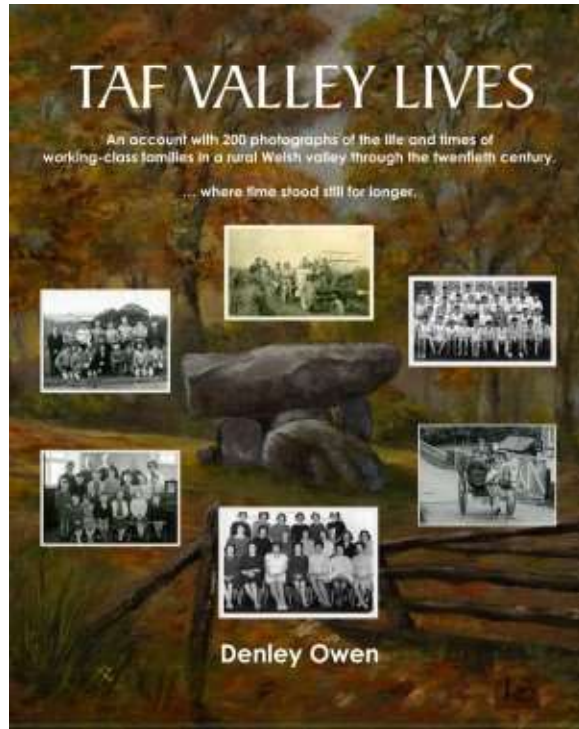

The book consists of a miscellany of historical narrative and idiosyncratic reminiscence about a variety of different individuals associated with Christ College situated in the Welsh town of Brecon, who have distinguished themselves one way or another in a particular field of endeavour.

With 30 illustrations by the artist Robert Macdonald.

TAF VALLEY LIVES

DENLEY OWEN

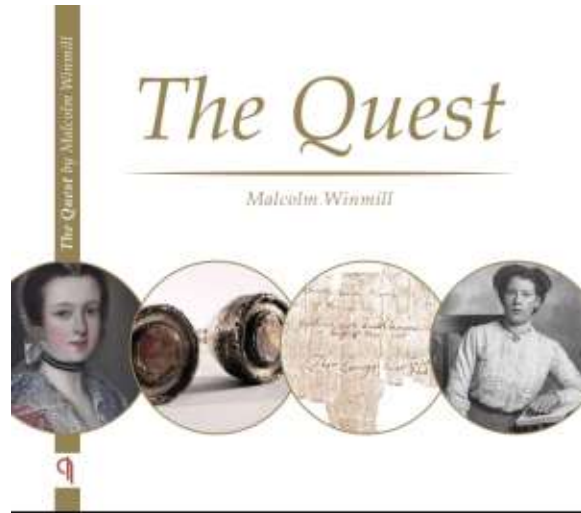

Taf Valley Lives, a book by the noted Welsh historian Dr Denley Owen, includes over 200 black and white, sepia and colour rare **exclusive photographs**.

For the first half of the 20th century the rural valley of the Taf, which along most of its path divides the counties of Pembrokeshire and Carmarthenshire, changed little from its description in 1926 as...

"...the most remote and little explored region where dissent is embittered and all-powerful in such a cloistered world opportunities for the working class severely limited children were destined for a life in service".

In this important historical record Dr Denley Owen reveals how three generations of labourers coped with their pre-war entrapment in the valley and how a working class family embraced the new opportunities available in the emancipated post-war community of the Taf Valley.

RRP: 14.99 GBP

THE QUEST

MALCOLM WINMILL

When Malcolm Winmill wed Linda Harrison, daughter of Hannah K. Williams and William Harrison, he simply did not anticipate the dynasty that he was marrying into.

Linda's maiden name and her seemingly ordinary life gave no clue of her descendants' tragically true journey from **kings and princes to paupers**. Upon closer inspection much later in Malcolm's retirement, a partly buried paper trail going back to Constantine the Great, Roman Emperor from 306 to 337 AD of Thracian-Illyrian ancestry, and cataloging figures that we thought only existed on the pages of history books, was collated, thus beginning a journey that uncovered a **family history** dipped in deceit, murder, missing millions and mystery – an unfortunate story that has, despite many family members' vain efforts across the centuries to uncover the truth and expose the frauds at the very top of the food chain, no fairy tale ending. up until the present day.
