

PUQUU

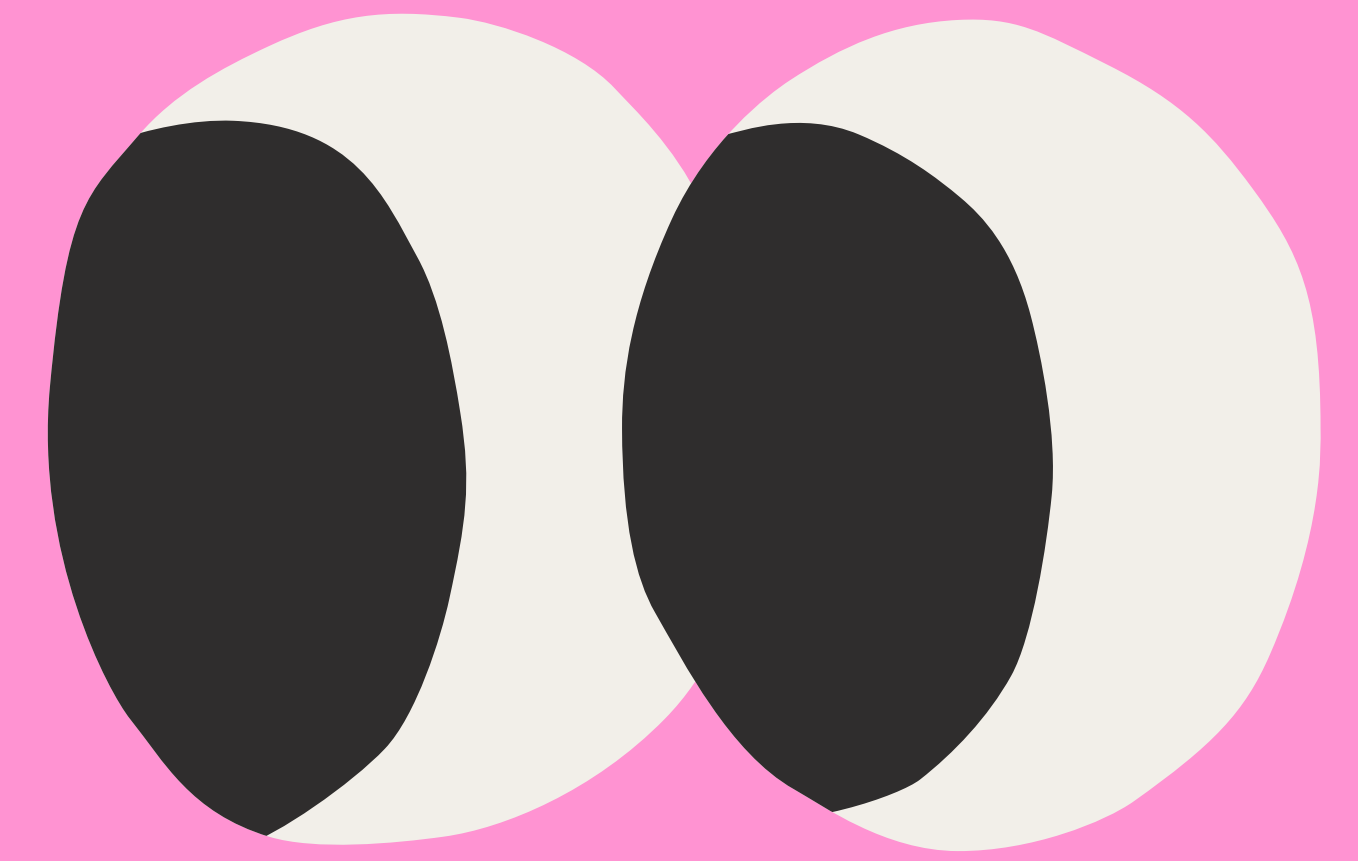

play is everything!

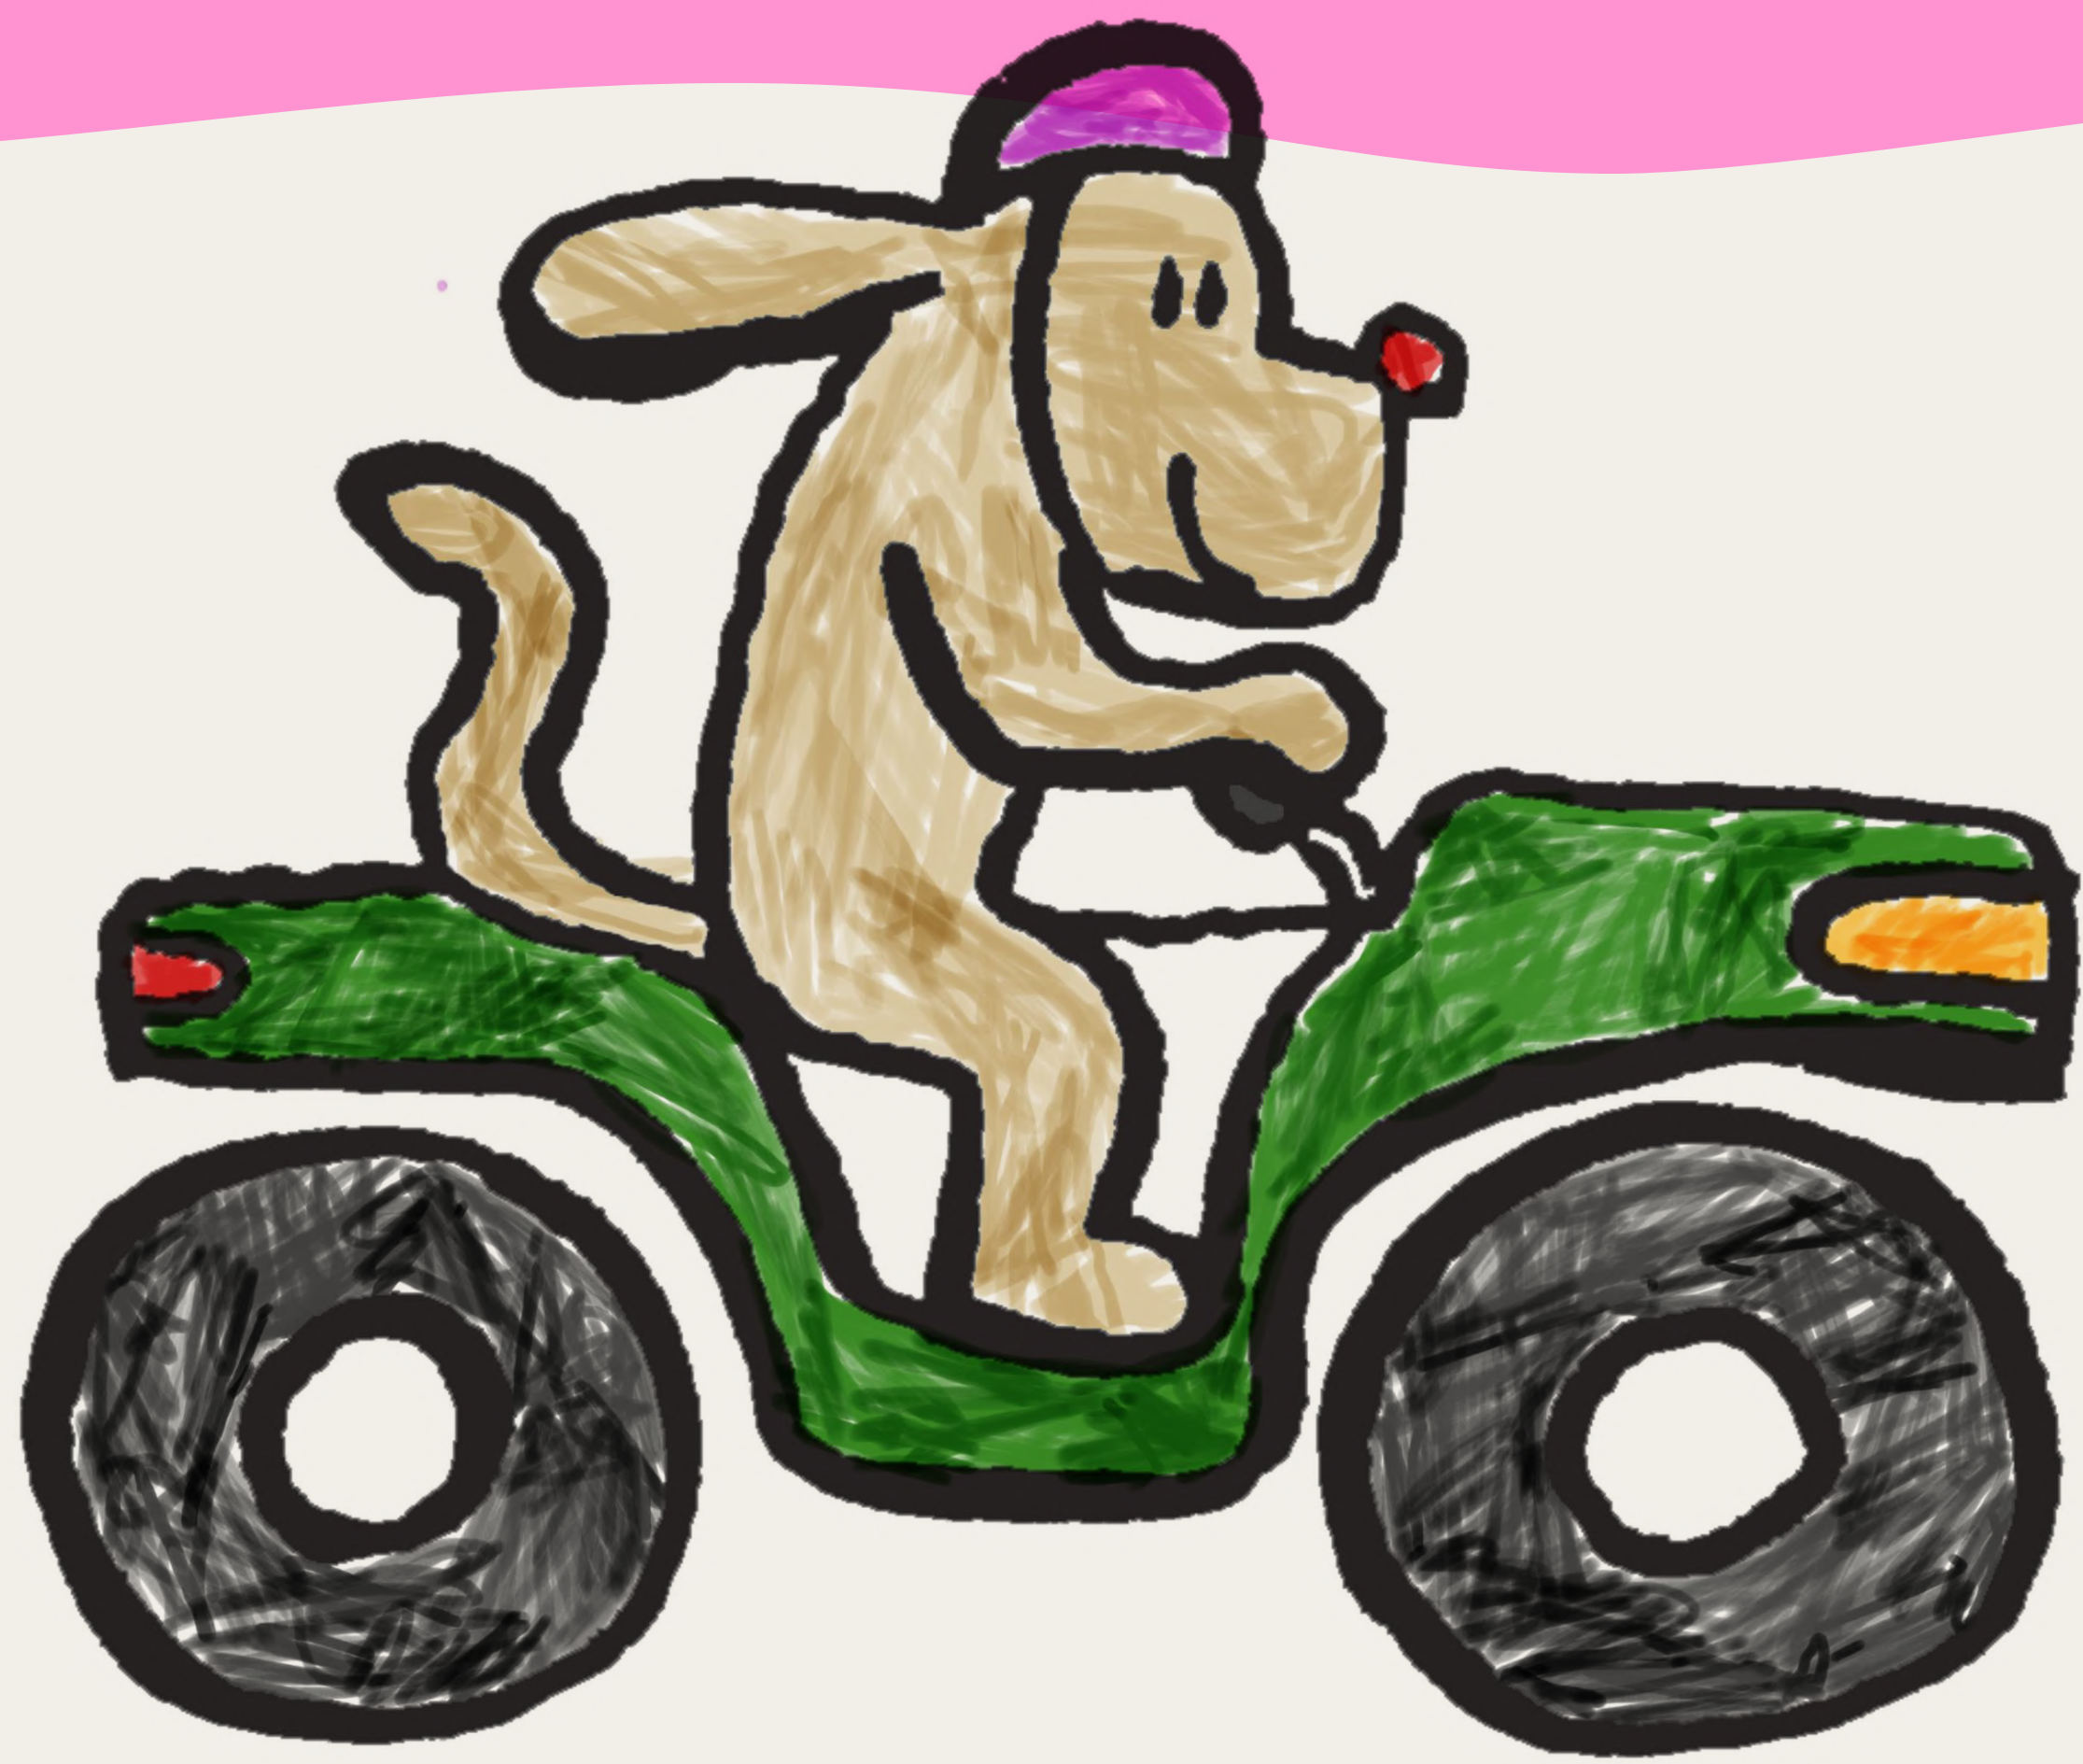

Hill,
we're

PLOU

We make what gets kids off screens and into the **mess** — crayons, markers, paints, doodle rolls, built for their ideas, not ours. Some pieces in our collection are made together with **artists** who know that the best ideas start with **play.**

just like kids do!

That is why we create products that don't tell children how to **play.** We create products that invite them to **play.**

We say **play is everything** because it is through play that children begin to discover who they can become.

We don't wait for play.
We provoke it.

play is everything!

Lifestyle

Design pieces crafted for daily momentum. Sharp looks, real function.

marketing support

We back every partnership with a POS marketing box of ready-to-use, sales-supporting materials to strengthen PUQUU's presence in your stores.

Beyond that, we're genuinely open and proactive about marketing support. If you're planning a campaign, launch, or in-store activation, just reach out — we'd love to be part of it.

Note from the founder

Growing up, I didn't always feel as free in the world as I wanted to.

That's why play became something more than entertainment. It was a safe space where I could be myself and create worlds in which anything felt possible.

Play gave me a sense of freedom at times when the world felt less open.

Every child deserves a space like that. A space to explore, experiment, make mistakes, and be fully themselves.

That's why we say: **Play is Everything.**

Because play gives children the freedom to be who they are.
