**Neighbors in the same
country fought and built
a wall in the middle of
the country**

**The walls are built high
and thick, so you can
even see each other's
faces**

ba

**The wall was very
tall and very long.**

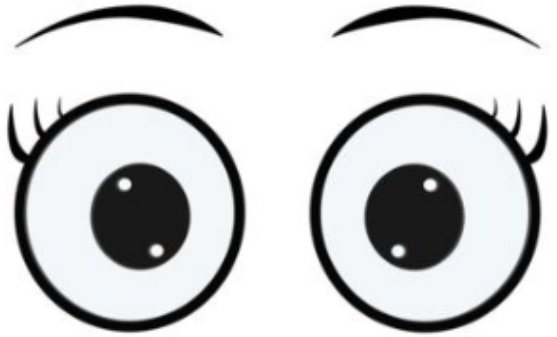

**Mama and Daddy
had two children.**

**The children looked at
the wall every day.**

+

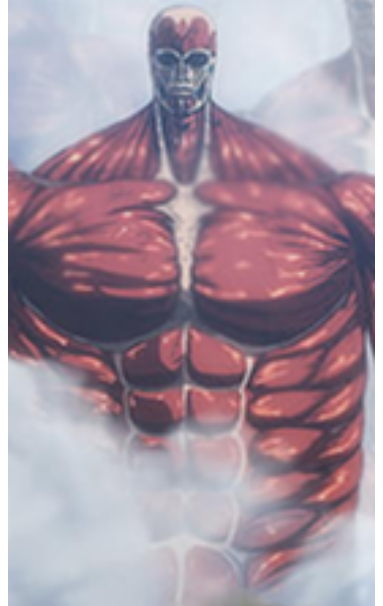

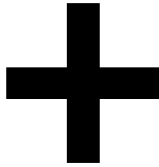

**One day, they asked,
"What is behind the wall?"**

= ??

**Mama said, "A giant
lives behind the wall."**

**Daddy said, "Never go over
the wall. It is dangerous."**

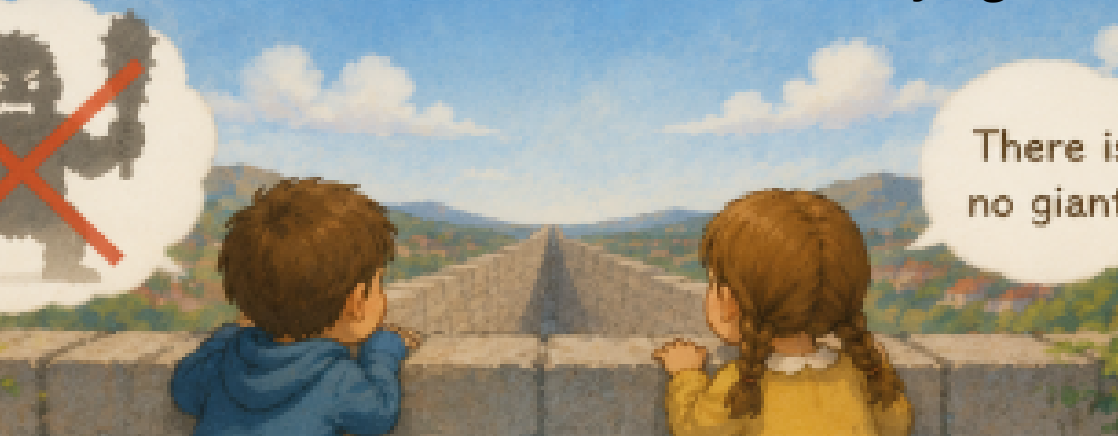

**The children were scared, but
they were also curious.**

**One day, they looked over the wall.
They saw children just like them.**

There was no giant. The children became friends first. Then everyone made peace, and the two countries became one country again.
