Discover Your Future with LMC

Being a student at LMC means so much more than getting a qualification, it means gaining valuable insight into the world of work so that you can step forward in life feeling confident, skilled and full of knowledge for your future career choices.

Our vocational curriculum, which combines practical learning, theoretical study and industry placements equips our learners with the skills and knowledge they require to progress into their chosen career or onto Higher Education. LMC students have gone on to be leaders in their field across a range of sectors including, engineering, creative and visual arts, catering, uniformed services, healthcare and science.

Follow in their footsteps and discover your future with LMC...

Celebrating Our Students' Successes!

Exceptional Student

Katie, one of our T Level Health students from 2024-2026, has just WON the 2026 North West Regional T Level Student of the Year Award at the Apprenticeship and Skills Awards and is through to the National final!

This award recognises an exceptional student whose dedication, talent, and commitment have set them apart as an outstanding ambassador for T Level education.

100% Pass Rate in T Levels

Congratulations to all of our amazing students for another fantastic year of results, and a particular huge well done to students on our Animal Management & Science, Education & Early Years and Health T Level courses who achieved a 100% pass rate!

Skills Competition

Evie, one of our Theatrical & Media Make-up students took part in the World Skills UK National qualifiers competition this summer at York College. The competitions are designed by industry experts and help young people grow personally and professionally by developing their technical and employability skills. Evie had to recreate the look she entered into the competition as well as the professional application of a bald cap with skin blending and the safe removal also.

International Opportunities

International Work Placements

Animal Studies, South Africa

Whichever course you choose, you'll have the opportunity to participate in work experience placements within the UK and further afield.

Students have recently engaged in fully-funded, industry placements through the Turing Scheme in Spain, Italy, Mexico, Canada, USA and South Africa - and this year we have added Bali to the list! We are now planning for our 2027-28 cohort, so keep your eyes peeled to see what opportunities next year's LMC learners will have.

Unfortunately, not all our trips in the UK are funded but if you are eligible for financial support, you may not have to pay to take part - please see the Student Money section for more information

For more information: **lmc.ac.uk/international**

Football Studies, Alicante, Spain

Hairdressing, Italy

Student Trips & Visits

Our courses prepare you for the world of work and we know how important it is for you to spend time off-campus meeting employers, developing specialist skills and visiting real work environments. As part of your course, you will have the opportunity to go on relevant trips; whether that is visiting a biscuit factory to learn about their engineering and manufacturing processes, an immersive media studio to learn more about photography and interior design or developing new skills on an outdoor adventure in Scotland.

Hospitality & Catering, Lakes Hospitality Show

Cabin Crew, SkyPeople Training Centre, Manchester

Travel & Tourism, Scotland

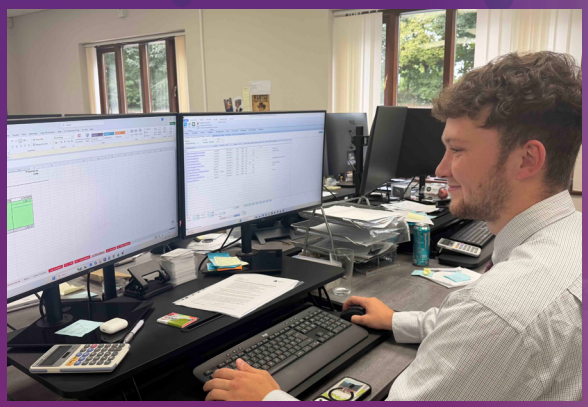

Art & Design, ULan HE trip

Engineering, Biscuit Factory

Industry Placements

Industry Work Placements are an innovative way to enable you to develop the key skills and knowledge required to get ahead in your career, and all of our Full Time learners have the opportunity to take part.
Depending on which course you choose, you could spend up to 45 days on placement, gaining crucial skills, building confidence and developing knowledge of a variety of different roles and responsibilities within the workplace.

Our Courses Lead to Careers...

Ryan Mead

Uniformed Protective Services Level 3

Ryan loved every minute of his time at LMC, especially the independent and grown-up environment compared to school or sixth form.

"The idea of a strict, school-like sixth form didn't appeal to me, I wanted a new experience and the chance to meet new people. LMC gave me that opportunity, while allowing me to gain a qualification equivalent to three A Levels in a subject I was genuinely interested in. I gained vast knowledge of the roles within all emergency services, which helped me think about my future career path of joining the military, specifically the RAF."

During his course, Ryan took part in a range of exciting opportunities, including a funded trip to Poland and several team-building excursions. Activities included hiking, mountain rescue drills and rock climbing, helping him build valuable skills.

Georgia O'Brien

Sports Diploma Level 3

The Sports course was perfect for Georgia as she loved sport and fitness, and wanted to work in the growing Sport & Leisure industry.

"It was a brilliant course that ultimately led me to my current career as a Personal Trainer and Pilates instructor, and allowed me to start up my own Personal Training business. The course gave me a valuable insight into what it was like to train and coach others, and I discovered how much I enjoyed helping people feel like the best version of themselves."

She valued the wide range of opportunities on offer by the Sports course at LMC, including teaching in schools and studying a broad range of topics. As a PT she designs personalised programmes, delivers one-to-one and group sessions, and supports clients in achieving their health and fitness goals.

"While on the course, I was fortunate to be offered the opportunity to travel to Bulgaria, where I coached a range of sports to children from disadvantaged backgrounds. The course supported my professional development and helped me develop strong communication and leadership skills. LMC provided me with the tools and knowledge I needed to turn something I loved into a successful career."

Brooke Gallagher

Hairdressing Level 2 Apprenticeship, Hairdressing Level 3 (part-time)

Brooke loved her journey at LMC, she started on the Hairdressing Level 2 Apprenticeship, which was the perfect course for her as it combined working in the industry whilst developing her hairdressing skills at College. Brooke chose to study at LMC because of the opportunities the Hairdressing Apprenticeship provided,

"Being able to gain the practical experience while still having the support and guidance from College was something that I really valued. One of the highlights of the course was the opportunity to work with real clients. This gave me a true understanding of the hairdressing industry and helped me develop confidence, communication skills, and the ability to work with a variety of people. I found that working with real clients was a completely different experience compared to practising on a block and really helped me to prepare for my career."

Since leaving LMC, Brooke has taken the next step in her career by becoming self-employed and managing her own clients. Her responsibilities now include building a client base, managing appointments, organising tax, and purchasing products such as colours, while making careful decisions for her own business.

We're Here to Help

The Hexagon
Student & Learning Centre

We know that starting College can feel like a huge step but we are here to help you settle in and find your feet. Our friendly team in The Hex Student & Learning Centre will offer you advice and support, from the moment you first apply for a course, right through to your final days at LMC.

Student Money

Pay My Student

We want to ensure all learners are aware of our Student Money Team, who are here to help identify and access any financial support you may be entitled to whilst you are studying at College. They can advise you on all financial matters including the Learner Support Fund (LSF) and the 16-18 Vulnerable Bursary and may also be able to help you with travel expenses, course costs such as uniform, educational visits and equipment, childcare fees and lunches. Just call into The Hex to speak with them or email studentmoney@lmc.ac.uk

Funding Support For Students

BANKS LYON memorial trust

The George Fox School Educational Charity

Thanks to the very generous support of Banks Lyon Memorial Trust and George Fox School Education Charity, we are also able to offer one-off payments to some students to help remove barriers to learning and help them to achieve their qualifications. For more information, please contact our Student Money Team.

A generous donation from George Fox Educational Charity helped to send LMC's Pan Ability football team to the National Championships

Banks Lyon Memorial Trust Fund supported LMC Students with outdoor activities

Careers

At LMC, we're proud to offer one of the most comprehensive and award-winning careers programmes in the region. Whether you're a full-time learner or an apprentice, our dedicated Student Engagement Team is here to guide you every step of the way. You can find 1-1 careers advice in The Hexagon, as well as CV, cover letter and job application support on our Student Hub.

Resources

We provide a wide range of resources to assist students with their assignments and studying.

Knowledgeable staff, books, e-resources, computers, laptops, printers and much more can all be found in The Hexagon to ensure you are getting the best results possible on your course. Students can also arrange a laptop loan via our Student Hub.

Learning Support

At LMC we pride ourselves on the support we provide to our students to enable them to achieve. All students can apply for help to access our courses. If there is anything that could get in the way of your learning and participation at College, please speak to your tutor or one of the support team prior to starting on your course. The team will work with you to develop your skills, confidence, motivation, independence and expertise in learning.

PRELOVED CLOTHING

Lancaster & Morecambe College

Pre-loved Clothing

Explore a wide range of unique fashion items, shoes and toiletries from vintage to modern styles

FREE for you to take away

Outstanding Facilities

The Truck Stop

The Truck Stop is the perfect place to pick-up hot food and drinks whilst on the go.

The Lounge & The Shop

The Lounge is your social space to meet with friends, relax and enjoy excellent, varied, affordable hot and cold food options or snacks. If you arrive between 8:30am and 8.55am, you can choose porridge, toast or fruit and either tea or coffee for FREE.

The Shop is a great stop for a quick snack, meal deal or even baked goods. We also stock a range of drinks, crisps, chocolates, and sanitary products.

The Café

The Café serves light bites (subs, paninis, bagels, jacket potatoes, salads etc) hot drinks and snacks.

The Salon

Our fantastic, modern salon is open to the public and offers various hair and beauty treatments at great prices. The Salon is an oasis of tranquility helping you unwind away from the bustling campus.

The Bay Restaurant

The Bay Restaurant @LMC with it's contemporary interior, first class service and mouth-watering menus offers an industry standard real-work environment for our Hospitality & Catering students, and is open to the public for a fantastic place to dine.

The Courtyard

Our peaceful, vape-free, outdoor social area is covered by a canopy for year-round access. You can view our 200th anniversary artwork (by local artist Chas Jacobs) and timeline, showing the development of LMC since 1824.

Immersive 360° VR Suite

Our immersive 360° Virtual Reality suite will enhance your learning experience. Each subject area has access to this fantastic facility, whether you're an Engineering student seeing what it's like to be on top of a wind turbine, or a student in Travel & Tourism researching popular holiday destinations around the world.

Your Route to Success

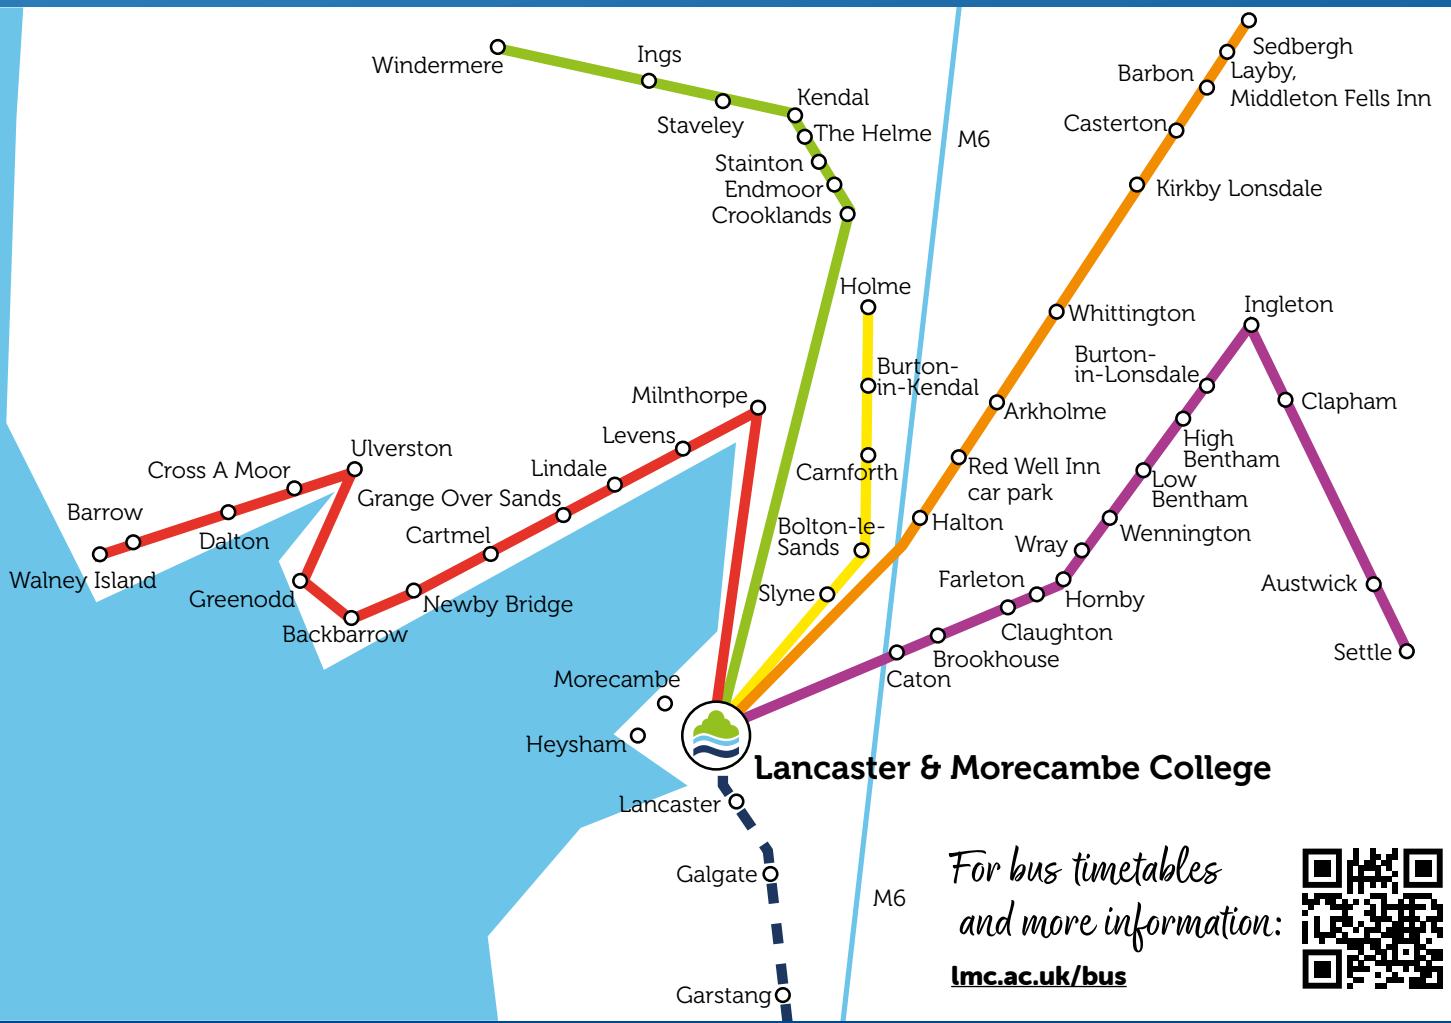

We know that many people who would like to study with us live some distance away from Lancaster & Morecambe College; that's why we offer Full Time students FREE daily return transport from Cumbria, North Yorkshire and the Lune Valley during term time.

Even if you don't live on a College bus route, you may still qualify for free or discounted travel to LMC.

South of Galgate

Full time students from the Garstang and Preston area may apply for a free Stagecoach bus pass to use scheduled buses, please ask at Student Services when you have enrolled.

Course Options at LMC

All student have the opportunity to study a wide range of courses at LMC. Whether you start at Level 1 or Level 5, each course is designed to give you the skills, knowledge and behaviours to continue into further education or begin your career. In 2027, V-Levels will be introduced and you can find more information about these qualifications on page 16.

Level 1 to Level 5 Courses

A vocational route combining coursework-based learning with practical, hands-on activities and fewer exams. Gain the knowledge and practical skills you need to pursue your dream career or progress to higher education.

- **18 course areas**
- **Study one subject**
- **Complete the course in one to two years**

T Levels

T Levels enable you to develop in-depth academic and theoretical knowledge while learning from tutors with extensive industry experience. You'll also complete a minimum of 315 hours of industry placement, giving you the opportunity to apply what you've learned in the classroom in a real-world setting.

- **9 T Level courses**
- **Study one subject**
- **Complete the course in one to two years**

Apprenticeships

Combine full time work with a mixture of on the job training and classroom learning, enabling you to earn while you learn and take the first steps into your chosen career.

- **23 Apprenticeship courses**
- **Study one subject**
- **Complete the course in one to four years**

Course Entry Requirements

Most courses we offer have entry requirements you will need to meet before studying with us. All courses require an interest in the subject and a willingness to learn, but some may have additional requirements such as a portfolio of work; any additional entry requirements will be detailed on the specific course page. Although you may meet our entry requirements on application, course offers are decided after your interview with the subject tutor.

If you're a school leaver and haven't received your GCSE grades yet, we'll base our course offer on your predicted grades. If you don't meet the entry requirements, you'll either start on a lower level course or our careers advice team will assist you with finding the right course

Entry Level	Level 1	Level 2	Level 3	Level 4/ Level 5
All Pathway courses and Introduction to Hair & Beauty require no formal qualification	3 GCSEs at grade G/1 or higher plus grade F/2 or higher in Maths or English	4 GCSEs at grade D/3 or higher including Maths or English OR a Level 1 related qualification PLUS grade D/3 or higher in Maths or English	5 GCSEs at grade C/4 or higher including Maths and English OR a Level 2 related qualification PLUS grade C/4 or higher in both Maths and English	From 64 UCAS points dependent on course PLUS GCSE Maths & English at grade 4/5 or higher and Advanced Apprenticeship, or equivalent experience

V LEVELS, Coming Soon

An alternative to A levels

- Level 3 vocational qualification
- Two years
- 360 guided learning hours (GLH)
- Equivalent to one A Level

V Levels are new Level 3 vocational qualifications for 16–19-year-olds in England, launching in September 2027. They combine classroom-based learning with applied study and practical assessment, and support progression to higher education, Apprenticeships and higher-level study.

Each V Level will focus on a specific career area, such as healthcare, digital technology, engineering, or business, and will be developed in partnership with employers to ensure the curriculum reflects real industry needs. You'll develop knowledge through applied learning and demonstrate your understanding through practical assessment.

V Levels offer a broad introduction to a vocational area rather than focusing on a single occupation. Content is set nationally and linked to occupational standards, ensuring that what you learn is relevant to future study and employment.

T Levels @LMC

T-LEVELS
THE NEXT LEVEL QUALIFICATION

T-Levels are the ideal choice if you want to study at advanced level (L3) and also gain practical skills, as they offer a blend of classroom-based learning and real work experience giving you a head start into employment. The courses have been designed to give young adults the opportunity to develop the skills, technical knowledge and behaviours that employers look for and are equivalent to three A Levels.

Upon completion, you can progress within your chosen career onto a higher-level Apprenticeship or into Higher Education.

The qualifications have been developed in conjunction with leading employers and education providers and include significant work experience (a minimum of 315 hours on industrial placement) alongside a structured curriculum, giving you in-depth knowledge of your chosen subject and sector.

T Levels on offer @LMC

- **Building Services Engineering for Construction** Level 3
  Specialisms: **Electrical Installations**
  Plumbing & Heating
- **Surveying, Design for Construction & Built Environment** Level 3
- **Engineering & Manufacturing** Level 3
- **Animal Management & Science** Level 3
- **Education & Early Years** Level 3
- **Business & Project Management** Level 3
- **Health** Level 3
- **Digital Support & Security** Level 3

For more information: **lmc.ac.uk/courses/T-Levels**

Apprenticeships

An Apprenticeship is a real job where you learn, gain experience and get paid a salary. You're an employee with a contract of employment and holiday leave. By the end of an Apprenticeship, you'll have developed the necessary skills and knowledge needed to progress into your chosen career.

It can take between one and six years to complete an Apprenticeship depending on which subject you choose, what level it is and your previous experience. It's funded by contributions from the Government and your employer.

What are the benefits of an Apprenticeship?

Skills, knowledge and behaviours

An Apprenticeship is all about developing new skills, knowledge and behaviours within your chosen sector. Whether you choose to stay with your employer on completion, study at a higher level or train in a new area, many of these new skills will be transferable and set you up for life!

Real job benefits

As an apprentice, you will have a contract of employment with your employer, which could typically include all regular employee benefits such as holiday allowance, bank holidays, pensions and continuous professional development (CPD).

Earn as you learn

As an apprentice, you will 'earn as you learn'. Although salaries will vary by employer, if you are under the age of 19 or in the first 12 months of your apprenticeship, you are entitled to at least the National Apprenticeship Minimum Wage. You will also be paid during any 'off-the-job-training'. Some employers may pay more than National Apprenticeship Minimum Wage.
For information on National Minimum wages, please visit:
gov.uk/national-minimum-wage-rates.

Fee free qualifications

Apprenticeships are a popular alternative to university for students wishing to begin a career whilst continuing their education. Unlike a university course, you will not have to pay for your qualifications during your training as the costs are covered by either the Government or your employer.

Employability and career prospects

Your Apprenticeship will give you nationally recognised qualifications and key skills, which will be hugely beneficial to career progression and future employability prospects.

Maths & English

The MET is our dedicated Maths & English Learning Hub on the campus. With most employers and Higher Education institutes requiring a minimum of GCSE grade 4 (or Functional Skills Level 2) in Maths & English, we aim to help you progress into your chosen career whichever course your on.

If you haven't already achieved a Grade 4 in maths and/or English when you start at LMC, these will be added to your timetable alongside your chosen vocational subject and are a mandatory part of your course.

November GCSE re-sits - learners who achieved a high grade 3 in their previous exams, may be offered the opportunity to re-sit in November. This will be discussed with you by your tutor when you enrol on your course.

We aim for you to progress...

Maths

GCSE Maths - learners who previously achieved Grade 1-3 will take GCSE Maths with the aim of improving their grade.

Functional Skills Maths - learners who are unlikely to achieve the minimum of a GCSE grade 1 will take Functional Skills Maths.

English

GCSE English - for learners who have previously achieved GCSE grade 3. You'll be taught the standard required to achieve a GCSE grade 4 or higher.

Functional Skills English - classes teach learners to the standard required to achieve up to a Functional Skills Level 2. Functional Skills English qualifications are very different to English Language GCSE exams, as they focus more on English skills for the workplace.

For more information:

lmc.ac.uk/maths-english

Lancaster & Morecambe College

Maths & English

Hope Morgan

Public Services Level 3, English GCSE

Hope passed her GCSE English qualification after resitting it at LMC and achieved a grade 6!

"The support I received from LMC was perfect! My English tutor Fiona was always there to help me no matter what the situation, whether it was English related or not. In every lesson I felt welcome and that I could be myself and ask for help without feeling embarrassed.

My experience with re-sitting in College couldn't have gone better, and if there is anyone who may have to resit at LMC in the future here are my tips:

- *If you give 100% so will your tutors*
- *Make the most of the lessons as they go very quickly leading up to the exam*
- *Don't be scared! The tutors are tutors for a reason and they are amazing at their jobs."*

High Quality Careers Advice & Guidance CEIAG

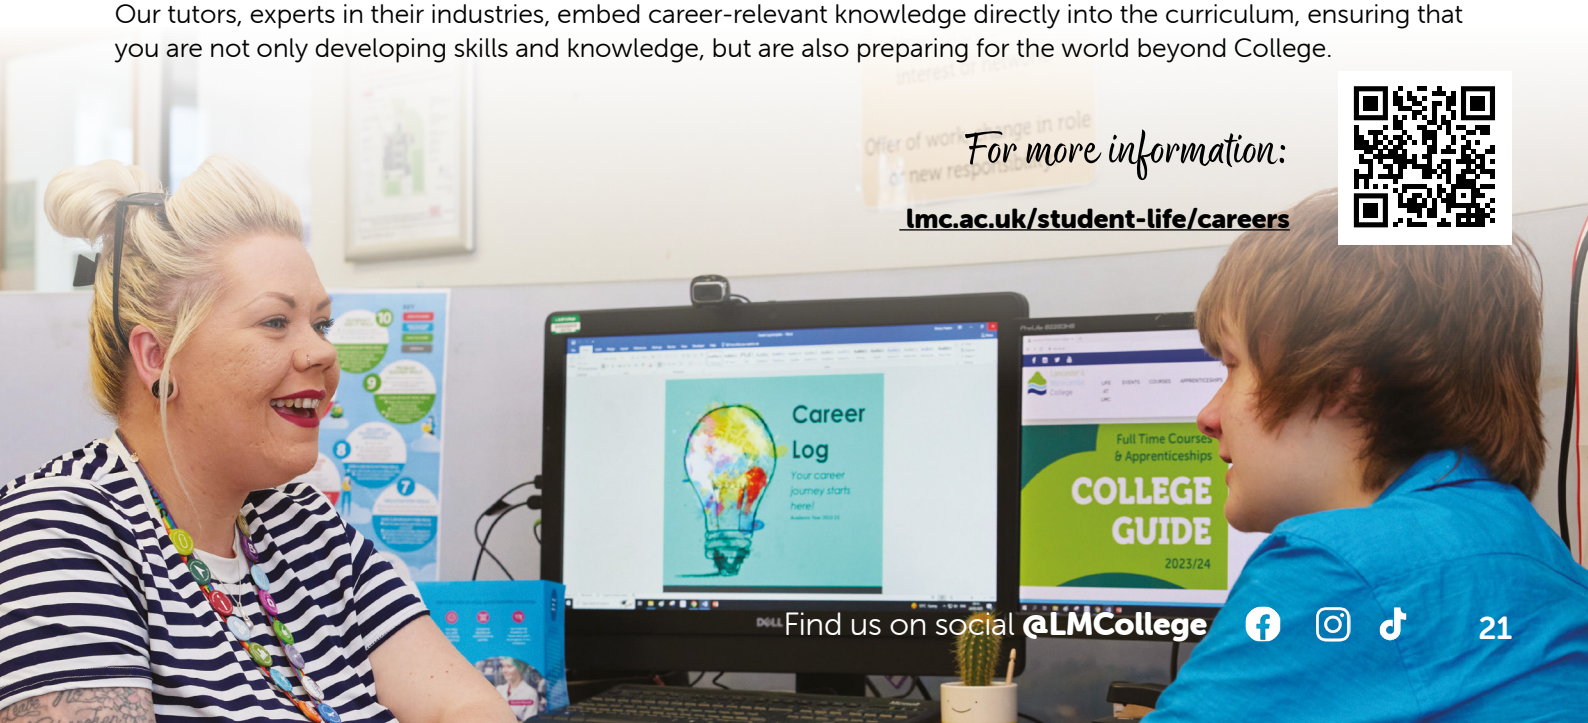

At Lancaster & Morecambe College, we're proud to offer a comprehensive and award-winning careers programme to all our learners, and our dedicated Student Engagement Team is here to guide you every step of the way; from your first open day to the moment you graduate.

Our careers support is delivered by Level 6 Qualified Careers Advisors who provide expert, impartial advice tailored to your individual goals, including professional guidance on courses, entry requirements, fees, progression routes, and employment pathways. We were proud winners of the Careers Excellence Award 2024, which recognised our outstanding commitment to building future skills, and in 2025 we achieved the Quality in Careers Standard, a national benchmark for excellence in careers education.

Our careers programme is designed to meet the diverse needs of all learners through structured tutorials that build career confidence and planning skills, sector-specific events and employer-led workshops that will help connect you with real opportunities, and targeted sessions on CV writing, interview prep, and navigating the job market.

The Skills Development Passport as launched in January 2026 and offers LMC students the opportunity to gain additional accreditation. The passport is a valuable tool for helping you develop essential career skills that local employers value most. You can earn skills badges (including teamwork, communication, resilience, and problem solving) by completing short tasks and reflections, each digital/physical badge showcases your strengths and workplace readiness.

Our tutors, experts in their industries, embed career-relevant knowledge directly into the curriculum, ensuring that you are not only developing skills and knowledge, but are also preparing for the world beyond College.

lmc.ac.uk/student-life/careers

Our Bay Our Future

With generous funding provided by the National Lottery Community Fund, we launched the 'Our Bay Our Future' (OBOF) project in 2026, working in collaboration with Lancaster University, Morecambe Bay Partnership and University of Cumbria.

This exciting new project will offer you the opportunity to take part in a range of climate action activities which will enhance your knowledge of local and global environmental issues and help build skills essential for your future career.

Green Passport

This 3-day programme is based around the interests and career choices of participants and covers a broad range of topics such as: fast fashion, digital footprint, sustainable tourism, biodiversity and sustainable food production. You will meet employers and organisations, and develop a project linked to a subject you are passionate about.

Green Leaders

This programme will empower young adults to develop their own fully-funded climate action project in response to a local problem.

It runs from January-June each academic year and is a combination of taught sessions, practical activities and research days. You will attend a class-based day in January, visit local projects in February and take part in a 3-day residential in March. The rest of the time you will be working with your mentor to research, plan and deliver your climate action project.

On the residential weekend you take part in a range of sessions to help build confidence and knowledge, and you will be mentored by a Green Action facilitator from Lancaster University who will support you to plan and deliver a relevant project (£500 funding is available for each participant).

When and where?

We have 3 start dates each academic year in October, January and April, and sessions will take place at LMC and on Lancaster University campus.

For more information:

lmc.ac.uk/student-life/our-bay-our-future-obof

Information for Parents & Guardians

Moving on from school into post-16 education is an exciting and sometimes challenging time, so it's important that young people feel supported as they make that transition into adulthood. Our friendly teams are on hand to help with any issues or concerns you or your child/dependant may have whilst they are studying with us.

Parent Information Events – prior to the start of the new academic year, parents/carers of all new applicants will be invited to one of our information events, where you will have the opportunity to speak with our support teams and find out more about life as an LMC student.

On programme support - tutors are the first point of contact for all course-related enquiries and our curriculum teams offer "meet the tutor" evenings during the first few weeks of term. You will receive termly progress reports and will be contacted if there are any concerns relating to attendance or behaviour.

Pastoral Mentors, Inclusion Mentors, Financial and Learning Support – all of our dedicated support teams are all based in The Hex and are on hand to help with issues which may impact on progress and attendance.

For more information: **lmc.ac.uk/parents-guardians**

Home-Educated Provision & 14-16

We may be able to offer learning opportunities and individualised programmes of study to pupils aged 14-16, including young people who are home-educated.

14-16 School Referrals must come from the pupil's current school, education establishment, social services or the local authority, who must agree to fund the placement. LMC cannot accept private funding. Course options may include: Childcare, Animal Studies, Digital Technology - All full time courses include Maths and English.

Home Educated young people may be eligible to attend LMC to study on a vocational pathway to support and enhance home learning. Our usual entry criteria will apply and will be used to establish the learner's suitability, including an assessment on whether we feel the young person can thrive in the College environment.

For more information: **14-16.enquiries@lmc.ac.uk• lmc.ac.uk/14-16**

Ofsted Good Provider

Leaders plan an ambitious curriculum that aligns to the needs of the local and regional economy and helps learners and apprentices to develop the knowledge, skills and behaviours that they need.

Teachers are well-qualified subject specialists, with relevant, and in most cases extensive, industry experience.

Learners and Apprentices are proud of the knowledge, skills and behaviours that they develop.

Ofsted March 2025

Ask Ash...

Some of you will recognise Ash, our **School & Community Engagement (SCE) Coordinator**, as he and the rest of the SCE team attend lots of events across the district and in all of our local schools. He is always available to help answer any questions you have about life at LMC.

"What's different about College compared to school?"

When you join LMC, you'll notice some big changes from school. You'll have way more independence - meaning you'll need to manage your own time and workload. Classes are usually smaller, so you'll get more one-on-one time with your tutors. Plus, the focus is more on hands-on skills that are tied to your career. Your timetable might also be more flexible, letting you dive deeper into subjects you're interested in.

"What if I need to talk to someone about my wellbeing whilst at College?"

If you ever feel like you need to talk to someone, our Pastoral Team in The Hex are there to support you. You'll have a mentor linked to your course who you can chat to anytime during the week. They offer confidential advice and can point you towards mental health resources or wellbeing tips. If you're worried about anything serious, our safeguarding team is available to help

"Do I need to wear a uniform at College?"

No, you don't need to wear a uniform. You can wear what you like as long as it's comfy and appropriate for a learning and work environment. Just a heads-up: some courses have specific PPE and safety clothing, which you will have to wear in workshops and salons, but your tutors will let you know about that during induction.

"How can I make friends and get involved in College life?"

There are plenty of ways to make friends at College. Firstly, you'll meet your classmates during induction week, and the Welcome Fair, hosted a few weeks after you start, will allow you to meet students from other courses. There are also student opportunities, such as the Student Voice and Student Ambassador schemes, which will allow you to meet other students and develop your skills at the same time. You can also join lunchtime clubs throughout the week - such as sports, arts, music, and gaming - to meet friends and build new skills!

"What support will I get at College?"

There's loads of support available at LMC. For anything about your course, your tutor or course administrator will help you out. If you need help with wellbeing, careers advice, or things like transport and student finance, our friendly support teams in The Hex can help you. Whether it's personal or course-related, there's always someone here for you.

"Can I have a part-time job while at College?"

Yes, many students work part-time while studying. Just make sure you can juggle your work and studies well. It's all about balance - don't let short term money get in the way of your long term ambitions.

"What's the best way to get ready for College?"

Before starting, it's a good idea to get familiar with the campus and check out the support services available. Make sure you've got your course materials sorted and any tasks done that were suggested during induction. If you have a part-time job, plan your schedule so it fits around your College timetable. Attending any pre-college events will help you feel more prepared, and don't hesitate to ask your tutors if you've got any questions.

"How do I find out about the bus to College?"

LMC has a FREE bus service for students living in North Yorkshire, South Cumbria and the Lune Valley. You can check out the bus routes and timetables on our website: lmc.ac.uk/bus. If you're using a public bus, you may be entitled to help with the cost of a bus pass so speak to our Student Money team.

The College is well-connected with public transport, with bus stops close to either entrance. You'll need to check Stagecoach's website for their routes and timetables.

Our Student Services team can help with any questions, including information on student travel discounts.

Any further questions, please get in touch!

Jade Taylor

Course: Access to HE

Driven by her goal to progress to university Jade chose LMC as the stepping stone toward a degree in Occupational Therapy at University of Cumbria.

My experiences on the Access course at LMC gave my confidence a huge boost, and beyond the subject knowledge, the course helped me master presenting to groups, improved my interview skills, and guided me through the entire UCAS application process. I am now looking forward to the career I always wanted.

Your future career could be...

Primary School Teacher Average salary £32,000-£51,000

Nurse Average salary £30,000 - £50,000+

Youth Worker Average salary £24,000 - £37,000

Full Time Courses

Level 3 → University

Access to HE

Level 3 • 1 year

The adult alternative to A Levels for ambitious adults who aspire to progress to university or improve their career prospects.

Previous students have progressed into various careers, including:

- **Nursing and Health Professions:** Adult Nurse, Mental Health Nurse, Midwife, Radiographer, Occupational Therapist, Physiotherapist and Paramedic.
- **Teaching:** Primary School Teacher, Learning Support Worker, Teaching Assistant and Special Needs Education Worker.
- **Social Work:** Social Worker, Counsellor, Probation Worker, Youth Worker and Welfare Officer.
- **Higher Education:** Degree options include for example: Biological Science, Business, Psychology, Humanities and Social Sciences.

Additional entry requirements:

A range of evidence may be considered when assessing an individual's potential to study an Access Diploma, for example; their life skills, previous employment, prior achievements and professional qualifications.

The general expectation is that students will:

- Have good Level 2 skills reflecting ability equal to 5 GCSEs at grade 4 or above, or any equivalent professional qualification; and
- Completion of the initial assessment to a satisfactory level.

The offer of a place will be determined by the following three factors:

- The student's performance at interview;
- The successful completion of the assessment; and
- The consideration of prior achievements and/or qualifications.

Different universities and courses have different entry requirements. It is the student's responsibility to check that these would be met when applying for an Access to HE Diploma. This could include subject specific GCSE grades and relevant experience.

Siobhan Haynes

Course: Access to HE

Profession: Studying Midwifery at University of Cumbria

I have always wanted to be a midwife and I knew I needed to gain the correct qualifications to allow me to go to university. I found out about the Access to HE course at LMC, which would allow me to progress to university and after working up the courage, I applied for the course and haven't looked back.

On the Access Diploma you study a range of units including Human Physiology, Psychology, Sociology, Social Issues in Healthcare and Study Skills. Siobhan is now progressing onto the University of Cumbria to study Midwifery,

I have really improved my academic skills, specifically in writing essays and correctly using Harvard referencing techniques, and I am now able to better manage my workload and prioritise tasks.

The course has given me the confidence I needed to know that I can do this! I'm so proud that I was able to pass my Higher Biology exam and successfully get into university.

Additional Part Time Courses

We also offer **Part Time** courses if you're looking to increase your qualifications before taking on the Level 3, please find more information in the Adult Course Guide and on our website.

- **Health & Social Care Professional** Level 2 Extended Certificate (Pre Access)
- **Biology** GCSE
- **Psychology** Level 2 Certificate

Animal Studies

Animal Studies provides you with the essential knowledge, practical skills, and professional behaviours needed to progress into further education or employment within the animal care and management industry. You will gain hands-on experience working with a diverse range of species in our industry-standard facilities, which include a newly developed nocturnal species workshop and a dedicated aquatics area. You will also enhance your understanding of animal biology through practical sessions in our laboratory spaces.

Scan here for courses

Animal First Aid

Our T Level Animal Management and Science and Animal Care Level 2 students have successfully completed their Level 2 Certificate in Pet First Aid with Blue Bell Pet Care.

Throughout the course, students gained valuable hands-on experience and developed essential skills to help support animals in emergency situations, including:
CPR, seizure response, recognising signs of shock, managing fractures and bleeds and many more vital skills used to support animals in emergencies

Full Time & T Level Courses

Level 1 → Level 2 → Level 3 → HE or Employment

Animal Studies Pathway

Level 1 • 1 year

All Pathway courses at LMC provide a supportive introduction to College study. This course is designed for anyone wishing to work with animals and includes theory-based lessons, where you'll learn how to care for animals, alongside practical workshop sessions.

Land-Based Studies

Level 1 • 1 year

This course is an introduction to the Land-Based industries with a particular focus on animal care and welfare. It provides an opportunity to investigate job opportunities and to acquire appropriate workplace skills.

Animal Care

Level 2 • 1 year

This course provides an introduction to Animal Care, which could lead to employment at a junior level, or to the Level 3 Animal Management & Science T Level course. It will also help you to develop personal and administrative skills needed in this area of work.

T-LEVELS

Animal Management & Science T Level

Level 3 • 2 years

This is a 2 year programme that will ensure you gain the knowledge, skills and behaviours required to progress to employment or Higher Education within the animal care sector.

As well as the theoretical elements of the course, you will develop your industry related practical skills by working in the specialist animal workshops and laboratory facilities, and undertake mandatory on-the-job work experience in the form of 45 days/
315 hours work placement.

South Africa Trip

Our Animal Care students went on a FULLY FUNDED trip to South Africa this year, where they went on safari, saw animals in their natural habitat and learnt about conservation work.

Toby Park

Course: Animal Management & Science T Level

With a strong interest in animals, the course stood out for Toby for its mix of practical and academic content, covering everything from lab skills to animal health. Since joining the T Level, Toby is already thinking ahead to a future in the Animal Care industry.

"I felt welcomed into LMC almost straight after joining the T Level by both tutors and my peers. I was given all the financial help I needed from the Student Money Team, and support with my education was provided by course tutors. I've only been studying since September 2024, and my course so far has been fun, informative and interesting."

Toby has learned how to conduct health checks for a range of species and how to perform CPR correctly. He has also developed a range of academic skills, including how to research effectively, write reports, use Harvard referencing, and understand command words..

"I hope to continue on to university after the T Level course, potentially to study veterinary nursing."

Art & Design

As an Art & Design student, you will work in a creative and supportive learning environment designed to help you develop your skills and confidence. You will have access to excellent facilities and resources, while being taught by experienced tutors with strong industry knowledge. Our students are encouraged to experiment and develop their individual styles to build a strong portfolio that supports progression for their future careers when applying to prestigious art schools or universities.

Care Home Project

Our Art & Design Level 2 students had a wonderful opportunity to share their creativity with residents at Whitelow House Nursing Home. Students proudly presented their own paintings, with each piece inspired by the residents' individual interests, making the artwork personal and meaningful.
The visit was a lovely opportunity to bring art and creativity into the community, with plenty of smiles and stories shared along the way. It was fantastic to see our students using their creativity to make a positive difference while showing such compassion.

Your future career could be...

Photographer Average salary £17,000 - £45,000
Art Editor Average salary £26,000 - £40,000
Graphic Designer Average salary £24,000 - £42,000

Full Time & HE Courses

Level 2 → Level 3 → Level 4 → Level 5

Art & Design Pathway

Level 1 • 1 year

If you are enthusiastic about art but not sure where to begin, our Level 1 Art & Design Pathway course is the perfect starting point. This is a practical, hands-on programme where you will explore the basic elements of art, experiment with different media and techniques and start to build the confidence and skills needed to progress in the creative industries.

Art & Design

Level 2 • 1 year

An introduction to the world of Art & Design, the course is developed to support those who would benefit from a more practical approach to learning, providing them with the transferable skills, knowledge and self-confidence required to progress to further education in Art & Design and/or employment within the creative industries.

Art & Design

Level 3 • 2 years

If you are wishing to pursue a career in the creative industries, this course will cover a broad range of specialist areas in Art & Design including media, techniques, and a variety of practical skills to help you identify your creative strengths and develop a project using critical and contextual awareness.

Art & Design Foundation Diploma

Level 3/4 • 1 year

This is an intensive one year course exploring a spectrum of design specialisms and builds a strong and diverse portfolio. The emphasis of the course is on experimentation and challenging preconceptions and can lead to a range of specialist Art & Design Higher Education courses.

Theatre Art Challenge

The students took on a challenging brief to create a range of props for Morecambe Amateur Operatic and Dramatic Society (MAODS) production of Disney's Beauty and the Beast at Lancaster Grand Theatre.
They produced highly realistic, meticulously crafted pieces, demonstrating excellent attention to detail. The props were thoroughly enjoyed by the cast and helped to bring authenticity and atmosphere to the production.

Fine Art HNC

Level 4 • 1 year

While on this course, you will complete a variety of projects through which you will develop a range of practical skills and practise through material and contextual investigation. The assignments will be linked to a vocational context, and, whenever possible, working for a real client.

During the programme, you will have the opportunity to explore personal themes and concerns using a range of media. It is a primarily studio based course where you will spend time building an individual portfolio of work.

Additional entry requirements:

- A minimum of 64 UCAS points, PLUS GCSE Maths at grade 4 or higher and GCSE English at grade 5 or higher

Fine Art HND

Level 5 • 1 year

The Level 5 modules prepare you to move on to specific areas of Fine Art at Level 6 or to enter employment with the qualities and abilities necessary for roles that require personal responsibility and decision-making skills.

You will be able to develop and apply your own ideas to your studies, to deal with uncertainty and complexity, to explore solutions, demonstrate critical evaluation and use both theory and practice in a range of fine art situations.

Additional entry requirements:

- A minimum of 64 UCAS points, PLUS GCSE Maths at grade 4 or higher, GCSE English at grade 5 or higher, and have completed the HNC in Fine Art

Beauty Therapy

Studying Beauty Therapy at LMC will give you access to our industry standard facility, The Salon, plus a team of highly experienced and specialist tutors. Through their extensive knowledge, you'll learn the skills and techniques needed to establish a career in the Beauty Therapy industry. If you choose to progress through the qualification levels, you'll gain confidence and begin to develop your individual creative talent.

Pathway to Hair and Beauty

Entry Level 3 • 1 year

This course is designed as a starting point for those interested in pursuing a vocational career within the hair and beauty industry. The qualification will give you the skills to progress onto a full time Level 1 course after successful completion.

Hair & Beauty Introduction

Level 1 • 1 year

This course offers an introduction to the exciting and prosperous careers available in Hairdressing & Beauty Therapy. You will gain knowledge and new skills in a variety of basic Hairdressing & Beauty Therapy services.

Beauty Therapy

Level 2 • 1 year

This course offers the opportunity to learn the skills necessary for employment in the Beauty Therapy profession. You will learn popular techniques including facials, waxing, manicure and pedicure, with insights from employers in the Beauty Therapy industry.

Beauty Therapy

Level 3 • 1 year

You will focus on advanced treatments, theory elements of business promotions, relevant health and safety, and advanced treatment techniques in the Beauty industry. You'll spend time gaining experience in LMC's real work environment, The Salon, and develop your customer care and communication skills, preparing you for future employment.

Additional entry requirements:

- Level 2 qualification in Beauty Therapy.

Theatrical & Media Make-up

Level 3 • 1 year

Aimed at individuals who want to work within professional make-up or hair departments of TV, film, or theatre production companies, this course equips you with the knowledge required to progress onto university courses in Beauty Therapy.

> *"I have learnt important skills like how to work professionally in a busy salon, and how to do treatments to the best of my ability."*

Kenzie Cartmell

Course: Beauty Therapy Level 2

Kenzie chose to study Beauty Therapy at LMC because the course offered her the chance to explore a variety of different aspects within the beauty industry.

"I wanted to study at LMC because it offered me more than other colleges in the area. I was particularly interested in nail treatments like acrylics and gels, so I was really pleased that these were included as part of the course."

Throughout the course, Kenzie has developed an extensive range of practical skills, including massage techniques, eyelash extensions and acrylic nail application. Alongside her technical ability, she has grown in confidence and strengthened her communication skills, enabling her to build strong relationships with clients.

During her studies, Kenzie secured a role at the Gilpin Hotel & Lake House Spa Space, where she delivers a variety of professional beauty treatments using the skills she developed at College. This experience has allowed her to build confidence in a real spa environment while gaining valuable industry experience.

Business

A business course can act as a springboard to a range of careers, providing you with knowledge and transferable skills. Whether you see yourself in Sales & Marketing, want to set up your own business, or aspire to be at the centre of decision making in your chosen sector, our full-time business courses and Apprenticeships can help you to progress into Higher Education or employment. Our strong links with employers mean that you will gain experience from industry experts and hear from a variety of guest speakers.

Business Pathway

Level 1 • 1 year

The Business Pathway will prepare you for working in a customer facing role and help you to build skills and confidence to work in a fast paced, consumer led business within the industries such as Retail, Customer service or Hospitality settings.

T-LEVELS

Business Level 2 T Level Foundation Year

Level 2 • 1 year

This foundation programme is for those who have the ambition to succeed on a T Level programme but are not quite ready to start. The foundation year is designed to prepare you to progress onto a T Level. You will learn all about working in the business sector, and will attend an industry placement to prepare you for T Levels.

HNC additional entry requirements:

- A minimum of 64 UCAS points, PLUS GCSE Maths at grade 4 or higher and GCSE English at grade 5 or higher

T-LEVELS

Business& Project Management T Level

Level 3 • 2 years

This qualification allows you to gain an understanding of what is needed to work within an administrative or managerial role. T Levels are designed to deliver high-quality knowledge about the sector, as well as occupational skills required to enter the industry. Topics covered include Business Context, People, Quality Compliance, Project and Change Management. To gain a practical understanding of business, you will complete 315 hours of industrial placement throughout the course. The T Level prepares you for the world of work as well as preparation for study at Higher Education in a range of relevant disciplines, as the T Level is equivalent to 3 A Levels.

Business HNC

Level 4 • 1 year

This course focuses on contemporary business environment, process and planing, management of Human Resources, accounting principles and successful project management.

Amelia Duma

Course: Business & Project Management T Level

Profession: Sales and Customer Service Advisor and Administrator

Amelia joined LMC to study the Business T Level, choosing it over A Levels at school to focus on a subject she was passionate about. The T Level combined classroom learning with practical experience, helping her build key professional skills—especially confidence, reliability, teamwork, and meeting deadlines.

> *"I learnt that gaining practical experience is just as important as learning the theory... the course really helped me prepare for life after College."*

Amelia qualified in 2026, exceeding her predicted grade, and has since secured a role as a Sales & Customer Service Advisor & Administrator. In her job, she acts as a key contact for customers, supports the sales process, manages admin tasks, and ensures high standards in every interaction.

> *"I highly recommend the T Level at LMC My tutor was so welcoming and helped me every step of the way. The qualification itself is also immensely helpful—it opens so many doors for you."*

STUDENT

Business Administrator Apprenticeship

Level 3 • 18 months

This Apprenticeship offers a flexible and practical route into the world of business, designed to match your interests, employer needs, and long-term career goals. Whether you're just starting out or looking to upskill, this programme helps you build a strong foundation for success across any sector.

As an apprentice, you'll play a key role in supporting and improving business services. Your responsibilities will include developing, implementing, and maintaining administrative processes, engaging with internal and external customers, and contributing to the overall efficiency of your organisation. You'll work both independently and as part of a team, gaining valuable experience across departments.

Throughout the programme, you'll develop essential skills in:

- Communication (written and verbal)
- Time management and prioritisation
- Problem-solving and decision-making
- Professionalism, integrity, and initiative
- Leadership potential through mentoring and coaching

This apprenticeship is ideal if you're ready to become a confident, capable business professional with the flexibility to work across industries and the ambition to progress into leadership roles.

Accounts Assistant Apprenticeship

Level 2 • 15 months

This Apprenticeship will focus on developing your skills in maintaining an efficient and accurate finance function within a business. The Accounts or Finance Assistant is responsible for assisting the team of accountants with junior accounting duties.

Assistant Accountant Apprenticeship

Level 3 • 18 months

This Apprenticeship provides support within a finance function of an organisation. Part of your role will involve assisting in financial activities, such as data entry to month-end management accounts and year-end financial statements. In addition, you may be involved in regulatory financial requirements such as the completion of VAT returns or assisting in the preparation of tax computations.

Additional entry requirements:

- A Level 2 qualification in Accountancy or relevant industry experience, to be discussed at interview stage.

> *"I have learnt key skills such as bookkeeping and accounting principles. I really enjoy the problem-solving and attention to detail in Accounting."*

Professional Accounting Technician Apprenticeship

Level 4 • 18 months

This Apprenticeship supports you in developing the knowledge, skills and behaviours needed for complex management accounting tasks such as managing budgets and evaluating financial performance as well as optional specialist units including business tax, external auditing and credit control. After this course, you will be well-placed to further progress professionally and academically and may wish to pursue chartered accountant status.

Additional entry requirements

- To study this Apprenticeship you must have an AAT Level 3 Diploma, or have passed the EPA for a Level 3 Accounting Apprenticeship.

Customer Service Practitioner Apprenticeship

Level 2 • 15 months

This Apprenticeship develops excellent customer service skills and behaviours, as well as product and service knowledge when delivering to your customers. You will provide service in line with the organisation's standards and strategy, within appropriate regulatory requirements. Your customer interactions may cover a wide range of situations and can include; face-to-face, telephone, post, email and social media.

Child Education

Whilst studying Child Education at LMC, you'll work with a team of specialist tutors who provide excellent teaching in the knowledge and practical skills needed to work in this challenging, but rewarding, technical vocational area. The courses include a large proportion of work experience in a variety of placement settings where you'll be able to apply theory to your practice.

Caring Professions Pathway

Level 1 • 1 Year

This course has been designed to support those who want to gain basic knowledge of Childcare and who may not have entry requirements for mainstream courses.

Caring for Children Under 5

Level 1 • 1 Year

This course will develop your knowledge of young children and help you to develop a range of skills in the Early Years sector. It will also help to prepare you for Level 2 study.

Early Years Foundation Certificate Level 2

Level 2 • 1 Year

This course creates a clear progression route into higher-level Early Years qualifications, opening doors to roles with greater responsibility and further study. It will provide you with the essential knowledge, skills, and behaviours needed to support children's learning, development, and wellbeing in a range of early years settings. With a strong emphasis on safeguarding, communication, child development, and inclusive practice, you'll be well prepared to progress into higher-level Early Years qualifications.

T-LEVELS

Education & Early Years T Level

Level 3 • 2 years

The core element of a T Level in Education & Early Years offers you the opportunity to develop knowledge and understanding of the sector and the holistic needs of children and young people. The Early Years Education specialism builds up the skills needed for future jobs. There is a 750-hour minimum industrial placement on the Early Years route, and 315-hours placement on the Assistant Teaching route as a mandatory part of this course. You will demonstrate higher-level study skills, as well as learn the values and behaviours required for occupational roles in Education & Early Years. The T Level prepares you for the world of work, as well as providing significant preparation for study at Higher Education in a range of relevant disciplines.

On completion of this course, you will hold a Level 3 licence to practice as an Early Years Practitioner. This T Level is the equivalent to 3 A Levels and holds the appropriate UCAS points dependent on your final grade.

Specialism on this T Level

Early Years Education route
Assistant Teaching route.

Tamsin Glover-Emerson

Lecturer in Child Education

We are absolutely thrilled to announce that Tamsin has been short-listed as a finalist in the NCFE Educator of the Year Award!

Tamsin started her teaching journey at LMC in 2021 after spending over 15 years in the industry. Before working at LMC she worked in a variety of roles within the early years industry, including family support and leadership and management.

"At LMC we have excellent industry links for placement experience and combined with our experienced and highly qualified lecturers, we can give you a real edge in the world of work or applying for university."

Early Years Practitioner Apprenticeship

Level 2 • 16 months

This Apprenticeship will prepare you to work directly with young children, supporting their learning, development, and care in line with the Early Years Foundation Stage (EYFS) requirements. It equips apprentices with the practical skills and knowledge needed to create safe, nurturing, and stimulating environments for children from birth to age five.

Through this Apprenticeship, you'll learn how to:

- Support child-initiated and adult-led activities tailored to individual needs and interests
- Deliver purposeful play and educational programmes that promote development
- Observe, assess, and contribute to each child's learning journey
- Assist with personal care routines such as feeding, toileting, and hygiene
- Work collaboratively with colleagues, parents, carers, and multi-agency professionals
- Recognise and respond to safeguarding concerns and promote health and safety

This Apprenticeship is ideal for those who want to make a meaningful impact in Early Years settings, working under supervision to ensure every child feels safe, supported, and ready to thrive.

Additional entry requirements:

- Complete a satisfactory DBS check

Early Years Educator Advanced Apprenticeship

Level 3 • 18 months

This Apprenticeship will prepare you to deliver high-quality education and care for children from birth to age five, in line with the Early Years Foundation Stage (EYFS) framework. It equips apprentices with the skills, knowledge, and behaviours needed to create safe, inclusive, and stimulating environments that support every child's learning and development — indoors and outdoors.

Through this Apprenticeship, you'll learn how to:

- Facilitate purposeful play and learning experiences tailored to individual needs, including children with SEND
- Apply observation, assessment, and planning to support developmental progress
- Ensure a secure and inclusive environment that promotes equality, diversity, and wellbeing
- Collaborate with parents, carers, colleagues, and multi-agency professionals
- Take responsibility as a key person for one or more children, supporting their care and learning journey

Additional entry requirements:

- Complete a satisfactory DBS check and;
- Relevant industry experience

Jess Quigley

Course: Early Years Practitioner Apprenticeship Level 2

Jess has just successfully completed her Early Years Practitioner Level 2 Apprenticeship and was awarded the highest grade of Distinction. She is currently employed as a Nursery Practitioner at Little People at the Limes Nursery near Preston, offering quality care and pre-school education for children aged from babies to 5 years old

"A key skill I have developed during my time at LMC is understanding the theory behind my job role, which has helped me to apply this knowledge confidently in my everyday practice in the nursery with the children and my work colleagues."

Studying at College has also supported Jess professionally by deepening her understanding of legislation, guidance and child development, while remaining in her role as a Nursery Practitioner, caring for and educating children aged 2–3.

Her proudest achievement during her time at College is achieving a Distinction in her exam, a milestone that reflects her hard work and dedication, Jess is planning to progress onto the Early Years Educator Apprenticeship Level 3, which will continue to expand and develop her knowledge of the Childcare industry.

Creative Digital Media

Creative Digital Media offers huge and varied career opportunities including animation, content creating, games production, 3-D visualisation and roles within the film and TV industry. Students are based in our purpose-built Visual and Creative Studies centre and have access to an industry-standard digital environment. You will be taught by specialist tutors and will develop a range of relevant technical skills, which will equip you to progress onto HE and employment.

Creative Digital Media will provide you with a broad range of skills across a number of disciplines in digital media, games development, sound design plus film and television. Each brief on this course gives you a broad introduction, with opportunity to develop skills in specific technical areas.

> *"I wanted to turn my gaming hobby into a profession, and the Esports course was the obvious choice!"*

'Heat' Elephant Conservation Project

This year our CDM Level 3 students worked with the Arribada Initiative to create digital content to raise awareness of the Project: HEAT (Human Elephant Alert Technology). This conservation technology project, development by ZSL (Zoological Society London), is an early alert system that uses small thermal cameras to alert local communities to the presence of nearby elephants in an effort to reduce human-elephant conflict, and protect wild elephants from harm.

Our students worked together through research, pre-production, production and presentation on digital content to explain to the general public about the use of technology with endangered animals.

New Course for 2027

UAL Level 4 Professional Diploma Creative Enterprise

1 Year

Designed for the next generation of creatives, this new course offers an exciting alternative progression route for students looking to develop their creative practice before university, employment or launching their own business.

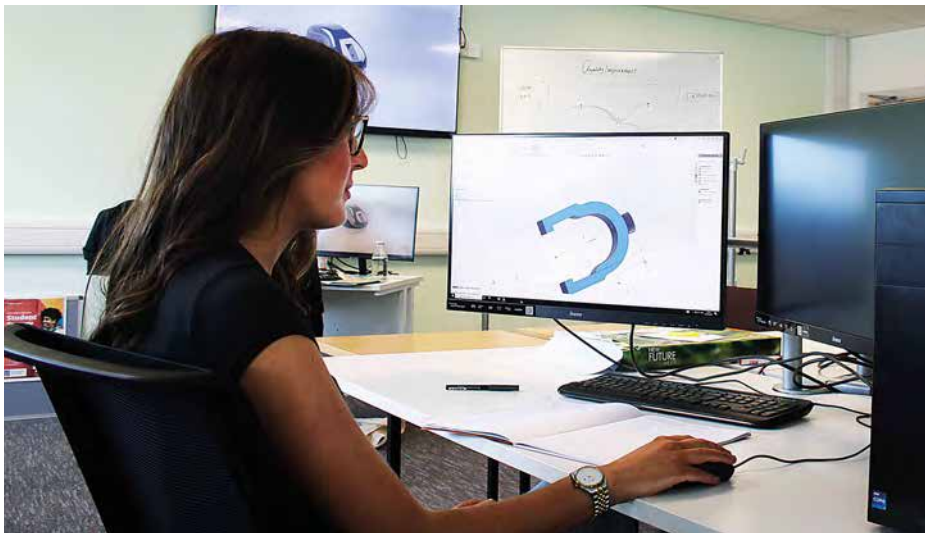

This innovative programme is built around the realities of today's creative industries. You'll collaborate with clients, develop your own creative projects, build industry connections and explore opportunities in freelancing, content creation, digital media, photography, games, design and entrepreneurship.

Additional entry requirements:

- To study this course you should have successfully completed a relevant Level 3 qualification, or A Levels, at merit or equivalent.

Digital Technology Pathway

Level 1 • 1 year

All Pathway courses at LMC provide you with a supportive foundation into studying at College.

This Digital Technology Pathway is designed for students who have an interest in developing skills and knowledge of computing, IT and digital technology.

T-LEVELS

Digital Support & Security T Level

Level 3 • 2 years

The T Level in Digital Support & Security is designed to give you the skills to work within the digital services sector giving you a broad theoretical and technical understanding of the systems, software and networks used within organisation and businesses.

You will learn about various aspects of the digital world including networking, practical problem solving, cybersecurity, software and hardware installation and support. Over the two years of study, you will learn in classroom and practical environments with lots of hands on learning, including a significant industrial placement. You will be assessed by external exams and employer led projects, and the course can lead to employment or further study in Higher Education.

Digital Skills for Defence (DS4D) Programme

The DS4D Programme is an innovative Ministry of Defence initiative designed to inspire and develop the next generation of digital, cyber, and STEM talent. Students receive mentoring, specialist skills development, employability workshops, and access to real-world defence and cyber opportunities. The programme helps young people build valuable skills in areas such as cyber security, computer science, data science, engineering, and artificial intelligence, while creating clear pathways into high-demand careers within Defence and the wider digital sector. By investing in future talent, DS4D is strengthening the UK's digital workforce and helping to meet the challenges of an increasingly technology-driven world.

As part of the DS4D Programme LMC students were invited to Lancaster University for the Ministry of Defence's Digital Skill event for an unforgettable experience of discovery and hands-on learning. The day began with an introduction to student life at the University, as well as an insight into the different pathways into computing and cyber security. Students then split into groups to take part in a range of interactive activities. One session explored the world of encryption, codes and cryptography, while another gave students the opportunity to get hands-on with a robotic arm putting their problem-solving and coding skills to the test. The groups particularly enjoyed discovering how encryption can be used to solve problems in new ways, while the robotic arm session demonstrated just how interactive and practical coding can be. The visit gave students a valuable insight into university life and the exciting opportunities available within the world of computing and cyber security.

Another DS4D Programme event was the Digital Skills, Big Bang Event at Ewood Park. This interactive day challenged students with astronomical calculations, Morse code, and Enigma machine code-breaking, alongside speed networking sessions with industry professionals.

Energy, Engineering & Construction

We pride ourselves at LMC on being one of the best providers of Energy, Engineering & Construction training in the North West. You'll be studying in our industry standard workshops with first class facilities, alongside lecturers with years of experience in the field. You'll be learning from the best in the business.

Proud to work with

Eden is happening and we're involved

LMC were delighted to take part in the official ground breaking ceremony for the Eden Project Morecambe site. Attended by hundreds of community members during the Closing the Community Conversation event, the celebration featured Eden CEO Andy Jasper unveiling an 8ft ceremonial spade, which was designed and fabricated by LMC Construction & Engineering students.

Your future career could be...

Joiner Average salary £19,000 - £40,000

Property Maintenance Worker Average salary £20,000 - £35,000

Retrofitter Average salary £26,000 - £42,000

Full Time & Apprenticeship Courses

Level 1 → Level 2 → Level 3 → Employment

Carpentry & Joinery

Level 1 • 1 year

This course is for those who wish to develop their basic Carpentry & Joinery skills with a view to progression within the construction industry. You will learn safe working practices, communication, how to prepare and maintain power tools, and basic construction technology.

Carpentry & Joinery

Level 2 • 1 year

This course is suitable for adults, and those progressing from Level 1, who wish to enhance their skills in Carpentry & Joinery. You will learn how to use power tools, fix skirtings, architraves and hinged doors, as well as first and second fixing before plastering. Completion of this course could lead to progression onto an Apprenticeship.

Carpentry & Joinery Apprenticeship

Level 2 • 24 months

This Apprenticeship gives you a broader understanding of how companies operate and how work is prepared within the Joinery field. Practical assignments set in real-life workplace scenarios will help you learn, build skills, and develop behaviours which you'll use in your future career.

Additional entry requirements:

- 2 GCSEs at grade 3 or higher including Maths & English or Functional Skills Level 1, or the ability to demonstrate skill to this level through initial assessments

Craft Carpentry & Joinery Apprenticeship

Level 3 • 15 months

This course is suitable for those progressing from the Level 2 Apprenticeship and gives you the scope to develop a broader skill set. The course can provide a platform to progress into management, university and even self employment. The tasks in this course are bespoke and will enable you to fine-tune your practical ability and theory knowledge in the trade.

Additional entry requirements:

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessments

Inspirational Level 3 Apprenticeship Successes

Completing a Level 3 Apprenticeship is a fantastic achievement and reflects the hard work, dedication and skill each apprentice has shown throughout their journey. We're incredibly proud of everything they've accomplished and grateful to the employers who have supported them along the way.

This year we celebrated the first-ever female apprentice to fully complete the Carpentry and Joinery Level 3 Apprenticeship! We couldn't be prouder of all of our Apprentices for setting such an inspiring example for the next generation of tradespeople coming through into the industry.

Engineering

Level 1 • 1 year

This course is designed to develop the basic engineering skills, knowledge and behaviours to prepare you for a career in Engineering. You will learn about hand fitting skills, engineering practices and principles, welding and hand and power tools.

Engineering

Level 2 • 1 year

This course covers the knowledge required for a career in Engineering and power industries. It prepares you for work in the sector by teaching you how to work safely and effectively, and to interpret engineering information through an introduction to Computer Aided Design (CAD)

Additional entry requirements

- Relevant industry experience OR
- A Level 1 qualification in a related subject

T-LEVELS

Maintenance, Installation and Repair for Engineering and Manufacturing T Level

Level 3 • 2 years

On this T Level, you will develop the core knowledge and skills that are needed for entry into a range of maintenance, installation and repair occupations within the Engineering sector. In addition to the core content, you will complete an occupational specialism in Mechanical Maintenance Technologies, or Electronic and Electrical Engineering.

Additional entry requirements

- GCSE Maths & English at grade 4 or higher

Engineering HNC

Level 4 • 1 year

The Extended Certificate in Engineering delivered at LMC offers you the potential to open doors to many fantastic and exciting opportunities. There is a wide variety of exciting roles within the sector, such as Radiation Protection Technician, Project Control Engineer and Aerospace Engineer.

Additional entry requirements:

- A recognised Level 3 extended certificate, extended diploma or A Levels relevant to Engineering
- GCSE Maths at grade 4 or higher and GCSE English at grade 5 or higher

> *"The T Level in Engineering gave me the chance to do an industry placement in a place of work where I see myself working in the future"*

Engineering Maintenance Technician Apprenticeship

(Single Discipline) • Level 3 • 42-48 months

This Apprenticeship will provide you with all the skills required to start or further your career in the Engineering industry. You will learn to maintain the safety, integrity and effective operation of plant and equipment in industries that are part of the national infrastructure engineering sector. You will also develop the health and safety knowledge needed to work in any engineering environment.

Additional entry requirements:

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessments.

Your future career could be...

Electrician Average salary £22,000 - £45,000+

Wind Turbine Technician Average salary £27,000-£45,000+

Engineer Average salary £28,000 - £60,000+

Full Time, T Level & Apprenticeship Courses

Level 1 → Level 2 → Level 3 → Employment

Electrical Installation

Level 1 • 1 year

This course provides you with a good introduction to both theoretical and practical aspects of Electrical Installation and can lead to an Electrical Apprenticeship or progression onto the Full-Time Level 2 Electrical Installation course.

Electrical Installation

Level 2 • 1 year

Electricians enjoy a wide range of career opportunities, from domestic installations to large industrial projects. This course requires you to solve problems and develop practical skills, it is ideal for anyone looking to pursue a hands-on career in the Electrical industry.

Additional entry requirements:

- GCSE Maths at grade 4 or higher

T-LEVELS

Building Services Engineering; Electrical Installations T Level

Level 3 • 2 years

On this T Level, you will develop the core knowledge and skills that are needed for entry to a range of construction occupations with a focus on electrical installation and maintenance.

Additional entry requirements:

- GCSE Maths & English at grade 4 or higher

T-LEVELS

Surveying, Design for Construction & Built Environment T Level

Level 3 • 2 years

This T Level is suitable for anyone wanting a career in construction, specifically in surveying and design, civil engineering, building services design, or hazardous materials surveying. Students can progress into roles such as:

- Civil Engineering Technician,
- Technical Surveyor,
- Building Technician,
- Building Control Officer

Additional entry requirements:

- GCSE Maths & English at grade 4 or higher

Fire Emergency and Security Systems Technician Apprenticeship

Level 3 • 36 months

This Apprenticeship will provide you with the skills you require to start a career within the fire and security industry. You will gain basic knowledge of design, installation, commission and maintenance of electronic systems in and outside simple and complex premises to protect individuals, homes and properties from risk and danger.

Additional entry requirements:

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessments

Construction Skills

Level 1 • 1 year

This course is for those who are interested in the industry and want to develop their skills within the trades, with a view to progressing onto a specific course in the construction industry, such as Bricklaying, Carpentry & Joinery or Plastering.

Groundwork

Level 1 • 1 year

This course is a good introduction for someone wanting to work in the Construction industry. Starting with little or no experience, Groundwork Level 1 will build your practical skills in kerb laying, concreting, drainage and plant machinery, ready to progress to Level 2.

Apprenticeship Awards

Each year we hold our annual Apprenticeship Awards to celebrate the efforts and achievements over the past year of our Apprentices, Advisors, Tutors and local Employers and celebrate their successes and achievements.

General Builder - Bricklaying

Level 1 • 1 year

This course is a good introduction to Bricklaying and General Building for anyone wanting to work in the construction industry. Starting with little or no experience, this course will build your practical skills and prepare you with the theory and knowledge

General Builder - Bricklaying

Level 2 • 1 year

This course is suitable for those progressing from Level 1 or who have experience, who wish to work in construction with a specific interest in bricklaying. Completion of this course could lead to an Apprenticeship in the industry, further study on a Level 3 related course or employment.

Bricklaying Apprenticeship

Level 2 • 24 months

The perfect choice if you want to continue your studies and develop your skills, knowledge and behaviours in Bricklaying, whilst also earning a salary in full-time employment.

Property Maintenance Operative Apprenticeship

Level 2 • 24 months

This Apprenticeship will provide you with all the skills required to start a career within the Property Maintenance industry, as you will need to keep a range of properties in a good state of repair. Property Maintenance Operatives conduct routine maintenance tasks, and minor planned and responsive repair works, using a broad range of fundamental trade skills including carpentry, joinery, plumbing, plastering, brick and block work, external works and associated finishing trades including tiling, painting, and decorating.

Additional entry requirements for Level 2 Apprenticeships:

- 2 GCSEs at grade 3 or higher including Maths & English or Functional Skills Level 1, or the ability to demonstrate skill to this level through initial assessments

Your future career could be...

General Builder Average salary £22,000 - £45,000

Plumber Average salary £20,000 - £45,000

Gas Engineer Average salary £28,000 - £50,000+

Full Time, T Level & Apprenticeship Courses

Level 1 → Level 2 → Level 3 → Employment

Plumbing & Heating

Level 1 • 1 year

This course is a great way to start your career in the Plumbing & Heating industry. You will develop basic skills in order to progress into further studies or employment such as pipework, safe working practices and more. The course is suitable for school leavers, who wish to progress in the Plumbing & Heating industry.

You will develop the necessary skills to become a plumber, including both practical and theory work in copper, steel, sanitation, cold water, hot water cylinders, plastic pipe work, central heating, safety, and communication.

Plumbing & Heating

Level 2 • 1 year

This course is suitable for school leavers, adults, and those progressing from Level 1, who wish to progress in the Plumbing & Heating industry. You will develop the necessary skills to become a plumber, including both practical and theory work in copper, steel, sanitation, cold water, hot water cylinders, plastic pipe work, central heating, safety, and communication.

Additional entry requirements:

- GCSE Maths at grade 4 or higher

T-LEVELS Building Services Engineering; Plumbing & Heating T Level

Level 3 • 2 years

On this T Level, you will develop the core knowledge and skills that are needed for entry to a range of construction occupations specialising in Gas Engineering, Plumbing and heating engineering

Additional entry requirements:

- GCSE Maths & English at grade 4 or higher

Plumbing & Domestic Heating Technician Apprenticeship

Level 3 • 48 months

You will receive regular monitoring and assessment, both in the workplace and at College, to ensure you're developing the required skills, knowledge, and behaviours to succeed in the Plumbing & Heating trade. On this Apprenticeship, you will learn the fundamentals in gas, water and central heating appliances, which can lead you to full time employment, self-employment or further studies in ACS gas, or oil pathways.

Additional entry requirements for Apprenticeships:

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessments

Additional Part Time Courses

We also offer **Part Time** courses for adults, please find more information in the Adult Course Guide and on our website.

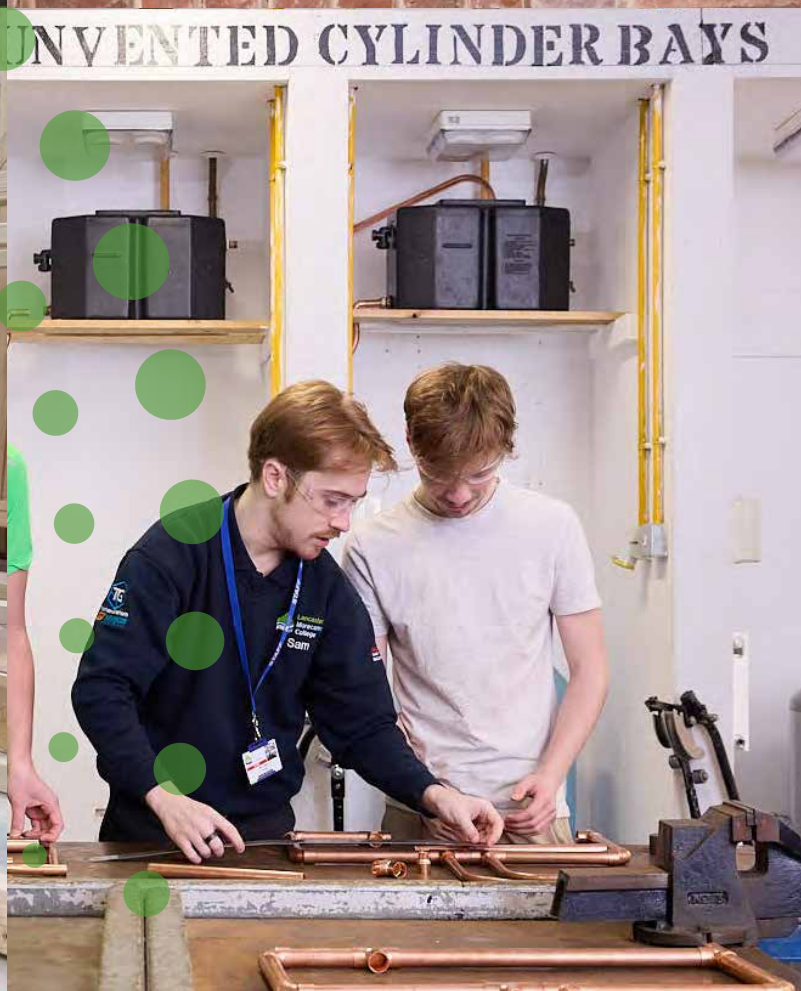

- **How to Connect Pipe Work**
- **How to Patch a Hole in Plasterwork**
- **How to use Power Tools, Drills, Saws and Multi Tools**
- **How to Fit Skirting Boards**
- **How to Lay a Patio** *and more*

UNVENTED CYLINDER BAYS

Full Time & Apprenticeship Courses

Level 1 → Level 2 → Level 3 → Employment

Fabrication & Welding

Level 1 • 1 year

Fabrication & Welding Level 1 is designed to give you the basic engineering skills and knowledge to prepare you for a career in the Welding industry. You will develop safe working practices and competency in fabrication and welding in order to progress onto further studies or employment.

Fabrication & Welding

Level 2 • 1 year

Fabrication & Welding Level 2 is designed to give you a more focused introduction to the engineering skills and knowledge required to prepare you for a career in the Fabrication & Welding industry. You'll learn about producing fabrication components and assemblies, joining materials using MMA, MIG and TIG processes, and related engineering knowledge.

Additional entry requirements:

- Relevant industry experience OR
- A Level 1 qualification in a related subject

General Welding Apprenticeship

Level 2 • 18 months

This Apprenticeship will provide you with all the skills required to start a career in the General Welding industry. You will learn the principles of general welding, such as butt, fillet, lap and corner joints in the flat, horizontal and vertical positions, as well as underpinning knowledge, including health and safety, you need for working in any engineering environment.

Additional entry requirements:

- 2 GCSEs at grade 3 or higher including Maths & English or Functional Skills Level 1, or the ability to demonstrate skill to this level through initial assessments

Vehicle Fitting Operations

Level 2 • 1 year

Vehicle Fitting Operations Level 2 is designed to cover the theoretical and practical aspect of garage operations, including light vehicle tyres, exhaust systems, batteries and brakes. The course is both classroom and workshop based with practical and on-line assessments. You will also gain a broad knowledge of health and safety in the workplace, along with other skills associated with working in a garage.

This qualification is facilitated by Lancaster Training Services (LTS).

Plate Welding Apprenticeship

Level 3 • 36 months

This Apprenticeship will provide you with the skills required to further your career in the Welding industry. You will learn advanced health and safety as well as fundamental welding principles such as butt, fillet, lap and corner joints in the vertical and overhead positions that will undergo both destructive and non-destructive testing to international standards.

Additional entry requirements:

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessment

> *"With the skills I've learn on the General Welding Level 2 Apprenticeship, I am now ready for a life-long, rewarding career in Welding. As my confidence and ability continue to grow, I feel like I'm becoming a more capable and reliable member of the team."*

Foundation Education

Foundation Education aims to provide you with a positive start into full time study at College. Here at LMC, we believe that offering you the right support network and a variety of options will motivate and inspire you to achieve, giving you the confidence to progress onto Apprenticeships, supported employment or further study within College.

Scan here for courses

Panability Football Challenge

Twelve students from LMC represented the College in the North West region in the Pan Ability football tournament at the AoC National Championships in Nottingham. The event stands as Europe's largest annual further education sporting competition, hosting more than 1,300 athletes who qualify through regional events over the academic year.

Despite our team missing out on medals, they earned a victory and a draw during a commendable campaign.

- Art & Design Pathway
- Business Pathway

Luke Scott

Course: Animal Care Pathway

Luke first joined LMC in 2025 and started on our Animal Studies Pathway course. He wanted a fresh start and we offered him a supportive space where he could really be himself.

I enrolled on the Pathway programme, and honestly it's been the best year ever. The support has been amazing, and my tutor Stephen is the absolute G.O.A.T — he's helped me push myself way further than I thought I could.

Luke told us about how much he enjoys being on the course as it is so different from school. He loves that he is able to be hands-on and work with practical elements of his learning, rather than being sat in a classroom all day. Due to this, he has made great progress in his education and also personally with his confidence levels rising so much he has been able to secure paid employment and a place on our Animal Studies Level 2 course.

"I chose to study at LMC because I wanted a fresh start somewhere that actually supports you and treats you like an adult. The atmosphere here is completely different from school — it's more relaxed, more practical, and the tutors genuinely care about helping you succeed. Once I visited the campus, I knew it was the right place for me; LMC felt like somewhere I could actually grow, build confidence, and get myself onto the right track for the future."

Luke's most enjoyable part of his course is how hands-on he gets to be. He said he learns best by actually doing things, so the way the course is taught really works for him. He went on to say that the atmosphere is relaxed, the staff are supportive and that he actually feels listened to when he asks for help.

"During my time at LMC I've learned loads of important skills that have genuinely helped me grow. On the practical side, I've picked up key animal-care skills like husbandry, giving medication, docking lambs' tails, and even helping with castrations. I've also developed my ability to work independently, staying organised, and managing my time better. My communication and teamwork have improved massively through all the hands-on tasks we do. Most importantly, my confidence has grown so much. I'm more willing to ask questions, get stuck in, and push myself further than I ever did at school. I've also enjoyed meeting new people and working in a place where everyone wants you to succeed. It's the first time education has felt enjoyable instead of stressful."

Luke feels that since being on the course, he has grown into someone who is ready for work and that his behaviour and attitude has developed.

"I have become more motivated, more reliable, and much more confident in myself. I have learned how to turn up prepared, stay focused, and put real effort into everything I do. My enthusiasm has grown a lot too. I actually enjoy learning now, especially when I can get stuck into practical tasks. The tutors encourage you to push yourself, and that has helped me build a strong work ethic that employers really value. Because of this, I have been able to gain employment while still studying, which shows how much the course has helped me become someone who is ready for responsibility and real workplace expectations."

Hairdressing

Whilst studying Hairdressing at LMC, you have access to our industry standard facility The Salon, alongside a team of highly experienced tutors. With access to real-life experience on live clients, you'll learn how to develop the skills and techniques needed for a career in the industry and gain confidence in your knowledge to develop your individual creative and artistic talent.

Scan here for courses

Hair Extensions Masterclass

Former LMC Hairdressing apprentices Laura and Jade, returned to campus to deliver a hands-on hair extension course to our current students. After completing their apprenticeships, both have built thriving careers in the industry: Laura owns Vogue salon in Morecambe, where Jade brings over 14 years of expert experience. Together, they run VOOSH, offering high-quality hair extensions and professional training.

Pathway to Hair and Beauty

Entry Level 3 • 1 year

This course is designed as a starting point for those interested in pursuing a vocational career within the hair and beauty industry. The qualification will give you the skills to progress onto a full time Level 1 course after successful completion.

Hair & Beauty Introduction

Level 1 • 1 year

This course offers an introduction to the exciting and prosperous careers available in Hairdressing & Beauty Therapy. You will gain knowledge and new skills in a variety of basic Hairdressing & Beauty Therapy services.

Hairdressing

Level 2 • 1 year

This course focuses on the development of the underlying principles and practical skills required in the hairdressing industry. During this course, you will gain a variety of skills such as shampooing, conditioning, colouring, cutting, and styling hair. You will gain experience of working with multiple women's hairdressing techniques.

Hairdressing

Level 3 • 1 year

This advanced Hairdressing course is ideal for those wishing to further develop their skills and knowledge in this vocation. The course is a mix of both theory and practical sessions looking at advanced cutting, styling, and colouring techniques. You will be expected to build a portfolio of evidence and practical assessments throughout the year, to show your practical competence in the application of hair services.

Additional entry requirements:

- Level 2 qualification in Hairdressing

TLC Competition Success

This year our Hairdressing, Beauty Therapy and Theatrical & Media Make-Up students took part in The Lancashire Colleges Skills Competition (TLC). They performed exceptionally well, and were awarded second place and an Excellence Award in the Beauty Therapy category. The students also won second place and an Excellence Award in the Make-Up category, and an Excellence Award in the Hairdressing category.

Hair Professional Apprenticeship

Level 2 • 24 months

The Hair Professional Level 2 Apprenticeship focuses on the development of the underlying principles and practical skills required in the Hairdressing industry. During your Apprenticeship, you will gain a variety of skills such as shampooing, conditioning, colouring, dressing, and styling hair. You will also learn cutting and perming techniques.

This is the perfect course for anyone who is hoping to enter the Hairdressing industry and would like to achieve this through a route where you can earn while you learn.

Additional entry requirements for Level 2 Apprenticeships:

- 2 GCSEs at grade 3 or higher including Maths & English or Functional Skills Level 1, or the ability to demonstrate skill to this level through initial assessments

> *"My tutors taught me so much more than just hairdressing, key skills like customer service and time management that I can use in my future career in a salon."*

Health & Social Care

Our health courses give you access to exciting programmes of study taught by qualified tutors with industry experience. You'll undertake extensive work experience in a variety of settings, where you can apply what you've learnt in the classroom to practical experiences. This sector is one of the largest employers in the local area, so there will always be work waiting for newly qualified individuals.

Healthcare Discovery Day

Year 2 Health T Level students attended a Nursing and Healthcare Discovery Day at the University of Lancashire. Participating in practical sessions within the clinical lab, students demonstrated proper sterile gloving procedures and verified handwashing efficacy under UV light. Additionally, the students applied clinical knowledge by interpreting key physiological measurements—such as heart rate, respiration rate, and oxygen saturation—and performing neurological observations.

Your future career could be...

Care Assistant Average salary £20,000 - £25,000

Nurse Average salary £32,000 - £48,000

Midwife Average salary £32,073 - £50,000+

Full Time, T Level Courses & Apprenticeship Courses

Level 1 → Level 2 → Level 3 → Employment

Care Profession Pathway

Level 1 • 1 year

All Pathway courses are designed to promote a positive introduction to College life and learning. This course has been designed to support students who want to gain a basic knowledge of Health & Social Care and who may not have the mainstream entry requirements for other courses.

Health & Social Care

Level 2 • 1 year

This is an interesting and challenging full time course, which is designed for those wishing to gain employment in the Health & Social Care sector, or wishing to progress on to Health & Social Care Level 3. The course is a mixture of academic study and vocational experience. This course enables you to gain a breadth of knowledge and experience of the many aspects of Health & Social Care.

Health & Social Care

Level 3 • 1 year

This course supports students to gain an understanding of the careers available in Health & Social Care. Providing excellent links to vocational practice, the course is taught by staff with industry experience. The core values of Health & Social Care are covered throughout the programme. Examples of subjects include: Human Lifespan Development, Principles of Safe Practice, Anatomy and Physiology, and Work Experience. You will be required to complete a Practical Evidence Portfolio to show technical skills developed on the programme.

Alongside three days in College, you will complete a work placement, which is required to finish the course.

Senior Healthcare Support Worker Apprenticeship

Level 3 • 2.5 years

This Apprenticeship is designed to prepare, support and develop healthcare support workers, enabling you to thrive in your role and progress confidently within the sector. The programme supports you to build strong clinical knowledge, practical skills and professional values, while also acting as a potential gateway into a nursing career.

T-LEVELS

Health T Level Foundation Year

Level 2 • 1 year

This foundation programme is for those who have the ambition to succeed on a T Level programme but are not quite ready to start. The foundation year is designed to give you effective, tailored preparation specifically to help you progress onto a T Level. You will learn all about working in the health sector, and the role of the healthcare practitioner, as well as scientific principles and person centered health care. You will also attend an industry placement to prepare you for T Levels.

Health T Level

Level 3 • 2 years

The core element provides a variety of knowledge and skills relevant to the health route as a whole. The Supporting the Adult Nursing Team occupational specialism ensures you develop the knowledge, behaviours and skills needed for future jobs. There is a 315-hour minimum industrial placement as a mandatory part of this course, which also prepares you for skilled employment. The T Level prepares you for the world of work, as well as providing significant preparation for study at Higher Education in a range of relevant disciplines.

Hospitality & Catering

Studying at the Bay School of Hospitality provides you with access to a team of expert tutors with professional experience in some of the UK's premier hotels and restaurants. Leveraging their extensive knowledge, you will acquire the skills and techniques essential for a successful career as a chef or hospitality professional. You will gain hands-on experience in our state-of-the-art facilities and The Bay Restaurant, our training restaurant at @LMC.

Hospitality Pathway

Level 1/2 • 1 year

All Pathway courses at LMC provide you with a positive foundation into studying at the College.

This course has been designed to support students who want to gain a basic knowledge of Hospitality & Catering service skills with a view to progressing onto our Level 1 course.

Service Industries Pathway

Level 1/2 • 1 year

All Pathway courses at LMC provide you with a positive foundation into studying at the College.

This course has been designed to support students who want to gain a basic knowledge of the Service industry with a view to progressing onto our Level 1 course in the future.

> *"The Professional Cookery course helped me secure my first ever job in a restaurant at the age 17. My career wouldn't be possible without the course at LMC."*

Professional Cookery

Level 1 • 1 year

This course is designed to give you a broad range of culinary and food services skills and knowledge that form the foundations into the Catering industry. The practical classes will include food preparation and service, with the theory lessons covering the essential knowledge required to complete your assignment work.

Professional Cookery

Level 2 • 1 year

This course is designed to build on a broad range of cookery skills and food services, to prepare you for a career in the Hospitality industry. The practical classes will include food preparation and service, building on the skills from the Level 1 course. The theory lessons will cover the essential knowledge required to complete your assignment work.

Aven Takeover evening

Professional Cookery

Level 3 • 1 year

This course is tailored for individuals currently employed at a supervisory level in the industry who have already achieved a Level 2 qualification in culinary skills. The programme will delve into advanced dishes and techniques, providing the expertise needed to excel in high-end establishments, including those recognised with AA rosettes and Michelin stars.

Lakeside experience

Our Hospitality and Catering students visited Lakeside Hotel to get a behind the scenes look at a fully functioning hotel, spa and restaurant service. Getting a real insight into the industry gives our students the chance to perfect their skills, ready for their future careers.

Not only did students get to sample some of the cuisine, take a look at a lake view bedroom and step into the huge freezers, they also got to soak up lots of knowledge in the CV and interview workshop.

THE BAY
RESTAURANT@LMC

Food and Beverage Team Member Apprenticeship

Level 2 • 15 months

This Apprenticeship will help you build the skills to thrive in the fast-paced world of hospitality. You'll learn how to deliver high-quality food and drink service while creating a smooth and enjoyable experience for every customer. From preparing cocktails and coffees to managing bookings, greeting guests, handling payments, and resolving complaints - you'll be at the heart of the customer journey.

This Apprenticeship is ideal if you're looking to become a customer-focused professional who can make a real impact in any hospitality setting.

Hospitality Supervisor Apprenticeship

Level 3 • 18 months

Step into a dynamic role where you'll lead teams, manage shifts, and ensure outstanding customer experiences across cafés, hotels, bars, and event venues. You'll support management while gaining the confidence and skills to supervise operations with professionalism and impact.

Your training will focus on:

- Effective leadership and team motivation
- Clear communication and customer service excellence
- Business objectives, core values, and financial awareness

Production Chef Apprenticeship

Level 2 • 15 months

This Apprenticeship is designed for individuals currently employed or seeking employment as Production Chefs who aim to achieve professional chef qualifications. As an apprentice, you will contribute to a dynamic and fast-paced culinary team, while attending College one day per week. This structured program will enable you to enhance your skills and deepen your knowledge, thereby supporting your practical work in the industry.

The progression route for this course is the Professional Cookery Level 3 course.

Additional entry requirements for Level 2 Apprenticeships:

- 2 GCSEs at grade 3 or higher including Maths & English or Functional Skills Level 1, or the ability to demonstrate skill to this level through initial assessments

Additional entry requirements for Level 3 Apprenticeships::

- 2 GCSEs at grade 4 or higher including Maths & English or Functional Skills Level 2, or the ability to demonstrate skill to this level through initial assessment

> *"I would definitely recommend an Apprenticeship to anyone who prefers to learn on the job rather than in a classroom, and also get paid at the same time."*

John Kilmurray

Teaches: Hospitality & Catering

John began working as a Chef Lecturer at LMC in late 2024. However, his connection to the college started much earlier, having completed his Level 2 and Level 3 in Professional Cookery here many years ago. This background allows him to relate closely to our learners and understand their journey.

"My favourite aspect of my role is seeing learners who initially struggle to believe in themselves, but eventually realise that they are capable. It is a lightbulb moment when they realise they can do anything they want to. Learners walk through our gates unsure of themselves and sometimes struggle to believe in their abilities, but by the end of their journey they walk out of LMC confident and ready to take on the world."

John's responsibilities are wide-ranging, from delivering sessions to Level 1 and 2 learners who aspire to become future chefs, to teaching adults how to cook, which can positively transform their lives and the lives of their families.

"For anyone thinking about studying our course I would ask them why food is important and encourage them to explore food and its effect it has on our culture. As a chef you need to think deeply about food and why people enjoy certain dishes more than others. If you can begin to understand that food is more than just sustenance then you will go far as a chef."

Science

Our Science department offers an exciting opportunity for you to build the knowledge, skills, and professional behaviours needed to progress into further study or careers within the science and forensic industries. You will be based in our cutting-edge laboratory, where you'll work with a range of industry-standard equipment to develop practical skills across biology, chemistry, and physics. Those specialising in forensics will learn how to investigate crime scenes, collecting and analysing evidence by applying scientific principles in real-world scenarios.

Criminology Trip to York Dungeon

Year 1 Forensic Science students recently visited the York Dungeon to enrich their studies in criminology and investigative methods. The educational trip offered an immersive look into the historical evolution of crime, punishment, and execution techniques through interactive storytelling. Combining curriculum relevance with engaging group activities, the visit provided students with a memorable experiential learning opportunity.

Your future career could be...

Crime Scene Investigator Average salary £24,000 - £40,000+

DNA Analyst Average salary £23,000 - £42,000

Forensic Entomologist Average salary £26,000 - £60,000+

Full Time Courses

Level 2 → Level 3 → HE or Employment

Science

Level 2 • 1 year

This course is for anyone who is interested in a career in the science sector. It will offer the opportunity to build on your understanding, knowledge and skills in chemistry, biology and physics.

Forensic Science

Level 3 • 2 years

This course is for anyone interested in pursuing a career in criminology, policing, forensic science, forensic psychology and criminal investigation.

On this course, you will develop your analytical, evaluative, practical and interpretation skills to either progress onto university or into employment in the forensic and criminal investigative fields.

Celebrating success at the Forensic Science Awards

Our first ever cohort of the LMC Forensic Science students were recognised for their dedication, curiosity and determination at the Forensic Science Awards Evening. The group worked exceptionally hard, from evidence collection and crime-scene documentation to advanced lab techniques and analytical reporting. The course tutor said the group's performance has "set the bar high for every group that comes next!"

Ewan Davies

Course: Forensic Science Level 3

Ewan joined LMC after completing his A levels at school, choosing our Forensic Science course because of his love for STEM, problem-solving and investigative work.

His favourite part of the course has been taking on the role of an expert witness in simulated courtroom trials, as well as getting hands on with practical science experiments.

"On the course you go over key things for a forensic investigation, like how to cordon off a crime scene and the steps to solving murders."

Ewan has also built a solid foundation in areas like toxicology, human biology and chemical analysis, skills that will support him in whichever scientific path he chooses next.

When asked what he would say to someone considering studying Forensic Science at LMC, he said;

"If you're interested in science, fascinated by forensic and detective work, and don't mind getting your hands dirty, this course is well-suited to you."

Sport

On a Sports programme at LMC, you'll have access to a fantastic range of activities and facilities, including our high specification all-weather 3G pitch, multi-use games area, the Fitness Suite and Sports Laboratory. Our courses are delivered by highly qualified industry specialist tutors who work across all key areas of professional sport and its supporting infrastructure.

Sport & Public Services Pathway

Level 1 • 1 year

All Pathway courses at LMC provide you with a positive foundation into studying at College.

This course has been designed to support students who want to gain a basic knowledge of Sport and who may not have the mainstream entry requirements for other courses.

Sport

Level 2 • 1 year

This course is geared towards a career in the fast growing industry of Sport. It is suitable for school leavers who are seeking employment within the industry and provides a solid basis for progression to further study within this area.

> *"The College's strong reputation, accessible facilities and specialised courses particularly in sport made it the ideal place to build my skills, and work towards my future goals."*

Sports Development & Coaching

Level 3 • 1 or 2 years

If you love sport or exercise, want a career in Sport and Leisure, or would like to study a sport related subject at university, this course is ideal for you. You will learn about aspects of sports development, fitness, and coaching, whilst completing industry placements and have access to the FA Level 1 Coaching qualification.

Football Studies

Level 3 • 1 or 2 years

This course is suitable for those who value the importance of academic study and training. In essence, it offers an opportunity for you to gain a recognised qualification whilst working on your football ability, strength and conditioning, as well as your football ambitions. The course offers you the chance to be trained by a UEFA licenced coach, on a full time basis, as well as competing at a high level of football.

Football Studies Level 3 additional entry requirements:

- Demonstrate evidence of good football skills and have experience at county/club/weekend league participation

HNC Sport

Level 4 • 1 year

This course is geared towards a career in the fast growing Sports industry. You will develop your knowledge of the theory and application of sport and coaching within sporting environments. You will also assess and evaluate your personal and vocational skills, which are mapped to the requirements of employers in the Sports industry. During this course, you will also enhance your knowledge of the skills and behaviours that underpin Sport to prepare you for further study or employment.

HNC additional entry requirements:

- A minimum of 64 UCAS points, PLUS GCSE Maths at grade 4 or higher and GCSE English at grade 5 or higher

HND Sport

Level 5 • 1 year

This course is usually taken after successful completion of the HNC Level 4 programme and will develop your knowledge even further in Sport.

HND additional entry requirements:

- A minimum of 64 UCAS points, PLUS GCSE Maths at grade 4 or higher and GCSE English at grade 5 or higher

Additional entry requirements for all Sport courses:

To study all Sport courses you must:

- Demonstrate an appropriate level of fitness and sporting ability to take part in practical aspects of the course alongside an enthusiasm to study

Supported Internships

A Supported Internship is a life-changing employment programme for young people with learning disabilities and autism. Lancaster & Morecambe College, Royal Lancaster Infirmary, HFT, DFN Project SEARCH, and Lancashire County Council have formed a collaborative partnership to give young people with an Educational, Health and Care Plan (EHCP), vital work-based learning opportunities to help them to secure meaningful, paid employment..

Gurpreet Mabb

Starting the Supported Internship, Gurpreet said she was "Looking forward to learning about the job and achieving an English qualification," but felt "Incredibly nervous about being around the Hospital".

While reviewing her early progress and achievement, Gurpreet identified her own strengths as time management, communication skills and health and safety awareness. "I'm most proud of being a kind and caring person to my friends and the staff, and always showing a positive attitude towards everyone".

Full Time

Entry Level

NHS - Supported Internship

Entry Level • 1 year

The aim of Supported Internships is to support young people with an Education, Health and Care Plan (EHCP) to gain paid employment by:

- Supporting them to develop the skills valued by employers;
- Enabling them to demonstrate their value in the workplace; and
- Developing confidence in their own abilities to perform successfully at work.

Eligibility

To apply for the Supported Internship, you must:

- Be aged 18-24;
- Have an Education, Health and Care Plan (EHCP);
- Be travel trained or be willing to take part in travel training;
- Have a desire to achieve paid employment of 16 or more hours a week; and
- Behave and dress in a professional manner.

Life as a Supported Intern

"The Supported Internship helped me develop employability skills and improve independence and communication through learning in the workplace. The course has helped me develop further understanding of the workplace and helped me implement my skills into a working environment."

"My main reason for starting the Supported Internship was so that I could gain the essential employability skills needed to get a job, improve my understanding of the skills and gain more interpersonal skills because it is something that I used to struggle with."

"I feel that my time on the Supported Internship has gone way too quickly... it has been really fun, action-packed and informative. I have learnt a lot... I have also got over certain fears.... I have become more confident...I made a lot of friends ...I became a class rep...It's been a bit of an emotional roller coaster at times."

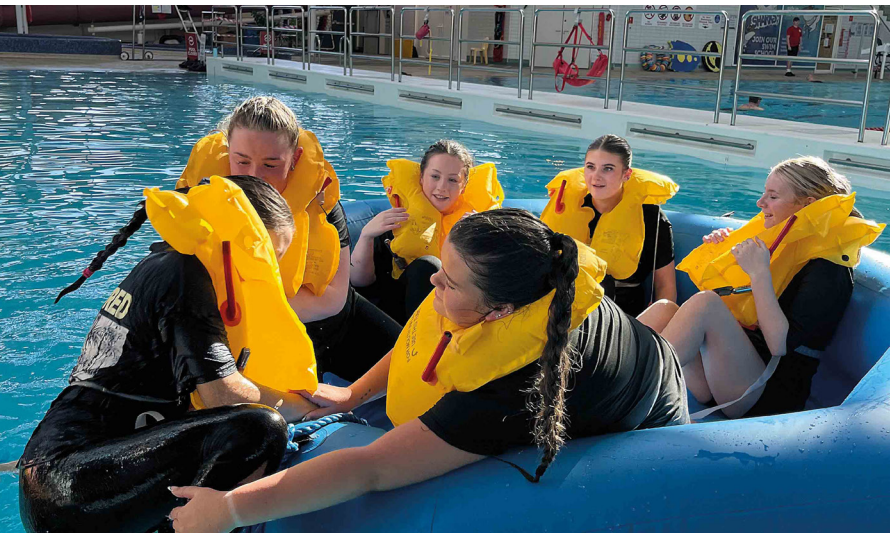

"The Supported Internship has changed me by helping me to talk more and develop my communication skills and my ability to speak up. What I enjoyed most was making new friends and making connections with staff members and I'm most proud of getting actual job interviews during the course."

"My main intention for joining the Supported Internship is that I believe it can help me acquire the skills necessary to help me acquire a job."

Travel & Tourism

Travel & Tourism at LMC is the starting point to your dream of travelling the world. Students can choose to become Cabin Crew or to explore a variety of careers in the Travel & Tourism industry. Our tutors will use their years of experience in the industry and in depth knowledge of the travel sector to give you all the tools you need to succeed. Your round the world trip starts here!.

Travel Services Pathway

Level 1 • 1 year

This course is designed for those who are interested in pursuing a career within the aviation, travel and customer service industries. This introductory course provides the knowledge, skills and confidence required to progress into further study, apprenticeships or employment within sectors.

Travel & Tourism

Level 2 • 1 year

This course will give you a broad view of the industry and is full of opportunities. Those wishing to gain detailed knowledge, skills and experience in the tourism sector will thrive on this course. You will gain skills that are current, relevant, and topical, to create a sound foundation for either working in the industry or progressing onto the Level 3 course.

Travel & Tourism

Level 3 • 1 or 2 years

Level 3 Travel & Tourism is the perfect gateway into the exciting industry. It is a great choice if you are looking for an exciting role, which could take you around the world. You will gain an insight into all relevant sectors of the industry and our expert tutors will teach you the necessary skills to prepare you for life in the profession.

Air Cabin Crew

Level 2 • 1 year

This exciting qualification is designed to assist you in finding your first role working in Cabin Crew. The role of Cabin Crew Team Member is a diverse, social and well-travelled career that is popular among our students. The course is designed for those who want broad–based vocational preparation for employment in a Cabin Crew role, and covers everything from preparing you for interview days, practical elements working inside the cabin, and first-hand experience from ex Cabin Crew tutors.

Additional entry requirements:

To study this course you must:

- Be 17 or over

To be an Air Cabin Crew member, you must:

- Be at least 5'2" or be able to meet the airline's reach requirements

> *"When working at Haven, not a day goes by where I don't put the skills I learnt on the Travel & Tourism Level 3 course at College to use."*

New Course for 2027

International Travel & Tourism Management HNC

Level 4 • 1 year

This course will provide you with a comprehensive introduction to the global tourism industry, focusing on its structure, operations, and key business principles. You will develop an understanding of industry trends and the importance of delivering high-quality customer service. The course will equip you with essential employability, communication and business skills required for the sector. The course will also enhance your knowledge of management practices and the role of attractions in driving tourism demand. This qualification will deepen your awareness of international destinations and strategic development, preparing you for progression into employment or further study within the travel and tourism industry.

Uniformed Protective Services

Public Services at LMC provides a range of experiences that demonstrate the scale and diversity of uniformed services. You'll have the opportunity to engage with a wide range of services and explore this exciting sector. Our courses are delivered by highly qualified, industry specialist tutors with knowledge across all key areas and the supporting infrastructure.

Practical Leadership in Action

Uniformed Protected Services Level 3 students undertook a two-night outdoor residential in Chapel-le-Dale to complete practical assessments in teamwork, leadership, and communication. The itinerary featured a summit hike of Ingleborough, a caving module, and independent living tasks including meal planning, preparation, and bunkhouse management. The expedition provided valuable experiential learning to strengthen core personal and professional competencies.
