GRACE

Conference | Guest | Lounge

The Grace draws its shape from the organic curves found in nature — a flowing, sculptural silhouette that stands apart in any setting. Designed from the start around how the body naturally sits, every contour was crafted to deliver real, lasting comfort whether it's pulled up to a conference table, placed as a side chair, or settled into as a lounge piece. The Grace is where purposeful design and the human experience come together.

JOE

Mid Back | High Back | Stool

The Joe was built around a simple idea: exceptional comfort shouldn't require a bulky chair. A slim, clean silhouette keeps the look refined and professional, while high density-molded foam is tucked behind the mechanism — out of sight, but impossible to miss the moment you sit down. Finished in ARIA EPU for a rich hand feel and effortless breathability, the Joe is where careful craftsmanship meets all-day comfort.
