TEAM WILDERNESS

PARTNERSHIP PROGRAMS

For Corporations

ADVENTURES THAT WOW

Your team's journey supports local youth on theirs.

Team Wilderness partners with corporations across Hudson County and Newark to expand young people's access to the outdoors. We offer customized volunteer experiences that connect employees with youth, as well as team-building experiences exclusively for staff.

Community Impact

Partners receive clear insight into their impact through:

- See the impact and difference your support makes
- Volunteer engagement hours
- Annual impact summaries and youth stories

Employee Engagement

Create meaningful employee experiences.

- Hands-on volunteering opportunities
- Team-building experiences
- Employee giving match integration

Brand Visibility

Showcase your commitment to community.

- Logo recognition at events and on the website
- Recognition in our Annual Impact Report
- Partnered storytelling that can be integrated into social media or our newsletter

Partnership Opportunities

Build a partnership aligned with your company's values.

- Program and event sponsorship options
- Department-level team experiences
- Matching gift opportunities

> *I had a blast. It was really good team building and bonding with the TikTok team and the kids. Great facilitators! I loved how they tied it back to real life situations*
>
> **Sharon, TikTok**

4.8/5.0

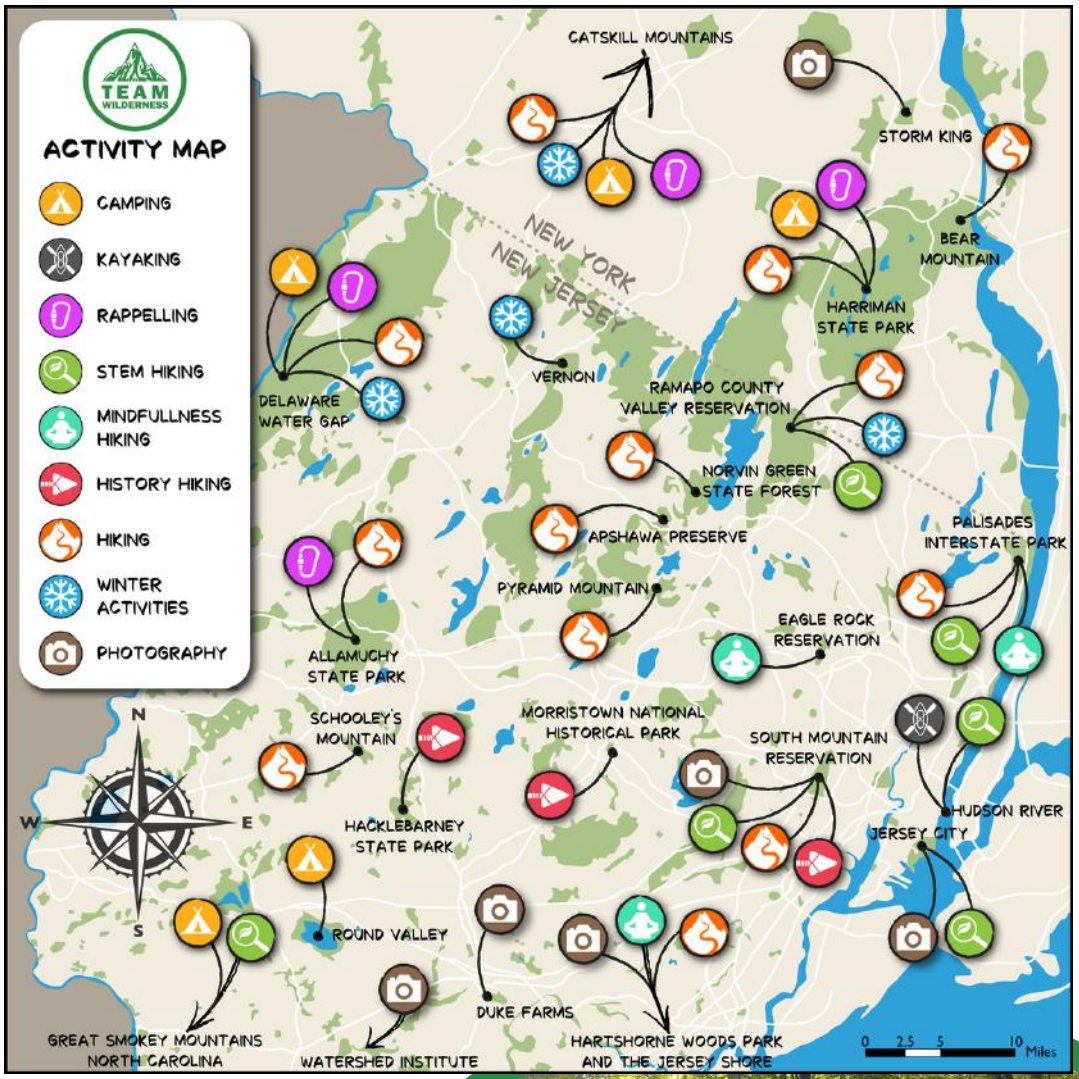

Average volunteer satisfaction score on post-experience survey

> *It was a beautiful fall day and you could see that both the students and employees enjoyed going outside and spending time together, getting to know each other in a different setting. While some mentorship conversation can feel 'forced', the dialogue as we hiked was incredibly organic and the students didn't take too long to really open up.*

ACTIVITIES AND ADVENTURES BUILT AROUND YOUR NEEDS

We have customizable team-building exercises we can do on site at your location. We also provide a wide selection of adventures we offer across northern New Jersey and southern New York. These can accomodate groups from 6 to 120.

Experiential Learning to Improve the Workplace and Classroom

We design adventures and challenges tailored to your group's capabilities and goals. During team-building challenges participants practice leading through uncertainty, communicating under pressure, and solving problems together—skills that translate directly back to the workplace and classroom. During bonding outdoor adventures they develop greater self-awareness, and the ability to lead with empathy and clarity. They learn to read their team, adapt their approach, and make decisions that bring out the best in others—skills that elevate performance.

Outcomes

- **Increased Trust**
- **Relationships Built**
- **Fostered Leadership**
- **Improved Communication**
