Crane Crystal® Born for South African Wine™

South Africa has a wine identity of its own. From the distinctive landscapes of Stellenbosch and Franschhoek to the Swartland, Constantia, and the coastal vineyards of the Cape, our wine regions produce wines with remarkable character, diversity, and a strong sense of place.

Crane Crystal® was created from that same sense of place. It is a proudly South African brand, created in South Africa for the wines we are proud to call our own.

Inspired by the Blue Crane, our national bird and a symbol of dignity, elegance, identity, and national pride, Crane Crystal reflects the character of the country that gave it life. The Blue Crane also reminds us of the importance of protecting the natural heritage that surrounds our vineyards and defines our home.

This connection is woven throughout the brand. Our packaging features illustrations of endangered South African species, paired with crystal glasses whose forms reflect their individual character and purpose. It creates a connection between the landscape we come from, the wines we produce, and the way we choose to enjoy them.

The glass itself brings together two great traditions. The design and purpose are South African. The crystal is genuine Bohemian crystal, crafted by master glassmakers.

The result is glassware made with a deep understanding of what South African wine deserves. Precise shapes help express the wine's aromas, fruit, texture, and balance, while exceptionally clear crystal allows its colour and character to shine.

Each collection combines elegance with the strength and durability required by busy tasting rooms, wine estates, restaurants, and hotels.

From the refined Lara™ collection and versatile Bistro™ range to the contemporary Crane™ collection and our hand-blown crystal glassware, every piece carries the same philosophy: South African design, genuine Bohemian crystal, and a purpose rooted in our wine culture.

We believe South African wine deserves a glass that grows out of its own story. A glass designed here, inspired by our land, and crafted with true glassmaking mastery to honour wines that have earned their place on the world stage.

When a winemaker pours a South African wine into a Crane Crystal glass, there is a connection between the vineyard, the bottle, and the glass in the hand. It is a simple expression of pride in where we come from and what we create.

Born in South Africa.
Crafted from Bohemian crystal.
Made for South African wine.

Explore Our Collections

06 Crane®

Distinctive contemporary shapes featuring sharp lines and effortless elegance.

08 Lara™

Timeless design, exceptional versatility, and proven practical performance.

10 Bistro™

Enhanced durability with titanium reinforcement and an elegant, tall-stemmed profile designed for high-end hospitality.
