**These legs are weathered. They have been milled to reproduce a rustic reclaimed wood texture.*

TURNING BLANKS & STOCK

Our large inventory of square turning blanks and dimensional stock pieces are great for those working on a custom design. The turning blanks are wooden square posts intended for you to turn into a new design. They are not sanded and may contain planing marks. Our blanks are available in a variety of heights and widths, as well as several wood species. Our dimensional stock pieces can be used to create your own custom table apron or base kit. They pair well with custom tables, benches or counters.

Find the perfect size for your project in our large selection.

Build your own Coffee Bar

with Osborne components

MATERIALS

- ♦ Cornwall Island Legs (part #131558) x4
- ♦ 5/4 x 96" Lumber (part #196654) x4
- ♦ 1" x 4" Pine lumber (part #34841) ♦ Safety equipment
- ♦ Wood glue ♦ Screwdriver ♦ Router table
- ♦ Clamps ♦ Power drill ♦ Writing utensil
- ♦ Ruler ♦ Drawer handles ♦ Nail gun

INSTRUCTIONS

1. Lay out your lumber on clamps, with the edge facing up. Begin gluing panels for the table base and drawer faces. Attach them together. Repeat this process until you have adhered all boards for your table base.
2. Tighten the clamps down on the glued boards. This will prevent warping or cupping as the boards dry. Repeat.
3. Next, while the panels are drying set up the router table. We used a 1/2" wide router cut and set our fence to allow for a 1" reveal on the front of the skirt board.
4. Begin cutting the mortise. Make sure you set up stop blocks to keep the skirting flush to the leg.
5. Then, rip the panels down to their final width. Cut them to their final length and plane them to the final thickness.
6. Go back to the router table to cut tenons for the panels. We did a 1/8" shoulder on one side and a 3/8" on the other.
7. Adjust the height and cut the 3/8" shoulder on the other side. Then, make a 3/8" cut on the bottom side of the skirt board. Round over the tenons.
8. Install pocket holes to the inside of the skirting.
9. Cut openings for the drawers by creating a pilot hole in the corner and using a jigsaw with a straight edge. Sand all the panels to 220 grit.
10. Assemble the table base by using wood glue first and then combining the tenon joint into the mortise. Insert screws into the pocket holes.
11. Create interior rails for the drawer slides. Carefully install screws through the pocket holes of the rails.
12. Create drawer boxes and assemble using wood glue and brad nails.
13. Install the drawer faces by pre-drilling four holes in the backside of the drawer. Align the backside to the face and attach with screws.
14. Install the drawer handles.
15. Add a small round-over on the edge of the drawer faces.
16. Install the drawer slides.
17. Make any desired adjustments to the table top and pre-finish both it and the table base. Attach it to the base using figure 8 fasteners.
18. Install the drawers into the slides and you are done!

LIGHT RAIL MOULDING

Having under-cabinet lighting is great but the hardware and components required to provide that extra lighting are not very attractive. That is where light rail moulding comes in! Camouflage under-cabinet lighting by applying light rail moulding to the front edge of your upper cabinets. This is a great way to hide electrical fixtures while adding beautiful detail and dimension to your cabinets.

LETTER FROM THE FOUNDER

Dear Customer,

I would like to thank you for allowing us to partner with you in creating fine furniture and kitchen cabinetry.

We are proud of our values, which put you first in every area of our operations. You can and should expect to experience our commitment to quality, excellence, and courtesy. We strive as a business to operate under the lordship of Jesus Christ. If you need us to go the "extra mile," we dedicate ourselves to doing so cheerfully and willingly. Excellence in quality and service is our commitment to you, regardless of the size of your order. Please hold us accountable to this standard. We look at the order you place as an investment in our relationship which may last over 30 years. Osborne Wood Products, Inc. is committed to supplying you with the parts necessary to advance your business strategies in this most demanding market.

We would like to thank you for your continued feedback, which allows us to continue to solve today's problems and invent tomorrow's solutions.

Thank you for taking the time to inquire about Osborne Wood Products, Inc. We truly look forward to serving you.

Sincerely,

A handwritten signature in white ink that reads "Leon Osborne". The signature is fluid and cursive, with a long horizontal line extending from the end.

Leon A. Osborne, Founder
Osborne Wood Products, Inc.
