kindershapes | Frog

TOOLS

Scissors
Glue
Rainbow Paper or Board to stick Frog on.

PRODUCT:

- FI 27120 - Gloss Kinder Squares 127mm 100 Sheets

CRAFT TEMPLATE:

Not Required

INSTRUCTIONS

1. Glue a red and green gloss square together so the colours face away from each other. Fold the green over the red corner to corner to make a triangle shape. This will create your Frog head and mouth.
2. Paste a green gloss square on your page. Then paste the bottom of your Frog head over one corner of the green gloss square. You want to make sure the Frog body has a diamond shape.
3. Cut another green gloss square in to quarters, so you are left with 4 pyramid shapes. These will be used as the Frogs legs.
4. Paste the legs down over the Frogs body.
5. Then all you need to do is cut out some eyes and the tongue and stick them down.

kindershapes | Lady Bug

Position this cut piece and glue on top of your full black circle.

Scan me for more craft ideas

TOOLS

Scissors

Glue

Rainbow Paper or Board to stick Ladybug on.

PRODUCT:

- FCI 20 - Gloss Kinder Circles 120mm 100 Sheets

CRAFT TEMPLATE:

Not Required

INSTRUCTIONS

1. Paste one black gloss circle in the middle of your page.
2. Cut a section of another black circle as large as you want. Make sure you keep round area of the circle as this section will for the Ladybugs head. Keep the left over black circle as we will need later.
3. Cut a red gloss circle in half to form the wings. Don't about being to precise, different cuts will give each wing its own character. Glue your wings in place .
4. Using the rest of the black gloss circle we used for the Ladybugs head; cut out some antennae and dots for the wings. Again don't worry about being to precise, each different cut makes your lady bug unique. Also choose a colour for your eyes (we have gone with yellow), cut them out also.
5. Now all you need to do is paste it all down.

TOOLS

Scissors

Glue

Rainbow Paper or Board to
stick Crow on.

PRODUCT:

- 107378 - Matt Kinder Circles
180mm 100 Sheets

CRAFT TEMPLATE:

Not Required

INSTRUCTIONS

1. Get two black circles. One will be used for the body of the crow and the other to make the wings. Fold the circle for the wings in half and cut along fold line. Don't worry about being to precise as different cuts give each design a different look .
2. Glue you body to your backing paper/board. Then stick your wings over your body. Choose your wing position to show if your bird is flying or sitting. Have a bit of a play and see which one you like best.
3. Roughly cut out some legs, a beak and eyes. A yellow colour works best for the beak and legs. However you can choose any colours you like. Glue each section in place.

Assorted Colour Reams

Rainbow Art & Craft Tissue packs are a 17gsm premium tissue available in a number of sizes and colour assortments. Rainbow Art & Craft Tissue is an acid free machine finish, non bleeding tissue that is coloured in the mass (meaning pulp is dyed before the sheets are made). The various pack types and colour assortments make Rainbow Assorted Tissue packs ideal for packing as well as a wide range of creative and art & craft uses.

Craft Project

Difficulty: **Intermediate**

Note: Some adult assistance required

tissuepaper | Flowers

2

4

INSTRUCTIONS

1. Grab 6-8 tissue sheets in any colour combination you like.
2. Place each sheet on top of each other and with an accordion fold (front to back folds like an accordion instrument), fold each tissue piece over each other, until you have all the tissue sheets folded on top of each other (see below image).
3. Once your folds are finished, in the middle of the tissue tie with either string or florist wire. Using your scissors cut the ends of the tissue in to your petal shape.
4. Hold your tissue sheet in one hand and with the other pull one piece of tissue at a time towards the middle. Continue this process until you are finished (see below images).

tissuepaper | Autumn Tree

TOOLS

Glue

PRODUCT:

- Rainbow Product: Any Range of Assorted Tissue Reams.
- Rainbow White Paper or Board

CRAFT TEMPLATE:

None required.

INSTRUCTIONS

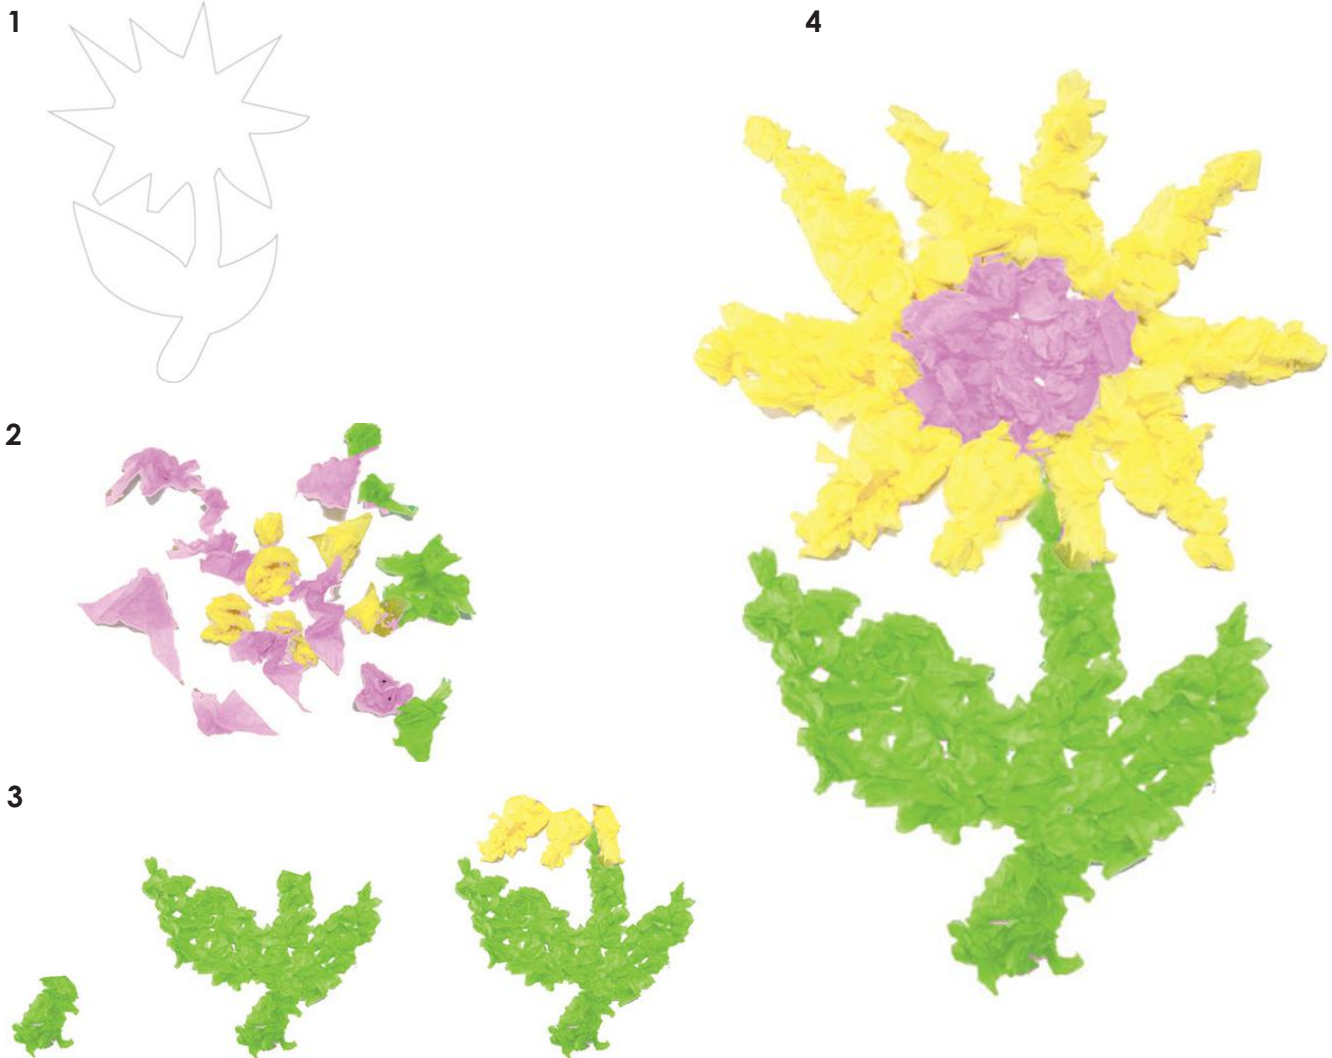

1. Grab a few sheets of the colours you are going to use: Brown - Red - Orange - Yellow.
2. Tear a few lengths of the brown tissue off. Don't worry about being too precise, random shapes will give you a more organic look.
3. Twist your brown tissue together by rubbing your hands together with tissue between them.
4. Curl the brown tissue around itself and pull out section for branches. Glue down to your backing paper/board.
5. Tear off your colours for your leaves. Again don't worry about being precise. Different sizes and shapes will mean a better look in the end.
6. Scrunch your leaves together, play around with some lay outs before you glue them down in place.

TOOLS

Glue

PRODUCT:

- Any Range of Assorted Tissue Reams Green - Yellow - Brown
- Rainbow White Paper or Board

CRAFT TEMPLATE:

None required.

INSTRUCTIONS

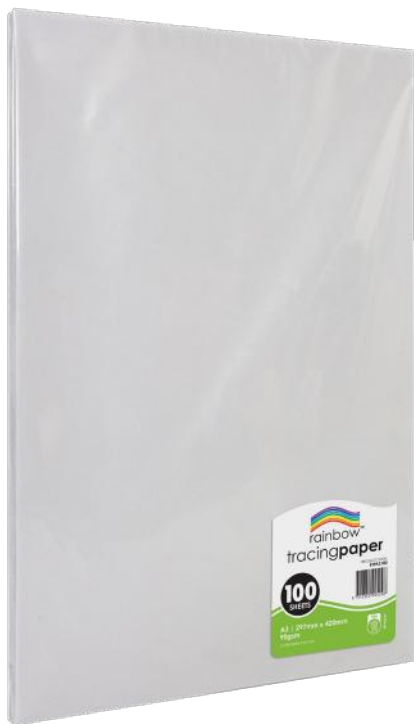

1. On you piece of white paper or board. Roughly sketch out the outline of a sun flower to use as your guide.
2. Loosely tear and scrunch up piece of the tissue paper ready to glue down.
3. Start from the bottom of the stem and paste down the green tissue.
4. Work your way up the stem of the sun flower.
5. Add the yellow and brown tissue in their areas until the sun flower is complete.

tracingpaper

Rainbow Tracing Paper is an illustrators best friend. Perfect for copying and tracing over images and drawings with fine liner and pencil. Rainbow Tracing Paper is Acid Free and a great product for scrap booking and photo preservation.

coverpaper | Stencil Cut

TOOLS

Scalpel
Scissors
Glue

PRODUCT:

- RCPA450015AS- A4 Assorted Colour Cover Paper

CRAFT TEMPLATE:

Not Required

INSTRUCTIONS

1. Choose the colours you are going to use for your design.
Draw or print directly onto a sheet of Cover Paper your design. It's a good idea to have your design mirrored. That way you can paste drawing/print side face down and you won't see any drawing/print guides that you may not have been able to cut out correctly.
2. Use a scalpel and carefully cut your design.
3. Trim the edges of your top Cover Paper sheet. This will mean you have a border effect when you paste on top of your backing Cover Paper sheet.
4. Carefully paste down your top Cover Paper sheet to your backing sheet. As mentioned it's a good idea to paste your top Cover Paper sheet drawing/print side face down. That way any part of the drawing or print that is remaining won't be seen.

Once you get the hang of the two colour cut out, experiment with multiple colours and Cover Paper sheets. You will be able to get some really impressive looking pieces of art.

coverpaper | Fish Tank

TOOLS

Scissors or a Scalpel
Glue stick
Pencil and Black Pen

PRODUCT:

- RCPA450015AS- A4 Assorted Colour Cover Paper
- RC - Rainbow Clear Retail Cellophane

CRAFT TEMPLATE:

Available at
www.austpaper.com.au

INSTRUCTIONS

1. Using the Aquarium template (or draw free-hand) stencil out with your pencil as many fish as you like using the yellow and orange Cover Paper (or another colour of your choice).
2. Cut out the your fish using your scissors. Once you fish are cut you can use your black pen to draw eyes (or any other feature) on your fish. Leave your fish to one side for the time being.
3. Now we will make our seaweed, so again using the template provided (or freehand if you prefer) stencil out with pencil your seaweed for your fish tank.
4. Once you have your seaweed stencilled on to your green cover paper (again you can choose any colour you like), cut out using your scissors.
5. Using your black piece of Cover Paper cut out window and leave a black frame. We will stick this one to later
6. Grab your blue piece of Cover Paper, now you can start to glue your fish and seaweed down. Be careful not to go to close to the edge as you will put you still need to put your black frame up and don't want it to cover any of your fish. You can use your black frame as a guide here.
7. Put a nice amount of glue around the edges of your blue piece of Cover Paper and stick your Cellophane down over the top of the blue page and the fish. This will give the fish tank a water effect. Don't worry if the cellophane sticks over the edge. You can cut it back later on.
8. Once your Cellophane is dry you are ready to put your black frame down. Put a nice amount of glue on the back of you black frame and stick down over the top of your Cellophane and blue paper. You should now have a black frame over your Cellophane water effect and the fish swimming behind it.
9. Once your frame is dry enough you can trim back any edges if you need too.

Experiment with different colours and fish types & sizes. You may want to also explore other objects that can be put in your fish tank. Like a sunken ship or a diver.

TOOLS

Scissors
Glue
Black Marker/Black Pen

PRODUCT:

- RCPA450015AS- A4 Assorted Colour

CRAFT TEMPLATE:

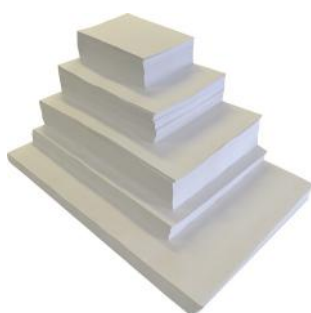

Not Required

INSTRUCTIONS

1. Get two sheets of white cover paper and one each of red and a yellow of your choice.
2. Stencil out your hand, one on the red paper and two on the yellow and one of your white sheets
3. Cut out each of your hand stencils.
4. Cut off an edge of the yellow sheet for your beak and a egg shape for your second white cover paper sheet for the Chicken's body.
5. Paste down all your hand stencils to make the feet, wings and comb. Draw on or cut out from a black sheet of cover paper to make your eyes.

cartridgepaper

A premium 110gsm and 200gsm Drawing Cartridge Paper is suitable for artists of all levels and age groups. Available in a number of sheet sizes ranging from A4 – A1. spectrumboard | Caterpillar

Scan me for more craft ideas

TOOLS

Scissors
Glue
Staples (optional)

PRODUCT:

- Rainbow Product: Spectrum Board Assorted - SPBA4
Any colour combinations your Imagination can dream up.

CRAFT TEMPLATE:

Available at
www.austpaper.com.au

INSTRUCTIONS

1. Choose the colours you want for your Caterpillar.
2. Cut the strips to the size you want to use, or alternatively you can follow the recommended sizes on the Craft Template available on the Austpaper website at www.austpaper.com.au/craft
3. Make as many strips as you like then roll your coloured strips to a cylinder shape and stick together with either glue or staples.
4. Cut out and make your Caterpillars eyes, using your won shapes or the template provided. Glue your pupils to the eye ball section. Choose one of your cylinder shapes to be the head of your caterpillar and glue your eyes to it.
5. Cut and glue a couple of small strips for antennae. You can also fold the strips up before you glue then down to add a spring effect.
6. Create a base for your Caterpillar, like the leaf template provided and stick down each section of your Caterpillar.

Glue or Sticky Tape
Black Marker

PRODUCT:

- Rainbow Product: Spectrum Board Assorted - SPBA3
Any colour combinations your Imagination can dream up.

CRAFT TEMPLATE:

Available at
www.austpaper.com.au

INSTRUCTIONS

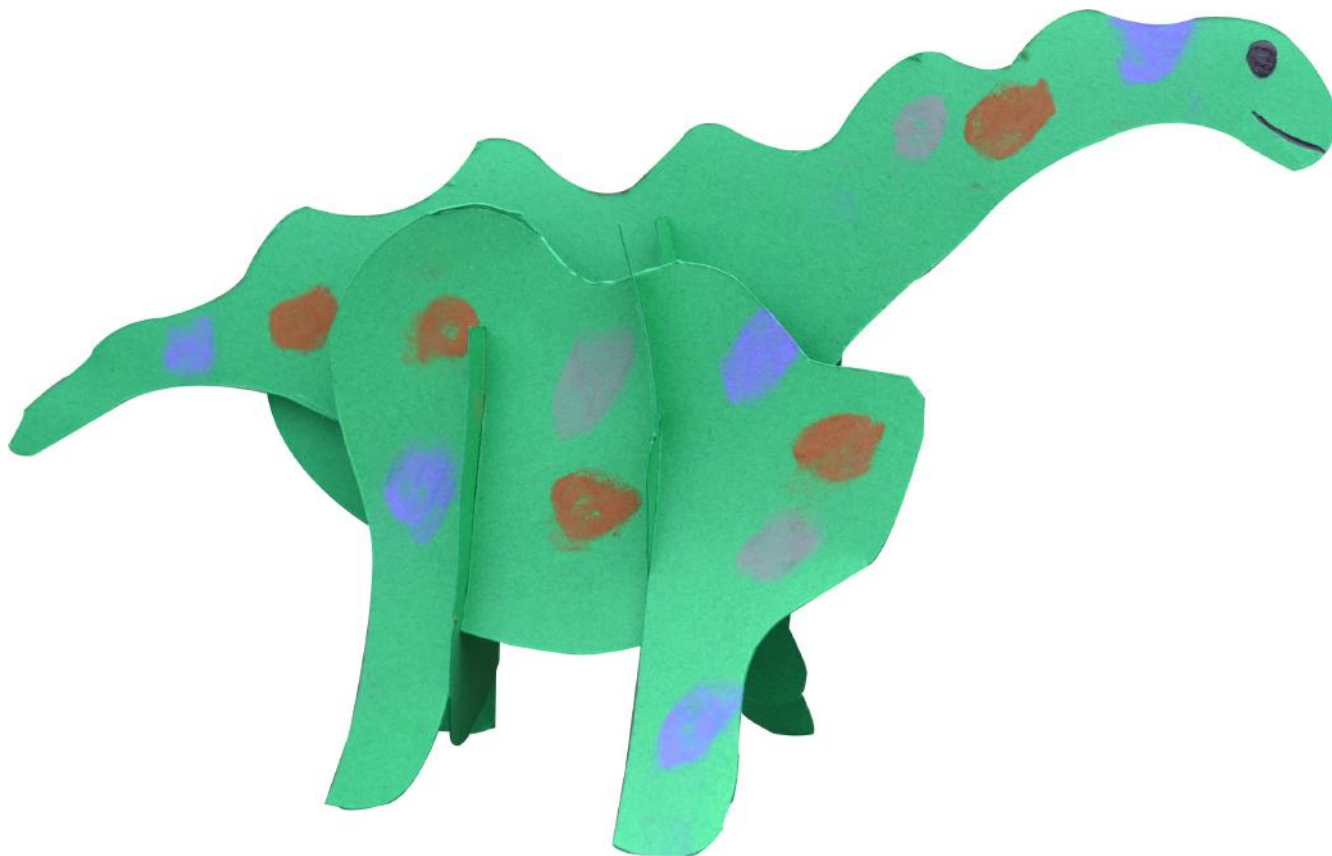

1. Print off the templates straight onto your Spectrum Board. Templates are set up on A3 size paper.
2. Cut out the box and bunny from the templates. If using a scalpel gently run the blunt end across the dotted lines to help with your folds.
3. Fold you box together and stick flaps with tape or glue. A good tip is to fold the box so any left over template marks are on the inside of box.
4. Draw on your bunny face and stick to your box.

Craft Project

Difficulty: **Intermediate**

Note: Some adult assistance required

spectrumboard | Dinosaur

INSTRUCTIONS

1. Choose the colour (or colours) you want to use for your dinosaur.
2. Using the Dinosaur Template available at www.austpaper.com.au carefully cut out each section of the Dinosaur. You can either place the template over your Spectrum Board and cut out directly or trace the template on to your Spectrum Board and cutout from your traced guide lines.
3. You will have noticed on the Dinosaur Template some dotted lines. These dotted lines indicate where you need to make slit marks so the pieces of your Dinosaur can fit together. Carefully cut along the dotted line section.
4. Before you slot your Dinosaur together, now is the perfect time to decorate it. Decorated it anyway you like, we have used pen to draw a face and pencil to draw markings on the Dinosaur. Feel free to use you imagination and come up with any design you like. You may also want to use Glitter or other materials on your Dinosaur.
5. Once you have finished decorating your Dinosaur (and if you glued other materials on to your Dinosaur; make sure the glue is dry) you can now slot the pieces together.

TOOLS

Scissors
Glue

PRODUCT:

- 1482955 - A4 Poster Board Assorted

CRAFT TEMPLATE:

Available at
www.austpaper.com.au

Scan me for more craft ideas

INSTRUCTIONS

1. From your pack of 1482955 Rainbow Assorted Poster Board choose the colours you want to use. You can use Rainbow Poster Board or any other Rainbow Paper Product for your background.
2. Using the Hugging Owl templates cut out each section of your Hugging Owls. You can either lay the template straight over the top of the Rainbow Poster Board and cut directly or trace the designs on to the Rainbow Poster Board and cut. Make sure you remember the colours you want for each section of the Owls and cut out the appropriate shape.
3. Before you start to glue it all together, it is a good idea to place each section down on your background and play around with your layout and how you want to look. That way you can make sure you get the finished look you desire.
4. Glue each section of your Owls together, starting with their bodies to the background and then the wings.
5. Finish of your Owls be adding their legs, eyes and beak. At this point you may like to add some detail to your picture by drawing in some pictures like trees and clouds.

crepepaper | Crepe Streamer Rose

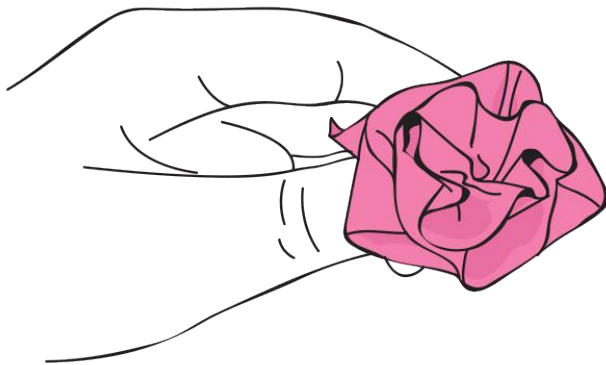

1

2

3

INSTRUCTIONS

1. Choose your crepe streamer and cut off a piece about 25cm long (the more you cut off, the more layers the rose has - so experiment!)
2. Gather the bottom edge and slowly turn around the "stem" (this is created when you pinch the bottom edge while turning)
3. Keep gathering streamer around the stem until you reach the end of the piece you cut. Staple the stem and its all finished.

- Rainbow Product:
- Rainbow Crepe Paper
- Rainbow Raffia (Optional)
- RPPA4 - Rainbow A4 Pearl Paper (Optional).

CRAFT TEMPLATE:

None required.

1. Choose any number of Crepe Paper colours you want to use and cut at least twice as long as your paper roll and with enough width to wrap around your roll. Don't worry about being too precise, as you can twist and pull the Crepe Paper tight (better to have too much Crepe Paper than not enough). If you like you can add a small toy or written joke inside your paper roll before you secure up the Crepe Paper.
2. Wrap the paper roll with your Crepe Paper and stick down the joins over the paper roll. Twist off the ends and secure. Use Rainbow Raffia for a perfect finish and look.
3. You can leave your Crepe Paper Bon Bons like this, however for a even greater effect, print off some designs to some Rainbow Pearl Paper and wrap over the top of your Crepe Paper.

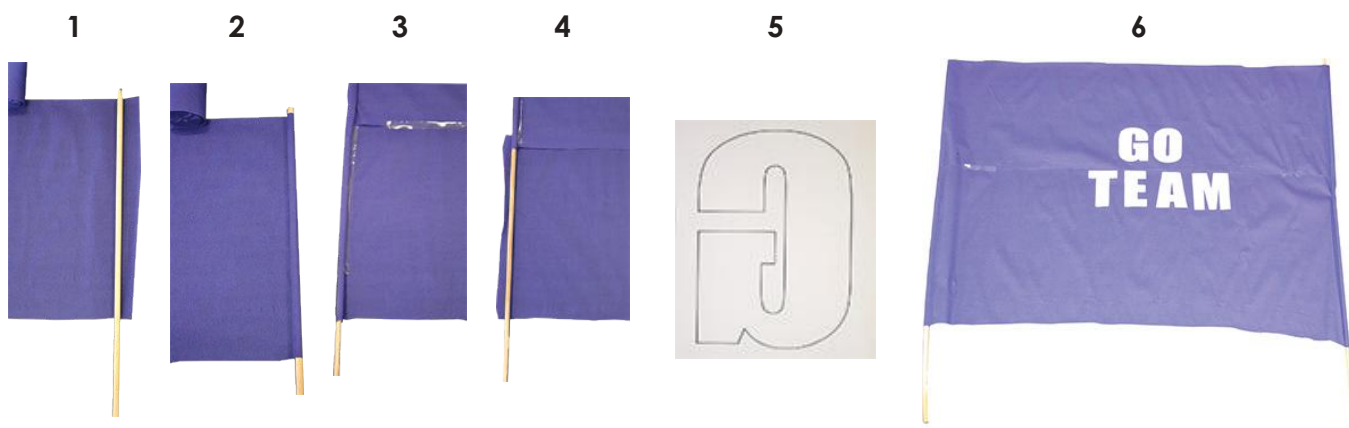

It's a good idea to try to theme your designs to fit your celebration. In the above example we have gone with a Halloween theme.

Craft Project

Difficulty: **Intermediate**

crepepaper | Run Through Banner

INSTRUCTIONS

1. Choose the colours you need for the background of your banner. Lay down flat your supports to hold up the banner. In this example we have used some basic dowel wood.
Give yourself enough length of crepe paper and have it hanging over past the support. Wrap around the support and hold firm in place with sticky tape.
2. Once the crepe paper is firmly held to the support. Run the crepe log along the width of your banner and also give yourself a enough spread under the support on the other side.
Once again wrap this side under the support and firmly hold with your tape.
3. With your next piece of crepe log simply follow the same process as steps one and two. However this time make sure you over lap the two pieces along width of the banner.
4. Once again firmly hold the second piece of crepe log to the supports. This time also on the back of the banner make sure you firmly stick the two pieces of crepe log to each other.
Repeat these steps until you get the size of the banner you need. This will mean the banner size is complete. Now we need to do some lettering of encouragement.

TOOLS

Scissors.
Sticky Tape.
Support to hold banner.

PRODUCT:

- Rainbow Crepe Logs.
- Rainbow Office Paper (optional).

CRAFT TEMPLATE:

None required.

5. You can use any sort of material for this. However we have found that the Rainbow Office Paper is a perfect product. Make a stencil of your lettering and print off or write down. We recommend printing your letter backwards. That way if you miss cut a little bit, your stencil wont show on the banner.
6. Once your letters are cut stick them down and your banner is ready to go. Experiment a little with colours and designs to make creative and unique designs. For larger run through banners we recommend you cut small squares out of the banners so the players running through can rip their way through the banner. This will stop the chance of them getting caught up in the banner.

Paper Bows

Designed to make every present feel like a celebration, this collection features a stunning array of bright, cheerful colors in a variety of sizes to suit everything from tiny trinkets to oversized surprises.

Add a pop of vibrant, eco-friendly charm to your gift-wrapping.

raffia

We have partnered up with the Tjanpi Desert Weavers and NPY Women's Council with 5% from all raffia sales will be rebated every quarter.

Tjanpi Desert Weavers is a not-for-profit social enterprise of NPY Women's Council, a service delivery, advocacy and support organisation for Aboriginal women living in 26 desert communities in the cross-border regions of WA, SA and the NT. Tjanpi Desert Weavers was created by NPY women to give over 400+ women on country regular income from selling their fibre art.

The sales will support the program of skills development workshops held in remote communities to provide women with the skills to create fibre art. Tjanpi provides a culturally and socially appropriate avenue for creating income for women in communities faced with such severe disadvantage. immediate payment for even small works is often enough to meet basic necessities.

Tjanpi's activities bring women together to create artwork thus offering companionship, support and opportunities to re-connect with family and cross-community collaboration within the NPY lands. The delivery of workshops throughout the year improves the technical, creative and professional skills of senior and emerging artists and encourages young women to learn the skills to create a basket or sculpture. Tjanpi empowers women to provide for their families and enhances well-being through achievement, pride in creative work, positive identity and reduced welfare dependence.

Tjanpi Raffia are long fibres created from Madagascan bark, natural or dyed one of Tjanpi's vibrant colours. Tjanpi Raffia is perfect for adding depth and flair to your gift wrapping.

craft ideas

TOOLS

Scissors
Glue

PRODUCT:

- Rainbow Product: Red & Blue Rainbow Cellophane.
Can be found across the large range of Rainbow Cellophane products.
- CBA42- A4 Assorted Corrugated Board

CRAFT TEMPLATE:

Available at
www.austpaper.com.au

INSTRUCTIONS

1. Using the template provided, or you can draw up your own to best suit your measurements. Cut out the frame of the glasses using the Rainbow Corrugated Board. Normally the best colour to use is white, as white is the traditional colour of 3D glasses. However don't be afraid to use any colour you like.
2. Measure up the size you need for the eye pieces and cut a section of Blue Cellophane and Red Cellophane.
3. Glue down the Blue and Red Cellophane sections to the inside frame of the Corrugated Board. Be careful not to get the glue over the section of Cellophane you will see out of. Once dry, your replica 3D glasses are complete.

Packaging & Stuffing Tissue

White MG 22gsm Tissue

This tissue is perfect when you are looking for specific packaging and food wrapping requirements. This is a specialised Tissue Paper that offers different characteristics to the standard Tissue Paper Reams. Almost similar to very light-weight paper, MG Tissue has a superior sheet strength and is a Food Grade Tissue. Although it is not exclusively used for just Food Wrapping requirements, as the MG Tissue offers a wide range of packaging solutions. Packs are available in 500 and 1000 sheets and assorted sheet sizes are also available.

Tissue Specifications

- 22gsm Tissue Paper
- Clean Bright White
- Extremely Strong
- MG (Machine Glazed)
- Assorted Sheet Sizes and Sheet Number Packs Available

White Cap Tissue

A budget white tissue manufactured using recycled material, often called stuffing tissue. Great for use in wrapping and protecting items. A exceptional value for money product especially if bought in pallet quantity.

Tissue Specifications

- 16gsm Tissue Paper
- Acid Free
- Recycled Content
- MG (Machine Glazed)
- 400mm x 660mm Sheet Size

White Plush Tissue

One of the more popular Tissue products across the range, White Plush Tissue is ideal for those looking for a value option that is strong with a clean bright white look. Plush Tissue has amazing whiteness and exceptional sheet strength that makes it great for packing large items. White Plush Tissue is available in assorted sheet sizes that means there is sure to be a option available to suit all wrapping requirements.

Tissue Specifications

- 18gsm Tissue Paper
- Acid Free
- Clean Bright White
- Extremely Strong
- MG (Machine Glazed)
- Available in Assorted Sheet Sizes and Pack Types

Prices

We travel the world sourcing the best possible products at the best possible price. We try wherever possible to ensure we hold our pricing. But the prices of raw material, labour, freight and currency fluctuations may mean we need to adjust our prices accordingly. Wherever possible we aim to provide you with 30 days notice of these changes.

Products

Our aim is to provide the best possible quality at the best possible prices. Our aim to value add wherever possible see's us place emphasis on things like packaging, keep an eye out on upgrades to our products such as dispenser boxes, resealable bags, reusable boxes and cartons. Wherever possible please try and order carton quantities, this allows us to keep our costs to you down and deliver the goods in the packaging/cartons that they were originally packed in as this ensures the products get to you in perfect condition.

GSI (Barcodes)

Austpaper are committed to working with GS 1 and are part of the OSCAG action group. All our barcodes are GS 1 compliant and information relating to all our barcodes and weights and measures can be forwarded on request. Austpaper is transition to a complete computerised logistic supply chain and is currently EDI ready. Austpaper can work with each customer towards a seamless order, scan and pack supply process, for more efficient lead times.
