WHO WE ARE

Ambic Manufacturing are furniture manufacturers for a broad range of needs including hospitality, educational, laboratory, residential and corporate sectors throughout the UK.

We work extensively with individuals, designers, contractors, architects and other businesses to provide furniture design, manufacture and installation. We can make just about anything to your exact specification at our purpose built, state of the art factory in County Durham.

We are also FF&E procurement specialists so if we can't make it, then we will have a partner who can.

Our in-house manufacturing capability is such that we have dedicated departments for:

- wood machining
- polishing
- welding
- sandblasting
- sheet metalwork
- powder coating & painting
- solid grade laminate fabrication (Trespa®)
- plastics fabrication (Perspex, Polyethylene, PVC)
- vinyl cutting
- our own assembly, delivery and installation teams

This means that while this catalogue shows our most popular standard products, all of our furniture is made to order and can be customised to suit our customers' specific needs.

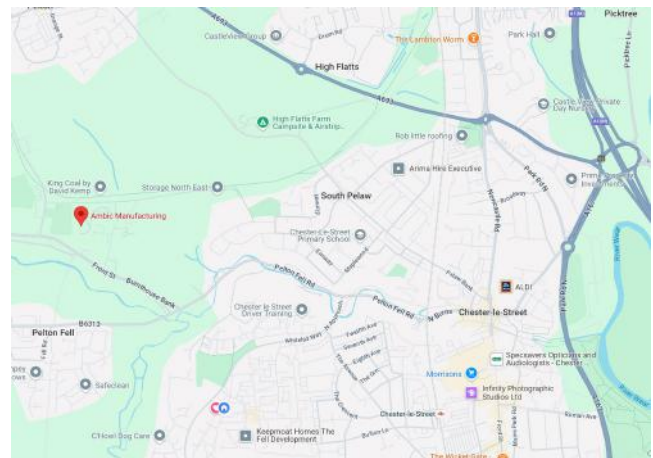

Come and Visit us!

We are situated in Chester-le-Street, County Durham just off the A1(M) and our state-of-the-art factory is well worth a look if you are interested in an ongoing business partnership for the manufacture and supply of the very best quality British-made furniture.

AMBIC RESIDENTIAL FURNITURE

Overview

At Ambic, we pride ourselves on designing and manufacturing high-quality, bespoke residential furniture, crafted with the needs of real living environments in mind. As a trusted partner to care homes, including specialist dementia-friendly settings, as well as modern student accommodation providers, we create thoughtfully engineered pieces that combine durability, practicality and comfort.

Specialising in robust wooden storage furniture - from bedside tables and wardrobes to drawer units, TV stands, beds and more - we work with a range of premium laminate wood finishes such as maple, beech and oak. Every item is produced in Britain by skilled workers who understand the demands of heavy-use spaces. The result is furniture that not only performs brilliantly day after day, but continues to look fresh, modern and "like new" for years to come.

Ambic stands for strength, reliability and long-lasting quality furniture you can trust in every setting.
