HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

Waxing with HydroSilex

Protect your Marathon Coach with HydroSilex SiO_2 silica-based surface protection. It helps defend against UV exposure, oxidation, road grime, bug splatter, and environmental contaminants while enhancing gloss and depth.

HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

HydroSilex Advanced Surface Protection

Before applying HydroSilex, your Marathon Coach will be fully washed and detailed to ensure the coating bonds correctly. A clean surface means better protection, a smoother finish, and long-lasting results.

Hydrophobic Performance: Silica-based technology creates a highly water-repellent surface, allowing water to bead and roll away with ease. This helps reduce water retention and makes routine washing and maintenance easier.

Signature Shine: HydroSilex enhances the depth, clarity, and gloss of your coach's finish, creating the polished, reflective appearance expected of a professionally maintained Marathon Coach.

Serviceable Protection: Designed to be refreshed and renewed as part of your coach's ongoing maintenance program, HydroSilex allows protection to be continually maintained rather than treated as a one-time application. It's protection that works with the way we care for your Marathon Coach; consistently, professionally, and over time.
