LED headlamps and taillamps

Sizable wheel selection

Standard Panorama roof

## INTERIOR HIGHLIGHTS

Intuitive touch  
controls

Wraparound cockpit

Finely crafted cabin

Memorable seating

Flexibly spacious

# TECH HIGHLIGHTS

## Artificial intelligence, genuine smarts

3rd-gen MBUX (the Mercedes-Benz User Experience) is smarter, quicker to respond, can understand more languages. And it can learn, add apps and update over time, and over the air.

## Situational awareness

MBUX Routines let you automate everyday functions based on location, conditions or other parameters, from warming the seats when it's cold to playing your favorite Friday night soundtrack.

## Digital recognition

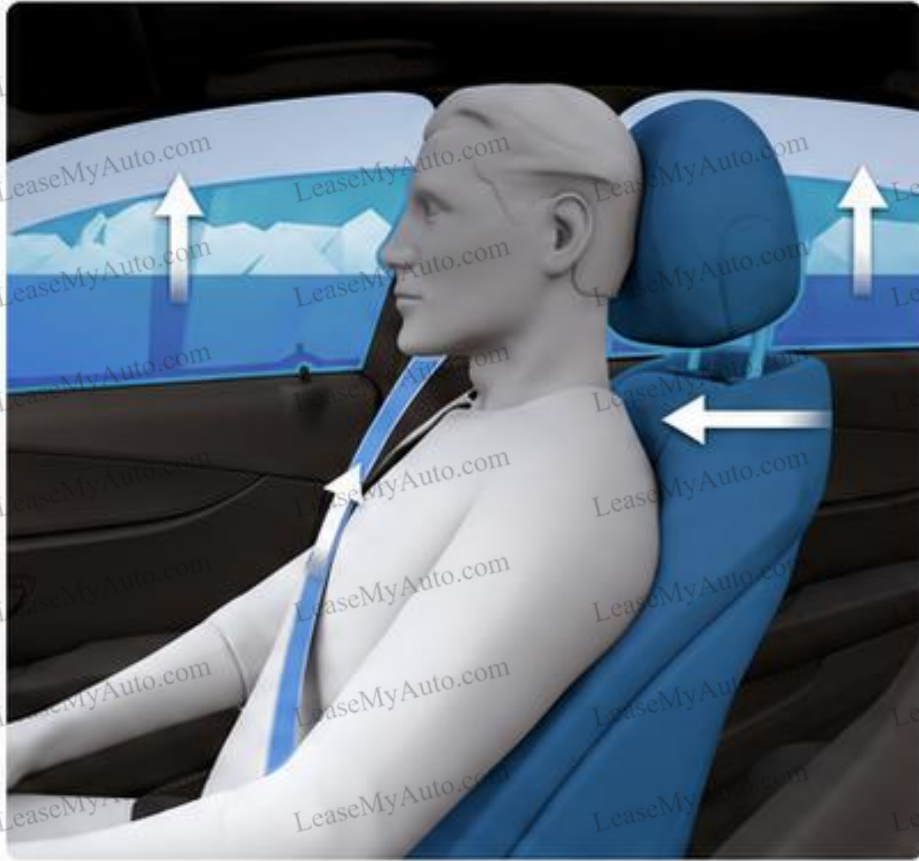

Along with a fingerprint scanner and facial recognition to save your preferences, a Digital Vehicle Key lets you unlock and drive your E-Class via your Apple® iPhone or Watch.

## Eyes on your world

Outward and driver-facing cameras can watch for danger all around, or at the wheel. When parked, benefits can range from selfies and video conferencing to recording if your car's bumped.

# SAFETY HIGHLIGHTS

## Proactive safety

An E-Class can help protect you by taking action before a collision occurs. PRE-SAFE® can adjust the front seats and seat belts, and even prepare your hearing, in the seconds before impact.

## Foresight for reversing

In addition to the forward collision protection of Active Brake Assist, available cross-traffic functions can help detect pedestrians in front or behind you at low speeds, like parking lots.

## Smarter cruising

Available DISTRONIC® can adapt your cruising speed to stop-and-go traffic, posted speed limits, even an upcoming turn in your navigation route. Automatic Lane Change can further ease your way.

## Center air bag

The advanced restraint systems in the E-Class include an air bag between the driver and front passenger.
