

Refine DS3+ Ultrasonic Scaler

The Refine DS3+ Ultrasonic Scaler is a compact, reliable and easy-to-use ultrasonic scaling unit designed for everyday dental prophylaxis and periodontal procedures. With stable $28\text{kHz} \pm 3\text{kHz}$ ultrasonic performance, smooth finger-tip power adjustment, controlled water flow and an LED handpiece for enhanced visibility, it helps clinicians perform scaling, root planing and other hygiene procedures with better precision, comfort and workflow efficiency. Its detachable handpiece, compact chairside design and multiple tip compatibility make it a practical choice for modern dental clinics looking for dependable daily performance.

Key Highlights

- ✦ Stable Ultrasonic Scaling Performance
- ✦ **Finger-Tip Power Adjustment**
- ✦ **LED Handpiece for Better Visibility**
- ✦ **Multiple Clinical Applications**
- ✦ Controlled Water Flow
- ✦ Detachable & Easy-to-Maintain Handpiece
- ✦ Compact Chairside Design

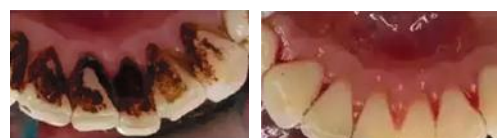

Multiple Function: With different scaler tips, the machine is applicable to implant maintenance, crown removing, cavity preparation, shoulder preparation and root planning

Refine DS3+ Ultrasonic Scaler - Technical Specification	
Model	DS3+
Product Type	Ultrasonic Scaler
Power Input	220VAC 50Hz / 110VAC 60Hz
Input Power	38VA
Vibration Frequency	$28\text{kHz} \pm 3\text{kHz}$
Water Pressure	0.1 bar – 5 bar / 0.01MPa – 0.5MPa
Handpiece	LED Handpiece
Tip Compatibility	Multiple scaler tips for scaling, perio and other applications
Package Size	375mm × 305mm × 120mm
Weight	2.4 kg
