ANIL TRADING COMPANY

ABOUT US

Welcome to Anil Trading Company, a trusted supplier of quality construction, waterproofing, and building protection solutions. We specialize in providing reliable products designed to support modern construction requirements and help protect buildings and structures from moisture, dampness, cracks, and water-related damage.

At Anil Trading Company, we understand that strong and durable construction requires more than just basic building materials. That is why we focus on providing complete solutions through our range of Fiberglass Mesh, Waterproofing Chemicals, and Damp Proof Solutions. Our objective is to make quality construction and protection products easily accessible to contractors, builders, developers, infrastructure professionals, and other customers across different markets.

FIBERGLASS MESH

High-strength fiberglass mesh for waterproofing, plastering, and construction reinforcement.

WATERPROOFING CHEMICAL

Advanced waterproofing chemicals for terrace, basement, and wall protection.

DAMP PROOF SOLUTION

Reliable damp proof chemicals and solutions for walls, roofs, and concrete structures.

TRUSTED SUPPLIER

A dependable supplier committed to quality products and customer satisfaction.

ANIL TRADING COMPANY

FIBERGLASS MESH

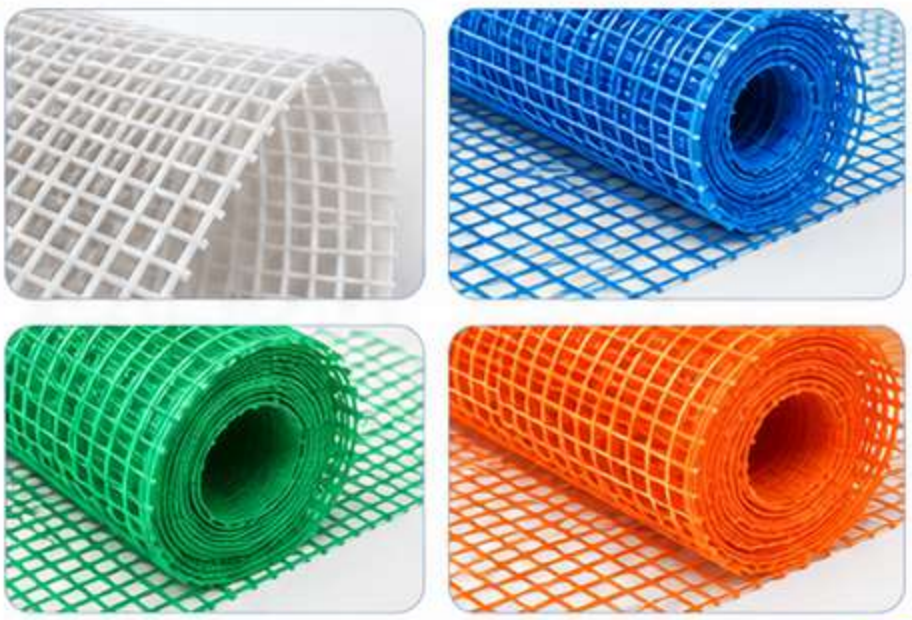

Our high-quality Fiberglass Mesh is manufactured using premium-grade fiberglass yarns and coated with alkali-resistant polymer. It is specially designed for reinforcing wall surfaces, preventing cracks, and providing long-lasting strength to plaster and render.

Widely used in exterior wall insulation systems (EIFS), drywall joints, marble fixing, and waterproofing applications, this mesh offers excellent dimensional stability and superior tensile strength.

- Alkali & corrosion resistant
- High tensile strength
- Excellent dimensional stability
- Easy to cut & install
- Fire resistant
- Long service life

Product Specifications

Material	Fiberglass Yarn (Alkali Resistant)
Mesh Size	5x5 mm, 4x4 mm, 10x10 mm (Customizable)
Width	1m / 2m (Customizable)
Roll Length	50m / 100m
Colour	White / Blue / Green / Orange

ANIL TRADING COMPANY

WATERPROOFING SOLUTION

WATERPROOFING CHEMICAL (DAMP PROOF)

Our advanced Waterproofing Chemical (Damp Proof) is a high-performance liquid additive formulated to protect concrete and masonry surfaces from water penetration, dampness, and moisture damage. It creates a strong water-repellent barrier inside the structure.

Ideal for terraces, bathrooms, basements, water tanks, and external walls, this product improves construction durability by helping prevent cracks, efflorescence, and structural deterioration.

- **Excellent Water Repellency**
- **Prevents Dampness & Seepage**
- **Improves Concrete Strength**
- **Ready to Use Liquid**
- **Eco-Friendly Formula**
- **Long-Lasting Protection**

Product Specifications

Type	Integral Liquid Waterproofing Additive
Appearance	Milky White Liquid
Dosage	200 ml–500 ml per 50 kg cement
Coverage	Approx. 40–60 sq.ft per litre (2 coats)
Packaging	1L / 5L / 20L / 50L

Terraces

Bathrooms

Basements

Water Tanks
