### Interesting fact

The name of the gin was created in honor of the Philippine tarsier, one of the smallest primate species in the world, native to the Philippines.

Characterized by its small size and large eyes, which is the company vision of small-batch gin with a big flavor and personality. Tarsiers have been on Earth for 45 million years, but they are now at risk of extinction. Tarsier's mission is to raise awareness about these amazing creatures and also donates 10% of profits to a Southeast Asian wildlife conservation project.
