

FEATURING THE **NEW** PREMIUM COLLECTION

CUSTOM FLAGS

TACIT 
ALWAYS ON COURSE

Tacit's dedicated commitment to exceptional workmanship is epitomized in our renowned golf flags.

Every Tacit flag is handcrafted in Great Britain by skilled craftspeople using premium materials, traditional manufacturing techniques and meticulous attention to detail. Whether you're replacing a single club flag, choosing from our Premium Collection of distinctive shapes, or commissioning a completely bespoke design, every flag is made to the same uncompromising standards.

From faithfully reproducing your club crest to creating something entirely original, our in-house design team will work with you to create flags that become a true extension of your club's identity. With a wide choice of materials, fittings, finishes and embellishments, we don't simply manufacture golf flags, we create bespoke course branding designed to stand out and built to perform for years to come.

"Simply the best logo flags on the market."

John Reilly

Director of Golf, The Resort
at Longboat Key Club

Choose the application method that brings your design to life.

4

CHOOSE YOUR FITTING

Select the attachment system that best suits your application.

5

ADD FINISHING DETAILS

Complete your flag with distinctive details that make it uniquely yours.

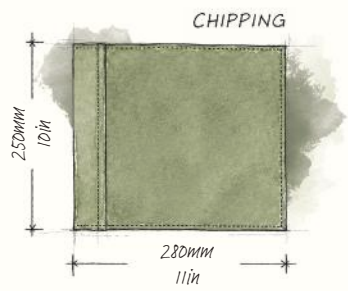

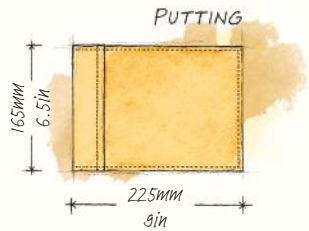

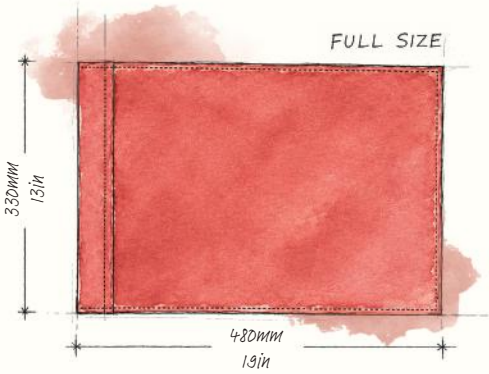

BUILD YOUR FLAG

THE ART OF FLAG DESIGN

Rooted in centuries of flag-making tradition, every Tacit flag is carefully proportioned for its place on the course, bringing balance, character and distinction to every setting.

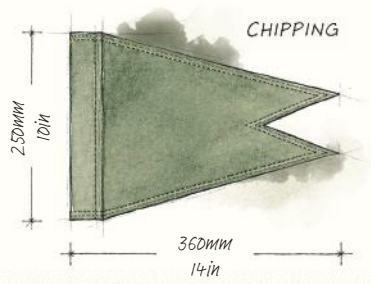

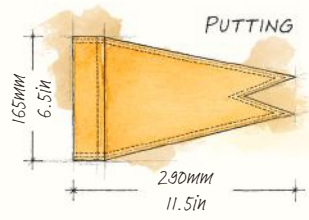

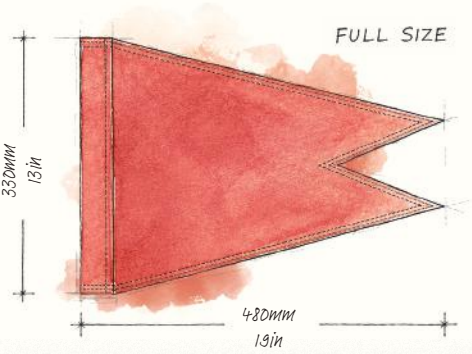

STANDARD FLAGS

Dimensions	mm	Inches
Full	480 x 330	19 x 13
Chipping	280 x 250	11 x 10
Putting	225 x 165	9 x 6.5

THE PREMIUM COLLECTION

Dimensions	mm	Inches
Full	480 x 330	19 x 13
Chipping	360 x 250	14 x 10
Putting	290 x 165	11.5 x 6.5

THE PREMIUM COLLECTION

Inspired by centuries of heraldic and maritime design, Tacit's Premium Collection reimagines traditional flag forms for the modern golf course. From elegant pennants and classic burgees to striking swallowtails and unique multi-panel designs, every profile has been carefully selected to create a more distinctive, refined appearance on the course.

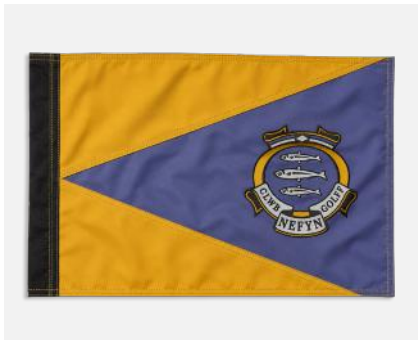

GUIDON

A bold, tapering profile with a strong and distinctive silhouette. Its generous central panel gives your club crest excellent presence, while the swallowtail creates movement and visual impact on the green.

GONFALON

A refined, angular profile that frames traditional crests and monograms particularly well. Ideal for heritage clubs seeking something distinctive while retaining an elegant and understated appearance.

TRIPLE PANEL

Three contrasting sections provide a creative way to showcase multiple club colours, combine more than one crest, or separate club and event branding. The strong panel definition also improves visibility across the course.

STANDARD BURGEE

A timeless swallowtail profile with broad appeal. Its balanced proportions suit both traditional private clubs and contemporary resort courses, giving crests, monograms and contrasting borders a polished presentation.

ALFA NAUTICAL

A striking two-colour layout with a clean swallowtail finish. The divided panel gives each colour or design element its own space, creating strong contrast and clear recognition from a distance.

TAPERED BRAVO NAUTICAL

A sharper interpretation of the classic burgee. The tapered profile creates an elegant silhouette in flight and gives the flag a more dynamic, premium appearance on the course.

TAPERED ALFA NAUTICAL

A streamlined variation of the Alfa profile, combining a distinctive two-panel layout with a tapered outer edge. Ideal for showcasing contrasting club colours with a more contemporary finish.

NAUTICAL BURGEE

A layered two-panel profile that gives separate space to your club identity, sponsor logo or event branding. Its contrasting sections create strong visual impact while retaining the elegance of a traditional burgee.

DOUBLE BURGEE

Two triangular panels create a clean, structured profile with clear separation between colours or branding elements. An excellent choice for clubs seeking a distinctive flag with strong movement and visibility.

SQUARE

A compact, balanced profile that places your club crest at the center of attention. Available in all size formats, it offers a consistent and refined identity across the course and practice areas.

Dimensions	mm	Inches
Full	330 x 330	13 x 13
Chipping	250 x 250	10 x 10
Putting	165 x 165	6.5 x 6.5

PENNANT FLAGS

Inspired by traditional pennant designs that have represented identity and distinction for centuries, Tacit's pennant styles bring timeless character to the modern golf course. Their elegant, flowing profiles create striking movement and a distinctive visual presence, while offering a unique way to showcase your club's identity.

SINGLE PENNANT

The purest expression of the pennant shape. Its clean triangular profile moves beautifully in the wind, draws the eye towards the hole and presents your club crest with confident simplicity.

DOUBLE PENNANT

Two layered pennants allow contrasting colours or separate design elements to be showcased clearly. The result is a more substantial flag with added movement and a distinctive tailored appearance.

BLUNT PENNANT

A broader pennant profile that provides additional space for detailed crests, dates or lettering. Its structured proportions create a strong, traditional presence while remaining clearly different from a standard rectangular flag.

TRIPLE TAIL

Three separate tails create colour, movement and unmistakable presence. Particularly effective for differentiating the front and back nines, or for carrying several club colours within one cohesive design.

TRIPLE TAIL STACK

Overlapping panels add depth and movement to the three-tail profile. Perfect for clubs with three core colours, or those looking for a bold signature flag that is instantly recognisable across the course.

TRIPLE SLIM PENNANT

Three slender pennants respond quickly in even a light breeze, making the hole position easy to identify. The elongated profile also creates a refined and dramatic appearance on the green.

Available in full size only.

PENNON

Long and elegant, with graceful movement and excellent visibility. A striking choice for signature holes, events or everyday course presentation.

Available in full size only.

FLAG MATERIALS

NYLON

- Natural, uncoated 122gsm material, ideal for embroidery and sharp screen printing.
- Features a 4x stitched leading edge for enhanced durability.
- Highest UV stabilisation available and treated for fungal/bacterial growth, ensuring longevity.

TEMPEST

- Utilised by St Andrews for harsh Scottish coastal winters.
- Features a venti-knit style material, guaranteed for 12 months.
- Suitable for high wind courses, can be single-colour screen printed.

KNITTED POLYESTER

- Boasts good colour fastness and a 4x stitched leading edge.
- Dye sublimated for vibrant, long-lasting designs.
- Also in heavier Tex version with finer weave for sharper images.
- Ideal for memento and souvenir flags.

IRISH LINEN

- Strong, lightweight and absorbent textile.
- A traditional, timeless finish with embroidered designs.
- Made from natural flax plant fibres, offering a sustainable choice.

RE-KIT

- Made from 100% recycled material.
- Designed with optimised finishes and compatible inks to ensure a high-quality result.
- PVC-free and available at no additional cost, supporting greener golf initiatives without compromising practicality.

DESIGN TECHNIQUES

EMBROIDERY

- Double-sided, with high-quality threads for vivid colours.
- Satin thread available for high UV stability.

SCREEN PRINT

- Handmade process that layers coloured ink for vibrant, durable designs.
- UV stable and double-sided for readability.

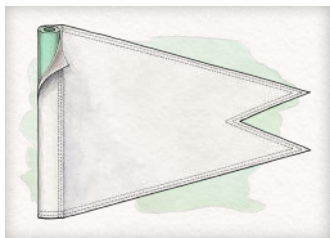

EASY PRINT/DYE SUBLIMATION

- Offers any colour, any image, with bright, vivid colours and sharp logos.
- Double-sided for maximum visibility.

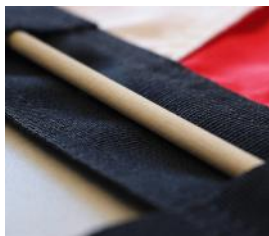

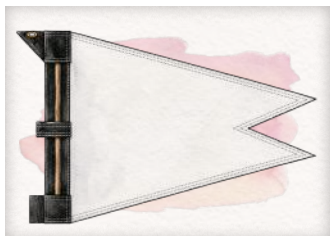

FITTING OPTIONS

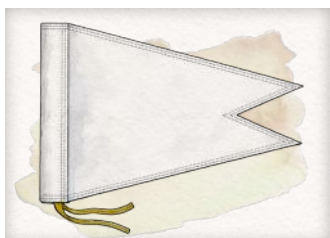

TUBE

The industry-standard fitting for USGA flagsticks, offering secure attachment, exceptional durability and quick, reliable installation.

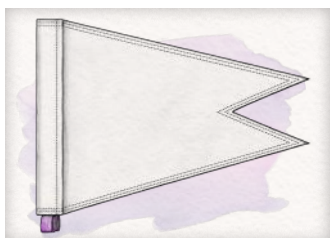

NAUTICAL FITTING

Traditional dowel and eyelet fixing, providing a classic appearance with secure, dependable flag attachment.

TIE

Simple webbing ties offer a versatile, secure fitting that's quick to install and easy to replace.

VELCRO

Hook-and-loop fastening allows fast, tool-free flag changes while maintaining a secure, reliable hold.

PRO-SHOP DISPLAY

Presented in a clear display wallet, ideal for pro shops, clubhouses and presentations. Available for full size flags only.

FINISHING DETAILS

CONTRAST/REFLECTIVE SLEEVE

Choice of coloured, printed, embroidered, reflective and extended sleeve.

COLOURED BORDER

Contrasting borders for added definition and style.

NUMBERING

Printed or embroidered numbering for clear hole identification.

SPLIT PANEL DESIGN

Available in diagonal or half-and-half colour layouts.

BESPOKE FLAGS

Looking for something beyond our flag collection? Our Bespoke Design Service is designed for clubs that want to create something truly unique.

From original flag shapes and intricate detailing to premium embroidery and one-of-a-kind concepts, our expert team will guide you from the initial design through to the finished product. Handcrafted to the highest standards, every bespoke flag is made to reflect your club's identity.
