

COMMITTEE *of* 100
ANNUAL BRUNCH

Auburn Adventist Academy

October 25 10 a.m.

COMMITTEE of 100

Auburn Adventist Academy

2026 Annual Meeting and Brunch

Registration

9:30 am

Welcome & Opening Prayer

Washington Conference Representative

Introduction and Order of Events

Jeff Keating

Chairman, Committee of 100

Greetings from the new principal

Jesse Bliss

Prayer of Blessing for the Food

Gina Hubin

Director of Recruitment & Admissions, Auburn Adventist Academy

Brunch

While you are enjoying great food and fellowship, please enjoy the sounds of the Auburn Adventist Academy Sona Bella Bell Choir, led by Ms. Rochelle White,

Faculty Testimonials

Auburn Adventist Academy Faculty Members

Committee Session – Consideration of Faculty & Staff Requests

Jeff Keating

Announcements and Appreciation

Committee of 100 Executive Committee Members

Closing Prayer

Jesse Bliss

Principal, Auburn Adventist Academy

Executive Committee for the Committee of 100

Jeff Keating, Chair
Tricia Caldwell

Jacque Warwick
Gordon Onsager

Jesse Bliss, Principal
Marlene Perry, Vice Principal for Finance
Gina Hubin, Director of Growth - Recruiting and Admissions

Faculty & Staff Request Guidelines

The Committee of 100 is a group of 70 to 100 members that meets every year to consider funding for specific requests from the Faculty and Staff. This is an excellent opportunity to obtain items for your classroom and/or department that may not otherwise be covered by the budget. The Executive Committee ("Committee") is a smaller group that reviews and approves all of these requests before they go to the larger Committee of 100 for consideration. When submitting your request, please carefully read and follow these guidelines:

- Item(s) being requested must align with the Mission of Auburn Adventist Academy ("AAA"), which is to: **Seek** Divine Wisdom (James 3:17); **Inspire** Innovative Minds (1 Corinthians 2:9); and **Build** Eternal Relationships (1 John 4:7).
- Item(s) must enhance the educational experience and/or campus life experience of the students. If the item is not for a specific classroom, it must benefit AAA as a whole (for example, an item used for recruitment or marketing). Tables, chairs, and desks will not be considered a high priority for funding through the Committee of 100.
- **All requests must be reviewed and approved by AAA Administration before Committee consideration.**
- Focus should be on items that can be used for years to come.
- If a request exceeds \$5,000, the requester may be asked to personally present their request to the Committee of 100 Executive Committee at a meeting scheduled by the Committee. ***This applies to each request. For example, if you are requesting multiple of the same item, and that total amount exceeds \$5,000, you may be asked to present to the Committee. Note: If you are requesting 5 different items, the \$5,000 applies to each item, not the total combined.***
- If a request involves technology, it must also be reviewed and approved by the AAA Technology Committee before it is submitted to the Committee for review and approval.
- The Committee will review all requests that are received by the deadline established by the Committee. Requests received after the deadline may be deferred to the following year.
- ***Please do not request more than five (5) different items.*** If multiple different items are requested from a single department and/or classroom, requests may be denied or deferred to the following year (request must be resubmitted the following year if deferred) so that funds may be distributed more equally. If you are requesting multiple different items, please indicate which of those items are a priority for your classroom/department, since it may not be possible to obtain all of the items you are requesting. ***You may request more than five (5) of the same item (i.e., books, art/drafting kits, etc.).***
- A Request Form must be completed for each different item. ***If the request is for multiples of the same item, please put them on the same Request Form.***
- Item descriptions must be concise and describe in detail what the item is and how it will directly benefit the students or AAA as a whole. The Request Forms must be fully completed (all questions answered) in order to be considered.
- The Committee of 100 funds are not to be used for transportation purposes.
- Once items have been funded, ***they must be purchased by the requester by December 31*** of the funding year, or the funds will be returned to the Committee of 100. Purchasing the item is the ***sole responsibility*** of the purchaser and is to be done within the guidelines of the Finance Office, as instructed by the Vice Principal of Finance.

Athletics

1. Volleyball Collapsible Cart

Transportable cart to hold volleyballs at practices and games.

Total Cost - \$180

2. Girls' Basketballs Game Use Only

Game balls are only for girls' basketball games and are kept in safekeeping.

Cost of 1 - \$110.00

Cost of 2 - \$220.00

3. Boys' Basketballs Game Use Only

Game balls are used only for boys' basketball games and are kept in safekeeping.

Cost of 1 - \$110.50

Cost of 2 - \$220.00

4. Volleyball Game Only Balls

Volleyballs for official game use only.

Cost of 1 - \$46.33

Cost of 3 - \$140.00

5. Soccer Game Balls

Game balls are used only for games and are kept in safekeeping.

Cost of 1 - \$110.50

Cost of 4 - \$440.00

6. Industrial Popcorn Machine

The athletic department hosts many games in Rainier Auditorium throughout the school year and sells food items to raise funds for the athletic department. Hot popcorn is always in high demand. The current popcorn machine has been in use for many years and is at the end of its life cycle. We are requesting an industrial-grade machine to replace it so it will hold up to the demands much better. The popcorn machine has also been used over the years for recruiting during camp meeting and other recruiting events, so it has been a valuable, high-use item for the Academy.

Total Cost - \$1960.00

7. **AI-Powered Multi-Sport Recording & Analysis System for AAA Athletics**

We are requesting funding for an all-in-one, subscription-free sports recording package anchored by the XbotGo Falcon 4K AI Action Camera—a true "match made in heaven" for the Auburn Adventist Academy Falcons! Unlike traditional tactical systems that require costly annual subscriptions, the Falcon operates autonomously using an 8-core AI processor to track players and ball movement across soccer, basketball, and volleyball. This system provides student-athletes with critical 4K game film for visual learning, self-assessment, and college recruitment portfolios. Additionally, it gives digital media students hands-on experience in broadcasting and video production while allowing remote family members to watch free live streams of away games.

Total Cost - \$1250.84

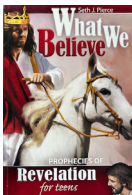

Bible

8. **Book Set - Prophecies of Revelation for Teens by Seth Pierce**

What We Believe: Prophecies of Revelation for Teens" by Seth J. Pierce. We will use this book as a classroom textbook in senior Bible when studying Revelation. We already have the companion book "What We Believe: Prophecies of Daniel for Teens" by Seth J. Pierce as a set. I would like to be able to use both when teaching Daniel & Revelation. Seth writes in an engaging way for young people while still providing solid biblical information. Reading assignments are meant to augment class lectures and assignments. The volume of 65 copies of the book is based on class sizes so that each student can utilize a copy.

Cost of 1 - \$17.67

Cost of 65 - \$1148.48

Cafeteria

9. Vacuum

The cafeteria needs a couple of industrial-grade vacuum cleaners to clean the dining area, conference room, and the floors in the kitchen.

Cost of 1 - \$253.29

Cost of 2 - \$506.58

10. Kitchen Knives

The purpose is to cut and prep produce and food items.

Cost of 1 - \$128.93

Cost of 2 - \$257.86

11. Meat Slicer

The purpose of this item is to slice vegetarian meat and other items.

Total Cost - \$358.00

12. Dicer

The purpose of this item is to speed up the process of dicing food efficiently.

Cost of 1 - \$118.18

Cost of 3 - \$354.54

English

13. Office Mobile Whiteboard (Standing) - 36" X 24" Magnetic Rolling White Board

A small, mobile whiteboard on wheels for group activities, usable anywhere in my classroom.

Total Cost - \$110.49

14. Books for English 9 Library

Literary books are needed to build the English library for independent reading projects. Students don't have easy access to libraries, and we need more physical copies of books. Books will be purchased from ThriftBooks.com. Books will be purchased from ThriftBooks.

Total Cost - \$500.00

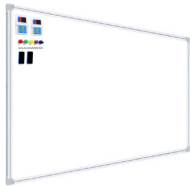

15. Classroom Magnetic Whiteboard - 4' X 8'

This request would replace the existing whiteboard in my classroom. The current whiteboard is older, not magnetic, and has become increasingly difficult to erase cleanly. Replacing it with a magnetic whiteboard would improve the functionality of my classroom and make it easier to display instructional resources, visual aids, vocabulary, student work, and other materials that support learning.

A magnetic whiteboard would also allow me to more effectively organize and display materials for the multiple English courses I teach, providing a flexible instructional space that can be used throughout the school year.

Total Cost - \$508.29

**16. Display Board**

This display is a corkboard with a lock. It would be used for displaying announcements/student work and other items.

Total Cost - \$430.94

Foods

17. Chef Knife

I would love for my students to have a better-quality chef's knife for their learning experience.

Cost of 1 - \$29.00

Cost of 10 - \$290.00

Growth & Development

18. Canon EF-S 17-55mm f/2.8 IS USM Lens for Canon DSLR Camera

The current lens I have been using was purchased by the Committee of 100 in 2018 and has been used extensively ever since. Last year I requested a camera body, but I didn't request a lens at the same time because it was still working. At the beginning of the year, the lens malfunctioned and is in need of replacement. I use the camera extensively for marketing and recruiting purposes and use it at every school event to capture photos that are used for multiple purposes.

Total Cost - \$1084.65

Film Production

19. iMac

Film Production and Photography classes require computers that can run DaVinci Resolve and Adobe Photoshop, Illustrator, InDesign, and Lightroom. Not all students can afford computers with the specs to run these programs, which leaves them without the tools to complete these classes successfully. The current M4 iMacs are powerful computers that will allow financially disadvantaged students to thrive in these classes.

Cost of 1 - \$2,024.00

Cost of 3 - 6,072.00

Film Production/Photography

20. Amaran Ray 360c 360W RGB LED Video Light

One can never have too much light when filming. This light would provide 2X the light of our current best light, which provides more flexibility and creative control in a variety of settings.

Total Cost - \$475.00

Film Production

21. **SIRUI Night Walker 16mm S35 Wide Angle Cine Lens, T1.2**

Cinema lenses work somewhat differently than photography lenses, so I am asking for 2 different focal length cinema lenses so the students can experience the cinema lens processes.

Total Cost - \$352.50

22. **SIRUI Night Walker 75mm S35 Telephoto Cine Lens, T1.2**

This is the second cinema lens I am requesting that will provide the students with the opportunity to learn how to work with a prime cinema lens which requires different skills from the photography lenses we currently have.

Total Cost \$352.50

Year Book

23. **Nikon Z50 II with Two Lenses**

Our yearbook team is growing, and we need more reliable cameras to enable us to best record the year in photos. This camera is a smaller, lighter version of the yearbook camera that was purchased last year. This enables us to share lenses between the 2 cameras while choosing the best camera for the setting or allowing multiple photographers to work at the same time.

Total Cost - \$1543.63

History

24. **History Classroom Library**

I want to build a classroom library so my students read in class and write reports on the books with the intent of getting them more engaged in history. The books that have been identified are spread throughout different categories that cover, World History, U.S. History, and Government and Civics. All of these areas are covered in the three classes that I teach.

Total Cost Range - \$1696-\$1760

Music

25. Bell Cradles

Bell cradles allow the bass bell ringers to stabilize the large bells and place them closer together on the table for ease of ringing in difficult passages of music. "Foam bass bell cradles keep bells from rolling around and help lessen the whomp associated with table damping."

Cost of 1 - \$13.00

Cost of 3 - \$37.00

26. Multi-Cart Rock-n-Roller R6G

This is an 8-in-1 ground glider used to move and load heavy equipment and musical instruments. We have 9 bell cases, 3 chime cases, 4 large foam bags, 6 tables, and 3 large supply boxes that we travel with. These gliders will allow us to better move all of our equipment at once and aid in quicker setup times at our performance venues.

Cost of 1 - \$254.13

Cost of 2 - \$508.26

27. Full 5 Octave Set of Bell Cases

These are premium cases that offer high-quality protection for the over \$35,000 worth of bells used by the Sona Bella Ensemble. Our current cases are not as heavy-duty or equipped for airline travel, and most are mainly made of wood. The manufacturer states, "Cases like these have carried sensitive military equipment and delicate photographic equipment for years...your bells should be protected this well."

These new cases feature:

- High-density polyethylene plastic for strength and impact resistance
- Molded-in ribs for increased structural stability
- Precision-cut, contoured foam inserts made from closed-cell foam that won't absorb moisture
- Each bell slot labeled individually with a bright yellow label indicating the note
- Recessed hardware on entire case
- Three-stage telescoping handle for ease of storage and travel
- Recessed spring-loaded handles on three sides of the case for easy lifting
- Inline skate wheels for smooth rolling
- Lock rings for TSA locks
- Travel-ready

Total Cost - \$4438.00

Science

28. **Variety of Science Lab Beakers**

Requesting 30 beakers of three different sizes. Ten 100 mL beakers, five 250 mL beakers, and five 600 mL beakers. Beakers are used in the lab for all three of my classes. Every year, there is some loss, so I need to restock my inventory.

Cost of:

Twelve 100 mL - \$32.99

Twelve 250 mL - \$59.98

Six 600 mL - \$40.99

29. **Gas Spectrum Tubes - Chlorine, Helium, Mercury Vapor, Krypton**

These gas spectrum tubes will be used in the chemistry lab. In the lab, each pair of students makes a simple spectrometer out of a pizza box. After becoming familiar with the spectrometer, they will have the opportunity to look at the atomic emission spectral lines (unique fingerprints) of each of the gases.

Cost of 1 - \$72.92

Cost of 4 - \$291.66

Science - Physics & Physical Science

30. Super Pulley Force Table

The Super Pulley Force Table facilitates the study of summed vector forces and allows students to resolve vectors into their components. This Force Table uses superpulleys to reduce friction for improved accuracy during vector experimentation. It is easy to use and store, making it ideal for classroom experimentation. Students can independently investigate the addition of vector forces and resolve vectors into their components. Among the applications for this force table are vector addition and vector components, net force in 2 dimensions, and free-body diagrams. Students in both classes will greatly benefit from this force table.

Cost of 1 - \$221.00

Cost of 2 - \$442.00

31. Thermometers (Ever-Safe Thermometer, -20 to 150 Degree celceus, Total Immersion)

Ever-Safe partial and total immersion thermometers are non-mercury thermometers whose blue fluid is completely biodegradable. An anti-roll device is included. A 12" long non-mercury thermometer with an accuracy range of +/- 1 degree C. The bright-colored fluid against a white background with permanently fused markings makes this thermometer very easy to read. It will greatly serve the Physical Science laboratory by safely measuring temperature during lab experiments.

Cost of 1 - \$20.10

Cost of 10 - \$201.00

Science

32. Hot Plates

An economy-priced electric hot plate. Durable metal housing with an adjustable knob for heat control. Great for lab experiments in the science classroom. The purpose of these hot plates is for students to use during lab experiments studying temperature changes, states of matter, compounds, chemical reactions, the laws of thermodynamics, etc.

Cost of 1 - \$132.99

Cost of 4 - \$531.96

33. Aprons

A great choice to provide heavy-duty protection against the elements found in lab environments. These aprons will protect students while working in the science lab.

Cost of 1 - \$28.73

Cost of 20 - \$574.60

Physics

34. **Basic PAScar Metal Track 1.2 m System**

PASCO Dynamics Systems is a must-have in the physics lab. They are ideal for investigating mechanics topics such as velocity, acceleration, Newton's laws, forces, collisions, and the conservation of momentum and energy. A variety of accessories can be added to expand this dynamics system's functionality, enabling students to study harmonic motion, projectile motion, optics, and more.

This configuration includes two plastic PAScar dynamics carts and a 1.2-m aluminum dynamics track. The accessories package is not included.

Cost of 1 - \$374.72

Cost of 2 - \$749.44

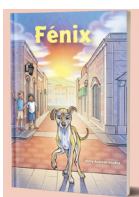

Spanish

35. **Books (readers) Fénix**

Fénix, a book that is Level 1, novice mid - novice high. This is a true story of a street dog in México that faces the odds is perfect for Spanish I.

Cost of 1 - \$13.76

Cost of 25 - \$343.96

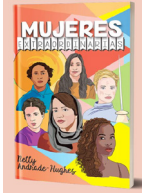

36. **Book (reader) Mujeres Extraordinairas**

Mujeres Extraordinairas is a book about 6 incredible real women in history who advocated for human rights, including a woman from Rwanda, a hero of the Mexican Revolution, and a woman who saved thousands of babies from Nazi Germany. It is perfect for Spanish II.

Cost of 1 - \$13.76

Cost of 25 - \$343.96

37. **Books (readers) La Guerra Sucia or Dirty War**

La Guerra Sucia, or *Dirty War*, is a book for level 4, intermediate mid-to-intermediate high, about the disappearance of a young journalist from Argentina. This book weaves cultural and historical themes of Argentina. It is perfect for Spanish III.

Cost for 1 - \$13.76

Cost for 25 - \$343.96

Registrar's Office

38. Fireproof Lateral File Cabinet

The FireKing Classic Lateral File Cabinet blends high-capacity storage with proven fire-rated protection to safeguard documents with space, strength, and reliability.

Arctic White, proprietary formula gypsum insulation, reinforced 14-gauge steel lattice construction, UL Class 250 1-hour fire rating, UL 30-ft. impact rating, electronic lock upgrade.

Administration

39. Pressure Washer

A pressure washer is needed to beautify the campus, allowing students and staff alike to be proud of the institution they attend. For example, the fence that was installed around the campus for safety appears that it has not been maintained and there is extensive moss growth and other dirt, etc., that makes it look more like a fence for a graveyard than it does for a vibrant campus life. This equipment would support us in maintaining a more vibrant and attractive environment for our students.
