Smile Partnership: Expanding Access to Cleft Care in Bangli

Kemitraan Senyum: Memperluas Akses ke Perawatan Bibir Sumbing di Bangli

On Thursday, June 5, 2025, we gratefully and excitedly announced the official collaboration between Yayasan Senyum Bali and RSUD Bangli. This collaboration is part of the foundation's commitment to expand access to medical services for patients with cleft lip and palate conditions, especially in Bangli and surrounding areas. Medical treatment will be performed directly by our partner plastic surgeon, who is dedicated to providing the best service for patients, Dr. Ida Bagus Agung Indra Pramana, Sp. B.P.R.E., FICS.

Through this partnership, we hope that more children and families will be helped, not only medically, but also psychologically and socially. We believe that every child deserves to grow up with confidence and smile without shame. This also allows patients and families to receive care closer to home. Thank you for the support of all those who continue to walk with us in this mission. Let's keep spreading smiles for a brighter future!

Pada Kamis, 5 Juni 2025, kami dengan penuh rasa syukur dan semangat mengumumkan kerja sama resmi antara Yayasan Senyum Bali dan RSUD Bangli. Kolaborasi ini merupakan bagian dari komitmen yayasan untuk memperluas akses layanan medis bagi pasien dengan kondisi bibir sumbing dan celah langit-langit, khususnya di wilayah Bangli dan sekitarnya. Penanganan medis akan dilakukan langsung oleh dokter bedah plastik partner kami yang berdedikasi untuk memberikan layanan terbaik bagi para pasien, dr. Ida Bagus Agung Indra Pramana, Sp. B.P.R.E., FICS.

Melalui kerja sama ini, kami berharap semakin banyak anak-anak dan keluarga yang terbantu, tidak hanya dari sisi medis, tetapi juga secara psikologis dan sosial. Kami percaya bahwa setiap anak berhak untuk tumbuh dengan rasa percaya diri dan tersenyum tanpa rasa malu. Ini juga memungkinkan pasien dan keluarga untuk mendapat perawatan lebih dekat dari tempat tinggal. Terima kasih atas dukungan semua pihak yang terus berjalan bersama kami dalam misi ini. Mari kita terus sebarkan senyum untuk masa depan yang lebih cerah!

Smile Care: Spreading Love Through a Donation to Bali Baby Home

On May 30th, we had the opportunity to visit Bali Baby Home Foundation and hand over some baby clothes from Smile Shop as a token of our care and support. GILAR'S JOURNEY TO A BETTER VOICE

**BEFORE****AFTER**

Gilar, a 24-year-old from Bandung, had long harbored the desire to undergo cleft palate surgery that had been looming over him. Since childhood, he had only had lip surgery, but never received follow-up treatment for his palate. As a result, her speech sounded nasal, which made his a frequent subject of jokes and ridicule. Mentally exhausted, Gilar, who now works at a food stall in Bali, finally ventured to seek help.

Gilar then connected with Yayasan Senyum Bali through the foundation's Facebook in November 2024. However, due to his busy work schedule, the surgery could only be performed on April 15, 2025. We finally facilitated Gilar's cleft palate surgery at Bhayangkara Hospital in Denpasar by Dr. Putu Ardhy Parama Widyatmika, M.Ked.Klin, Sp.BP-RE. The operation was not an easy one, as Gilar was already an adult, and the risk of bleeding was even greater.

Gilar's journey is not over yet - in the next six months, he will undergo alveolar bonegraft surgery as an advanced stage. Although there is still a long way to go, Gilar believes this is the first step towards a better life, where he can speak, smile and be more confident. Congratulations, Gilar!

Gilar, pemuda berusia 24 tahun asal Bandung, telah lama menyimpan keinginan untuk menjalani operasi celah langit-langit yang selama ini membayangnya. Sejak kecil, ia hanya sempat menjalani operasi bibir, namun tidak pernah mendapatkan perawatan lanjutan untuk langit-langit mulutnya. Akibatnya, suara bicaranya terdengar sengau, yang membuatnya sering menjadi bahan olok-olokan dan ejekan. Letih secara batin, Gilar yang kini merantau dan bekerja di sebuah warung makan di Bali, akhirnya memberanikan diri untuk mencari bantuan.

Gilar kemudian terhubung dengan Yayasan Senyum Bali melalui Facebook yayasan pada November 2024. Namun karena kesibukannya dalam bekerja, proses operasi baru bisa dilaksanakan pada 15 April 2025. Kami akhirnya memfasilitasi operasi celah langit-langit Gilar di RS Bhayangkara Denpasar oleh dr. Putu Ardhy Parama Widyatmika, M.Ked.Klin, Sp.BP-RE. Operasi tersebut bukan tindakan yang mudah mengingat lkarena usia Gilar sudah dewasa, resiko untuk mengalami pendarahan semakin besar.

Perjalanan Gilar belum selesai—enam bulan ke depan, ia akan menjalani operasi alveolar bonegraft sebagai tahap lanjutan. Meski masih panjang, Gilar yakin ini adalah langkah awal menuju kehidupan yang lebih baik, di mana ia bisa berbicara, tersenyum, dan lebih percaya diri. Selamat yaa, Gilar!

ANGGA'S FINAL STEP TO A NEW SMILE

Angga, an 11-year-old boy from Buleleng, Bali, has just completed his final surgery to treat his cleft lip. On June 17, 2025, we facilitated Angga's alveolar bonegraft surgery at Tk 2 Udayana Hospital, Denpasar, with Dr. I Gusti Agung Ngurah Widya Pramana, M. Ked. Klin., Sp. BP-RE. This operation concludes a long series of treatments for Angga since he was 3 months old, starting with lip surgery, and now alveolar bonegraft. Yayasan Senyum Bali is proud to have accompanied Angga's entire recovery process from start to finish.

During his treatment, Angga never felt alone. His parents were always present, even his father was willing to leave his job to accompany Angga during his stay in Denpasar. This sacrifice and affection became a great encouragement for Angga to undergo surgery, especially because the alveolar bonegraft surgery required taking bone from his hip. With the support of his family and the little smile he always carries, Angga is ready to step into a new life with great enthusiasm. Well done, Angga!

Angga, anak berusia 11 tahun asal Buleleng, Bali, baru saja menyelesaikan operasi terakhirnya dalam upaya perawatan bibir sumbing. Pada 17 Juni 2025, kami memfasilitasi operasi pencangkakan gusi Angga di Rumah Sakit Tk 2 Udayana, Denpasar, bersama dr. I Gusti Agung Ngurah Widya Pramana, M. Ked. Klin., Sp. BP-RE. Operasi ini menjadi penutup dari rangkaian panjang perawatan Angga sejak ia masih berusia 3 bulan—dimulai dari operasi bibir, dan kini pencangkakan gusi. Yayasan Senyum Bali merasa bangga bisa mendampingi seluruh proses pemulihan Angga dari awal hingga akhir.

Selama masa perawatan, Angga tak pernah merasa sendiri. Kedua orang tuanya selalu hadir, bahkan sang ayah rela meninggalkan pekerjaannya demi menemani Angga selama berada di Denpasar. Pengorbanan dan kasih sayang itu menjadi semangat besar bagi Angga untuk menjalani operasi, terlebih karena operasi pencangkakan gusi perlu pengambilan tulang dari pinggulnya. Dengan dukungan keluarga dan senyum kecil yang selalu ia bawa, Angga siap melangkah menuju hidup baru dengan penuh semangat. Selamat yaa, Angga!
