Our slatwall comes in ***practical modular*** planks. The planks can be cut to size and adapted to suit any space. Our planks are also easy and cost effective to transport.

For example look how easy it is to make a 2400 wide by 1200 mm high slatwall solution using our planks...

Using two top/bottom planks (S3705) and one center plank (S3700) together with inserts (S3613AL) you can make the slatwall suit your space.

Let us take care of it, talk to us about designing and installing a slatwall solution for you...
