

RENEWABLE ENERGY DISPUTES

and, in particular,

THE SPANISH RENEWABLE INVESTMENT TREATY CASES

As governments accelerate the transition to clean energy, disputes between investors and states are rapidly increasing.

Join this exclusive webinar with international dispute resolver Matt Molloy.

ARBITRATORS
(Southern Africa) NPC

RENEWABLE ENERGY INVESTMENT IS **GROWING** ...

So are the **disputes**

Billions of Dollars are being invested in renewable energy projects worldwide.

When governments change policies, subsidies, tariffs or regulatory frameworks, investors may face significant losses, leading to complex international disputes.

Understanding these risks has become essential for:

- Alternative dispute resolution (ADR) practitioners (arbitrators, adjudicators, mediators);
- Legal professionals;
- Energy professionals;
- Government advisors;
- Investors.

WHAT YOU'LL LEARN

KEY TOPICS COVERED

**ASSOCIATION
OF
ARBITRATORS**
(Southern Africa) NPC

You'll gain insights into:

- Investment treaty arbitration in the renewable energy sector;
- Some of the landmark Spanish renewable energy treaty cases;
- How changes in government policy can trigger investor claims;
- Treaty protections available to international investors;
- The impact of evolving EU law;
- Future dispute trends linked to the global energy transition.
