NEW CENTURY MODERN

VIOSKI Shea Sectional

The Shea Sectional draws inspiration from Jeff's architectural background, incorporating different "spaces" within the sofa itself. It features a spacious corner lounge, a 30" deep loveseat, a 24" deep extended end, and a wood console nestled into the sofa's design. These elements come together to create a sectional that is both visually stunning and exceptionally comfortable from every angle.

VIOSKI

Shea Sectional

The Shea Sectional, like many pieces in the Vioski collection, offers many customization options. You can adjust its length, depth, and even height to suit your specific needs. The pictured "Double Shea" configuration features two Shea sofas, two consoles, and two corner lounge seats, making it ideal for a spacious room where the sectional can be fully appreciated, highlighting the elegant consoles.

Shea Sectional

The Shea Console can be veneered in one of two standard wood species: rift-cut white oak or flat-cut walnut. Both with a matte finish.

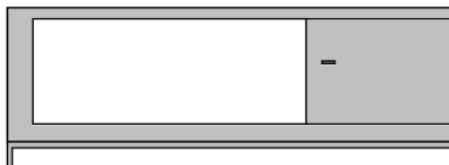

The console's handle and base, as well as the legs of the sofas themselves, can be finished in the standard finishes of satin chrome or matte black powder coat.
