

Our Story

2018 — The Beginning:

We entered under the brand name **FURNACE** into the workspace furniture industry, creating customized solutions for manufacturing sectors, and served over 104+ satisfied clients.

Workbenches

Storage System

Today — The Evolution:

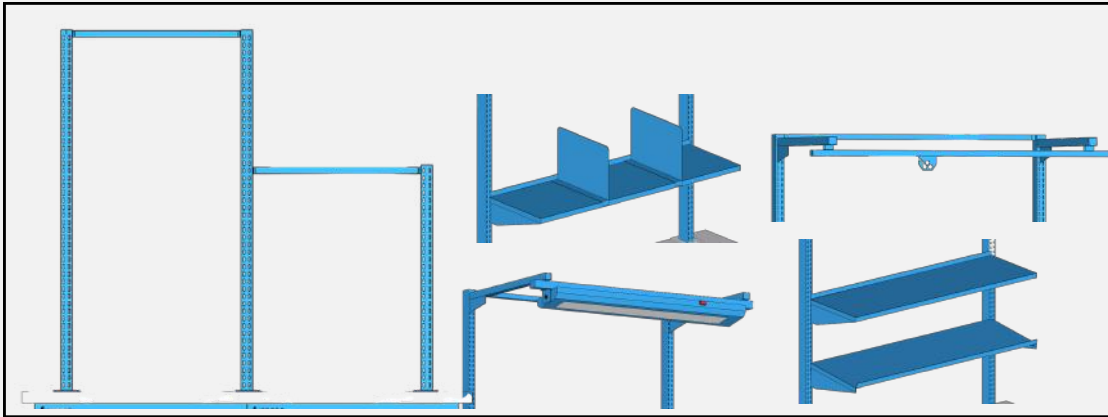

As work environments evolved, **FURNACE** transformed into **FURNISYS**— a brand that delivers modular, configurable, and scalable systems for companies moving towards standardization, adapting seamlessly across industries and applications.

Work Systems

Storage System

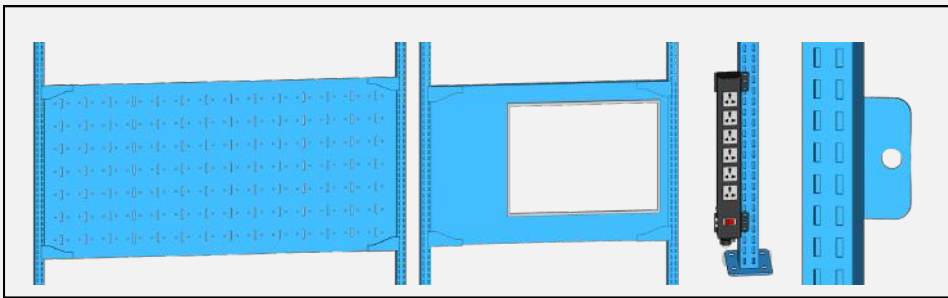

1. Modular

Link Uprighter Accessories

(Shelves & Lighting Accessories)

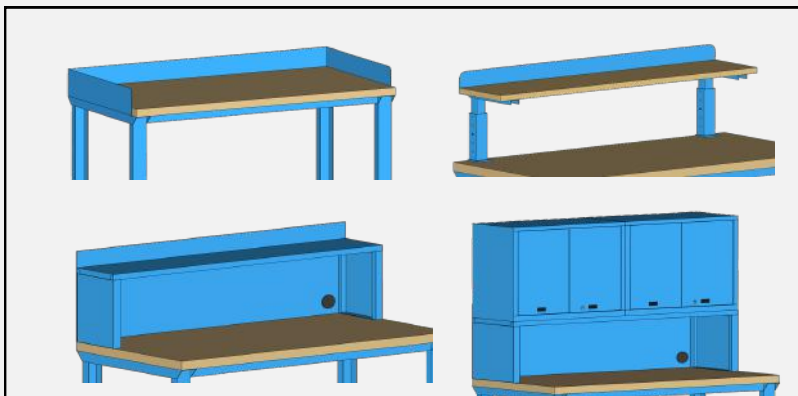

Add adjustable shelves, dividers, or overhead lighting to maximize storage and visibility.

Link Uprighter Accessories

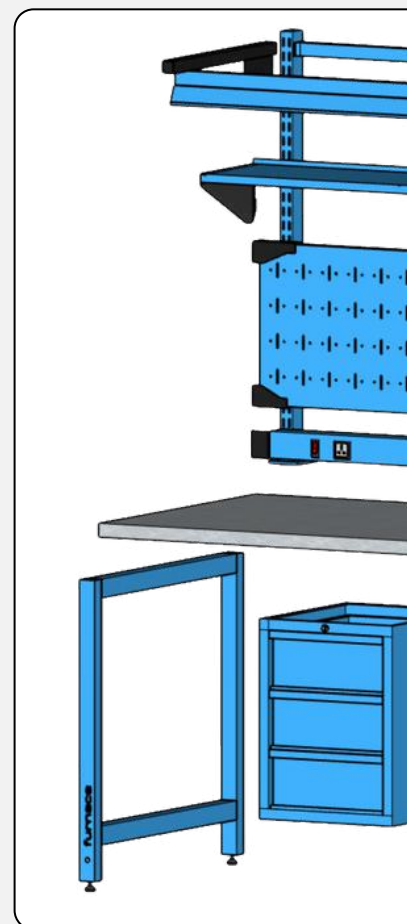

(Pegboard, power & tool rail options)

Pegboards, power rails, and air hose attachments bring tools, utilities, and organization within easy reach.

Pro Workbench Above-Worksurface Accessories

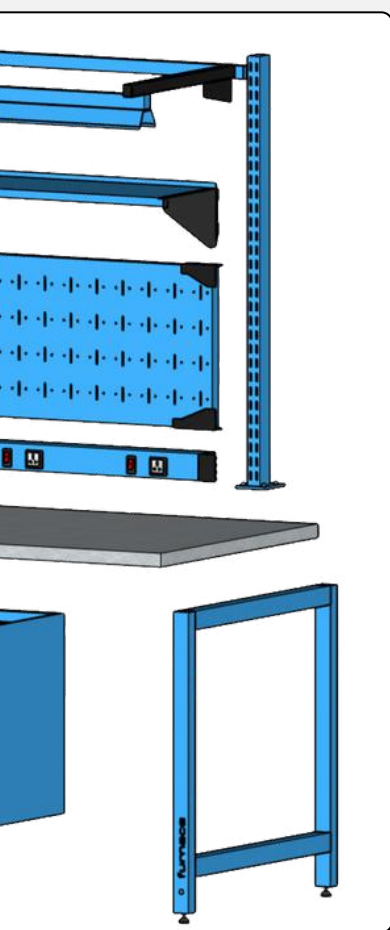

Add riser shelves, backstops, or overhead storage for smarter use of vertical space.

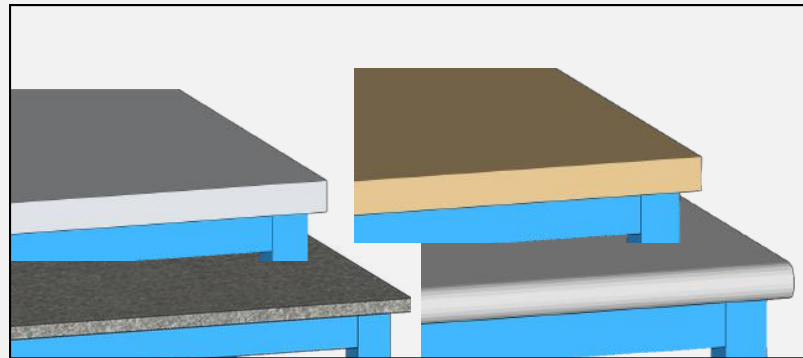

Every workbench is made of components — each with a specific function and designed to meet your needs.

Benefits

Customizable by Design

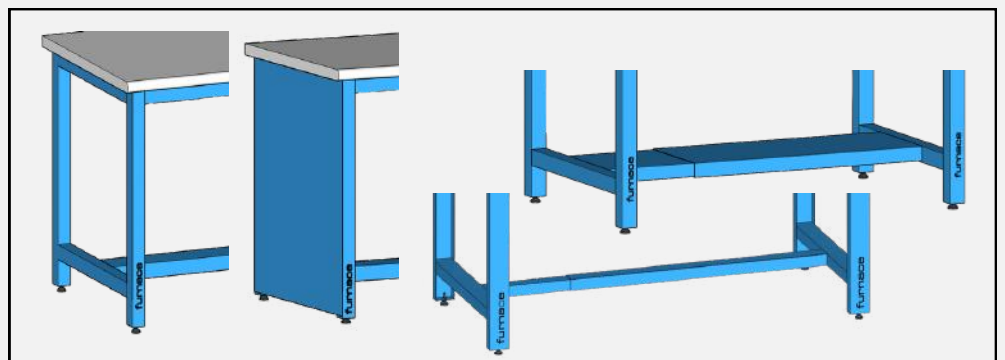

built from modular
designed to perform a
combine seamlessly for
process.

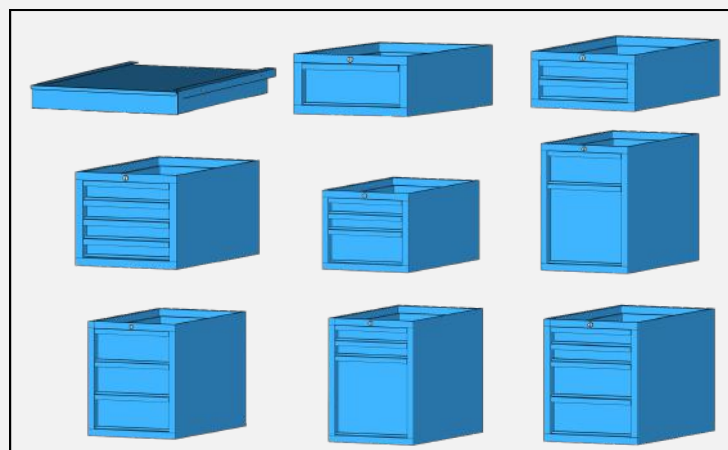

Worktops

Different surface options, HPL, PLW, wood+SS, etc built for strength, durability, and chemical resistance — choose what fits your task best.

Pro Below-Worksurface Accessories

Legs, stringers, and shelves combine to create a stable, ergonomic base for heavy-duty operations.

Hanging cabinets

Modular drawers keep your tools and materials organized, right where you need them.

Inspection Workstation

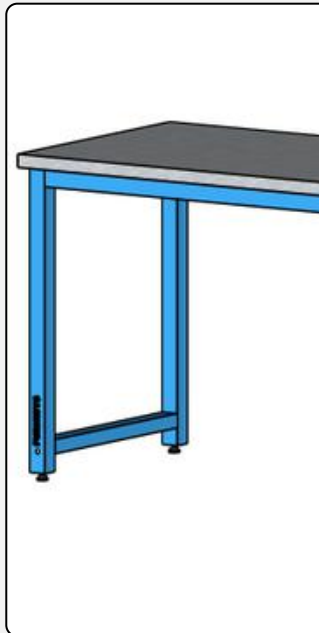

Combine multiple drawers, ESD-safe surfaces, and full-panel riser shelves for precision evaluation work.

2. Configure Every Ap

R&D Workstation

Integrate ESD accessories, link uprighters, and storage, ideal for testing, development, and innovation zones.

ing functionality.

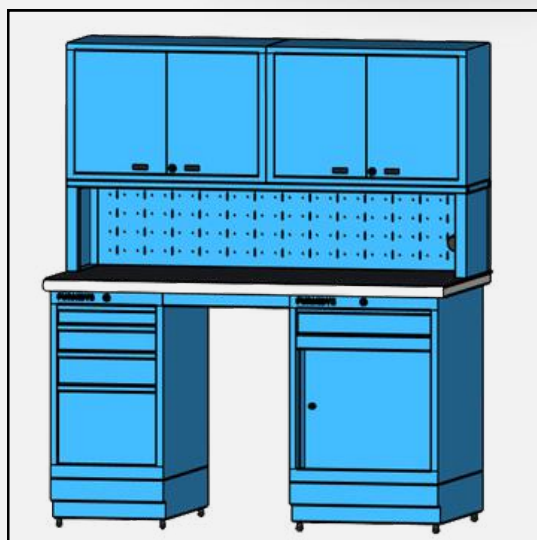

Integrate a perforated
panel and overhead
cabinet

create a defined workspace
with visual order.

Add a base cabinet

introduce heavy-duty,
lockable storage for tools
or materials.

Expand to two base
cabinets

evolve your bench into a complete
multi-utility workstation.

Manufacturing Infra:

Furnisys delivers end-to-end manufacturing in a 22,000 sq. ft. state-of-the-art facility in Navi Mumbai, covering precise material cutting, CNC bending, selective welding, advanced chemical pre-treatment, high-quality powder coating, meticulous assembly, rigorous inspection, and seamless installation, ensuring robust, modular workspace solutions with superior quality and fast lead times.

Our Value Chain

Product/ Program

Defines and governs the system, what we build, why it exists, and how it scales.

Sales/ Marketing

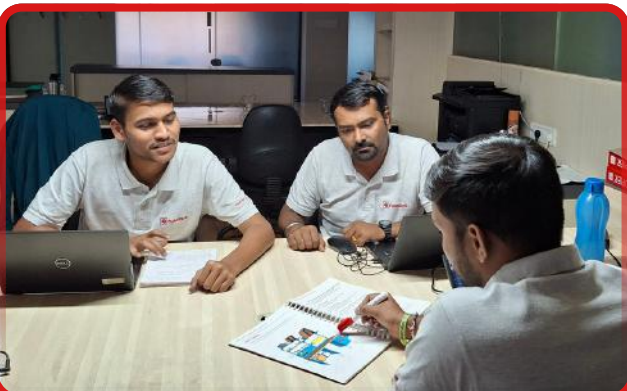

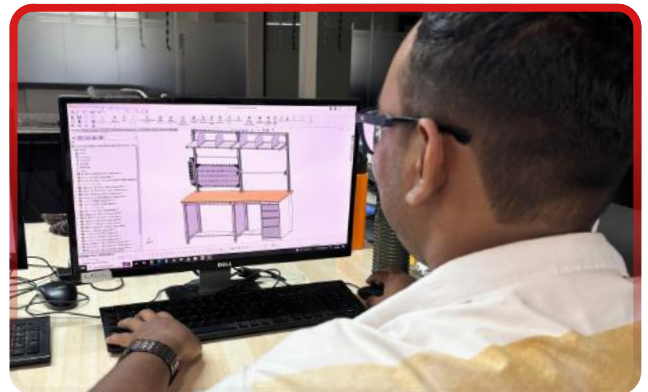

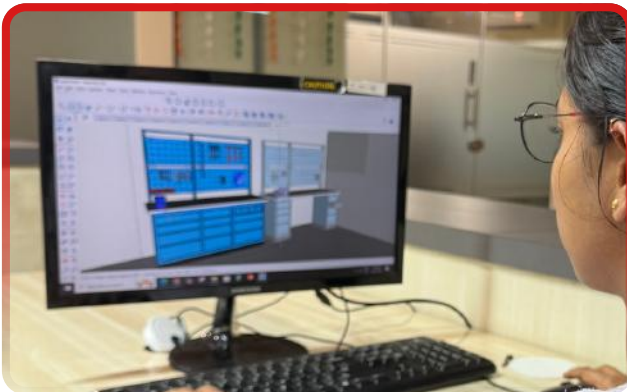

Connects the system to real applications and the right customers.

Design/ Operations

Turns system logic into reliable, buildable solutions.

Manufacturing

Builds with consistency, quality, and repeatability at scale.

LEAN WORKSPACES

Lean workspace is a cluster of planned methods that emphasize on eliminating non value added activities (waste) while delivering quality products/services on time with least cost and greater efficiency.

WHY IS IT IMPORTANT?

In business, even small enhancements in productivity and efficiency can have a big impact on your bottom line. Whether it is through shortened lead times, reduced waste, minimized downtime or improved quality, operations look for every advantage at any stage.

WHERE DO WE COME IN?

In an effort to improve sales and increase profit most businesses have an innate tendency to look for 'jugaad' to enhance productivity and efficiency. While these 'jugaads' can be a temporary solution, they tend to fail while scaling up and meeting international trade standards.

Furnisys helps to formalize these jugaads through its flexible and scalable furniture systems which are in line with global trade standards.

How do we do it?

Value

Furnisys focuses on understanding the customer's value offering. This could include: quality, timeline for manufacturing/delivery, price point; which would determine the approach towards designing the furniture systems.

Value Stream

Mapping the value stream (material flow and workflow) helps to identify and minimize the waste. This enables us to get a holistic view of the processes and allows Furnisys to integrate and optimize the furniture systems accordingly.

Flow

Efficient flow requires items to move from production to shipping without interruption and can be achieved by strategically organizing the work floor. A well-organized work floor will result in reduced production time, inventory size and material handling. Furnisys's extensive range of products and accessories helps achieve the highest level of organization.

Pull

Having a pull/JIT (Just In Time) system would help businesses: increase output, maximize usable workspace, reduce inventories, eliminate overproduction or underproduction, and eliminate errors caused by having too much WIP. Furnisys's work and storage systems are designed to bring visibility to each of the work cells.

Perfection

Seeking perfection requires companies to continuously improve (Kaizen) their practices and a shift in the workplace culture. Kaizen results in increased efficiency, lower costs, greater productivity, and better quality products. Furnisys designs furniture to adapt to the dynamic work needs which are reflected in the work culture.

WORKSPACE ERGONOMICS

Workspace ergonomics is defined as the science of designing a workspace, keeping in mind the capabilities and limitations of the worker.

Poor workspace design could lead to a costly injury, lower productivity and poor product quality.

Incorporating workspace ergonomics provides workers with a job that is within their body's capabilities and limitations which eventually translates to the company's bottom line. Done well, an **ergonomic workspace** can be a key contributor to a company's competitiveness in the marketplace and provide a **better work experience** for its workforce.

Businesses today need to make a conscious call- either to spend on heavy and **recurring workforce training costs** or on the **right workspace systems** which can maximize the **work performance**. Furnisys products are designed to integrate the **principles of workspace design** and **human physical demands** to ensure a balance between **well-being, convenience, and efficiency** of the workforce.

VALUE INVESTMENT

Furnisys strives to add value at every stage of its buyer's business journey. Being fully aware of the versatile stages that our buyers go through, our team focuses on empowering its buyers at their pace. Empathizing with project dynamics, its complexity and time sensitivity; we approach projects in three ways; namely Pre-configured, Configurable and Space Integrator.

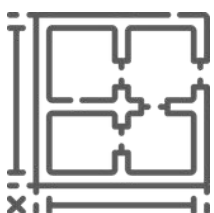

Pre-Configured

We have uncovered an extensive set of solutions that have been repeatedly used by buyers which we showcase as a **Pre-configured** range of products. This approach not only **saves time and bandwidth to configure** a solution but also to **deliver it; reducing the overall project life cycle** thus saving resources.

Configurable Approach is well suited for situations that need a **custom solution** due to the **criticality** behind its function. In order to efficiently adopt this approach, we have **pre-engineered** and **modularized** the products so that the buyer can **custom play** it to their needs thus allowing the buyer to **reduce the functional risk** attached with custom fabricating products while getting **reliability** as well as **flexibility**.

Configurable

Space Integrator

We suggest **Space Integrator** Approach for situations where a **workspace** is being **newly designed** or **redesigned fundamentally**. Through this approach, we focus on designing the solution based on the **operative needs** of the work; **space utilization** (Maximisation vs Optimisation) objectives; **integrating** with auxiliary space elements like **mechanical, electrical and plumbing**.

BASE SERIES

All purpose workbench series designed to functionally serve your basic workspace needs.

1

Variety of multi-functional worksurfaces

Advantage: Operation centric tops available in a variety of sizes

Benefit: Worksurface always appropriate to application

2

Sturdy table frame

Advantage: Provides support for heavy duty operations

Benefit: Increase longevity and durability of the product

3

Available in different configuration (Linear/L Configuration)

Advantage: Increased workflow flexibility

Benefit: Helps to optimize and maximize your space

4

Wide choice of above and below worksurface accessories

Advantage: To provide ergonomic ease, better organization

Benefit: Multi-operational ability, Easy access to parts/tools, Saves time, Increases work satisfaction

5

Leg Extender

Advantage: Height adjustment based on operator's height and/or operational dynamics

Benefit: Reduces operator fatigue or injury and increases work efficiency

6

Available hanging drawer

Advantage: Additional storage space below the worksurface

Benefit: Lean and organized storage

7

Powder coated finish (with color options)

Advantage: Protects the product from corrosion and abrasion

Benefit: Increases product life and longevity, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Base Workbench Worksurface Options

Base workbenches are available in twelve standard sizes and two heights. Simply choose the base size, height and worksurface that best suits your needs, and add appropriate accessories.

Base Workbench

- Workbench height is 30" (76 cm) or 36" (91 cm)
- Heavy-duty 2" x 2" tubular legs include levelling glides
- Load capacity for bench is 1,000 lbs. (454 kg) evenly distributed

Worksurface Material Legend

PLW = Postform Laminated Particle Board
PELW = Postform Electrostatic Laminated Particle Board
GW = GI + Plyboard
SSW = SS + Plyboard
HPL = High Pressure Laminate

Select a color from the chart on the inside back cover.

Actual depth of 36"D laminate worksurface is 35.25"

Base All Purpose Workbench

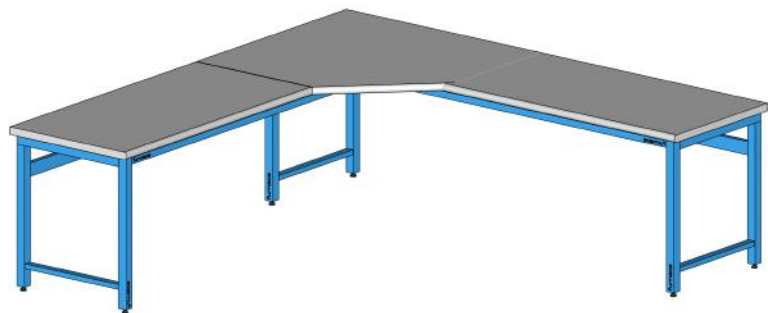

“L” Configuration

Available in multiple sizes and with 2 piece top or 3 piece top with diagonal corner piece. Two piece tops are all square edge. Three piece tops in laminate have front radius edge. Both may be assembled with left hand or right hand orientation. This configuration eliminates the knee space interference of the bench leg that occurs when two independent benches are aligned in the “L” configuration.

PRO SERIES

An industrial grade workbench series designed to withstand rough work environments.

1

Variety of resilient worksurfaces

Advantage: Rugged top options available in variety of sizes

Benefit: Increases bench durability even in super heavy duty operations

2

Heavy duty welded leg

Advantage: Provides support for super heavy-duty applications

Benefit: Increase load capacity and durability of workbench

3

Wide choice of above & below work surface accessories

Advantage: To provide ergonomic ease, Better organization

Benefit: Multi-operational ability, Easy access to parts/tools, Saves space, Increases work satisfaction

4

Choice of storage cabinet/hanging drawer sizes and styles

Advantage: Provides additional storage space below the worksurface

Benefit: Lean and organize storage, Optimized Space

5

Optional drawer compartment accessory

Advantage: Helps to organize tools, equipment's and components

Benefit: Better organization, Faster retrieval

6

Locking options available for cabinet/drawer

Advantage: Provides security for equipment, tools and components

Benefit: Reduces loss/misplacement risk

7

Ergonomic handle

Advantage: Reduce the likelihood of injury/fatigue

Benefit: Improve safety, Provide ergonomic ease

8

Powder coated finish (with color options)

Advantage: Protects the product underneath from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Preconfigured Pro Workbenches (Standing Height)

Preconfigured workbenches includes base cabinets of 22 3/16" Width (see pages 157-162 of [Configurable Catalog](#) for description).

How to order an Preconfigured Pro Workbench

1. Select Preconfigured workbench.

2. # Select worksurface style.

GW* = GI+Plyboard with Rubber Mat
PLW = Postform Laminated Particle Board
SSW = SS + Plyboard
*All worksurfaces have a standard square edge.

3. # Select worksurface size.

4830 = 48" long x 30" deep
6030 = 60" long x 30" deep
7230 = 72" long x 30" deep
4836 = 48" long x 36" deep
6036 = 60" long x 36" deep
7236 = 72" long x 36" deep

4. # Select paint color.

For color chart, see inside back cover.

EXAMPLE:

To order a PRWB-0110 workbench with a 72" long postform laminated particle board worksurface and Blue paint, part number would be PRWB-0110-PLW-7230-BE.

5. Select cabinet pedestals (for PRWB-013X and PRWB-016X configurations).

For Preconfigured base cabinets, see pages 157-162 of [Configurable Catalog](#) for 16.85" and 22.20" Width Full Depth Cabinets.

EXAMPLE (CUSTOMER - SPECIFIED CABINETS):

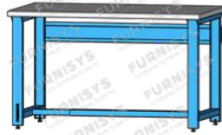

to order a PRWB-0130 workbench with a 72" long Postform laminated particle board worksurface, and an BC-342229-6D-001-NL-NB base cabinet with Blue paint, the workbench part number would be PRWB-0130-PLW-7230-BE, and the cabinet part number would be BC-342229-6D-001-NL-NB-BE.

Workbenches with 2 Pro Legs

Overall bench height including worksurface is 35 1/4".

Includes:

- 2 Pro Legs (legs are 33 1/2" high)
- stringer (Fixed Foot Rest)

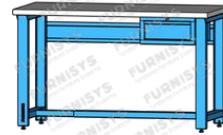

PART NO. PRWB - 0100 # # #

Workbenches with 2 Pro Legs and 1 Drawer

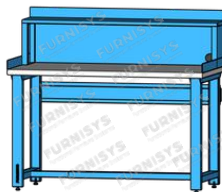

Overall bench height including worksurface is 35 1/4".

Includes:

- 2 Pro Legs (legs are 33 1/2" high)
- 1 stringer (Fixed Foot Rest)
- 1 PR-081719-1DOD-001-WO-IL-BH-1 Hanging cabinet (8 1/7" High)

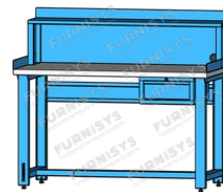

PART NO. PRWB - 0110 # # #

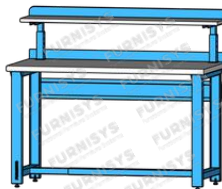

PART NO. PRWB - 0102 # # #

- INCLUDES
- Stationary Riser shelf with back stop (Depth 10 1/2") & Full rear panel
 - Worksurface with end stop

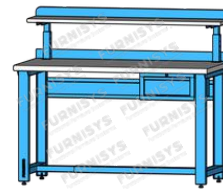

PART NO. PRWB - 0112 # # #

- INCLUDES
- Stationary Riser shelf with back stop (Depth 10 1/2") & Full rear panel
 - Worksurface with end stop

PART NO. PRWB - 0103 # # #

- INCLUDES
- 12" Depth Adjustable riser shelf with back stop
 - Worksurface with back stop and end stop

PART NO. PRWB - 0113 # # #

- INCLUDES
- 12" Depth Adjustable riser shelf with back stop
 - Worksurface with back stop and end stop

Workbenches with 1 Pro Leg and 1 Cabinet

Overall bench height including worksurface is 35 1/4".

Includes:

- 1 Pro Leg (legs are 33 1/2" high)
- 1 stringer (Fixed Foot Rest)
- 1 Base Cabinet - BC-282229-4D-001-IL-6FB (22.2"Width, 4 Drawer , 27.5" Height, 6" Frame base & individual lock)

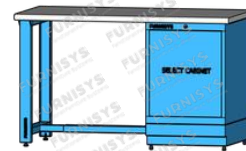

PART NO. PRWB - 0120 # # #

Workbenches with 1 Pro Legs and 1 Customer-specified Cabinet

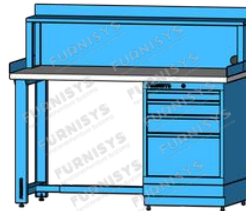

Overall bench height including worksurface is 35 1/4".

Includes:

- 1 Pro Leg (leg is 33 1/2" high)
- 1 stringer (Fixed Foot Rest)
- Choose Base Cabinet (22.2"Width or 16.85"Width, 27.5"Height , with 6" Frame base with Individual Lock)

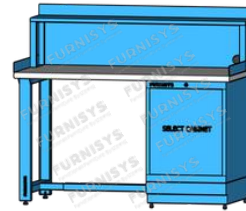

PART NO. PRWB - 0130 # # #

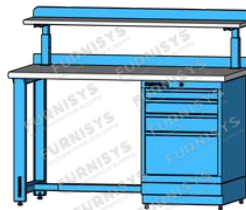

PART NO. PRWB - 0122 # # #

- INCLUDES**
- Stationary Riser shelf with back stop (Depth 10 1/2) & Full rear panel
 - Worksurface with end stop

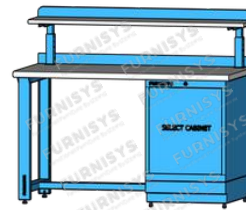

PART NO. PRWB - 0132 # # #

- INCLUDES**
- Stationary Riser shelf with back stop (Depth 10 1/2) & Full rear panel
 - Worksurface with end stop

PART NO. PRWB - 0123 # # #

- INCLUDES**
- 12" Adjustable riser shelf with back stop
 - Worksurface with back stop and end stop

PART NO. PRWB - 0133 # # #

- INCLUDES**
- 12" Adjustable riser shelf with back stop
 - Worksurface with back stop and end stop

Workbenches with 2 Cabinets

Overall bench height including worksurface is 35 ¼".

Includes:

- 1 Base Cabinet - BC-282229-4D-001-IL-6FB (22.2"Width, 4 Drawer , 27.5" Height, 6" Frame base & individual lock)
- 1 Base Cabinet - BC-282229-1D1S-001-IL-6FB (22.2"Width, 1 Drawer 1 Shutter unit, 27.5" Height, 6" Frame base & individual lock)

PART NO. PRWB - 0140 # # #

Workbenches with 2 Cabinets

Overall bench height including worksurface is 35 ¼".

Includes:

- 1 Base Cabinet - BC-282229-5D-001-IL-6FB (22.2"Width, 5 Drawer , 27.5" Height, 6" Frame base & individual lock)
- 1 Base Cabinet - BC-282229-1S-001-IL-6FB (22.2"Width, 1 Shutter unit, 27.5" Height, 6" Frame base & individual lock)

INCLUDES • 12" Adjustable riser shelf with back stop
• Worksurface with back stop and end stop

Preconfigured Pro Mobile Workbenches

Preconfigured mobile workbenches comes with 2 fixed and 2 swivel with lock 6" x 2" castors. These mobile workbenches comes with pre-configured options of hanging drawer, backstop, endstop and riser shelves.

How to order a Preconfigured Pro Mobile Workbench

1. Select Preconfigured workbench.

2. # Select worksurface style.

GW* = GI+Plyboard with Rubber Mat

PLW = Postform Laminated Particle Board

SSW = SS + Plyboard

*All work surfaces have a standard square edge except PLW, which has a bullnose edge.

3. # Select worksurface size.

4830 = 48" long x 30" deep

6030 = 60" long x 30" deep

7230 = 72" long x 30" deep

4836 = 48" long x 36" deep

6036 = 60" long x 36" deep

7236 = 72" long x 36" deep

4. # Select paint color.

For the color chart, see inside the back cover.

EXAMPLE:

To order a PRWB-0110 workbench with a 72" long postform laminated particle board worksurface and Blue paint, part number would be PRWB-0110-PLW-7230-BE.

5. Select cabinet pedestals (for PRWB-013X and PRWB-016X configurations).

For Preconfigured base cabinets, see pages 157-162 of Configurable Catalog for 16.85" and 22.20"

Width Full Depth Cabinets.

EXAMPLE (CUSTOMER - SPECIFIED CABINETS):

to order a PRWB-0130 workbench with a 72" long Postform laminated particle board worksurface, and an BC-342229-6D-001-NL-NB base cabinet with Blue paint, the workbench part number would be PRWB-0130-PLW-7230-BE, and the cabinet part number would be BC-342229-6D-001-NL-NB-BE.

Mobile Workbenches with 2 Pro Mobile Legs

Overall bench height, including worksurface, is 35 1/4". Includes:

- 2 Pro Mobile Legs (legs are 33 1/2" high)
- 1 stringer

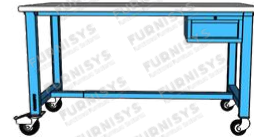

PART NO. PRWB - 0200 # # #

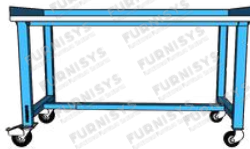

Mobile Workbenches with 2 Mobile Legs and 1 Drawer

Overall bench height, including worksurface, is 35 1/4". Includes:

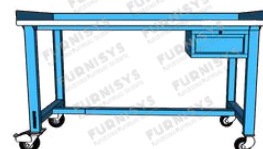

- 2 Pro Mobile Legs (legs are 33 1/2" high)
- 1 stringer
- 1 hanging drawer.

SCITEC SERIES

An adaptable workbench series designed for diverse technical environment.

- 1 Variety of technical worksurface**
Advantage: Technical operations/Environment centric worksurface options
Benefit: Higher performance against application, Increased job safety
- 2 Fully enclosed scitec leg**
Advantage: Reduces chances of dust/dirt settlement
Benefit: Cleaner workspace
- 3 Wide choice of above & below work surface accessories**
Advantage: To provide ergonomic ease, Better organization
Benefit: Multi-operational ability, Easy access to parts/tools, Saves space, Increase work satisfaction
- 4 Optional riser with built-in power supply**
Advantage: Helps you get access to power supply at your work place
Benefit: Optimized Space, Helps to perform power supply based operations with ease
- 5 Choice of storage cabinet/hanging drawer sizes and styles**
Advantage: Provides additional storage space below the worksurface
Benefit: Lean and organize storage, Space optimization
- 6 Optional drawer compartment accessory**
Advantage: Helps to organize tools, equipment's and components
Benefit: Better organization, Faster retrieval
- 7 Locking options available for cabinet/drawer**
Advantage: Provides security for equipment, tools and components
Benefit: Reduces loss/misplacement risk
- 8 Ergonomic handle**
Advantage: Reduce the likelihood of injury/fatigue
Benefit: Improve safety, Provide ergonomic ease
- 9 Powder coated finish (with color options)**
Advantage: Protects the product underneath from corrosion and abrasion
Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

For more configuration features please view - [Configurable catalog](#).

Preconfigured Scitec Workbench (Standing Height)

Easy-Order Scitec series workbench include 16.85" width base cabinets (see pages 158-162 of [Configurable Catalog](#) for descriptions). For additional Pegging Accessories refer to Pg. 73-75 of [Configurable Catalog](#).

How to order a Preconfigured Scitec Workbench

1. Select Preconfigured workbench

2. # Select worksurface style.

GW* = GI+Plyboard with Rubber Mat
PLW* = Postform Laminated Particle Board with Rubber Mat
(This work surface has a bullnose front edge.)

3. # Select worksurface size.

4830 = 48" long x 30" deep
6030 = 60" long x 30" deep
7230 = 72" long x 30" deep
4836 = 48" long x 36" deep
6036 = 60" long x 36" deep
7236 = 72" long x 36" deep

4. # Select paint color.

For color chart, see inside back cover.

EXAMPLE:

To order a SWB-0100 workbench with a 72" long postform laminated particle board worksurface and Blue paint, the part number would be SWB-0100-PLW-7230-BE.

5. Select cabinet pedestals (for SWB-012X and SWB-015X configurations).

For Preconfigured base cabinet, see pages 158-162 of [Configurable Catalog](#) for 16.85" Width and 22.2" Width Base Cabinets.

EXAMPLE

(CUSTOMER-SPECIFIED CABINETS):

To order a SWB-013X workbench with a 72" long postform laminated particle board worksurface, and an BC-341729-6D-001-NL-NB base cabinet with Blue paint, the workbench part number would be SWB-013X-PLW-7230-BE and the cabinet part number would be BC-341729-6D-001-NL-NB-BE.

Workbench with 2 Scitec Panel Legs

Overall bench height including worksurface is 35 ¼".

Includes:

- 2 Scitec Panel Legs (legs are 33 ½" high)
- 1 Pair of Top Support Rails
- 1 stringer (Fixed Foot Rest)

PART NO. SWB - 0100 # # #

LINK SYSTEM

A functional system consisting of uprighter, Workstands, Trolleys and Flow racks. Its uprighter is designed to integrate with Base, Pro, Scitec, Pack Workbench Series as well as any existing workbench at the buyer's end. The stands, trolleys and Flow racks can be used independently or integrated with each other.

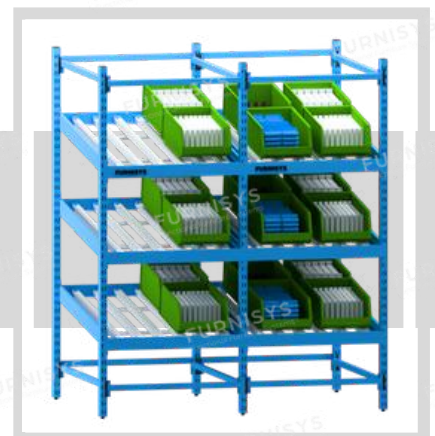

**Link
Uprighter**

**Link Workstation
& Workstand**

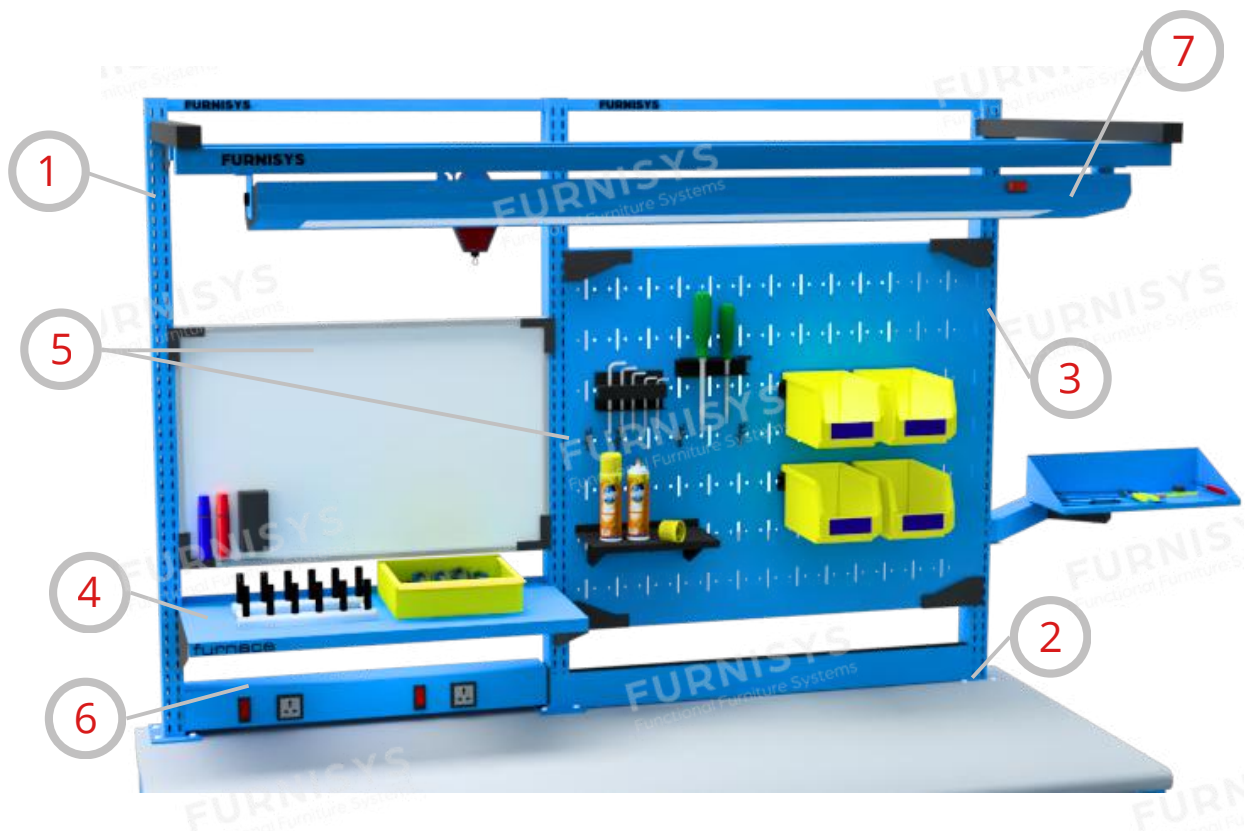

Link Trolley

**Link
Flow Rack**

LINK UPRIGHTER

Enhance the efficiency of any of our workbenches by integrating the link uprighter system with it. Link Uprighter can also be independently used by fixing it to a wall.

Note: Accessories shown in the image are for illustration purposes only. Pegboard accessories are not included in our offering.

Link Uprighter Frame

1

Advantage: Ergonomically designed to meet the needs of broad variety of jobs

Benefit: Easy accessibility with no strain; increase productivity, Functionality and flexibility

Mountable on any existing workbench

2

Advantage: Easily retrofitted to any machinable worksurface

Benefit: Cost effective solution

Starter/ Adder frame

3

Advantage: Easy reconfiguration, Can easily be adapted or expanded to meet changing needs

Benefit: Maximizes vertical as well as horizontal space

Variety of Shelves

4

Advantage: Shelf can be chosen and positioned to best suit each user

Benefit: Increased Storage efficiency, Increased ergonomic adaptability

Variety of Panels

5

Advantage: Sturdy panels like pegboard, privacy, reversible marker/tack boards can easily attach between frame upright

Benefit: Exactly suits specific needs

Variety of Rails

6

Advantage: Helps to give access and support storage system via bin rail, power rail and tool rail

Benefit: Lean Storage solution

Lighting Provision

7

Advantage: Option to choose between focused lighting and/or Overall workstation lighting

Benefit: Proper illuminated work area, Reduce job errors

Powder coated finish (with color options)

8

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

For more configuration features please view - [Configurable catalog](#).

Preconfigured Link
System combinations

Each combination includes 1 Link Uprighter starter frame at the height shown. Combinations designated with “LU” Link Uprighter frame mount to a Furnisys or other workbench with a worksurface at least 6” longer than the Link frames. For additional Pegboard Accessories refer to Pg. 73-75 of [Configurable Catalog](#).

How to order an Preconfigured Link
Accessory Combination

1. Select Preconfigured Link Accessory

2. # Select worksurface length.

48 = 48” long (combination consists of 42” wide starter frame)

60 = 60” long (combination consists of 48” wide starter frame)

72 = 72” long (combination consists of 60” wide starter frame)

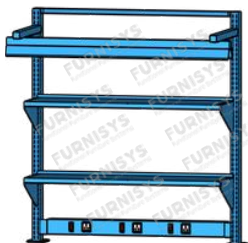

3. # Select paint color.

For color chart, see inside back cover.

EXAMPLE:

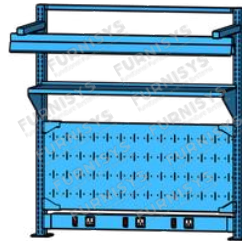

To order an LU-1002-48 Link surface mount frame to install on a 60”long worksurface, with Blue paint , the part number would be LU-1002-48-60-BE

LINK FLOW RACK

Link Flow Racks is a functional material handling solution to feed parts for picking, kitting and assembly operations. Having a gravity based part feeding mechanism helps reduce the need for helpers.

Flow rack frame

1

Advantage: Its multipurpose nature helps to either use the flow rack by itself or integrate with workstation

Benefit: Increased product application flexibility

Adjustable leveling guides

2

Advantage: Helps in levelling the structure

Benefit: Better Stability

Starter and adder assembly

3

Advantage: Can be added to create an integrated workspace, multiply the storage space easily

Benefit: Maximise the workspace footprint

Flow rack shelf assembly (adjustable angle)

4

Advantage: Provide flexibility to tweak the angle to suit convenience of the operator

Benefit: Better visibility of inventory, Reduce fatigue, Space optimization

Roller tracks and guide

5

Advantage: Frequent stock rotation for picking, kitting & assembly operation

Benefit: Higher efficiency in workflow management

Powder coated finish (with color options)

6

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Preconfigured Link Flow Rack Combinations

• The combinations below are configured to be most useful in a wide variety of applications of applications

Starter Set

Adder Set

Combinations With 2 Shelves

Starter Set	Adder Set		
PART NO.	PART NO.	WIDTH	EACH SHELF INCLUDES
LFRS-8730-2	LFRA-8730-2	30"	(4) roller tracks and (1) guide
LFRS-8736-2	LFRA-8736-2	36"	(4) roller tracks and (1) guide
LFRS-8742-2	LFRA-8742-2	42"	(6) roller tracks and (2) guides
LFRS-8748-2	LFRA-8748-2	48"	(6) roller tracks and (2) guides
LFRS-8760-2	LFRA-8760-2	60"	(8) roller tracks and (3) guides

Starter Set

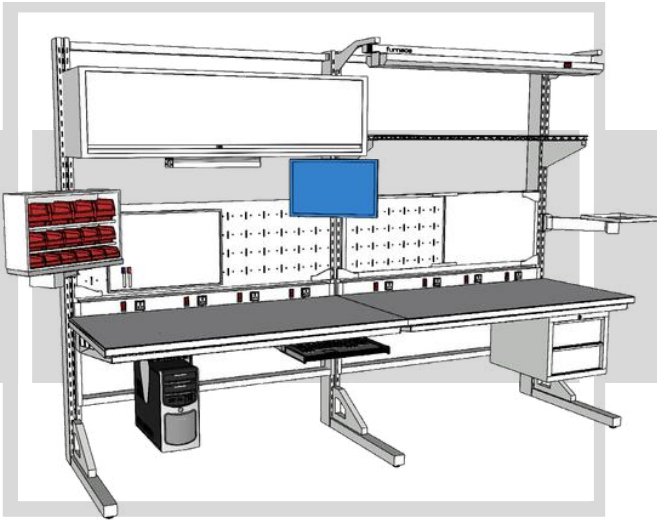

Adder Set

Combinations With 3 Shelves

Starter Set	Adder Set		
PART NO.	PART NO.	WIDTH	EACH SHELF INCLUDES
LFRS-8730-3	LFRA-8730-3	30"	(4) roller tracks and (1) guide
LFRS-8736-3	LFRA-8736-3	36"	(6) roller tracks and (1) guide
LFRS-8742-3	LFRA-8742-3	42"	(6) roller tracks and (2) guides

LFRS-8760-3	LFRA-8760-3	60"	(12) roller tracks and (3) guides

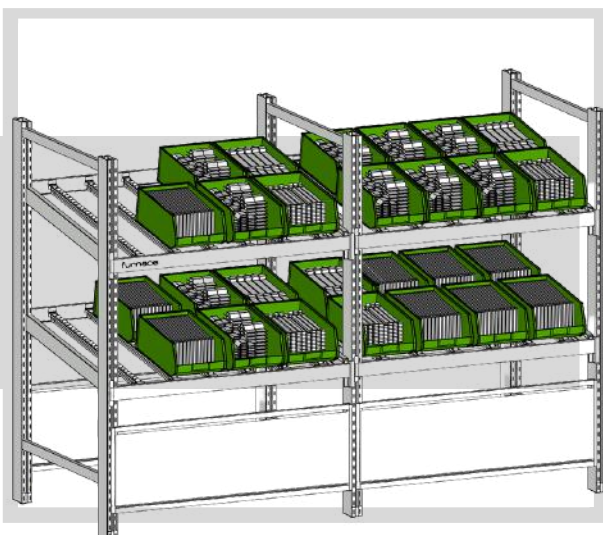

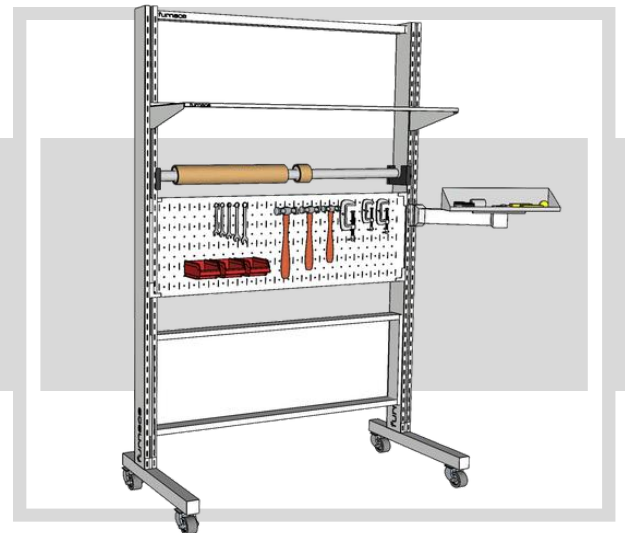

FLEXI SYSTEM

The most flexible independent work system, designed to seamlessly transition into various product ranges from Workbench, Carts to Flow Racks. Its unique micro and macro slot system enables maximum configurations and eases cross-product integration within its ecosystem.

**Flexi
Workstation**

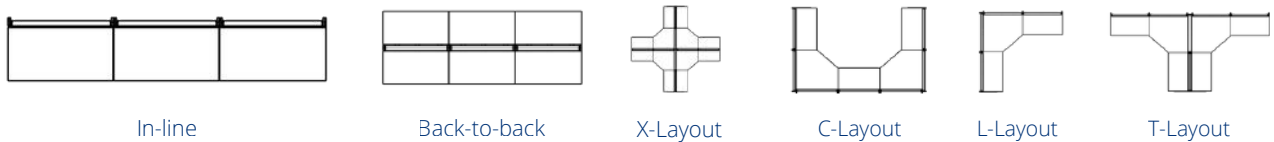

**Flexi
Universal Cart**

**Flexi
Flow Rack**

FLEXI WORKSTATION

Flexi Workstations is our most flexible workstation series which can not only easily adapt to a user's present needs but also reconfigure to cater the user's future needs. The flexibility behind these workstations can help achieve the maximum productivity per square foot. These workstations can also be integrated to achieve cost effective and highly efficient workflow through various configurations like in-line, in-line back-to-back, U, X L and T configurations as shown below:

Flexi system frame - Double sided Macro/Micro Slot

1

Advantage: It helps add maximum number of accessories while making it double sided workstation if needed

Benefit: Attain highest level of functionality per square foot

Variety of worksurfaces

2

Advantage: Wide range of medium duty worksurface options

Benefit: Higher work efficiency and longevity

Starter/ Adder frame

3

Advantage: Easy reconfiguration, Can easily be adapted or expanded to meet changing needs

Benefit: Maximizes vertical as well as horizontal space

Variety of shelves

4

Advantage: Shelf can be chosen and positioned to best suit each user

Benefit: Space optimization, Ergonomic adaptability

Variety of panels

5

Advantage: Sturdy panels like pegboard, privacy, reversible marker/tack boards can easily attach between frame upright

Benefit: Enhance work efficiency, Increased productivity

Variety of rails

6

Advantage: Helps to give accesses and support storage system via bin rail power and tool rail

Benefit: Lean Storage solution

Lighting provision

7

Advantage: Light fixture can be easily positioned at a desired angle

Benefit: Proper illuminated work area, Reduce errors

Available hanging drawer

8

Advantage: Additional storage space below the worksurface

Benefit: Lean and organized storage

Powder coated finish (with color options)

9

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Flexi Workstation System Configuration Options

Flexi workstations consist of a starter section, and adder sections as you need for your application.

Select from single- or double-sided starters, adders, or corners in all standard section widths and heights.

Easy-Order sections include all accessories shown in the charts to the right.

For additional Pegging Accessories refer to Pg. 73-75

How to order an Preconfigured Flexi Workstation

1. Select Preconfigured Flexi Workstation.

2. # Select worksurface size.

2430 = 24" long x 30" deep
3030 = 30" long x 30" deep
3630 = 36" long x 30" deep
4830 = 48" long x 30" deep
6030 = 60" long x 30" deep
7230 = 72" long x 30" deep

3. # Select worksurface style.

PLW = Postform Laminated Wood

*Worksurfaces have a standard square edge and are 30" deep.

4. # Select paint color.

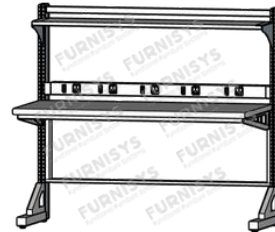

For color chart, see inside back cover.

EXAMPLE:

To order a FWS-1000-SS-54 Flexi Workstation with a 60" long PLW worksurface with Blue paint, the bench part number would be FWS-1000-SS-546030-PLW-BE

Double-Sided Starter

- Open Starter Uprighter Assembly
- Outriggers
- Worksurface assembly - Postform Laminated Wood
- Steel Shelf - Micro Slot
- Horizontal power rail

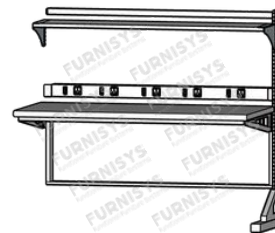

Single Sided Starters - Postform Laminated, 30" Depth

FLEXI UNIVERSAL CART

Flexi Universal Cart flexible can be used for organizing, storing and moving part, tools and equipment around various departments. All of the accessories on the flexi workstations can be interchangeable with Flexi Universal Cart.

Note: Accessories shown in the image are for illustration purposes only. Pegboard accessories are not included in our offering.

Flexi system frame

1

Advantage: Provide support, capable of handling the weight of storage and accessories

Benefit: Increase product longevity and durability

Single/Double sided cart

2

Advantage: Add accessories on both sides if needed

Benefit: Maximize the footprint, Increased flexibility

Lockable Casters for trolley

3

Advantage: Helps to bring mobility and position when needed

Benefit: Increased flexibility

Wide choice of link system accessories

4

Advantage: Caters to specific needs with accessories like shelves, panels, rails and other pivoting accessories

Benefit: Adaptable to your current application while catering to future needs

Powder coated finish (with color options)

5

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Flexi Universal Carts

Single- or double-sided modular carts can be configured with any combination of shelves, parts bins, utility bins, etc. to meet your exact needs. All are constructed using Flexi Starter column assembly to allow complete interchangeability of components with workstations. For additional Pegging Accessories refer to Pg. 73-75 of [Configurable Catalog](#).

Universal Carts

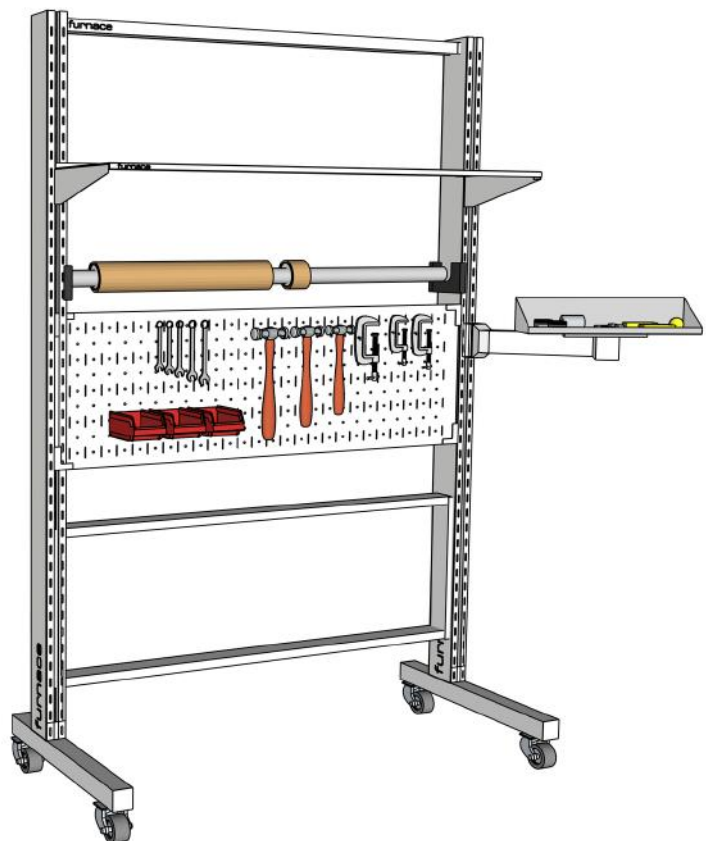

- 54" high carts feature 2 wheel-locking and 2 non-locking casters, 3 ½" diameter
- Wheels are rubber, non-marking

Accepts:

- Shelves – maximum shelf depth for parts cart is 14"
- Pegboard, reversible and modesty panels
- Bin rails
- Power, air and data beams
- Pivoting accessories

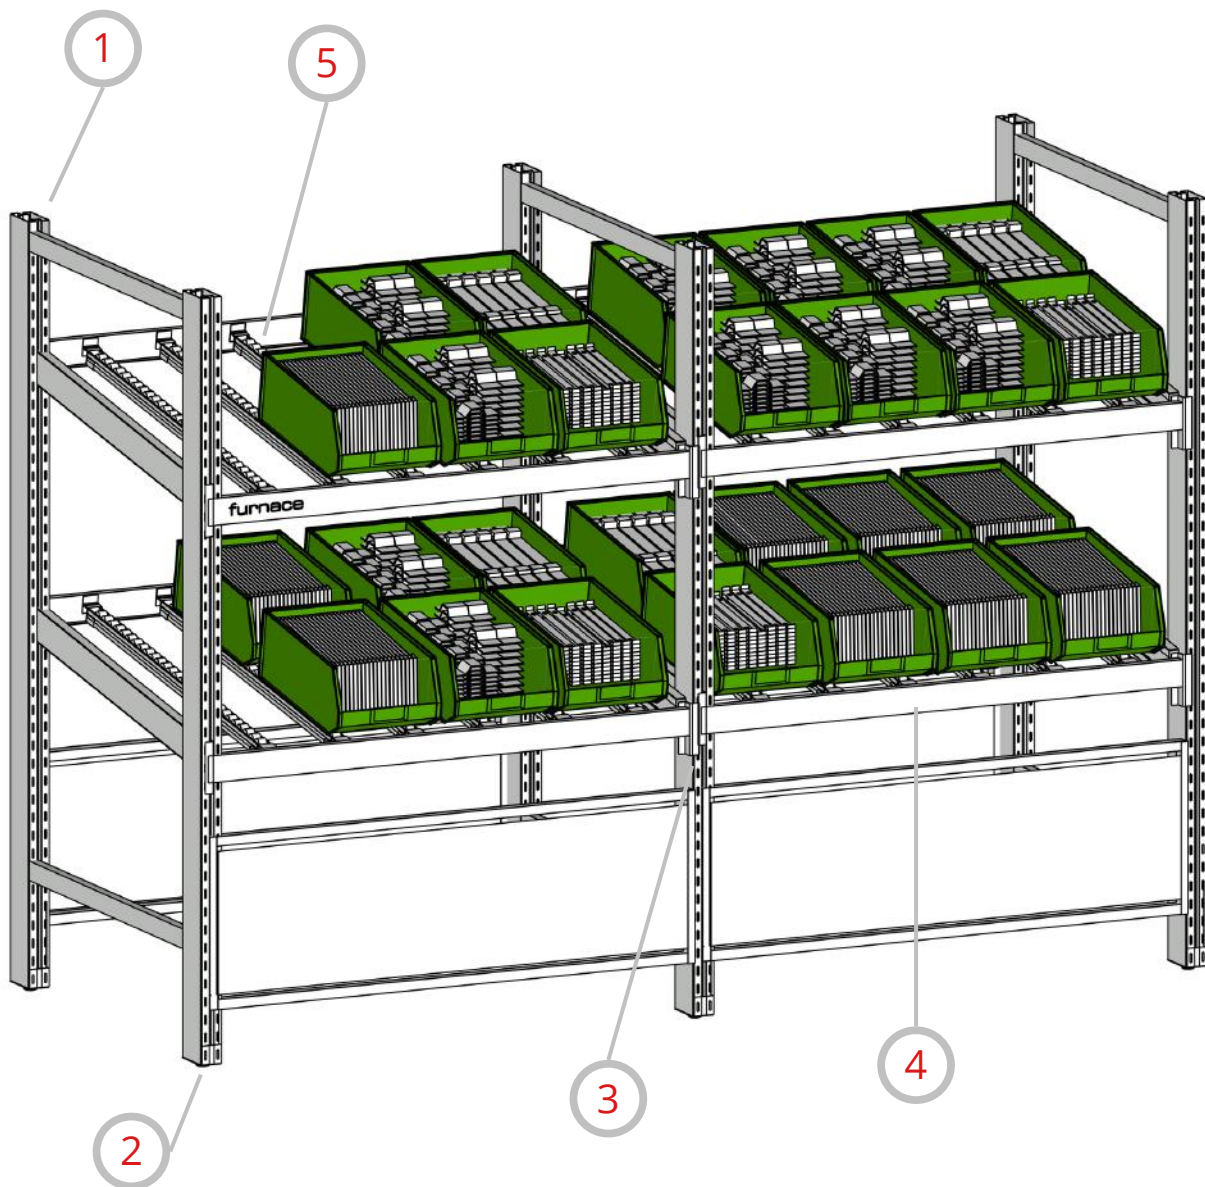

Universal Carts

PART NO.	SECTION LENGTH
SINGLE-SIDED	
FCSS-30	30"
FCSS-36	36"
FCSS-48	48"
DOUBLE-SIDED	
FCDS-30	30"
FCDS-36	36"
FCDS-48	48"

FLEXI FLOW RACK

Flow racks can be used to stage and deliver parts utilizing gravity, reducing material handling time and costs. Bins or totes are loaded on flow rack frames from the rear, and as operators remove one from the front, a new bin glides forward on rollers. Similarly, flow rack frames can be inclined away from an operator to allow removal of completed work.

Flow rack frame

1

Advantage: Provide support, capable of handling the weight of storage and accessories

Benefit: Increase product longevity and durability

Adjustable levelling glides

2

Advantage: Helps in levelling the structure and the roller tops

Benefit: Prevent frame from wobbling, Helps stabilize them on uneven surfaces

Stater and adder assembly

3

Advantage: Can be added to create an integrated workspace, multiply the storage space easily

Benefit: Maximises floor space utilised

Flow rack shelf assembly (adjustable angle)

4

Advantage: Provide flexibility to tweak the angle to suit convenience of the operator

Benefit: Better visibility of inventory, Reduce fatigue, Space optimization

Roller tracks and guide

5

Advantage: Frequent stock rotation for picking, kitting & assembly operation

Benefit: High efficiency in workflow management

Powder coated finish (with color options)

6

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Aesthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).

Flexi Flow Rack

Flow racks can be used to stage and deliver parts utilizing gravity, reducing material handling time and costs. Bins or totes are loaded on flow rack frames from the rear, and as operators remove one from the front, a new bin glides forward on rollers. Similarly, flow rack frames can be inclined away from an operator to allow removal of completed work. Flow racks are constructed utilizing the same Starter and Adder system common to all Flexi workstations. Worksurface assemblies and accessories as shown in this catalog can also be added to create a complete parts presentation and integrated workstation system. Ball transfer tables, other material handling worksurfaces may also be integrated into the worksurface as needed. Flow racks can be made mobile by the addition of caster sets. Flow rack sections may be joined side by side, using Starter and Adder assemblies to achieve any overall length and combination of section sizes.

Flexi Flow Racks

- Flexi flow racks sections are available in 4 standard widths from 30" to 60"
- Flow racks are height adjustable in 1" increments
- The flow rack angle is adjustable, 1400 lb. weight capacity

Flexi Flow Rack Starter Assemblies

- Consists of 2 starter assemblies, 2 outriggers, 1 flow rack shelf assembly and 4 connectors

Flexi Flow Rack Adder Assemblies

- Consists of 1 adder assembly, 1 outrigger, 1 flow rack shelf assembly and 2 connectors

Flexi Flow Rack Shelf Assemblies

- Shelf assembly includes roller tracks and guides as shown
- 3" high, 48" deep, 600 lb. weight capacity
- For additional roller tracks and guides, see chart to right

Flexi Flow Rack Shelf Accessories

- Shelves are slotted on 1 ½" increments to accept roller tracks and guides
- Guides separate sections
- Rollers are 1 1/16" wide; tracks are 1" wide
- Two rollers are recommended for rows up to 15" wide, and 3 or more for wider rows

**Mobile
Cabinet**

BASE CABINETS

Furnisys offers an extensive range of cabinets with multiple size and drawer options. Its heavy duty construction enables them to withstand heavy storage needs. Adding drawer partitions as an accessory to the base cabinets would allow a higher level of organization as well as maximizing cubic capacity of space.

Heavy duty base frame

1

Advantage: Sustains load of the cabinet, Helps to match height of the workbench if needed

Benefit: Provide stability support, Increased height flexibility

Choice of drawer's (No. of drawers & sizes)

2

Advantage: Systematic & efficient storage at your workspace

Benefit: Lean and organize storage, Optimised space

Optional drawer compartment accessory

3

Advantage: Helps to organize tools, equipment's and components

Benefit: Better organization, Faster retrieval

Heavy duty slides

4

Advantage: Requires minimum force, Ideal for harsh environment

Benefit: Extends life span of the drawers

Locking options available for cabinet/drawer

5

Advantage: Provides security for equipment, tools and components

Benefit: Reduces loss/misplacement risk

Ergonomic handle

6

Advantage: Reduce the likelihood of injury/fatigue

Benefit: Improve safety, Provide ergonomic ease

Powder coated finish (with color options)

7

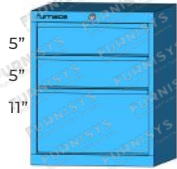

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Asthetically appealing workspace

MOBILE CABINET

Furnisys mobile cabinets can be used in cases when a workflow would require storage plus mobility.

1

Heavy duty castors

Advantage: Allows mobility to heavy duty cabinet

Benefit: Easy to maneuver, Allows flexibility

2

Choice of drawer's (No. of drawer's & sizes)

Advantage: Systematic & efficient storage at your workspace

Benefit: Lean and organize storage, Space optimization

3

Optional drawer compartment accessory

Advantage: Helps to organize tools, equipment's and components

Benefit: Better organization, Faster retrieval

4

Heavy duty slides

Advantage: Requires minimum force, Ideal for harsh environment

Benefit: Extends life span of the drawer's

5

Ergonomic handle for drawer and mobility

Advantage: An ergonomic handle will reduce the likelihood of injuries, easy push and pull movement of cabinet

Benefit: Improve safety, Provide ergonomic , Reduce workers fatigue

6

Locking options available for cabinet/drawer

Advantage: Provides security for equipment, tools and components

Benefit: Reduces loss/misplacement risk

7

Powder coated finish (with color options)

Advantage: Protects the product from corrosion and abrasion

Benefit: Increase longevity and product life, Resist discoloration, Asthetically appealing workspace

Note - For more configuration features please view - [Configurable catalog](#).
