INTRODUCTION

Get your OEM DPF gaskets and clamps at aftermarket prices.

Graphfor are the original manufacturer of DPF gaskets for leading OEM automotive brands. OEM brands sell their products to the aftermarket with a huge percentage on top, making you pay more than necessary for replacement parts.

By cutting out the middle man, you can get the same parts for the same price that the brands have paid themselves. With assurance that the parts that we supply are the OEM products, you don't need to worry about quality, longevity and fit.

Don't worry about minimum order quantities. Whether you need one part or hundreds, Graphfor is willing to help. We ship globally and stock parts for both the European and American markets.

Have you been struggling to find the part that you need?

Even if we aren't the original manufacturer of the part that you're looking for, with our in-house team of engineers and tooling capabilities, we are able to replicate any part to precision through our reverse engineering service. Using either product dimensions, or a sample product if you have one available, we can design and manufacture products to meet the exact OEM specifications.
