Accuracy and Style – For Business Growth

Buying a new bathroom scale can be surprisingly confusing to your customers. This is not a “one size fits all” category. With so many types, styles and colors to choose from, Taylor will provide not only the right assortment but also the category knowledge and experience customized for an assortment.

WHY TAYLOR ?

- Taylor established in 1851 still stands today for strong brands, high quality, and dedication to innovating both the professional and consumer markets
- USA Based: In house design, marketing, engineering, and customer service teams
- Breadth of assortment in function, materials and finishes
- Category management focused

SPECIALTY SCALES

Body Composition Scales

Body composition scales utilize the science of Bio-electrical Impedance Analysis (BIA) combined with the individual's user profile to estimate body composition measurements. Making them personalized tools for managing one's health and wellness; they can also be used for simple weight only readings. Taylor offers a wide variety of styles and features to support your category, and fill consumer needs.

Body Composition Scales
