FROM OUR BUTCHERS' HANDS TO YOUR KITCHEN.

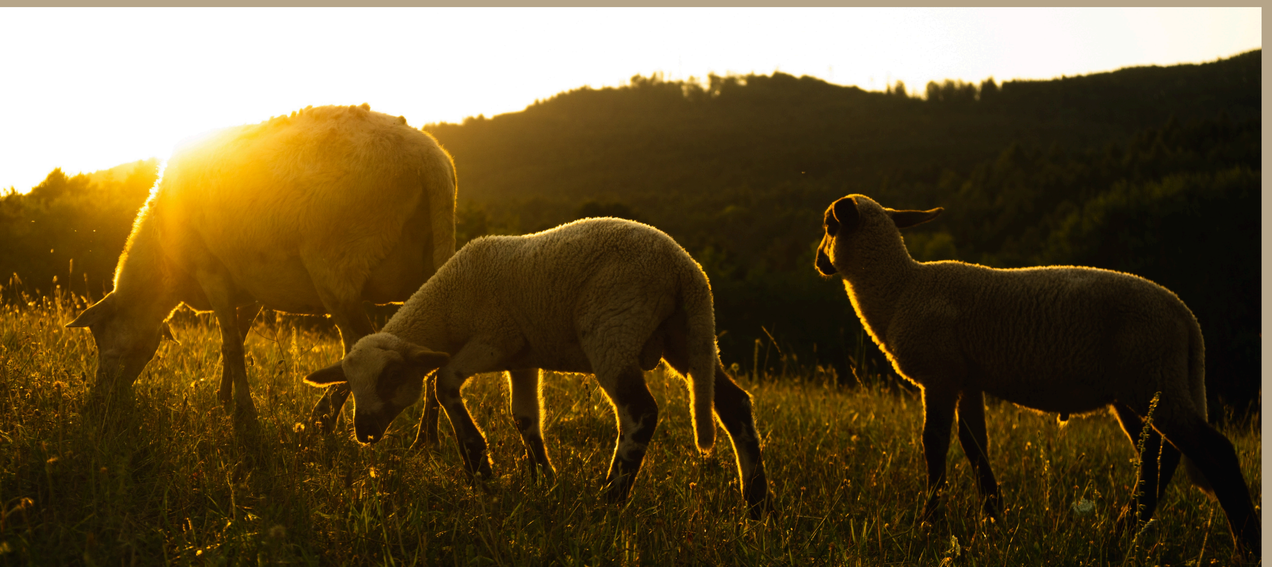

British Chicken from East Anglian Farms

We're proud to source our chicken from Red Tractor assured and trusted farms across Norfolk, Suffolk and Essex when possible to bring quality British poultry to our customers. The farms we work with operate to recognised standards covering animal welfare, food safety, traceability and responsible farming practices. We are committed to offering a strong selection of British-sourced poultry and supporting local and regional farming wherever possible.

British Beef from the Rose Counties

All of our beef is British, grass-fed and Red Tractor assured, sourced from trusted farms across Lancashire and Yorkshire. These regions have a long-standing reputation for livestock farming, with a strong tradition of producing quality British beef. By sourcing from these areas, we can offer our customers beef with clear provenance and traceability, while supporting British farming and the high standards behind the meat we supply.

From Our Shores & Beyond

While British sourcing is paramount to us, we also select products from further afield to offer the quality, consistency and choice our customers need. To compliment our British lamb range, we also procure a small selection of quality lamb from New Zealand. Both Britain and New Zealand are renowned for producing high-quality lamb thanks to abundant grasslands and ideal farming conditions. The result is naturally flavourful lamb with excellent eating quality.

INSIDE OUR HIMALAYAN SALT CHAMBER

Experience beautifully aged steaks and more with our signature Himalayan Salt-aged method. The meat is aged in our Himalayan Salt Chamber which means it develops a remarkable depth of flavour and a melting tenderness. The chamber itself features an entire wall of natural Himalayan salt bricks that regulate the atmosphere and slowly enhance the richness and texture of each cut.
