Why it Works...

High Quality

Breathtaking visuals **available in 4K**.

Award-Winning

German Film Award Biodiversity in 2025.

Great Production

Award-winning, Emmy-nominated filmmakers capture the first footage ever of an orangutan mother with twins.

High Quality

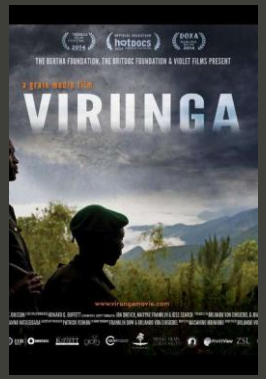

"In spectacular images, viewers experience orangutans closer than ever before. Modern drone technology makes it possible to dive deep into the forest canopy."

OTS (Austrian Press Agency)

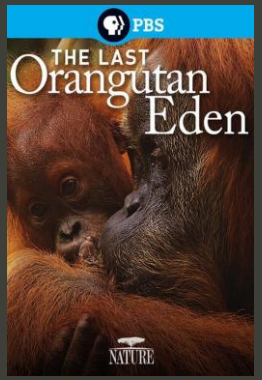

Comparables

Netflix

Netflix

National Geographic

Disneynature

Arte

Series Synopsis

Orangutans are on the brink – but how do they really live in the wild?

For the first time, their complex behavior has been captured in detail. A mother with twins, tool use in the treetops, rare and remarkable moments that reveal just how adaptable these “people of the forest” truly are.

Is there still hope for Asia’s last great apes?
