Camden

At home with Camden

Windows & Doors Collection

More care. More comfort. More to love.

Home feels better when the details are right: Windows that welcome the daylight and help keep the warmth indoors. Doors that look the part and close securely behind you.

Whether you love traditional character or a contemporary finish, you can create the look you want with quality you can feel confident in.

We've been making our own frames and glass since 1983, giving us greater control over the details that make your windows and doors look good and perform every day.

Why choose Camden windows and doors?

Made Locally
Manufactured for the places people call home.

Energy Efficient
A-rated performance helps reduce heat loss and keep your home warmer.

Secure by Design
High-performance products designed to help keep your home safe and secure.

Built to Last
Quality materials and manufacturing designed for long-term performance.

A Choice of Colours
A wide range of colours and finishes to complement your home.

15-Year Guarantee
Long-term confidence in the quality and performance of your windows and doors.

Made with Recycled Materials
Up to 80% recycled content, helping to reduce the environmental impact of your home improvements.

Comfortable All Year Round
High-performance windows and doors help reduce draughts and improve comfort.

Quality You Can See
Carefully manufactured windows and doors designed to look as good as they perform.

I chose a Camden door for our home extension because I trusted the brand and admired its commitment to sustainability. The wide range of styles and colours meant I could make a sustainable choice without compromising on appearance.
- Mrs Forde, Northern Ireland

Love your home. Feel the difference.

Your home is personal. The right windows and doors transform the way it looks, feels and functions - creating a space that feels warmer, quieter, safer and simply more comfortable.

With Camden, beautiful design meets lasting performance. Choose from a wide range of window styles, door designs, colours, glazing and hardware to create a look that feels right for your home.

SBD
Police Preferred Specification

Made for comfort
Energy-efficient frames and double or triple glazing help reduce heat loss, keeping warmth where you want it and helping your home feel more comfortable.

Made for peace of mind
Multi-point locking helps secure your windows and doors at several points, while internally glazed windows provide added protection.

Made for quieter moments
The right glazing can help soften outside noise, giving you a little more peace and quiet when you're at home.

Made for everyday living
Easy-care uPVC frames make maintenance simple, while seals and drainage channels help protect against the elements.

Beautifully made
for your home.
Designed to make you
love being at home.

Camden
window range

Frame your home. Beautifully.

Bring out your home's character and welcome daylight into your rooms. Choose the window style you love, with opening options that make everyday living easier.

Performance & efficiency

Your windows play an important role in making your house feel like home, bringing in natural light while helping keep you warm, comfortable and secure.

Camden windows combine quality materials and thoughtful design to help reduce heat loss, protect against the elements and improve energy efficiency. From the construction of the frame to the finishing details, every element is designed to deliver lasting performance and peace of mind for years to come.

Triple Glazing
Three panes of glass create an insulating barrier that helps reduce heat loss. Enjoy warmer, more energy-efficient home.

Internal Glazing Seal
Forms a tight seal around the glass to help prevent draughts and unwanted moisture. Maintain a comfortable indoor environment.

Integrated Drainage
Built-in channels direct rainwater away from the frame. Protect your window from water build-up.

Secure Glazing Bead
Holds the glass securely in place while allowing it to be removed when required. Secure glazing with practical maintenance.

Weatherproof Gasket
Creates a secure seal between the opening sash and the frame, helping prevent draughts and water ingress. Keep the elements outside.

Reinforced Frame
Internal steel reinforcement adds strength and rigidity to the uPVC profile. Built for strength and stability.

Multiple Chamber Design
Multiple internal chambers trap pockets of air,helping slow heat transfer through the frame. Better insulation and improved energy efficiency.

Safety & security

Feeling safe and secure in your home starts with windows you can rely on. Camden windows combine robust locking systems, durable hardware and carefully designed safety features to help protect what matters most.

From multi-point locking to optional security upgrades and safety restrictors, every detail is designed to provide added reassurance, so you can enjoy comfort and peace of mind every day.

Feel secure, day and night

Espagnolette locking engages at multiple points around the window, helping hold the sash securely closed and giving you greater peace of mind.

Strong support, smooth operation

Heavy-duty hinges are designed to support the window sash and provide reliable everyday opening and closing, including on heavier glazing.

Added protection where it matters

The optional Triple Strap Locking (TSL) system adds further locking points to help reinforce the window against forced entry.

Fresh air, with added reassurance

Safety hinges with restrictors limit how far a window can open, helping reduce the risk of falls while allowing ventilation. Suitability depends on the window and installation.

Love the character. Enjoy the ease.

A flush exterior and timber-inspired detailing give your windows a clean, considered finish. Enjoy traditional character with the straightforward care of modern uPVC.

Beautifully suited to period-style homes, and equally at ease in a contemporary setting.

Refer to page 28 for full colour options

Flush Sash

A familiar favourite. Made for your home.

Casement windows work beautifully in traditional and contemporary homes. Choose opening arrangements to suit each room, bringing together the look you love with the daylight and ventilation you need.

Refer to page 28 for full colour options

Casement

Open up to something lovely.

Paired windows bring a classic, balanced appearance to wider openings. Open both sashes to welcome fresh air, and enjoy a distinctive style that complements your home's character.

Refer to page 28 for full colour options

A little tilt. A clever turn.

Tilt for ventilation or open inwards for easier cleaning access. Two ways to open make everyday living simpler, particularly in upstairs rooms where the outside glass is harder to reach.

Refer to page 28 for full colour options

Beautifully out of the ordinary.

An arch above the entrance. An angle beneath the roofline. Made-to-measure shapes turn unusual openings into features you'll love, complementing the architecture that makes your home yours.

Refer to page 28 for full colour options

Camden
door range

Good days start at your door

Whether you want a warm welcome when you get back or a little more garden when the sun comes out, Camden doors bring good looks and everyday practicality to every entrance, with styles and finishes that feel like you.

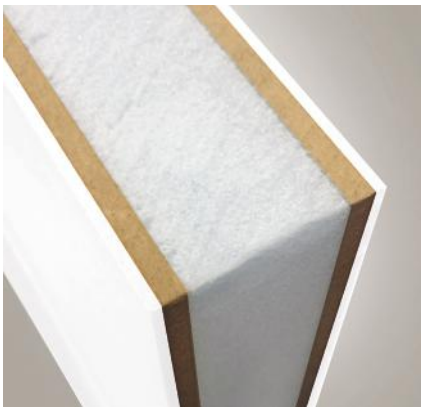

80% Recycled Material | 'A' Energy Rating | 0.8 W/m²K U-Values | Colour Range

Performance & efficiency

Every Camden door is designed to stand up to everyday life and the changing seasons. Made with durable materials and carefully engineered components, our doors are built to maintain their appearance, provide lasting performance and help protect your home from the elements.

Behind the finish is a smart construction system, combining multi-chamber frames, insulated cores and quality weather seals to help reduce heat loss, resist the weather and keep your home comfortable year after year.

Strength, comfort and efficiency

Built with a durable solid foam core and tough outer skins, our doors offer lasting strength and stability while helping to reduce heat loss and keep your home warmer and more comfortable.

Ready for every season

Weather-resistant uPVC outer skins and quality rain deflectors help protect against wind and rain, keeping your entrance weather-tight.

Light, warmth and style

Optional 40mm double or triple glazing can combine thermal performance with natural light and attractive design, with selected options also helping reduce outside noise.

Strength & security

Your front door is more than an entrance - it's an important part of making your home feel safe and secure. Camden doors combine robust construction with advanced multi-point locking systems to help protect the people and belongings that matter most.

With options including hook locks, reinforced door frames and Secured by Design (SBD)-approved specifications, you can choose a door that brings together dependable security, everyday practicality and peace of mind.

Security from every angle

Multi-point locking secures the door at several points along the frame, helping keep your home protected and your door firmly closed.

Extra strength where it counts

An optional hook lock engages with the reinforced door frame to provide additional resistance against forced entry.

Reliable, smooth operation

High-performance flag hinges support the door and allow adjustment to help maintain alignment, smooth operation and a quality finish.

Open wide.
Let the day in.

Classic paired doors create a generous opening between home and garden.

Throw them open on warmer days, or enjoy the daylight and view from the comfort of indoors. A beautifully balanced choice for your home.

French

Feel good about your choice

For more than 40 years, Camden has been making windows and doors for the places people call home. From individual home improvements to new-build developments, our products are trusted by homeowners and builders alike.

Your installer chooses Camden because they know they can rely on the quality, performance and service behind our products - giving you confidence that your windows and doors are made with care and built to last.

I purchased a Camden cream front door with sidelights and living windows. I loved the style and natural light the sidelights brought into my hallway. Locally manufactured, performance, security and a 15-year guarantee gave me real peace of mind.
