#### **12 INSPECTION OF LOTS**

Unless a Warranty is specifically given for a Lot and announced by the Auctioneer at the time of the Sale all Lots are sold with all faults and imperfections and errors of description. An intending Purchaser should satisfy himself, by inspection of the Lot prior to the Sale, as to its condition and should exercise and rely upon his own judgment as to whether the Lot accords with its description. Neither the Auctioneer, his employees or contractors are responsible for errors of description or for the correctness or authenticity of any Lot. Unless otherwise specifically stated by the Auctioneer at the time of Sale no Warranty is given or shall be implied by the Auctioneer, his employees or contractors nor by any Vendor to any Purchaser in respect of any Lot. If any Lot is described by the Vendor as in "working order" such Lot shall be free of any defect which renders it incapable of the reasonable work for which it is intended and it must be capable of performing such work. Any Lot described by the Vendor as "just overhauled" or "straight from work", or "worked up to the date of the Sale", or "as new", or any other description calculated to influence an intending Purchaser shall be deemed to be sold with a Warranty that such a Lot is in "working order" as described in Condition Electrical Lots which by statute require an electrician's safety certificate shall not be accepted as an entry for a Sale unless accompanied by such a valid certificate; however, if the Auctioneer in his discretion conditionally accepts such a Lot which is not accompanied by a valid certificate, it shall be lawful for the Auctioneer to remove its lead or plug and sell that Lot as scrap without further consultation with the Vendor.

#### **13 COMPLAINTS PROCEDURE**

If any Purchaser shall dispute the accuracy of any description or shall make a claim for Breach of Warranty he shall notify the Auctioneer as soon as is practicable after the Sale but in any event no later than midday on the third Working Day after taking physical possession of the Lot and shall at his own expense return such Lot together with a competent engineer's report setting out the full details of the alleged complaint to the Auctioneer's office not later than four days following the date of notification of the complaint to the Auctioneer. On receipt of such notification of a complaint the Auctioneer shall immediately notify the Vendor in writing of the complaint and of its nature.

#### **14 RETURN OF LOTS**

If the sale of any Lot is rescinded under these Conditions and the Purchaser has incurred any transport costs in connection with the Lot or has incurred expense in connection with a relevant engineer's report, the Vendor shall reimburse the reasonable costs of obtaining them to the Purchaser. If any Lot is returned by the Purchaser to the Sale Premises or to the Auctioneer's office (as the Auctioneer shall instruct) and neither the Vendor nor the Purchaser removes the Lot within seven days after written notice from the Auctioneer to do so, the Auctioneer may re-sell the Lot by Public Auction, Online Auction or Private Treaty without Warranty or reserve, and without further notice to the Vendor or the Purchaser.

#### **15 REMOVAL OF LOTS FROM THE SALE PREMISES**

The Purchaser shall remove the Lot he has purchased from the Sale Premises following payment in full to the Auctioneer but only after the Auctioneer has issued him with a written pass and then at his own expense and within such reasonable time after the End of the Day's Sale as the Auctioneer may direct. No Lot whether sold or unsold shall be removed from the Sale Premises unless a written pass has been issued by the Auctioneer to the person making the removal and the written pass has been checked at the point of removal by a representative of the Auctioneer. Unless otherwise agreed in writing with the Auctioneer all Lots must be removed from the Sale Premises within such period as may be stipulated by the Auctioneer failing which the Auctioneer shall have the right without further recourse to the owner of the Lot to enter the Lot and to sell it without Reserve Price in any future Sale. The Auctioneer may require any Vendor to remove any Lot from the Sale Premises without giving a reason and if the Vendor fails to do so, the Auctioneer may himself remove the Lot and may recover the reasonable costs of doing so from the Vendor.
