P.C.D.S. CELEBRATES 20TH ANNIVERSARY

The 20th Anniversary year of PCDS was inaugurated at the 1981 Arizona Dinner Meeting of the Newcomen Society in North America. The evening's festivities were co-sponsored by PCDS and the Newcomen Society an organization with the purpose of studying and publicizing business and institutional history and achievement. Guests included PCDS parents, alumni, trustees, faculty, and Phoenix business leaders. The Reverend Mr. James C. Roof, former Dean of Faculty at PCDS gave the invocation. The guest of Honor and Speaker for the evening was Dr. Joel Monell.

Mrs. Peter S. Firestone and Mrs. John I. Yellott.

Speakers for the evening were:
Dr. Joel Monell, Mr. John I. Yellott, and Mr. Charles Penrose.

Mrs. Peter Wray was also present at the 20th Anniversary Dinner.

CONSTRUCTION BEGINS ON PETER S. FIRESTONE UPPER SCHOOL COMPLEX

At a special meeting of the Business and Finance as well as the Buildings and Grounds Committees held last June, unanimous approval was given to begin construction on the Peter S. Firestone Upper School Complex.

The Upper School complex will contain eight classrooms, a lecture hall, two art rooms, the Douglas A. Bean Mathematics and Computer Center, a conference room, and faculty offices. These will be housed in four separate wings, all facing a central quadrangle.

Construction is scheduled to be completed in the spring. Occupancy is slated for September, 1982. There will be two memorial plaques prominently located in the complex. One will list all donors to the Peter S. Firestone Memorial Fund. The other will name individuals and foundations having made donations of \$25,000 or more for the construction of the complex.

HEADMASTER'S MESSAGE

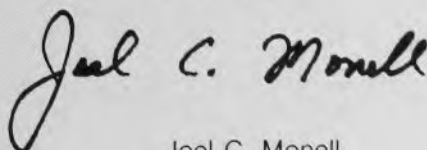

To The Class of 1982:

The 1981-1982 school year marks the 20th Anniversary of Phoenix Country Day School. In September, the school was honored by the Newcomen Society of North America for its accomplishments during the past twenty years. These accomplishments have been significant — a growth rate from 93-470 students, grade expansion from 3-9 to our present K-12, and the many new facilities necessary to house this increasing population. More important than these favorable statistics, however, are those who made them possible. As students, your contributions have been vital to our success.

Some of you have been here for thirteen years, others for only one or two. Just as growth and change play a key role in P.C.D.S. accomplishments, so do tradition and stability. Regardless of the length of your time with us, I'm sure you have all benefited from P.C.D.S.'s traditional emphasis on the five basic academic disciplines, small classes, personal attention, and excellent teaching. These qualities have not changed in twenty years and will continue to characterize the school in the future. If past experiences of P.C.D.S. graduates are any guide, they will stand you in good stead throughout your careers.

Each of you will leave with a strong sense of the P.C.D.S. Community. Though you will graduate without occupying the new Peter S. Firestone Memorial Upper School complex, I hope that you will come back and see it next year. And in the next twenty years, I hope you will become active members of our alumni group. It is, after all, the combined effects of the continuity and change that have made our history worthy of celebration.

Good Luck!

A handwritten signature in cursive script that reads "Joel C. Monell". The signature is written in dark ink and is positioned above the printed name and title.

CARNIVAL 81'

The school grounds were crowded with families enjoying eating cotton candy, popcorn, and other "fair" food, while playing electronic games, testing their strength on the High Striker, and trying their skill on cork gun alley. Baseball pitching hopefuls enjoyed the sponge throw and the dunking booth. Such P.C.D.S. celebrities as Dr. Monell, Dr. Adank, George Baker, Chuck Toll, and Dave Raymond paid the price after every direct hit.

Younger children frequented the Mash Tent, Space Walk, sandpainting booth, and pony rides. For the more adventurous, the Hot Air Balloon ride was a favorite. Inside Burch Hall, parents could buy items at the Gourmet Booth, Used book sale, the Boutique, and the plant sale.

THE UPPER SCHOOL

P.C.D.S. WELCOMES NEW UPPER SCHOOL DEAN

Mr. Chuck Toll

The excitement my family and I have felt about PCDS began during a typical New England spring mud season as we anticipated our western move. It grew during a summer trek which, though it contained no tornadoes or buffalo stampedes, still amply justified the trucking company's slogan, "Adventure in Moving". Since our arrival the excitement has only increased: meeting new colleagues, whose friendliness has made easier the separation from good friends and family; working with lively students and their interested, involved parents; learning about the schools background and contemplating its future. Despite several eastern acquaintances' **sotto voce** muttering about the rigors of southwestern life, we have found the region's temperature swings, dust storms, floods, and other exotic features stimulating. We have also begun to explore the state's rich historical and prehistorical legacy. It's great to be here!

I Love You
MOM and DAD

Within

Within the field, bright and gold,
I will hear your old story told.
Within the churchyard I stand within,
I will forget all our sin.
And deep in the night, deep in my sleep,
My memories will seep back in.
And when I walk in the deep forest,
Though you will be far in my past
I will still recall and call for you.
And I will reach out to you,
My dearest, dear friend
We are together forever in each ones mind.
We promise this to each other.

Robin H. Friedman

If you can trust yourself though others doubt you
And conquer fears that limit what you dare
So you can freely give to those about you
The skills and talents that are yours to share

If you can live not for your pleasure only,
But gladly lend your gentleness and grace
To warm the hearts of those whose lives are lonely
And help to make the world a better place.

If you can balance dreams with practicality
And deal infacts, but never lose ideals,
If you can face the harshness of reality,
And find the truths that prejudice conceals;

If you can be courageous when defeated
And humble in the face of victory,
Or give your best until a task's completed,
However difficult that task may be;

If you can temper facts with understanding
And seek to gently guide, not to control,
And neither be too lax nor too demanding,
But keep in mind the worth of every soul.

If you can strive, not caring who gets credit,
And work at building bridges, not walls
Or hearing idle slander, just forget it,
And never fail to help someone that falls;

If you can give your help without begrudging
The patience, time and effort you impart,
Or look at others' weakness without judging
And see, not with your eyes but with your heart;

If you can take resources that surround you
And use them in the way you feel you should,
You'll be a person . . . and all those around you
Will be the richer for your humanity!

SOLITUDE

To wander off along some tinkling rill
And lie in grass beside the daffodil,
Or sprawling in the clover, where the bee
Hums on his round of ceaseless revelry,
To gaze off into depths of summer blue
Where not a single cloud floats on the view,

To track the forest when the billowy breeze
Flows outward over bending tops of trees,
While shadowy clouds like noiseless couriers run
To catch the glory of the setting sun,

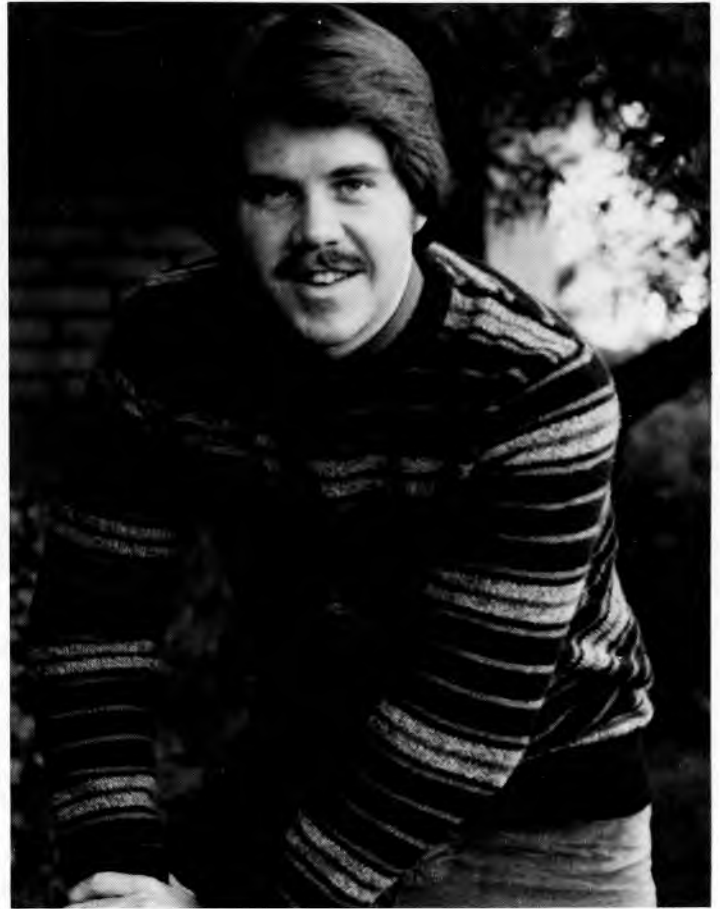

To gaze down on some rock-bound mountain pool
Whose placid bosom seems as pure and cool
And deep as Heaven above it: and whose share,
Which immemorial ages have pass'd o'er,
Remains untrodden still, as when at first
From out the dark abysm of the earth it burst,
Seeming that God to Earth an eye had given
Wherewith to gaze forever into Heaven,
While all things round about it sit and brood
In death-like silence;-This is Solitude.
February, 1886. John Brognard Okie

 I'll be a baker and run a bakery shop.
 I'll bake cookies and never-ever stop.

 Have a layer cake instead!
 Have a chocolate cooky spread

 and put in raisins that maybe don't
 belong.

CANDIDS

MUSIC DEPARTMENT

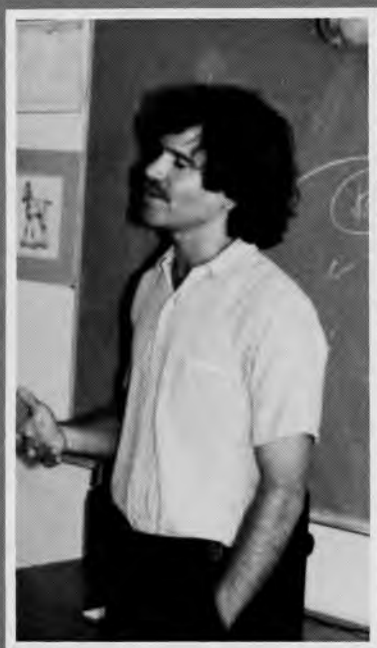

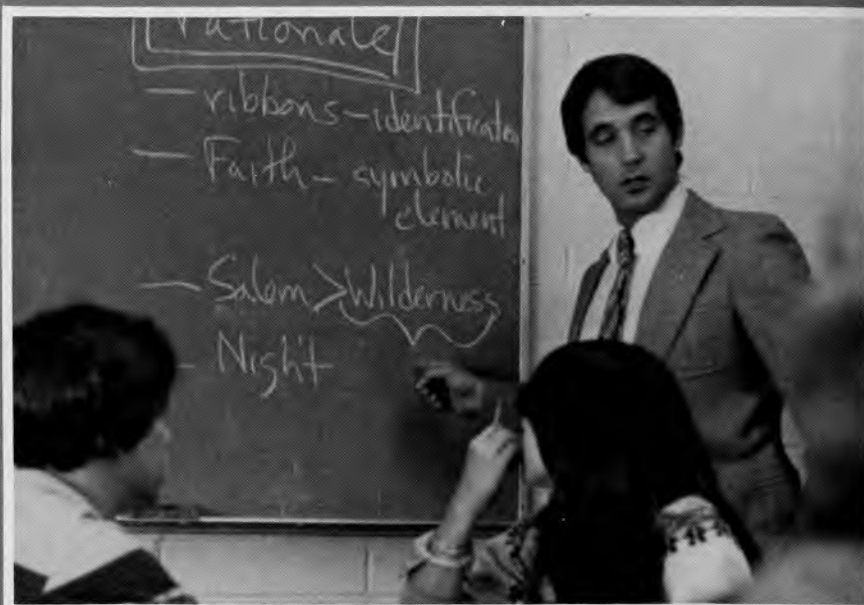

The Music Department at P.C.D.S. offers many opportunities for students to explore the wonders of music and the joy of performing it. Performing groups offered during the 81-82 school year consisted of strings, guitar, and Jazz Ensemble. Special events groups participated in are: Upper School Jazz Ensembles in Flagstaff, Connecticut, New York, Philadelphia, and Washington D.C. Students also participated in Solo and Ensemble festivals, Regional All-State, and All-State competitions.

DEPARTMENT OF ENGLISH

The English Department has designed its Upper School curriculum to train students not only to read and write, but also to think.

Throughout the program, but with increased emphasis in the third and fourth years, the English Department stresses the humane aspects of its curriculum. That is, we view the teaching of English as a process to help students see the humane unity of apparently separate fields of study.

FOREIGN LANGUAGE

The Department of Foreign Languages at Phoenix Country Day School offers the only sequential language programs from grade one through twelve in the state of Arizona. Languages taught are: French, Latin, and Spanish. The latter is first presented in Kindergarten and continues through the senior year of high school.

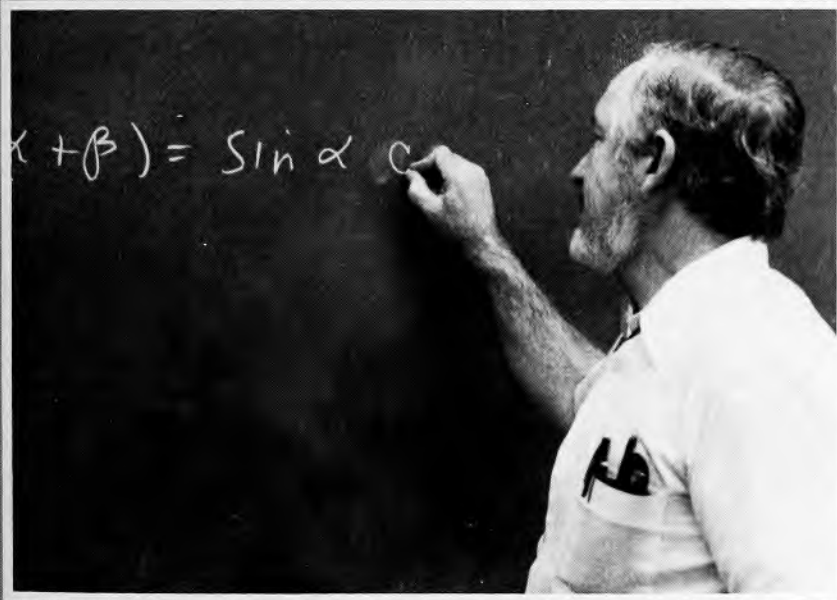

SOCIAL STUDIES

The History/Social Studies department offers a challenging curriculum of required and elective courses in History and the Social Sciences in a variety of modes; Independent Study, Spanish, and interdisciplinary.

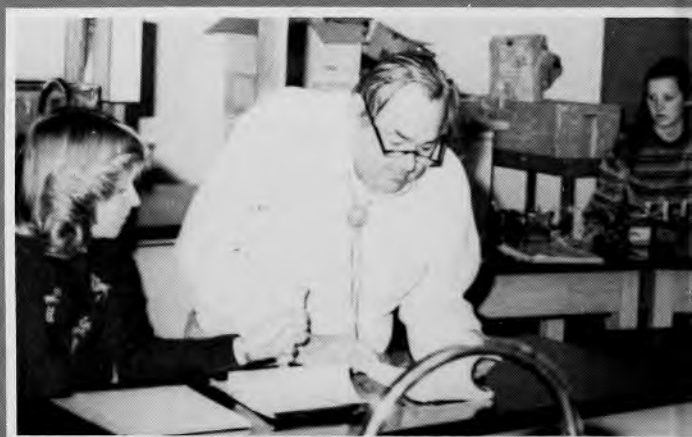

MATH DEPARTMENT

The P.C.D.S. Mathematics Department offers the student the opportunity for extensive study in pre-college mathematics. Courses in the regular sequence range from Algebra I to two years in the study of the Calculus. Electives in computer science include programming courses in the BASIC, Pascal, and Cobol languages.

SCIENCE DEPARTMENT

"The work of science is not to produce some day a finished book, but to carry investigation and imagination on into fields whose importance and interest had not been realized before." HPP. The Science Department at P.C.D.S. strives to begin that investigation and to spark that imagination. Discussions, experiments, and demonstrations provide the means by which students explore areas from Astronomy to Zoology, atoms to zygotes, the action-reaction principle to the Zeeman Effect. The faculty present courses in a humanistic way showing that science does not exist in a void but rather is one important segment in Man's quest to understand himself and in his universe.
