OPTIMAL RADIANT HEATING EFFECT

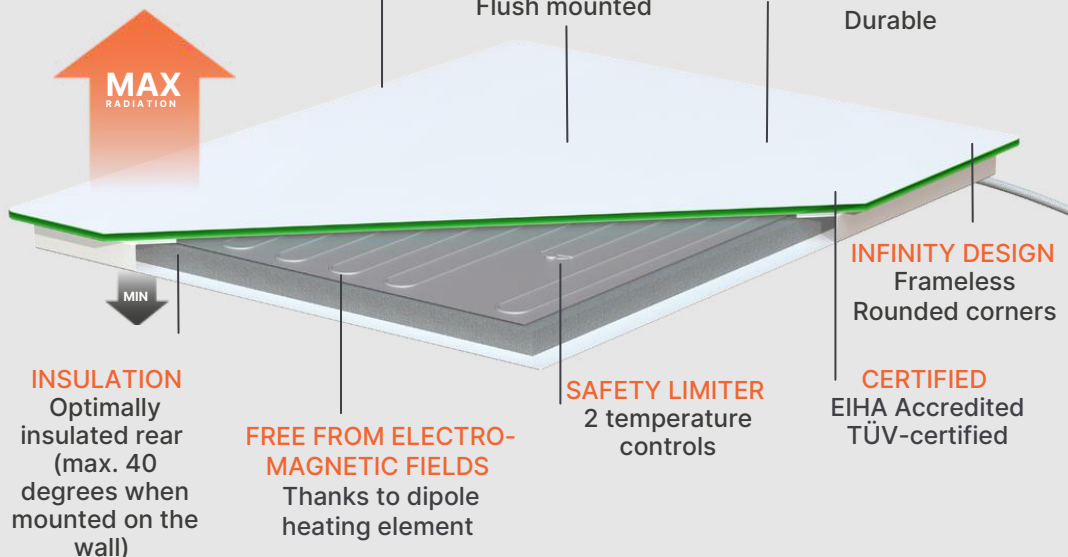

No radiation asymmetry thanks to large radiation surfaces
Even surface temperature

MAXIMUM FLEXIBILITY

Wall mounted
Ceiling mounted
Flush mounted

OPTIMAL PROTECTION

Impact-resistant
Washable
Durable

INSULATION

Optimally insulated rear (max. 40 degrees when mounted on the wall)

FREE FROM ELECTRO-MAGNETIC FIELDS

Thanks to dipole heating element

SAFETY LIMITER

2 temperature controls

INFINITY DESIGN

Frameless
Rounded corners

CERTIFIED

EIHA Accredited
TÜV-certified

LAVA BASIC 3.0 Series Awarded Certification by the EIHA

LAVA Basic 3.0 Series is among the very first infrared panels in Europe to receive the EIHA Quality Label. This confirms not only its outstanding performance, but also its full compliance with current European regulations and sustainability goals.
