ABOUT US

Connecting India's Heritage with the World

Founded in 2026, Adhiraj Impex is an India-based sourcing and export company focused on bringing authentic Indian handicrafts, GI-tagged products and unique handmade products to international markets. We work with trusted artisans and manufacturers across India.

Our aim is simple: to make it easier for international buyers to discover, source and buy genuine Indian products directly from trusted suppliers. We specialise in Kolhapuri chappal, Blue Pottery, Wooden Artware, Candle Stands, Hanging Lamps and more.

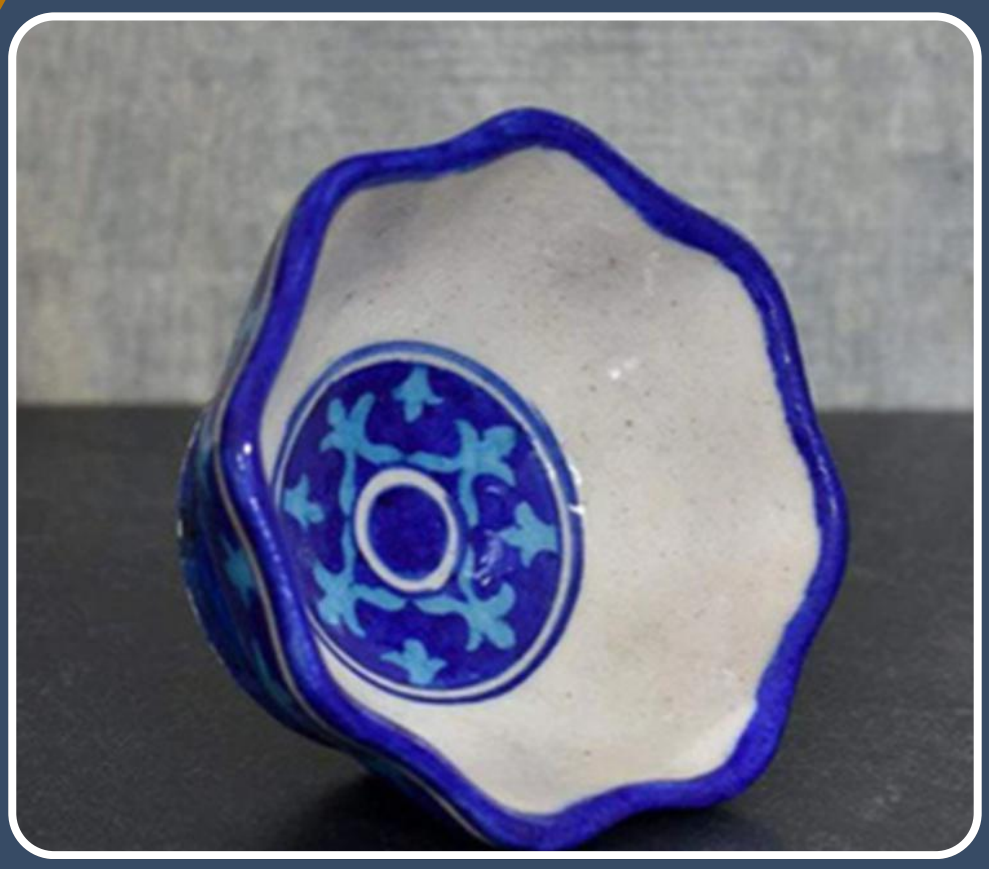

Our role is to connect these rich traditions with global buyers while maintaining authenticity, quality and reliability throughout the sourcing process. We carefully collaborate with skilled artisans, established manufacturers and reliable suppliers who share our commitment to craftsmanship and quality.

Our product range reflects the diverse cultural heritage of India, combining traditional craftsmanship with designs and quality standards suitable for international markets. Whether you are looking for handcrafted footwear, decorative homeware, traditional pottery, wooden products or distinctive lifestyle items, we strive to provide products that offer both cultural value and commercial potential.

We understand that international sourcing requires more than simply finding products. Buyers need consistent quality, transparent communication, dependable supply and professional support. That is why we focus on building long-term relationships with our clients and suppliers based on trust, integrity and mutual growth.
