How to create a stunning Christmas garland display

This year, make your own showstopping garland to hang above your mantelpiece, stairway or door. Layered with seasonal foliage, sparkling lights and statement decorations, your garland will add warmth to your home this Christmas. For inspiration – visit the Wreath Station at your local Dobbies.

STEP 1

Start with a Royal Fir garland (£9.99) as your base. Fluff out the branches to create a full, natural-looking structure ready for decorating. You can use more than one garland for added length and impact.

STEP 2

Weave wire lights evenly throughout the garland to add a warm, festive glow. For a more dramatic display, link two or three garlands together to create extra length and impact.

STEP 3

Add faux stems throughout the garland to build texture and depth. Poinsettias, berries and hydrangeas work beautifully together to create a luxuriously festive look.

STEP 4

Secure light gold baubles in groups of three to five, mixing sizes for added interest. Concentrate more baubles towards the centre of the garland to create a striking focal point.

STEP 5

Thread ribbon through the inner sections of the garland, allowing it to drape elegantly down the mantelpiece.

STEP 6

Finish by adding fresh eucalyptus stems along the top and sides to soften the shape and break up harsh lines.

Now light the fire, switch on the Christmas lights and enjoy your beautiful Christmas garland!

Create a magical Christmas village wonderland

Bring the magic of a Christmas village home with a timeless Lemax display. Positioned on a windowsill, console table or sideboard, your festive scene will sparkle throughout the season.

Start by choosing your favourite Lemax buildings and characters, then build your own miniature winter village using My Village accessories such as snow blankets, moss, pebbles and trees for depth. Add mountain scenes, winding pathways and snowy landscapes to bring the display to life.

As the night draws in, the twinkle from your Lemax village will create a warm festive glow and is the perfect winter wonderland to add festive charm to your home.

Our gingerbread house kits make it easy to create your own festive masterpiece. Complete with biscuits and icing, you can use yours to construct a Christmas centrepiece, or decorate with icing patterns and ribbons for the perfect decoration to hang on your potted tree.
