Extra-height Steel Buildings

Irish family business since 1983 | Manufactured in Kilbeggan | CE-certified steel framework | Nationwide installation

Whether you need secure storage for a campervan, machinery, vehicles, stock or equipment, Shanette's extra-height steel buildings provide a durable, reliable solution tailored to your needs. Prefabricated at our Kilbeggan facility using CE-certified steel frameworks, our buildings are designed for long-term performance and efficient on-site installation.

Choose the range that suits your needs.

Standard Range

25mm Insulated roof and non-insulated walls

Includes:

- Single-skin Vertical Box Profile wall panels
- 25mm insulated roof to help reduce condensation

COMPOSITE WALL PANEL

Our Superior Range features high-quality insulated composite panels in both the roof and walls, available in a choice of thicknesses, colours and exterior finishes.

Each panel consists of three bonded layers: a durable, coated steel exterior, an insulating foam core and a smooth white metal interior finish.

This construction provides excellent thermal insulation, strength and durability.

All buildings are manufactured using Shanette's heavy-duty, fully galvanised CE-certified steel framework, designed for strength and long-term performance.
