Louisiana Region

FIRM OVERVIEW

ABOUT US

McKim & Creed is an employee-owned engineering and surveying firm dedicated to solving complex infrastructure challenges. By integrating national expertise with local insights, the firm delivers innovative solutions that benefit clients and communities. Their technical specialties encompass civil, environmental, mechanical, electrical, plumbing, structural, and stormwater engineering; industrial design-build services; airborne and mobile LiDAR/scanning; unmanned aerial systems; subsurface utility engineering; and hydrographic and conventional surveying services across the energy, transportation, federal, land development, water, and building markets.

GRANT FUNDING

McKim & Creed helps clients secure funding for a wide array of infrastructure projects, guiding them from opportunity identification through award. We have deep experience navigating federal, state, and local programs. Our team manages complex application processes, ensuring compliance while strengthening each submission to maximize funding potential. From energy resilience efforts in Louisiana to broader system modernization and safety upgrades, we've helped utilities and municipalities access critical resources to move projects forward.

MCKIM & CREED, INC. FUNDING ASSISTANCE SUMMARY

SECURED FUNDING: UTILITIES	\$60,100,000.00
--------------------------------------	-----------------

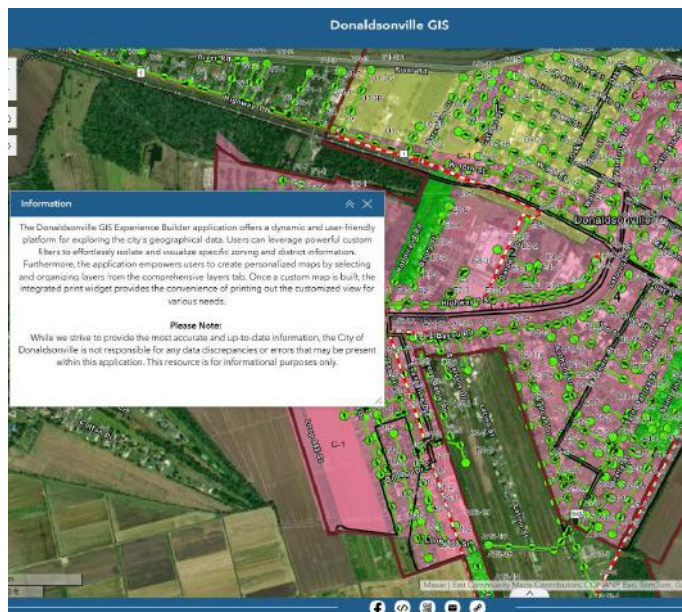

SECURED FUNDING: FLOOD CONTROL	\$88,040,436.55
--	-----------------

SECURED FUNDING: TRANSPORTATION	\$250,000.00
---	--------------

PENDING FUNDING	\$127,918,844.38
------------------------	------------------

INNOVATION IN ACTION:

Our team uses many resources and programs to ensure that our clients receive the most useful information for tracking the long-term efficiencies of their infrastructure systems. We build GIS portals indicating the system's assets which allows the client to be aware of the location of projects.

PROJECT DEVELOPMENT SERVICES:

McKim & Creed assists many clients with project development services. These services take a project from inception through funding and construction and are instrumental in the overall successful development of a community.
