0 77784 04647 0

- Uses natural and artificial light for power
- No batteries
- 10% coffee husk blend material
- Add and weigh tare function

By using recycled materials, like coffee husks salvaged before entering the landfills, we're turning waste into opportunity. We are helping to protect ecosystems, reduce environmental impact, and drive the transition to a circular economy.

NEW

NO BATTERIES REQUIRED!

The inset solar panel offers a clean, renewable energy source that eliminates the need for disposable batteries and lowering the environmental impact by naturally recharging with any light source – both natural and artificial.
